8 The fees for each term are to be paid in one instalment Except in the case of new students the fees for Summer term are due on the 15th June and those for the Winter term on the 1st November and must be paid on those dates or on such subsequent dates as the Principal may direct, after which a duly fine of annas 4 will be levied along with the fee in each case of default

9 All Regular students must pay an annual fee of Re 1 to the Medical College Athletic Club along with the fees for the Summer term

10 Muhammadan students are required to pay the entrance fee of Rs 20 and half the annual College fee in two instalments the remaining half fees being charged to the Mohsin Fund

11 Students relegated to a further course of study after their failure at the Preliminary Scientific M B and at the First M B Examinations shall pay Rs 80 for the whole session in one instalment by the 1st June

12 Students taking up subjects outside the curriculum of the year in which they are studying shall pay Rs 30 for each such subject including lectures and practical classes

13 The fees for Casual students or for Certificates issued to Regular students leaving the College before completing their study or for those issued to Military students shall be Rs 40 per each course of lectures and practical classes and Rs 30 for every three months of Hospital Practice

14 Students who fail at the final M B Examination shall pay fees for the whole session at the following rates in one instalment by the 1st June —

	Rs
For one subject	25
two subjects	50
three or more subjects	75

15 In calculating the sum to be paid under Rule 12 by a Regular student the amount of College fees paid by him or in the case of a student enjoying a stipendiary scholarship and free tuition the amount which would have been paid by him had he been a paying student shall be deducted

16 The fees payable by a Muhammadan student requiring certificates in the same way will be calculated on the same principle *i e* he will be allowed a deduction for the full annual fee half of which has been paid by himself and half by the Mohsin Fund

17 Students of the Military class requiring certificates in the same way will be required to pay the rate of fees laid down in paragraph 12 for the full curriculum or for such portion as they have attended No deduction will be made in this case as they are not free students in the sense in which that term is defined in Bengal Government Resolution (Education) No 601 of the 7th December 1880

18 No fees are payable by female students

19 Holders of a stipendiary scholarship of a value less than Rs 20 per mensem are not required to pay the annual fee of Rs 125 for the year in which they hold a scholarship All other scholarship holders shall pay the same fees as Regular students

20 The following are the curricula of the College —

REGULAR STUDENTS

First-year Class

Physics Chemistry Botany Zoology and Practical classes in all these subjects to be followed by Preliminary Scientific M B Examination of the Calcutta University and the Scholarship and Medal Examination of the College

Second-year Class

Anatomy Physiology, Materia Medica, Practical Pharmacy and Dissections to be followed by College Test Examinations for promotion to the third year class and for award of College scholarships

South—The Karnafuli river

West—A line drawn along the base of the Nasirabad Dobaghat and Khoolshi Hills and thence to the Karnafuli river passing to the west of Dewans Hat and east of the villages of Charti and Gosaldanga

Darjeeling.

No 1466M —The 15th April 1916 —In exercise of the powers conferred by sections 15 and 69 of the Bengal Municipal Act III of 1884 the Governor in Council is pleased to lay down in supersession of the rules published with Notification No 4340M dated the 21st November 1896 the following rules for the conduct of elections of Commissioners of the Darjeeling Municipality —

1 In these rules—

(*a*) The term the Magistrate has the meaning defined by section 6 sub section (8) of the Act

(*b*) A general election means an election held under section 14 of the Act

(*c*) A by election means an election held under section 27 of the Act

(*d*) A person shall be deemed to be resident within the limits of the Darjeeling Municipality if he—

(1) ordinarily lives within those limits or

(2) has his family dwelling house within those limits, and occasionally visits it or

(3) maintains within those limits a dwelling house ready for occupation and occasionally occupies it or

(4) ordinarily lives on an estate or location part of which falls within those limits and is assessed with the rate under section 85 (*b*) of the Bengal Municipal Act

A person may be resident within the limits of more than one Municipality at the same time

Of the qualification of voters

2 Every male person shall be eligible to vote who has attained the age of 21 years has been resident within the limits of the Municipality for not less than 12 months, immediately preceding the election, has been duly registered as provided in rules 4 to 12 inclusive and who—

(*i*) has, during the year immediately preceding such election paid in aggregate amount of not less than Rs 3 in respect of any one or more of the rates specified in section 15 of the Act or in respect of the fees for the registration of carts under section 143 of the Act or

(*ii*) has during the year aforesaid paid or been assessed to the tax imposed by Act II of 1886 (*an Act for imposing a tax on income derived from sources other than agriculture*) or

(*iii*) being a graduate or licentiate of any university or having passed the First Arts or Intermediate Examination of the Calcutta University or the corresponding standard of any other University or holding a license granted by any Government Vernacular Medical School to practise medicine or holding a certificate authorizing him to practise as a pleader or as a mukhtar or as a revenue agent—occupies a holding or part of a holding in respect of which there has been paid during the year aforesaid in respect of any rates specified in section 15 of the Act an aggregate amount of not less than Rs 3 or

(*iv*) has during the same period paid not less than Rs 6 per annum as rent in respect of the occupation by him of a holding or part of a holding which is assessed with the rate under section 80 clause (*b*) of the Act

3 A company body corporate or firm owning or occupying any land or building within Municipal limits separately numbered and valued for assessment purposes at not less than Rs 600 per annum shall be eligible to vote provided such company body corporate or firm shall have been duly registered as provided in rules 4 to 12 inclusive

Of the registration of voters

4 A register in Form A of all persons qualified to vote shall be prepared by or under the orders of the Chairman as soon as these rules shall have come into force Such register shall be open to inspection at the Municipal Office by any resident of the Municipality at any time between 11 A M and 5 P M Sundays and holidays excepted

5 Not less than 30 days before the date fixed for any general election the Chairman shall publish the register prepared by him under the last preceding rule at the Municipal Office and relevant extracts from the Register as prepared by him at such other places as he may think fit or as the Commissioners in meeting may direct

6 Any person whose name does not appear in the register and who claims the right of voting may within seven days of the publication thereof apply to the Chairman in writing to have his name added to the register or substituted for any name in the register

7 Any person who considers that any name in the register of voters prepared under rule 4 ought to be omitted may within seven days after the publication of the register apply to the Chairman in writing to have such name omitted

8 The Chairman shall not less than 21 days before the date of election send a letter to every company body corporate or firm entitled to vote requesting it to fill in a form which shall accompany such letter with the name of the person authorized to vote on behalf of such company body corporate or firm and to return the same within seven days Upon the receipt of the form the Chairman shall cause the name stated therein to be entered in the register revised under rule 9 and the person whose name is thus entered shall be deemed to be duly authorized to vote on behalf of the said company body corporate or firm

9 Every application for the revision of the register under rules 6 and 7 shall be considered and decided by the Chairman with all reasonable despatch and not less than fourteen days before the date of the election the Chairman shall publish a revised register in the same manner as the

original register containing all the alterations or amendments made in such original register by his order or by order of the Magistrate under the next succeeding rule

10 Any person whose application under rule 6 or 7 has been refused may within three days after such refusal apply to the Magistrate for an order to have his name inserted in or a name omitted from the register of voters and such Magistrate shall after enquiry make such order as to the insertion or omission of the name as appears to him to be just and the Chairman shall upon receipt of a copy of such order give effect to the same and such order shall be final

11 The register thus prepared and amended shall be deemed to be the final register of persons entitled to vote whether at a general election or at any by election

Provided that at any time any person whose name is not in the register may apply to the Chairman to enter his name therein and rules 9 and 10 shall be held applicable to such claim If such application is made not less than fifteen days before a by election it shall be decided in time for such by election but not otherwise

12 It shall not be necessary to publish the register or extracts from the register on the occasion of by elections provided that the register shall at all times be open to inspection by rate payers at the Municipal Office and that all persons whose claims have been admitted under the preceding rules shall be entitled to vote at such elections The Chairman shall in the case of each by election publish a notice stating the latest date upon which claims to be registered will be received

Of the qualification and the nomination of Candidates

13 Any person qualified to vote under these rules and not disqualified under section 57 of the Act shall be qualified to be elected a Commissioner

14 Every person who is a candidate for election shall send his name to the Chairman in writing in Form B with the necessary particulars filled up in columns 2 3 4 and 5 not less than twelve days before the day fixed for the election supported by the signatures in columns 6 7 and 8 respectively of two electors in each ward in which he proposes to stand who propose and second his nomination and of eight electors in each such ward who approve his nomination The Chairman shall publish a list of all candidates in the same form at the Municipal Office not less than seven days before the day fixed for election

Of the manner of holding elections

15 The elections and by elections shall be held on such dates as may be fixed by the Commissioner of the Division and notified by him in the *Calcutta Gazette*

16 In the event of the number of candidates for election in the Municipality or in any ward of the Municipality not being greater than the number of vacancies such candidates shall be deemed to be elected If the number of candidates exceeds the number of vacancies a poll shall be held

17 The poll shall be held at such time and place as the Commissioners in meeting or the Chairman may determine and the time and place fixed shall be notified by beat of drum and by the publication of notices at the same time as the list of candidates is published under rule 14

18 Each voter shall be entitled to vote for the ward in which he ordinarily resides and for no other and to give as many votes as there are vacancies for such ward and no more Provided that he may give all or any number of the votes to which he is entitled to any one candidate

19 All votes must be given in person and no votes will be received by proxy or in writing

20 The Chairman or other fit and proper person not being himself a candidate for election deputed by the Chairman for the purpose, shall preside at the election for each ward assisted by a Committee of not less than three and not more than five rate payers of the ward nominated by the Chairman If any of the members of such Committee fail to attend, their place may be filled by the presiding officer from the rate payers present at the polling station

21 The presiding officer shall read out the list of candidates and state the number of vacancies and the names of the voters and the votes given by them shall then be recorded by him or by the members of the Election Committee under his personal supervision in Form C

22 No objection to a voter shall be entertained except on the ground that he is not the person under whose name as entered in Register A he claims to vote Such objections shall be summarily decided by the presiding officer

23 The presiding officer shall then and there declare such candidates as have the largest number of votes to be duly elected and shall report accordingly to the Chairman if he is not himself the Chairman

Provided that if the majority for any candidate consists only of votes to which objections have been raised and if the presiding officer has been unable to decide such objections summarily as provided by rule 22 he shall adjourn the proceedings and report the matter to the Magistrate The Magistrate shall hold such enquiry regarding the disputed votes as shall be necessary and his decision shall be final On the termination of such enquiry he shall declare such candidates as have the largest number of votes to be duly elected

24 If there be an equality of votes for the same vacancy and if the number of vacancies does not admit of all the candidates who have obtained an equality of votes being elected the presiding officer or in the case prescribed in the proviso to rule 23 the Magistrate shall give a casting vote or votes

25 In the event of any candidate being elected for two or more wards such candidate shall be at liberty to choose the ward which he will represent and in every other ward in which the said candidate has been returned the result of the election shall be determined as if no votes had been recorded for him Provided that if there is no other candidate for whom votes have been recorded to fill the vacancy thus caused a fresh election shall be held

26 The list of duly returned candidates for the whole Municipality shall be forwarded by the Chairman through the Deputy Commissioner to the Commissioner of the Division for publication by him in the *Calcutta Gazette*

27 When a Municipal Commissioner is after election found to be disqualified under section 57 of the Act a bye election shall be held to fill his place

28 When the Magistrate is the Chairman the duties assigned to the Chairman in the foregoing rules shall be discharged by the Vice Chairman

29 If in any case such a course appears to the Local Government to be necessary it may direct that the Magistrate shall perform all or any of the duties assigned by the foregoing rules to the Chairman or the Commissioners in meeting

General

30 All disputes arising under these rules shall be decided by the Magistrate and his decision shall be final

31 No person in the employment or pay of the Municipality shall directly or indirectly engage in canvassing for votes or otherwise assist in the election of any candidate otherwise than by giving his own vote Any breach of this rule will render him liable to dismissal

32 All costs incurred in the preparation of the register of voters, the publication of notices the holding of elections, or taking any other necessary action under these rules, shall be payable by the Commissioners out of the Municipal Fund

No 25—The following note by the Foreign Office dated 1st March 1916, is republished for general information —

Note by the Foreign Office London

In the reports of judgments of the German Prize Court which have reached His Majesty's Government it is observed that in many cases claims put forward by British subjects have been rejected by the Court on the ground that the claimants had failed to submit a power of attorney as prescribed by section 27 paragraph 2 of the German Prize Court Regulations

A translation of the section above referred to is accordingly appended for the information of persons who may have occasion to put forward claims before that Court —

Section 27 of German Prize Court Regulations

In the statement of claim shall be indicated the facts and proofs by which the claim is supported if possible documents shall be attached to the statement in the original

The said statement of claim shall be signed by an advocate provided with a written power of attorney and admitted to practise at a German Court, who has obtained the qualification to sit as a Judge

'If the claimant is not residing at the place of the official seat of the Prize Court, he shall indicate a person there domiciled upon whom service may be effected on his behalf

S C DE, *Offg Principal*

KRISHNAGAR COLLEGE, *the 11th April 1916*

NOTICE

HOOGHLY COLLEGE

THE Hooghly College will re-open on Thursday the 6th July 1916 after the Summer vacation

Affiliations—The College is affiliated in the subjects noted below —

There is a likelihood of its being affiliated in Logic from the beginning of the ensuing session

(*a*) *B A Examination*—English Vernacular Composition History Mathematics (Pass and Honours) Sanskrit (Pass and Honours) Persian Physics and Chemistry

(*b*) *B Sc Examination*—Physics Chemistry and Mathematics (Pass and Honours)

(*c*) *I A Examination*—English Vernacular Composition History Sanskrit Persian Mathematics Physics and Chemistry

(*d*) *I Sc Examination*—English Vernacular Composition Chemistry, Physics and Mathematics

The following combinations of subjects are admissible —

Intermediate in Arts

English and Vernacular with—

1 Mathematics Logic and Physics

2 Mathematics Logic and Sanskrit or Persian

3 Mathematics Logic and Chemistry

4 History Logic and Sanskrit or Persian

5 Chemistry History and Sanskrit or Persian

6 Chemistry Logic and Sanskrit or Persian

Intermediate in Science

English and Vernacular with Mathematics Physics and Chemistry

B A (Pass and Honours)

All possible combinations of subjects are permitted

B Sc (Pass and Honours)

Physics Chemistry and Mathematics (Pass and Honours)

The monthly tuition fee is Rs 6 The annual fee for game is Re 1 4 and for the common room Re 1 The admission fee for new students is Rs 7 including Re 1 for the Athletic Club

There are two hostels attached to the College—one for Hindu and the other for Muhammadan students The hostels are situated close to the College and the river The health of the locality has greatly improved owing to the recent installation of the water works in Hooghly No seat-rent is charged in either hostels The messing and establishment charges of the Hindu Hostel amount to about Rs 10 8 and those of the Muhammadan Hostel about Rs 7 8 per month

Students will be admitted from the 15th of June next Application should be made on a printed form which will be supplied on receipt of a half-anna postage stamp or on personal application at the College office

There are Pleadership classes attached to the College the monthly tuition fee of which is Rs 7

J M BOTTOMLEY

Principal, Hooghly College

CHINSURA, *the 13th April 1916*

B HEATON *Principal*

CIVIL ENGINEERING COLLEGE SIBPUR *the 3rd April 1916*

***N.B.*—[The scale of fees as given in this Prospectus is payable by students admitted to the College from the beginning of the Session 1916-17 and will not apply to old students who will continue to pay the existing rate of fees]**

MEDICAL COLLEGE OF BENGAL.

RULES FOR THE GUIDANCE OF STUDENTS SEEKING ADMISSION

1 Three classes of students are admitted for study in the College—

(*a*) Regular or those who enter for the full University course

(*b*) Casual or those who enter for selected or isolated subjects

(*c*) Military Class (only students of European or Eurasian parentage are admitted to this class) (See separate Prospectus for Military students)

The admission to this class is regulated by the Director General Indian Medical Service

2 The minimum preliminary qualification for admission to the—

(*a*) Regular Class is the Matriculation pass certificate of the Calcutta University provided that when there are candidates available who have passed the I Sc or I A Examination matriculates other than the six scholarship holders nominated by the Government of Bihar and Orissa shall not be admitted without the sanction of the Surgeon General with the Government of Bengal

(*b*) *and* (*c*) Casual —Matriculation or Entrance pass certificate of the Calcutta or other Indian Universities or the pass certificate of an examination equivalent to the Matriculation or Entrance Examination

3 The session commences on the 15th June

4 All new students must apply for admission to the Principal Medical College Calcutta in the prescribed form available in his office before the 25th May except in the case of Biharis Uriyas Chota Nagpuris and Assamese students who should apply to the Inspector General of Civil Hospitals of their respective Provinces for admission within such date as the latter may prescribe

Selected candidates must pay the following fees on or before the 10th June failing which their names will be struck off the selected list —

	Rs	A
Admission fee	20	0
Fees for Summer term	62	8
Athletic Club fee	1	0
Total	83	8

5 The number of Regular students to be admitted each year is generally 120 but the Principal may at his discretion increase or decrease this number Preference for admission will usually be given to candidates who have superior qualifications but the final selection lies entirely with the Principal

Of the total number to be admitted 12 candidates will be nominated by the Inspector General of Civil Hospitals of Bihar and Orissa and 6 candidates by the Inspector General of Civil Hospitals Assam These candidates must have passed the I Sc or I A Examination In addition the Bihar and Orissa Government will nominate six scholars who may be matriculates These nominations must reach the Principal Medical College Calcutta before the 10th June failing which the Principal will fill up vacancies with local candidates

6 Failed students must apply for admission and pay fees before the 15th May, otherwise their prior claim lapses

7 All Regular students must pay an annual fee of Rs 125 in two instalments, viz, Rs 62-8 for the Summer term and Rs 62 8 for the Winter term Fees once paid cannot be refunded

8 The fees for each term are to be paid in one instalment Except in the case of new students the fees for Summer term are due on the 15th June and those for the Winter term on the 1st November, and must be paid on those dates or on such subsequent dates as the Principal may direct after which a daily fine of annas 4 will be levied along with the fee in each case of default

9 All Regular students must pay an annual fee of Re 1 to the Medical College Athletic Club along with the fees for the Summer term

10 Muhammadan students are required to pay the entrance fee of Rs 20 and half the annual College fee in two instalments the remaining half fees being charged to the Mohsin Fund

11 Students relegated to a further course of study after their failure at the Preliminary Scientific M B and at the First M B Examinations shall pay Rs 80 for the whole session in one instalment by the 1st June

12 Students taking up subjects outside the curriculum of the year in which they are studying shall pay Rs 30 for each such subject including lectures and practical classes

13 The fees for Casual students or for Certificates issued to Regular students leaving the College before completing their study or for those issued to Military students shall be Rs 40 per each course of lectures and practical classes and Rs 30 for every three months of Hospital Practice

14 Students who fail at the final M B Examination shall pay fees for the whole session at the following rates in one instalment by the 1st June —

	Rs
For one subject	20
two subjects	50
three or more subjects	70

15 In calculating the sum to be paid under Rule 12 by a Regular student the amount of College fees paid by him or in the case of a student enjoying a stipendiary scholarship and free tuition the amount which would have been paid by him had he been a paying student shall be deducted

16 The fees payable by a Muhammadan student requiring certificates in the same way will be calculated on the same principle *i e* he will be allowed a deduction for the full annual fee half of which has been paid by himself and half by the Mohsin Fund

17 Students of the Military class requiring certificates in the same way will be required to pay the rate of fees laid down in paragraph 12 for the full curriculum or for such portion as they have attended No deduction will be made in this case as they are not free students in the sense in which that term is defined in Bengal Government Resolution (Education) No 601 of the 7th December 1880

18 No fees are payable by female students

19 Holders of a stipendiary scholarship of a value less than Rs 20 per mensem are not required to pay the annual fee of Rs 120 for the year in which they hold a scholarship All other scholarship holders shall pay the same fees as Regular students

20 The following are the curricula of the College —

REGULAR STUDENTS

First-year Class

Physics Chemistry Botany Zoology and Practical classes in all these subjects to be followed by Preliminary Scientific M B Examination of the Calcutta University and the Scholarship and Medal Examination of the College

Second-year Class

Anatomy Physiology Materia Medica Practical Pharmacy and Dissections to be followed by College Test Examinations for promotion to the third year class and for award of College scholarships

Third-year Class

Anatomy Physiology Materia Medica Organic Chemistry Dissections and Practical classes in Physiology and Organic Chemistry to be followed by Honour Examination of the College in the above subjects for scholarships and medals of the College and by the First M B Examination of the Calcutta University

Fourth-year Class

RESOLUTION ON THE BUDGET ESTIMATES OF THE COMMISSIONERS FOR THE PORT OF CALCUTTA FOR THE YEAR 1916-17

No 1172Marine

GOVERNMENT OF BENGAL

MARINE DEPARTMENT

Dated Calcutta the 25th April 1916

RESOLUTION

READ—

Letter No 12174 dated 28th March 1916 from the Vice Chairman Port Commissioners Calcutta submitting the Budget Estimates of Income and Expenditure of the Port Trust for the year 1916 17

CAPITAL EXPENDITURE

FOR the year 1916-17 the Port Commissioners have restricted, under the orders of the Government of India, their capital programme to what is

absolutely unavoidable, viz, to the following works in connection with the Docks Extension scheme—

(*a*) The Garden Reach berths
(*b*) New Railway Junction Yard —such reclamation as is incidental to the removal and utilization of silt dredged from the Docks and the Boat Canal,
(*c*) Four storied warehouse at the Docks

The total capital outlay will amount to Rs 70,86,100 which will be met partly from the credit balance of Rs 53 lakhs on capital account, and partly from funds to be raised from the Bank of Bengal on such conditions as may be determined by the Commissioners and accepted by the Government of India

Revenue Receipts

The revenue for the year 1916 17 (including receipts from the special war surtax) has been estimated at Rs 1 56 55,410 as against Rs 1,64,61,137, the estimate for 1915 16 The earnings, the Commissioners anticipate will be adversely affected by decreases in the export of coal and the import of Burma rice but these decreases will, to some extent, be counterbalanced by an improvement in the exports of baled jute seeds, pulses and manganese ore The present financial position of the Commissioners does not permit of any modification in the war surtax, the continuance of which the Bengal Chamber of Commerce admit to be necessary under present conditions

Revenue Expenditure

Excluding the interest and sinking fund charges, the ordinary expenditure of the Trust has been estimated at Rs 83 16,308 as compared with Rs 89,62,919 the estimate for the year 1915 16 The expenditure under the heads 'Establishment,' 'Maintenance and Repairs' and 'Labour' has been curtailed to the greatest extent compatible with the efficient working of the Trust

Interest and Sinking Fund

The charges under this head will amount to Rs 68 19 540 In arriving at this figure the Commissioners have included a sum of Rs 1½ lakhs to meet interest charges which may be payable on their borrowings for 1916 17, the terms of which remain to be settled

A summary of revenue and expenditure as submitted by the Commissioners is given below —

REVENUE ACCOUNT

Income

	Rs	Rs
II —Jetties	1,67 650	
III —Tea Warehouse	2 62 500	
IV —Petroleum Wharf	4 10 125	
V —Inland Vessels Wharves	4 51,480

VIII—Port Approaches		8 69 148	
IX—Railway		12,61 166	
X—Wet Docks		26 38 702	
XI—Dry Docks		71 818	
XII—Ferry Service		3,34 906	
Provision against unforeseen expenditure minor works chargeable to Revenue and unforeseen establishment charges		30 000	
Interest and Sinking Fund charges		68 19 539	
			1 51,35 847
Estimated Surplus			5,19,593

In exercise of the powers conferred by section 71 of the Calcutta Port Act, 1890 the Governor in Council is pleased to sanction these estimates of revenue receipts and expenditure The outlay on capital programme is subject to the settlement by the Government of India of the question of further funds to be raised by the Commissioners during 1916-17

By order of the Governor in Council,

F A A COWLEY,

Secretary to the Govt of Bengal.

RESOLUTION ON THE BUDGET ESTIMATE OF INCOME AND EXPENDITURE OF THE HOWRAH BRIDGE FOR THE YEAR 1916-17

No 1171Marine

Government of Bengal

MARINE DEPARTMENT

Calcutta, the 25th April 1916

RESOLUTION

READ—

Letter from the Vice Chairman Port Commissioners Calcutta No 12175 dated the 28th March 1916 submitting the budget estimate of income and expenditure of the Howrah Bridge for the year 1916 17

Receipts—The receipts of the bridge are estimated at Rs 1,85,338 against Rs 1,92,750 the estimate for 1915-16 The income is mainly derived from a terminal fee of 2 pies per maund on certain goods traffic of the East Indian Railway The revenue from this source will be affected owing to less taxable traffic being expected during the year

2 *Expenditure*—The total ordinary expenditure is estimated at Rs 2,51,496 against Rs 2,49,220 in the preceding year The estimated receipts will fall short of the estimated expenditure by Rs 66,158 which is to be met from the Bridge Reserve Fund

3 The Port Commissioners Calcutta have also provided for in extra ordinary expenditure of Rs 1,96 846 on extensive renewals to the bridge and of Rs 36,000 on repairs to the ferry landing stage at Howrah, both as a charge upon the Reserve Fund These extensive repairs and renewals are, in the opinion of this Government, urgently necessary to secure the safety of the existing bridge until such time as the new bridge may be constructed The utilization of a large portion of the Reserve Fund has led to an examination of the financial position of the Howrah Bridge and, as a result of this examination, the Governor in Council has decided to appoint a Committee to consider the whole question A separate resolution is being issued on the subject of this Committee

4 His Excellency the Governor in Council approves the Budget estimate, under section 21 of the Howrah Bridge Act 1871

By order of the Governor in Council,

F A A COWLEY,
Secy to the Govt of Bengal

DISTRICT REPORTS ON WEATHER AND CROPS

For the week ending on the 24th April 1916

Summary—During the week light to moderate rain fell generally throughout the province The sowings of jute and autumn paddy have been greatly facilitated The weeding of jute fields has commenced in some of the eastern districts Land is being prepared for paddy seedlings for the next *aman* crop The harvesting of *boro* paddy is in progress and that of other *rabi* crops is practically over Insufficiency of water is being felt in parts of the Murshidabad district Cattle disease is reported from five districts The average price of common rice for the province has risen by about 0·3 per cent as compared with that of the previous week

J R BLACKWOOD

Director of Agriculture Bengal

Statement of weekly gauge-readings on the rivers Ganges and Brahmaputra at Goalundo for the week ending 22nd April 1916.

Month and date	Hour	Height of surface above or below zero of gauge	Height of surface above mean sea level	Height of surface above mean sea level on same date last year	Remarks
16th Apl 1916	8 A M	7 8	7 8	7 7	Zero is placed at mean sea level
17th ,		7 8	7 8	7 8	The bench mark for the gauge is on
18th		7 9	7 9	8 1	a pucca pillar between the Passenger
19th	,	8 0	8 0	8 3	ghat and Chandpore ghat
20th		8 3	8 3	8 3	Its reduced level is 22 41
21st		8 6	8 6	8 0	
22nd		8 8	8 8	7 8	

The previous year	Highest water level	25 3 on 28th August 1915
Ditto	Lowest	3 4 on 10th February 1915
Record (H k in Brahmaputra and Ganges)	Highest	25 75 on 28th August 1906
Record (average flood in Brahmaputra and Ganges)	Ditto	25 74 on 20th and 21st August 1893
Record (H k in Brahmaputra and Ganges)	Ditto	25 66 on 11th to 17th and 31st August 1889 and on 1st to 3rd September 1889
Record (H k in Brahmaputra only)	Ditto	25 66 on 31st July 1900
Record	Lowest	1 0 on 6th February 1914
Ditto	Ditto	2 42 on 13th March 1908
Ditto	Ditto	2 91 on 21st to 24th February 1884 and 8th to 9th March 1884
Ditto	Ditto	3 16 on 9th to 11th March 1885
Ditto	Ditto	3 16 on 16th 17th and 29th to 31st March 1901

V B—The gauge reading commenced from 3rd October 1909

HARIDPUR
The 22nd April 1916

ADYANATH BOSE,
Subdivisional Officer P W D Faridpur

Statement of weekly gauge-readings on the river Ganges at Rampur-Boalia for the week ending the 22nd April 1916.

Date	Hour	Height of surface above or below zero minus sign for the se below zer	Height of surface above mean sea level	Height of surface above mean sea level on the same date last year	Remarks
16th Apl 1916	8 A M	Gauge figures marked are as reduced mean sea level	41 35	42 10	The top platform of the masonry gauge has a referring bench mark with reduced level 67 00 above mean sea level
17th ,	8		41 45	42 60	
18th ,	8		41 50	42 60	
19th	8		41 50	42 55	It is 40 feet west of Barakuthi
20th	8		41 60	42 45	Cemetery gate
21st	8		41 65	42 40	
22nd ,	8		41 70	42 40	

The previous year	Highest water level	63 30 on 25th August 1912
Ditto	Lowest	42 40 on 18th April 1912
Record	Highest	69 25 on 26th August 1879
Do	Ditto	69 08 on 9th September 1885
Do	Ditto	68 30 on 25th August 1906
Do	Ditto	68 21 on 26th August 1890
Do	Lowest ,	37 63 on 25th April 1884
Do	Ditto	38 13 on 14th 15th April 1883
Do	Ditto	39 02 on 21st 22nd April 1897
Do	Ditto ,	39 28 on 6th 7th May 1908
Do	Ditto	38 70 on 15th May 1913

V B—The gauge readings commenced from the 1st August 1887

BOALIA
The 22nd April 1916

ILLEGIBLE,
for *Executive Engineer, Rajshahi Divn*

Statement showing the weekly gauge-readings on the river Buriganga at Dacca Water-works for the week ending the 15th April 1916.

Date	Time	Height of water above zero of gauge	Height above mean sea level	Height above zero on the same date last year	Remarks
9th April 1916	At low tide	53 3	Not connected with mean sea level	52 1	Top of the settling tank is 88 00 feet above zero of gauge
10th	Ditto	53 2		52 2	
11th	Ditto	53 0		52 2	
12th	Ditto	53 1		52 3	
13th	Ditto	53 2		52 5	
14th	Ditto	53 3		52 8	
15th	Ditto	53 4		53 0	

Notable high and low water levels of previous years

27th August	1906	70 56	Taken at high tide
5th September	1909	67 86	Ditto
10th August	1910	69 86	Ditto
1st	1911	68 46	Ditto
31st	1912	67 16	Ditto
26th	1914	66 7	Ditto
31st	1915	69 7	Ditto
23rd February	1907	51 06	Taken at low tide
13th	1908	51 06	Ditto
12th March	1912	51 06	Ditto
6th	1914	50 60	Ditto
22nd February	1915	50 3	Ditto
15th	1916	50 6	Ditto

REMARKS—(1) The boundaries of all registration areas are revised by the Chief Registration Officer in the month of December each year.
(2) In years of big floods, epidemics, etc., the weekly returns of the number of deaths from cholera, small-pox, plague and fever are received in the office of the Chief Surgeon and submitted to Government by multiplying the population by 39 instead of by 52.

CUSTOMS

The 22nd April 1916

No 2148 W—In exercise of the powers conferred by section 19 of the Sea Customs Act 1878 (VIII of 1878) as amended by Act XII of 1914 and in partial supersession of the Notification in this Department No 2561 W dated the 13th March 1915 as amended by Notification No 10180 W, dated the 3rd July 1915, the Governor General in Council is pleased to prohibit—

(*i*) the export of cocoanut oil cotton seed oil ground nut oil and linseed oil to all destinations outside the British Empire and

(*ii*) the export of copra linseed and mhowra to all destinations other than the United Kingdom British Possessions and Protectorates France Italy and Russia (except the Baltic ports)

The 29th April 1916

No 2281 W—1 WHEREAS by paragraph 5 (7) of the Trading with the Enemy Proclamation No 2 dated the 9th day of September 1914 as amended and extended by the Proclamation dated the 5th day of November 1914 and by the Proclamation dated the 16th day of October 1915, the obtaining of any goods wares or merchandise from the territories of the German Empire or of the Dual Monarchy of Austria Hungary together with all the Colonies and Dependencies thereof or from the territories of the Sultan of Turkey (other than Egypt or any territory in the occupation of the British Government or its Allies) or from the territories of the King of the Bulgarians, in this license and in the said Proclamation referred to as 'enemy country' is forbidden and

Whereas by paragraph 1 of the Trading with the Enemy (occupied territory) Proclamation 1915 it is provided that the said Proclamations shall apply to the territory of an Allied State in hostile occupation as they apply to an enemy country and by paragraph 4 of the said Proclamation, it is provided that nothing in that Proclamation shall be taken to prohibit anything which may be expressly permitted by a license granted by or on behalf of the Crown and

Whereas by paragraph 3 of the Proclamation dated the 8th day of October 1914 power to grant such license on behalf of the Crown may be exercised in India by the Governor General

Now therefore I Frederic John Napier Thesiger, Baron Chelmsford hereby authorize all persons freely residing being, or carrying on business in British India to obtain goods, wares or merchandise from the Territory of Belgium in hostile occupation without the intervention of a firm in the United Kingdom on the condition that the person importing such goods,

wares or merchandise, shall produce before the customs officer at the port of import—

(*i*) an undertaking that he will pay the purchase money into a special account in the name of the exporter in a Bank in British India or United Kingdom and will when called upon to do so furnish evidence of such payment within a reasonable period after the importation of the goods wares or merchandise

(*ii*) an undertaking by the Bank that so long as the enemy occupation of Belgium continues no money will be allowed to be withdrawn from such special account except under license from the Governor General and that no charge on the account will be allowed or recognised without such license and

(*iii*) a certificate from a British Consular Officer to the effect that the goods are in fact of Belgian origin

Explanation—Goods manufactured in Holland which owe less than twenty five per cent of their value to enemy (other than Belgian) labour or material but include also a Belgian element which raises the proportion to more than twenty five per cent are considered for the purpose of this license as goods of Belgian origin

2 This license may be cited as the Trading License (Belgium) 1916

CHELMSFORD

Viceroy and Governor General of India

No 2337 W—In modification of the Notification in this Department No 1203-W dated the 28th November 1914 the following Order in Council is published for general information —

AT THE COURT AT BUCKINGHAM PALACE

The 30th day of March, 1916

PRESENT

The King's Most Excellent Majesty in Council

WHEREAS by the Declaration of London Order in Council No 2 1914 His Majesty was pleased to direct that during the present hostilities the provisions of the Convention known as the Declaration of London should subject to certain omissions and modifications therein set out be adopted and put in force by His Majesty's Government and

Whereas doubts have arisen as to the effect of Article 1 (*iii*) of the said Order in Council on the right to effect the capture of conditional contraband on board a vessel bound for a neutral port and

Whereas it is expedient to put an end to such doubts and otherwise to amend the said Order in Council in the manner hereinafter appearing and

Whereas by Article 19 of the said Declaration it is provided that whatever may be the ulterior destination of a vessel or of her cargo she cannot be captured for breach of blockade if at the moment she is on her way to a non-blockaded port and

Whereas it is no longer expedient to adopt Article 19 of the said Declaration

Now, therefore, His Majesty, by and with the advice of His Privy Council is pleased to order, and it is hereby ordered as follows—

1 The provisions of the Declaration of London Order in Council No 2 1914, shall not be deemed to limit or to have limited in any way the right of His Majesty, in accordance with the law of nations to capture goods upon the ground that they are conditional contraband nor to effect or to have affected the liability of conditional contraband to capture, whether the carriage of the goods to their destination be direct or entail transhipment or a subsequent transport by land

2 The provisions of Article 1 (ii) and (iii) of the said Order in Council shall apply to absolute contraband as well as to conditional contraband

3 The destinations referred to in Article 30 and in Article 33 of the said Declaration shall (in addition to any presumptions laid down in the said Order in Council) be presumed to exist, if the goods are consigned to or for a person who, during the present hostilities, has forwarded imported contraband goods to territory belonging to or occupied by the enemy

4 In the cases covered by Articles 2 and 3 of this Order it shall lie upon the owner of the goods to prove that their destination was innocent

5 From and after the date of this Order Article 19 of the Declaration of London shall cease to be adopted and put in force Neither a vessel nor her cargo shall be immune from capture for breach of blockade upon the sole ground that she is at the moment on her way to a non blockaded port

6 This Order may be cited as The Declaration of London Order in Council 1916

And the Lords Commissioners of His Majesty's Treasury the Lords Commissioners of the Admiralty and each of His Majesty's Principal Secretaries of State the President of the Probate Divorce and Admiralty Division of the High Court of Justice all other Judges of His Majesty's Prize Courts, and all Governors, Officers and Authorities whom it may concern, are to give the necessary directions herein as to them may respectively appertain

Almeric Fitzroy

No 2381 W—In exercise of the powers conferred by Section 19 of the Sea Customs Act 1878 (VIII of 1878) as amended by Act XII of 1914 and in supersession of the Notification in this Department No 6600-W, dated the 15th May 1915 the Governor General in Council is pleased to direct that the following shall be substituted for the entry regarding Medical and Surgical Stores in column I of the Schedule appended to the Notification in this Department No 25 W, dated the 17th October 1914 —

Medical and surgical stores and equipment of every description, other than (1) nux vomica (2) castor seed mustard seed linseed and oils extracted therefrom (3) senna magnesium sulphate ajowan seed chirreta roots euphorbia pilulifera fennelseed dillseed gums and (4) asafœtida

No 2385 78 W—The following Royal Proclamations are published for general information :—

BY THE KING

A PROCLAMATION

FOR PROHIBITING THE IMPORTATION OF CANNED BOTTLED DRIED, AND PRESERVED FRUITS INTO THE UNITED KINGDOM

GEORGE R I

WHEREAS by Section forty-three of the Customs Consolidation Act, 1876 it is provided that the importation of arms ammunition, gunpowder or any other goods may be prohibited by Proclamation :

And whereas it is expedient that the importation into the United Kingdom of certain goods of a bulky character should be prohibited as hereinafter provided

COMMERCE AND TRADE

The 20th April 1916

No 22 4 W.—WHEREAS, by paragraph 5 of the Trading with the Enemy Proclamation No 2 dated 9th September 1914 as amended and extended by the Proclamation dated the 5th November 1914 and by the Proclamation, dated 16th October 1915, trade and financial or commercial transactions between British subjects and persons or bodies of persons resident in the territories of the German Empire or in the Dual Monarchy of Austria-Hungary or in the respective colonies and dependencies thereof, or in the territories of the Sultan of Turkey (other than Egypt or any territory in the occupation of the British Government or its Allies), or in the territories of the King of the Bulgarians in this license and in the said Proclamations referred to as 'enemy country' are prohibited and

Whereas, by paragraph 1 of Trading with the Enemy (China, Siam, Persia and Morocco) Proclamation 1915 it is provided that the said Proclamations shall apply to persons or bodies of persons of enemy nationality resident or carrying on business in China, Siam, Persia or Morocco, in the same manner as they apply to persons or bodies of persons resident or carrying on business in an enemy country, and, by paragraph 2 of the said Proclamation it is provided that nothing in the Proclamation shall be taken to prohibit anything which may be specially permitted by the license granted by, or on behalf of the Crown; and

Whereas by paragraph 3 of Proclamation, dated 8th October 1914, power to grant such licenses on behalf of the Crown may be exercised in India by the Governor General

Now therefore I, Frederic John Napier Thesiger, Baron Chelmsford, hereby authorise all British subjects residing being or carrying on business in British India to trade or carry on business with the persons or bodies of persons of enemy nationality resident or carrying on business in Persia who are named in the schedule hereto attached and with such other persons or bodies of persons so resident as may hereafter be declared by a notification of the Governor General in Council in the *Gazette of India* to be well disposed towards the British Government

2 This license may be cited as the Trading License (Persia), 1916

3 The Trading License (Persia) 1915 is hereby revoked

Provided that the revocation of the said license shall not affect the validity of anything done in pursuance of it and that references in any document to the said license shall hereafter unless a contrary intention appears therein be construed as references to this license

Dated this 29th day of April 1916

PART I B.

Orders by the Governor of Bengal in Council.

MUNICIPAL AND LOCAL

NOTIFICATIONS

Dinajpur

No 10T M—The 27th April 1916—The following by laws made by the Commissioners of the Dinajpur Municipality which the Governor in Council proposes to confirm under section 53 (*3*) of the Calcutta Hackney Carriage Act 1891 (Bengal Act II of 1891) in supersession of the by laws confirmed in Eastern Bengal and Assam Government Notification No 5168M dated the 2nd August 1911 are published for the information of persons likely to be affected thereby

2 The by laws will be taken into consideration on the 19th June 1916 and any objection or suggestion received by the undersigned through the District Magistrate of Dinajpur and the Commissioner of the Rajshahi Division before that date will be duly considered

DRAFT BY LAWS FRAMED BY THE COMMISSIONERS OF THE DINAJPUR MUNICIPALITY UNDER SECTION 53 OF THE CALCUTTA HACKNEY CARRIAGE ACT II OF 1891

2ND CLASS CARRIAGE

1 No carriage shall receive a second class license unless it is in good condition and has sufficient accommodation for 4 persons the minimum inside measurement of length and breadth being 4' 10'×2 10' and if it is of the kind known as Palki gharry or Brown berry it shall conform to the following dimensions —

Breadth of carriage inside	36 inches
Depth of seat	18
Width of well of carriage between cushions	24
Height of roof from seat	40

2 The springs axles and wheels must be sound and the carriage must have a good pair of lamps with the number of the carriage painted thereon

3 The harness must be of strong leather and no string fastening will be permitted

4 All carriages taking a second class license shall be drawn either by a horse not under 14 hands or a pair of horses not under 13 hands

5 All carriages taking a second class license must be of a dark green colour with the name of the owner and the figure 2 in Roman numerals painted on both sides

6 No carriage shall have a tin roof

3RD CLASS CARRIAGE

7 No carriage shall receive a third class license unless it has strong wheels axles and springs It must have also a pair of lamps with the number of the carriage painted thereon provided that a carriage of the kind known as Tum tum or dog cart containing two seats may receive a third class license if it otherwise satisfies the conditions laid down in the rule

8 The harness and straps must be of strong leather Ropes and iron chains will be permitted if they are covered with leather

9 All third class carriages must be of yellow colour with the owners name and the Roman numeral 3 painted on the sides

GENERAL

10 No stelly blind lame or otherwise incapacitated horse or pony and no horse or pony with sores or wounds shall be allowed to work or draw vehicles

11 All carriages shall be clean and either upholstered in leather or covered with removable washing materials and second class carriages must be provided with leather slings for hand rests

12 Every place where any hackney carriage horse or pony is kept shall be open to inspection by the Municipal Commissioners and the Registering Officer or any other officers authorised by the Municipal Commissioners in their behalf at all hours of the day from sunrise to sunset

13 It shall be obligatory on the owner of any horse or carriage licensed under the Act to produce before the Registering Officer within 24 hours any horse or vehicle required for inspection

14 A list of fares shall be prepared and printed under the authority of the Municipal Commissioners showing distances and fares from various centres A copy of this list shall be given to the owner of a hackney carriage with license and shall be hung up inside the carriage for the inspection of the passengers

DRIVERS QUALIFICATIONS

15 Every person applying for a drivers license must be acquainted with the principal places and streets and must have a knowledge of the rates and fares prescribed by the Municipal Commissioners

16 No license shall be issued to any person as a driver unless he has been examined by the Registering Officer as to his capacity and fitness for such employment

17 Every driver shall be decently clad while acting as a driver

No 22T M—The 28th April 1916—In exercise of the power conferred by section 14 of the Bengal Municipal Act 1884 (Bengal Act III of 1884) the Governor in Council is pleased to appoint the following gentlemen to be Commissioners of the Brahmanbaria Municipality in the district of Tippera —

Tippera

Babu Bhabadeb Bhattacharji

Khan Sahib Maulvi Abdul Rauf

Babu Dina Bandhu Datta

Revd W F White

Rajshahi

No 28T M—The 1st May 1916—In pursuance of section 37F of the Bengal Municipal Act 1884 (Bengal Act III of 1884) it is hereby notified for general information that the scheme submitted by the Commissioners of the Natoi Municipality for providing a water-supply to that Municipality has been approved by the Governoi in Council, and that the particulars of the said scheme are is follows —

(*a*) The scheme is to provide the people of the town of Natoi with filtered water by means of pipes A plot of land measuring 20 acres will be taken in Hazri Nator where a large tank will be excavated and the filter installation etc will be constructed there The water after being filtered will go to an overhead tank from which it will be distributed to the people of Nator through pipes and hydrants The hydrants will be placed at intervals

For the present the pipes will pass from the tank *viâ* Domepara upper bazar Garikhana Sukulpati Mandapati Kapurpati Goldarpati to civil station and from the Kapurpati trimohini *viâ* Pilkhana Lalbazar to the Laldighi drain on the east of Joykalis temple The size of the tank will be large enough to meet the requirements when the pipes will be extended to other parts of the Municipality The total population of the Municipality is 8 201 of whom 7000 will be benefited from the present scheme

(*b*) The estimated cost of the scheme is Rs 67 700

(*c*) The estimated cost of maintenance is Rs 1 000

(*d*) The sum of Rs 67 700 on account of the cost of the scheme will be met is follows —

	Rs
Contribution from Government	30 000
Loan from Government	10 000
Private subscriptions	27 700
Total	67 700

The annual charge of Rs 1 000 on account of maintenance will be met from the water rate and that of Rs 736 on account of the repayment of the loan of Rs 10 000 will be met from the General Fund

(*e*) A loan of Rs 10 000 bearing interest at 4 per cent per annum will be taken by the Municipality from Government to meet the cost of the scheme It will be repaid by twenty yearly instal ments of Rs 736 each twenty years will be required to repay it

(*f*) The total annual charge on account of the maintenance of the scheme is estimated at Rs 1 000 and that on account of the repayment of the loan of Rs 10 000 is Rs 736 The former will be met from the proceeds from the water rate and the latter will be met from the General Fund

(*g*) The water rate will be levied at the rate of 3 per cent on the annual value of holdings situated in roads supplied with water and at the rate of 2 per cent on the annual value of holdings situated in roads not so supplied

(*h*) The average incidence of the water rate per head of present popu lation of the said Municipality will be Re 0 3 3

24 Parganas

No 81 M —The 27th April 1916 —Under rule 7 of the Local Authorities Loans Rules 1915 it is hereby notified for general information that the Governor in Council intends to sanction the following application from the Commissioners of the Garden Reach Municipality in the district of the 24 Parganas for a loan of Rs 10 000 from Government bearing interest at the rate of 4 per cent per annum and repayable in 50 equal half yearly instalments of Rs 446 8 annas each unless good reasons are shown to the contrary within one month from the date of the publication of this notification within the said Municipality

KRISHNAGAR COLLEGE, *the 11th April 1916*

NOTICE

HOOGHLY COLLEGE

THE Hooghly College will re open on Thursday the 6th July 1916 after the Summer vacation

Affiliations—The College is affiliated in the subjects noted below —

There is a likelihood of its being affiliated in Logic from the beginning of the ensuing session

(*a*) *B A Examination*—English Vernacular Composition History, Mathematics (Pass and Honours) Sanskrit (Pass and Honours) Persian, Physics and Chemistry

(*b*) *B Sc Examination*—Physics Chemistry and Mathematics (Pass and Honours)

(*c*) *I A Examination*—English Vernacular Composition History Sanskrit Persian Mathematics Physics and Chemistry

(*d*) *I Sc Examination*—English Vernacular Composition Chemistry Physics and Mathematics

The following combinations of subjects are admissible —

Intermediate in Arts

English and Vernacular with—

1 Mathematics Logic and Physics
2 Mathematics Logic and Sanskrit or Persian
3 Mathematics Logic and Chemistry
4 History Logic and Sanskrit or Persian
5 Chemistry History and Sanskrit or Persian
6 Chemistry Logic and Sanskrit or Persian

Intermediate in Science

English and Vernacular with Mathematics Physics and Chemistry

B A (Pass and Honours)

All possible combinations of subjects are permitted

B Sc (Pass and Honours)

Physics Chemistry and Mathematics (Pass and Honours)

The monthly tuition fee is Rs 6 The annual fee for games is Re 1 4 and for the common room Re 1 The admission fee for new students is Rs 7 including Re 1 for the Athletic Club

There are two hostels attached to the College—one for Hindu and the other for Muhammadan students The hostels are situated close to the College and the river The health of the locality has greatly improved owing to the recent installation of the water works in Hooghly No seat rent is charged in either hostels The messing and establishment charges of the Hindu Hostel amount to about Rs 10 8 and those of the Muhammadan Hostel about Rs 7 8 per month

THE INDIAN LAW REPORTS

Published in FOUR SERIES viz

CALCUTTA MADRAS BOMBAY AND ALLAHABAD

THE Indian Law Reports, published under the authority of the Governor General in Council are printed in monthly Parts which are issued as soon as possible after the first of each month at Calcutta Madras Bombay and Allahabad respectively

The Reports comprise four Series—one for the Calcutta High Court a second for the Madras High Court a third for the Bombay High Court, and a fourth for the Allahabad High Court

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt and the Madras, Bombay and Allahabad Series are distributed direct from Madras Bombay and Allahabad respectively

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officiating Superintendent Government Printing Bengal Secretariat Book Depôt Calcutta or
the Superintendent Government Press Madras or
the Superintendent Government Press Bombay or
the Director of Government Books United Provinces of Agra and Oudh Allahabad

STARRED QUESTIONS

By the Hon'ble NAWAB SAIYID NAWAB ALI CHAUDHURI KHAN BAHADUR —

*1 (*a*) Are the Government aware that, in the course of the present record of rights operations in Eastern Bengal some temporarily settled estates of which zamindars were settlement holders have been made *khas* under the proviso to section 3 of Bengal Regulation VII of 1822?

Questions and Answers

(*b*) If so, will the Government be pleased to state how many estates have been so ordered to be held *khas* in Bengal during the last five years, giving in each case full particulars and the grounds for taking such steps ?

(*c*) On how many occasions has the authority vested in Government of causing such mahals to be held *khas* under the proviso to section 3 of Bengal Regulation VII of 1822 been exercised since the enactment of the said Regulation, and on what grounds ?

(*d*) What is the process of inquiry, if any on which the report of the Revenue authority is based as to the circumstances necessitating such interference under the said proviso ?

(*e*) Are the zamindars or other proprietors allowed to be represented at such an inquiry or is such inquiry made *ex parte* ?

(*f*) Were the zamindars allowed to be so represented in the instances referred to in clause (*a*) of the question ? If so at what stage ?

(*g*) Who is the final authority in these matters for the purpose of depriving zamindars and other proprietors of the management of temporarily settled estates ?

(*h*) In the present operation did this authority make any independent inquiry into the allegations against the proprietors before order is were passed on each case ?

The Hon'ble Mr. BIRLEY replied —

"(*a*) In the course of the preparation of a record of rights in Eastern Bengal two temporarily settled estates have been ordered to be held *khas* under section 3 of Bengal Regulation VII of 1822

(*b*) During the last five years six estates in Bengal have been ordered to be held *khas* under section 3 of Bengal Regulation VII of 1822

A statement containing particulars is laid on the table

(*c*) Government are not prepared to compile the statistics asked for on the grounds that to do so would involve the examination of records extending over 93 years and that it does not appear that the utility of the statistics would be commensurate with the labour involved in compiling them

(*d*) No process of inquiry is prescribed by law nor have Government prescribed any process by rule

(*e*) It is the usual practice to give the parties an opportunity of being heard

(*f*) In the two cases mentioned in the reply to clause (*a*) of this question the parties were heard by the Settlement Officer and the Director of Land Records in one case and by the Settlement Officer and the Board of Revenue in the other case

Government have recently requested the Board to give the parties a hearing in every case

(*g*) Government are the final authority

(*h*) Government did not order further inquiry before passing orders in the cases referred to in both of the cases the Board of Revenue the Commissioner the Director of Land Records, the Collector and the Settlement Officer had recommended that the estates should be held *khas* and the facts were fully set forth in the proceedings Government are not in the habit of instituting inquiries independently of their own local officers into matters with which the latter are competent to deal "

Questions and Answers

Statement referred to in the Answer by the Hon ble Mr Birley *to Question No 1 (b) (starred) asked by the* Hon ble Nawab Saiyid Nawab Ali Chaudhuri *at the Council Meeting of the 3rd April 1916*

Number	Jamabandi number of estate	Number and date of notification under which proceedings have been taken	Period for which it was directed that estate should be held	Ground of order
Noakhali	1560	1842 B dated September 1911	12 years	That management by the proprietors would endanger the public tranquillity and be otherwise seriously detrimental
Khulna	1745	1554 B dated July 30 1913	3	
Midnapore	2035	8010 B dated September 1914	12	That management by the proprietor would be seriously detrimental
Do	2610		12	
Dacca	8442	2840 B dated March 15 1915	12	That management by the proprietor would endanger the public tranquillity and be seriously detrimental
Do	9083	781 B—dated June 2 1911	12	That management by the proprietors would be seriously detrimental

By the Hon ble NAWAB SAIYID NAWAB ALI CHAUDHURI, KHAN BAHADUR —

*2 (*a*) Will the Government be pleased to state whether it is a fact that in certain Eastern Bengal districts where settlement and record of-rights operations are going on, commutation is being made of rent paid in kind on the application of tenants under section 40 of the Bengal Tenancy Act 1885 (VIII of 1885)?

(*b*) Is it a fact that in some cases the share of the produce due to a landlord under a *burga* lease is for this purpose being treated as a rent in kind?

(*c*) Are the Government aware that such steps if taken by the Settlement authorities, will cause great hardship to a large number of people?

(*d*) Will the Government be pleased to state whether similar attempts were made in the district of Bakarganj during the last settlement operations for commutation of rent, also, whether Mr Savage submitted an elaborate report on the subject upon which the said attempts were given up?

(*e*) If the answer to the foregoing question be in the affirmative, will the Government be pleased to state what action, if any they are taking in this matter in the light of Mr Savage's report?

(*f*) Will the Government be pleased to lay on the table a copy of Mr Savage's report together with all connected papers?

The Hon ble MR BIRLEY replied —

(*a*) Yes

(*b*) Yes

(*c*) Commutation proceedings are not taken up by the Settlement authorities on their own motion but on the application of the landlord or tenant as provided by law Where the tenants are aware of their right to apply they are generally eager to do so Landlords generally dislike commutation proceedings

Questions & Answers

(*d*) In 1908 Mr Savage stopped commutations in Bakarganj pending the result of an inquiry which ended in 1913

(*e*) In 1914 the Director of Land Records with the approval of Government issued certain instructions regarding commutation

A copy of the instructions is laid on the table

(*f*) The Hon'ble Member is referred to the Final Report on the Survey and Settlement operations in the Bakarganj district

Copy of the instructions referred to by the Hon'ble Mr Birley *in his answer to Question No 2 (e) (starred) asked by the* Hon'ble Nawab Saiyid Nawab Ali Chaudhuri Khan Bahadur *at the Council Meeting of the 3rd April 1916*

1 Under section 40 (6) of the Bengal Tenancy Act the Revenue Officer if he considers that it would be unreasonable to grant an application for commutation can refuse it In the exercise of this discretion he should be guided mainly by the considerations whether the commutation would be a hardship to the landlord or tenant or whether the land is in a fit state to bear a cash rent The following are examples of cases where it would be *prima facie* equitable to refuse commutation —

(1) Where the landlord is unable to cultivate personally and is dependent for his livelihood on the produce rent *e g* the landlord is a minor orphan or widow and on account of this fact does not and cannot cultivate the land personally

(2) Where owing to the land being under reclamation and the crop uncertain it would be more equitable to wait until the land had been developed before fixing a rent

(3) Where the raiyat has again sublet the land on a produce rent or his landlord pays his rent or a substantial portion thereof in produce

2 Section 40 lays down the points to which the Revenue Officer must have regard in determining the sum to be paid as a money rent The following circumstances should also be borne in mind —

(1) In having regard under section 40 (4) (*a*) to the money rent payable by occupancy raiyats the Revenue Officer may also consider (*a*) whether such rent would at the time be liable to enhancement under the provisions of the Bengal Tenancy Act and (*b*) the present money rents at which new settlements of similar lands with similar advantages are made in the neighbourhood

(2) In having regard under section 40 (4) (*b*) to the average value of the rent actually received by the landlord the Revenue Officer should also consider whether such average value has been unduly inflated on account of the production of a special crop for which high but fluctuating prices have been received or on account of high prices ruling in exceptional years or on account of other exceptional circumstances

(3) The Revenue Officer will also have regard to the fact that on commutation the landlord is relieved of the cost of carriage and storage of the crop and of the risks incidental thereto

(4) In having regard under section 40 (4) (*d*) to the improvements effected by a tenant if the tenant has by his own exertions reclaimed culturable land out of waste he is entitled to favourable consideration

(5) The money rent should according to circumstances be ordinarily fixed at the average money rent payable by occupancy raiyats for lands of a similar description and with similar advantages in the vicinity *plus* a suitable proportion of the difference between it and the average value of the rent received by the landlord It should be remembered that a rent exceeding one fifth of the value of the gross produce is ordinarily excessive and the rent settled by commutation should not exceed such a value except for special reasons which must be fully recorded

By the Hon'ble NAWAB SAIYID NAWAB ALI CHAUDHURI, KHAN BAHADUR —

* 3 (*a*) Will the Government be pleased to state the number of students on the rolls of the Upper and Lower Subordinate Sections (civil side—corresponding to the Overseer and Sub Overseer courses) of—

(*i*) the Sibpur Engineering College, and

(*ii*) the Dacca School of Engineering

for the last five years ?

Questions & Answers

(*b*) What is the total average expenditure entailed upon Government for the maintenance of each of these institutions as compared with the receipts therefrom ?

The Hon'ble Mr DE replied —

(*a*) A statement giving the required information is laid on the table

(*b*) The total annual average expenditure for the maintenance of each of these institutions and of receipts therefrom is given below —

	Expenditure	Receipts
	Rs	Rs
Civil Engineering College Sibpur	2 01 605	29 466
Dacca School of Engineering	91 947	10 001

The figures for the expenditure on the Civil Engineering College Sibpur include the cost of the Electrical Mining and Dyeing Departments and also of the University classes in Civil Engineering

Statement referred to in the answer by the Hon'ble Mr De *to Question No 3 (starred) asked by the* Hon'ble Nawab Sayid Nawab Ali Chaudhuri Khan Bahadur *showing the number of students in the rolls of the Sub Overseer and the Civil Branch of the Overseer classes of the Sibpur Engineering College and the Dacca School of Engineering for the last five years*

Name of Institution	SUB OVERSEERSHIPS		OVERSEERSHIPS	
	First year	Second year	Third year	Fourth year
1911 12				
Civil Engineering College Sibpur	41	64	34	32
Dacca School of Engineering	15	62	27	59
1912 13				
Civil Engineering College Sibpur	8	57	39	36
Dacca School of Engineering	20	18	54	29
1913 14				
Civil Engineering College Sibpur	29	43	42	25
Dacca School of Engineering	19	60	42	58
1914 15				
Civil Engineering College Sibpur	23	32	27	25
Dacca School of Engineering	23	41	47	40
1915 16				
Civil Engineering College Sibpur	19	28	22	17
Dacca School of Engineering	25	39	17	42

By the Hon'ble NAWAB SAIYID NAWAB ALI CHAUDHURI, KHAN BAHADUR —

* 4 (*a*) Is it a fact that an Electrical Department has been opened at Sibpur in connection with the Upper Subordinate Section ?

(*b*) If so, will the Government be pleased to state—

(*i*) the preliminary qualifications necessary for students, and the course prescribed , and

(*ii*) the positions which the students who pass out of that department are expected to secure, and the emoluments thereof ?

(*c*) Was the Electrical Department connected with the Dacca School of Engineering of the same standard as the Electrical Department at Sibpur ?

Questions & Answers

(*d*) Is it a fact that the Electrical Branch of the Dacca School of Engineering was showing satisfactory results when it was ordered to be closed?

(*e*) What additional cost would it entail if an Electrical Department were maintained in connection with the Dacca School of Engineering?

(*f*) Are the Government considering the desirability of reopening the Electrical Classes at Dacca?

The Hon'ble MR DE replied —

'(*a*) Instruction in Electrical Engineering has been given in connection with the Upper Subordinate classes of the Civil Engineering College, Sibpur since 1896

(*b*) (*i*) The preliminary qualifications for admission are the passing of the Matriculation Examination or the School Final Examination of the B classes of Zilla and High English Schools

The course prescribed is one of three years at the College followed by one year of practical training at the College or elsewhere

(*ii*) No guarantee is given to the students who pass out of this Department that they will obtain Government appointments but they usually obtain employment on an initial pay of Rs 80 to Rs 100

(*c*) The standard of training in the two institutions has not been the same Neither in staff nor in equipment was the Electrical Department of the Dacca School of Engineering equal to that of the Sibpur College

(*d*) The results shown in the Electrical Department of the Dacca School of Engineering were satisfactory, considering the limitations in the staff and equipment of that institution But only eight students have completed the course of instruction provided in this branch since 1913

(*e*) The cost of re establishing the Electrical Department at the Dacca School of Engineering on its former basis would be Rs 2 400 annually for staff besides contingent expenses but both staff and equipment would have to be improved very much if the Department were to be continued and this improvement would involve large additional expenditure both capital and recurring

(*f*) The answer is in the negative

By the Hon'ble NAWAB SAIYID NAWAB ALI CHAUDHURI, KHAN BAHADUR —

*30 (*a*) Is it a fact that an Electrical Power-house was erected within the Dacca College compound some time ago? Electric house Colle

(*b*) If so what was the cost incurred in the erection of the Power-house including the equipment and for what purpose was it erected?

(*c*) For what period was the College Power house worked, when was it closed and for what reason?

(*d*) To how many places did the College Power-house supply electricity, what was the total quantity so supplied, and what was the maximum capacity of the Power-house?

(*e*) What was the annual cost of its upkeep and maintenance?

(*f*) Is it a fact that since the closing of the College Power house, Messrs Octavius Steel & Co have been supplying electricity to the places which used to be served by it? If so, what do they charge annually for such supply?

(*g*) To what use are the College Power-house and its equipment now being put?

Questions & Answers

(*h*) Are the Government bound by any agreement with Messrs Octavius Steel & Co to take any supply of electricity from them ?

(*i*) Are the Government considering the desirability of continuing to utilise the College Power-house for the purpose of supplying electricity within the area of the new town at Dacca ?

The Hon'ble Mr GREEN replied —

'(*a*) Yes in 1909

(*b*) The cost was—

	Rs
Buildings	26 703
Machines equipment and electrical power plant	1 00 019
Well and water supply	14 824
Total	1 41 546

The plant was erected to supply energy for lights and fans in the College and School of Engineering buildings for machines in the School workshop and for instructional purposes connected with the School

(*c*) The College installation was worked from 20th June 1909 to 13th May 1913 It was closed for reasons of economy when a new arrangement was made with the Dacca Electric Supply Company Limited

(*d*) The College installation supplied energy to the Dacca College building Science laboratory Hostel and Superintendent's quarters to the Engineering School workshops School buildings Hostel and Superintendent's quarters to the residences of the Principal and Senior Professor of the College and to those of the Head Master and Foreman Instructor of the Engineering School For nearly two years prior to closing energy was also supplied for fans and lights in the Eastern Bengal and Assam Secretariat Press and residences of Hon'ble Members of Council pending the opening of the Dacca Electric Supply Company's new power plant The total quantity of energy supplied varied for the Dacca College and Engineering School requirements the average annual output was 38 000 B O T units and for other Government purposes named in the foregoing reply the average was 29 000 B O T units annually The highest output in any one year was 67 000 B O T units approximately The maximum capacity of the plant is 113 5 kilowatts

(*e*) The annual cost of maintaining and working the plant was Rs 17 900 approximately while repairs to the buildings have cost Rs 606 in the five years since they were opened

(*f*) Yes• The charge is at fixed rates The amounts paid since May 1913 in respect of the places in question are as follows —

	Rs
From May 1913 to April 1914	7 005
From May 1914 to April 1915	7 526
From May 1915 to February 1916	8 042

(*g*) The College power plant is not at present being put to any use the small rooms attached to the power house are used as store rooms in connection with the Engineering School

(*h*) Yes A copy of the agreement dated 15th March 1913 is laid upon the table

(*i*) No

Questions and Answers

Agreement referred to by the Hon ble Mr Green *in his answer to Question No 5 (starred) asked by the* Hon ble Nawab Sayid Nawab Ali Chaudhuri, Khan Bahadur, *at the Council Meeting of the 3rd April 1916*

THIS AGREEMENT made this 15th day of March one thousand nine hundred and thirteen BETWEEN THE SECRETARY OF STATE FOR INDIA IN COUNCIL (hereinafter called the Secretary of State) of the one part and THE DACCA ELECTRIC SUPPLY COMPANY LIMITED a company registered under the Indian Companies Act and having its registered office at 14 Old Court House Street in Calcutta (hereinafter called the Company) of the other part WHEREAS the Company was incorporated for the purpose (*inter alia*) of carrying on in the Empire of India the business of an electric light and power company AND WHEREAS the Company issued a prospectus in which it was stated that it was primarily intended that the Company would undertake the supply of electrical energy in the new Civil Station and in the old town of Dacca and that in furtherance of that purpose it had been arranged to take over the license under the Indian Electricity Act granted by the Local Government to Messrs Octavius Steel & Co and in the said prospectus the chief reason put forward for anticipating that the Company could profitably carry on business was the demand for electric current in Government buildings erected or then in the course of erection on the probable development of Dacca due to its position as headquarters of the Government of Eastern Bengal and Assam AND WHEREAS relying on the said prospectus a number of persons subscribed for and took up shares in the Company AND WHEREAS the said license was with the previous consent of the Government duly assigned to the Company AND WHEREAS the abandonment of Dacca as the headquarters of the Local Government materially altered the prospects of the Company and the Managing Agents thereupon informed the Government through the Commissioner of Dacca that although a considerable amount of money had already been spent by the Company they considered it their duty to advise the shareholders to proceed to liquidation unless the Government was prepared to guarantee the Company in some way AND WHEREAS the Secretary of State considering it to be for the benefit of the public that the Company should commence and carry on its business has agreed to guarantee that 1 20 000 units of electricity shall be consumed annually for a period of ten years in Government offices and in certain buildings in which the Government is interested on certain conditions hereinafter set out

Now it is hereby mutually agreed as follows —

1 The Secretary of State hereby agrees and warrants that if the Company shall duly maintain the supply the amount of electricity which shall be consumed in each and every year for ten years commencing from the first day of April 1913 or such subsequent date to be advised by the Company from which the Company will give a regular supply of current in Government offices Government residences occupied by Government Officers offices or residences leased by Government for occupation or use of Government Officers and in educational institutions managed or aided by Government in the town of Dacca shall not be less than 1 20 000 units PROVIDED ALWAYS that the Company shall not be held to have failed in duly maintaining the supply by reason only of occasional short stoppages thereof and in the event of any such stoppages occurring a proportionate deduction shall be made from the annual total number of units that is to say (*a*) if the total number of units supplied apart from stoppages shall exceed 1 20 000 the Secretary of State shall pay only for so many as may be actually supplied (*b*) if the total number so supplied shall be less than 1 20 000 but would have been 1 20 000 or more but for such stoppages the Secretary of State shall pay only for so many as may be actually supplied (*c*) if the total number that would have been supplied even if there had been no such stoppages be less than 1 20 000 the Secretary of State shall pay only a sum representing the price of 1 20 000 units less so many units as ought to have been supplied during the period of such stoppages For the purposes of (*b*) and (*c*) the number of units that ought to have been supplied during stoppages shall be taken to be such proportion of 1 20 000 as the total number of hours of stoppage shall bear to the total number of hours in the year If the number of stoppages in any year shall be excessive the guarantee contained in these presents shall cease for that year and in the event of there being any difference of opinion as to what shall be excessive the question shall be referred to arbitration under clause 6 of these presents

2 That if during the said period of ten years the amount of electricity so consumed as aforesaid in any one year shall be less than 1 20 000 units the Secretary of State shall at the expiration of such year pay to the Company for every unit by which the amount so consumed is less than 1,20 000 units a sum equivalent to the average rate per unit paid in respect of the amount actually consumed during that year in the buildings specified in the foregoing clause

3 The Company shall afford such facilities as may be considered necessary for the training of students at the Company s Power House The Company shall not be bound to admit such students to the said Power House unless under the charge of a Professor nor shall they be bound to admit more than ten students at any one time

Questions and Answers

4 The Secretary of State will indemnify the Company and all persons employed on its staff against all actions suits claims and demands which may arise owing to loss of life or accident to any student so admitted to the said Power House as aforesaid except when occasioned by any negligence on the part of the Company

5 The Company's said Power House building shall be constructed in accordance with the design and on the site approved by the Secretary of State

6 If any doubt difference or dispute shall arise between the said Company and the said Secretary of State touching the construction of this agreement or any thing herein contained or touching or concerning any other matter or thing relating thereto then and in every such case such doubt difference or dispute shall be referred to the arbitration of two persons one to be chosen by the said Company and the other by the said Secretary of State within one calendar month after either of them shall have made to the other a requisition to that effect and should the arbitrators fail to agree they shall refer the question or questions at issue to the decision of an Umpire to be chosen by the said arbitrators and the decision of such arbitrators if they agree or of such Umpire if they disagree shall be final and in case either party shall neglect or refuse to appoint an arbitrator within the specified time the arbitrator appointed by the other party shall make a decision alone and the decision of such arbitrators Umpire or arbitrator as the case may be shall be effectual and binding upon both parties

As WITNESS the hands of the parties the day and year first above written

By the Hon'ble MAHARAJA RANAJIT SINHA of Nashipur —

*8 Will the Government be pleased to state whether they are considering the desirability of issuing instructions to all District Boards to spend a substantial proportion of the Public Works Cess, which was recently made over to them, towards the supply of good drinking water in rural areas and the improvement of other sanitary measures?

Questions and Answers

The Hon'ble MR DE replied —

District Boards were recently advised to spend freely from the Public Works Cess on the excavation of tanks in rural areas (A copy of Circular No 2319 23 L S G dated the 25th September 1915 is laid on the table) Government have not at present under consideration the issue of further orders affecting the discretion of the District Boards in the use of local funds derived from the Public Works Cess

Circular No 2319 2 L S G dated the 25th September referred to in the Answer by the Hon'ble Mr De *to Question No 8 (starred) asked by the* Hon'ble Maharaja Ranajit Sinha of Nashipur *at the Council Meeting of the 3rd April 1916*

No 2319 23 L S G dated Calcutta the 25th September 1915

From—The HON'BLE MR K C DE CIE ICS Offg Secretary to the Government of Bengal Municipal Department

To—All Commissioners of Divisions

I AM directed to refer to Government order No 980 L —M dated the 3rd November 1913 addressed to the Accountant General Bengal a copy of which was forwarded to you with memorandum Nos 981 85 L —M dated the 3rd November 1913 It was intimated in this letter that the Public Works Cess for the year 1913 14 should be given to District Boards unconditionally but that the question whether conditions would be imposed in future years or not was under the consideration of Government Subsequently in Mr Sammin's letter Nos 388 92 M dated the 7th February 1914 to your address it was stated that His Excellency in Council desired to impress upon the District Boards the importance of setting apart a substantial sum out of the income enhanced by the surrender of the Public Works Cess for the sanitation of villages and small towns for the improvement of water supply and for anti malarial operations

2 It has been the consistent policy of Government to reserve to themselves the powers of earmarking a portion of the Public Works Cess for the improvement of the water supply and similar objects Accordingly in the Bill which was drafted to amend the Bengal Cess Act in order to give legal effect to the localization of the Public Works Cess Government reserved to themselves the power of making rules to prescribe the objects on which this cess should be spent and the manner and proportion in which this expenditure should be distributed The amendment of the Cess Act has however been held in abeyance pending the consideration of the recommendation of the District Administration Committee In the meantime the Governor in Council desire to draw the attention of District Boards to the recommendation of that Committee for the utilization of the Public Works Cess in financing unions under the Local Self Government Act and to warn them against any increase in establishment or other recurring expenditure which may absorb a large part of the additional income

3 With regard to the expenditure of the current year in view of the distress in rural areas caused by heavy floods and the decline in the price of jute the Governor in Council desires to impress upon all District Boards the desirability of spending large sums of money in the excavation of tanks in rural areas The comparative cheapness of labour should make it possible for a much needed improvement in this respect to be effected at a minimum of cost while under systematic control such works should go far to relieve local distress by affording employment for the labouring classes in want With this object attention should be paid to the employment as far as possible of local rather than imported labour Wherever the condition of the locality requires the rule insisting on the contribution of a third of the cost of works on water supply should be relaxed In the opinion of His Excellency this enterprise will afford suitable opportunity to District Boards for the proper utilization of their surplus balances and the additional resources placed at their disposal

4 I am accordingly to request that the attention of the District Boards in your Division may be drawn to this important matter at an early date

By the Hon'ble MAHARAJA RANAJIT SINHA of Nashipur —

*9 Will the Government be pleased to state whether any progress has been made with the proposed waterworks scheme for the Murshidabad and Azimganj Municipalities ?

The Hon'ble MR DE replied —

'A joint scheme for the water supply of Murshidabad and Jiaganj, at an estimated total cost of Rs 2 14 000, has been referred by the Sanitary Engineer for the consideration of the Murshidabad Municipality A sketch project for supplying Azimganj with water from the river Bhagirathi, at an estimated cost of Rs 44 000 has been prepared by the Sanitary Engineer for

Questions and Answers

the consideration of the Azimganj Municipality A contribution of Rs 23,000 has since been promised by a private gentleman, on condition that a supply should be obtained from artesian wells, and not from the river and inquiries have been made of the Azimganj Municipality as to whether they are willing to finance the trial borings necessary for an opinion to be formed as to the prospects of artesian wells in this locality"

By the Hon'ble BABU UPENDRA LAL RAY —

* 10 (*a*) Will the Government be pleased to state what steps they have taken for the prevention of the *ufra* paddy disease especially in the Chittagong Division where it is very prevalent ?

(*b*) Is the work of combating this disease carried on under the control and supervision of the expert staff of the Department of Agriculture ?

(*c*) If so, will the Government be pleased to state exactly what methods that department employs to fight the disease and what have been the results achieved ?

The Hon'ble MR BIRLEY replied —

'(*b*) The work of combating the *ufra* disease of paddy is carried on under the control and supervision of the expert staff of the Department of Agriculture

(*a*) and (*c*) Definite results have not yet been achieved The following steps have been taken to combat the disease —

(1) The Economic Botanist has been conducting experiments with the object of discovering a variety of paddy which is immune from the disease some hopeful results have been obtained with varieties which ripen early in the season before the attacks of *ufra* become virulent but there is as yet no reason to believe that any variety is entirely immune

(2) With a view to encouraging raiyats to resort to early and repeated ploughing as a means of eradicating the disease Government allotted Rs 4 000 for expenditure in the Dacca and Chittagong Divisions on grants to raiyats the results of these experiments will not be known until next September when the attacks of *ufra* usually begin

(3) The Economic Botanist continued his experiments in the districts of Dacca Tippera and Noakhali in early and repeated ploughings

(4) A survey of the infected tract in Dacca district has been taken up with the object of getting accurate information and of learning whether the disease is spreading

Government fully recognize the serious loss which is caused and have impressed on their officers the necessity for unremitting attention to the disease"

UNSTARRED QUESTIONS

By the Hon'ble MAHARAJA RANAJIT SINHA of Nashipur —

'1 Will the Government be pleased to lay on the table a statement showing the amount spent by each District Board during the last three years for the supply of good drinking water in rural areas ?

The following answer by the Hon'ble MR DE was laid on the table —

"Particulars as to the amount spent by each District Board on the water supply during the years 1913-14 and 1914-15 will be found in the answer given to a similar question (No III unstarred) asked by the Hon'ble Raja Mahendra Ranjan Ray Chaudhuri at the Council Meeting of the 13th March last. Particulars regarding 1912-13 will be found in columns 95 and 96 of Form No. III appended to the Resolution on the working of the District Boards in Bengal for that year, a copy of which is laid on the table.

Questions and Answers

By the Hon'ble RAI PRASANNA KUMAR RAY BAHADUR —

II (*a*) Will the Government be pleased to state whether the pay of the following Deputy Collectors is paid by Government —

Babu Prasanna Kumar Das Gupta, Minister to the Raja of Hill Tippera,
" Charu Chandra Chatterjee Secretary to the Calcutta Corporation,
" Nibaran Chandra Ghatak Municipal Magistrate Calcutta, and
" Devendra Prasad Roy, Assessor to the Calcutta Corporation ?

(*b*) If not, have any sub *pro tem* promotions been made in temporary vacancies in their places ?

The following answer by the Hon'ble MR KERR was laid on the table —

'(*a*) The answer is in the negative These officers are treated as on Foreign Service and under Article 758 of the Civil Service Regulations they draw salary from their actual employers

(*b*) The answer is in the negative These officers are not on deputation within the meaning of Article 77 of the Civil Service Regulations, as there is provision in the cadre of the Provincial Civil Service for the appointment of officers to perform the duties on which the officers named are employed Sub *pro tem* appointments cannot therefore be made in the place of these officers under Article 90 of the Civil Service Regulations Attention is invited to the answer given to a similar question (No XVII) on the 13th March, 1916

By the Hon'ble BABU UPENDRA LAL RAY —

III (*a*) Will the Government be pleased to lay on the table a statement showing the results of the demonstrations of the Fibre Experts jute seeds as carried on by the officers of the Department of Agriculture during the years 1914 and 1915 ?

(*b*) Will the Government be pleased to state what further steps, if any, they have taken to test the Fibre Experts jute seeds on the raiyati fields this year ?

The following answer by the Hon'ble MR BIRLEY was laid on the table —

"(*a*) In 1914 the jute seed selected by the Fibre Expert was being tested at the Dacca Farm and experiments on raiyats fields were not made

In 1915 the seed was tested in raiyats fields alongside of similar fields of the same area in which the raiyats seed was sown The selected seed is known as *Kakya Bombai* and is of the *capsularis* variety which is chiefly grown in the districts of Eastern Bengal In those districts the results were generally favourable to the selected seed and a considerable demand for the seed has arisen In Western Bengal where *olitorius* jute is generally grown the results were not so favourable to the selected seed The results and the method adopted in obtaining them have been considered by Government and Government do not think that it has yet been possible to ensure sufficient accuracy to make it desirable to publish them in detail

(*b*) The experiments will be continued in 1916 and if Government are satisfied that the results are sufficiently accurate to afford ground for a definite conclusion they will be published

By the Hon'ble BABU UPENDRA LAL RAY —

IV Will the Government be pleased to lay on the table a statement giving particulars as to the number cost and result of cases in connection with political crimes which were dealt with in Bengal during the period 1905-1915 ?

The following answer by the Hon'ble MR KERR was laid on the table —

'524 cases believed by the police to be concerned with the revolutionary movement were dealt with between 1905 and 1915 Of these cases, 205 ended in the conviction of the accused and 97 in the acquittal or discharge of

The Budget

Nawab Bahadur of Murshidabad

the accused In 53 cases some of the accused were convicted and others acquitted or discharged Thirteen cases were withdrawn and 155 were not brought before the Courts The cost incurred in the prosecution of these cases by the employment of special Counsel and pleaders, other than the ordinary prosecuting staff, was Rs 9,71 569 in respect of cases in the High Court and Rs 12 31 688 in respect of cases in other Courts These figures do not include expenditure in Eastern Bengal districts from 1905 to 1912, information regarding which is not immediately available

LIST OF BUSINESS—ITEM No. 3

DISCUSSION OF THE BUDGET OF THE GOVERNMENT OF BENGAL FOR 1916 17

The Hon'ble NAWAB BAHADUR of Murshidabad said —

"My Lord,

When I had the opportunity of speaking last year, I hoped that by the time the next annual discussion on the Budget came round, we might have seen the end of the war and the re-establishment of financial equilibrium Unfortunately, we are not yet within sight of the end of the war and the clouds that darken the horizon though they show unmistakeable signs of clearing up, have hardly yet dispersed Indeed the marvel is that so widespread and fierce a conflict, in which six great Powers of the world are recklessly sacrificing men and money, has lasted so long I fervently pray that victory, for which we have waited patiently for so long, may soon be realised

For the first time, the Government of India have been compelled to announce what may be called a war tax The inference therefore, is irresistible that a rigid economy has become imperative and will be inevitable for some years to come It is admitted that the situation has been full of difficulties The Finance Member is to be congratulated therefore, for the very genuine effort on his part to rise to the needs of the occasion The pains that he has undoubtedly taken to practise economy will certainly be appreciated rather than resented

It is not my present purpose to go into any detailed criticism of the present Budget which offers few points of controversy On the contrary, looked at as a whole, the figures, I think are very hopeful and encouraging

The closing balance of the last year now revised shows a satisfactory increase of nearly 16 lakhs in spite of the actual opening balance of 1914 15 being worse by 9 lakhs The revised receipts of the last year show a commendable increase of just over 5 lakhs whereas on the expenditure side, there is further retrenchment of over 19½ lakhs

The improvement in receipts has been mainly contributed by the heads, Land Revenue, Stamps Provincial Rates Income tax and Jails Of these the increase under the heading Stamps is very noticeable

The reopening of the share market as well as the partial excitement of the jute trade in general were responsible for the handsome increment under Stamps The substantial improvement in Land Revenue is to a great extent due to recovery of the trade etc but the reason for the improvement in collections of ordinary revenue in the face of prevailing distress in certain parts of the Province is not very clear

The most notable reductions are in Excise The progressive increase under this head of Revenue was for years viewed with very great dissatisfaction by many, whether advocates of temperance or otherwise, We are told that it is force of necessity and economic conditions arising from a state of war that account for the disinclination of the people towards exciseable articles It can only be a matter of conjecture whether this forced habit will be followed by an accustomed sobriety on their part It is believed in some quarters that the scale of excise rates have been so graduated as to exercise a salutary check on indiscriminate consumption, the minimum of which was

The Budget

Nawab Bahadur of Murshidabad

sought to yield the maximum of revenue Not often has the judgment of Government been more completely justified

The Government have evidently endeavoured to steer a safe course by making further curtailments in expenditure last year, so that a respectable balance may fairly be expected for opening the account next year One cannot but deplore, however, the savings under the heads Education and Sanitation, which mean that both of these much needed and useful schemes for the physical and intellectual well being of the people, have suffered and will continue to suffer from postponement The scourge of malaria, the vast illiteracy of the masses, the urban and the rural water supply, and the extremely strained conditions of the people owing to the prevailing famine prices, form the favourite subjects that have been reiterated year after year in the annual Budget debate of the Council

The need for economy at such a time as this, will, I think, hardly be disputed by any reasonable individual One would have liked to see therefore, the same zeal on the part of the Finance Member to exercise that stringent test in the region of administration charges which are by no means an easy burden on the Public Exchequer In accordance with the general policy of economy when all proposals for fresh expenditure in connection with educational and sanitary schemes are being negatived or deferred, and all extravagances of other departments have been suspended reductions should surely be expected in the figures under the heads General and District Administration Charges A measure such as this would naturally be unpleasant to those concerned, but this is obviously essential at the present time I therefore, regret to be obliged to say that if there is one unhappy feature in connection with the new Budget it is that no attempt in the manner indicated has been made to prevent the interruption of the beneficial projects I have referred to above

The revised expenditure for the head Police shows an increase of about 5 lakhs over the Budget for 1915 16 due to adjustments and the appointment of another Deputy Inspector General In spite of too generous a treatment accorded to this department, there is still room for better improvement in the police administration on which the public safety is dependent Let us hope and trust that your Excellency's memorable address last year to the students of the Saidah Police Training College may always remain a guiding principle to this class of public servants who are proud to bear the name of guardians of the peace

Many of the proposals in the Budget Estimates for 1916 17 will, in the special circumstances of the year, command a general approval The estimates for the next year disclose the fact that receipts have been calculated on the basis of the minimum that could be expected in the existing disturbed conditions, and the expenditure on two guiding principles, firstly that provincial expenditure should not exceed the total provincial income, that is, to leave the balances untouched, and secondly, that every new scheme unless imperatively necessary or immediately remunerative should be rejected No one will question the necessity of such prudential measures and every one will accept the anticipated burden with perfect composure and cheerfulness

The satisfactory item of this Budget is the announcement of a rather modest allotment for the development of industries A prejudice persisted even up to recent times that agricultural and not industrial ventures are congenial to our soil and temperament Therefore, it is not so much as the amount sanctioned but the visible indication of the Government's policy in future that is so gratifying Sufficient information, however, is not forthcoming as to how this money is going to be utilised The success and failure of this enterprise will be determined very largely by its initial choice of subjects and the way in which they are handled

The Department of Agriculture also is hardly faring better and is really languishing for want of pecuniary assistance which is so necessary for a Province essentially agricultural

The Budget

Raja Hrishikesh Laha

We are passing through critical times We are on the eve of great changes and a new era of commercial and industrial development is about to dawn We are especially glad to see in the new scheme of taxation the first faint suggestion of fiscal arrangements destined to foster Indian industries as well as to raise the revenue of the land I am only expressing the overwhelming sense of public opinion when I say that the people are prepared for any call that may be made upon them for a sustained effort and for continuous self sacrifice We are disposed to be patient and trust that Government will be ready to assume a more generous financial policy when normal times prevail once again

The Hon'ble RAJA HRISHIKESH LAHA said —

"YOUR EXCELLENCY

We are passing through the depressing influence of the present war in Europe casting as it does, its shadow on the Budget for the year 1916 17, which has been presented to the Council by your Excellency's Government Under the orders of the Government of India the Provincial balances which amount to a very large sum cannot be utilized and we are limited only to current and normal expenditure and unavoidable expansion

(At this stage His Excellency left the Council Chamber and the Hon'ble the Vice-President took the Chair)

We have to cut our coat according to our cloth, and to regulate our expenditure according to our income Provisions have indeed been made for certain improvements in a small way but these were only possible in the present circumstances The first and foremost is the provision for the appointment of a Director of Industries which we hope will go some way in helping the establishment of factories for the production of goods which are now imported from abroad We hope the Secretary of State will sanction the new appointment soon so that it may enable the Government of Bengal to commence operations without much delay I have no doubt that the Government of Bengal following in the wake of the Government of the United Provinces of Agra and Oudh by fostering industries which are now in existence and providing facilities for new ones which have not been established for want of proper support and guidance, will confer a much desired benefit on the community which will be greatly appreciated by the people

Since the introduction of the reforms for the patrolling of certain selected streets of Calcutta motor car dacoities here have practically disappeared and I have no doubt that with the introduction of other reforms which are now in the contemplation of Government, there will be an effective check upon the evil which has created a well grounded apprehension in the minds of many well-to-do families in Calcutta The provisions, therefore for an additional Police force, for arming the inspectors and the sub inspectors of the Presidency Police and for the reorganisation of the River Police in Eastern Bengal are steps in the right direction and are expected to be fruitful of beneficial results The creation of a temporary post of Additional Legal Remembrancer for advising and instructing the Police in matters connected with the investigation of dacoities and prosecution of persons concerned therewith, will under proper guidance, help a good deal in reducing the heavy fees hitherto paid to lawyers in bringing the culprits to justice I hope the experiment will prove a success

I am glad to observe that a provision of 2½ lakhs has been made for gratuitous relief which will be needed very much in Bankura but I am not in a position to express an opinion as to whether this sum will be adequate to meet the wants of that district From other sources we hear of acute distress still prevailing there and likely to continue long I hope the Government will be pleased to inform us about the true condition of the district In the Revised Financial Statement, I find that under the heading

The Budget

Maulvi Musharraf Husain

of Interest the amount that will be expected to be realised as interest on advances to cultivators has been put down as Rs 1,40 000 but no provision has been made for takavi advances for affording relief to the people, specially of those parts which have been affected by scarcity I have no doubt that it will meet with the sympathetic consideration of Government should any occasion arise Considering, however, all the circumstances I think that the Budget, as a whole, has provided for most of the requirements if not for all that were considered very urgent and demanded the immediate attention of the Government

The Hon'ble MAULVI MUSHARRAF HUSAIN said —

'Sir, the Budget that has been presented to the Council is one of ordinary income and expenditure The Budget is careful to show that the expenditure decided upon is just necessary to carry on the work of administration efficiently It has therefore left very little room for comment In fact the Budget is conspicuous by the absence of almost any expenditure set apart for any general improvement The problem for 1916 17 is therefore one of standing still For this we have to thank the terrible war that is raging in Europe, which has upset the economic condition of many countries and our case is therefore no exception

Forest

It is a matter for general satisfaction that the Provincial revenues under the principal heads have been increasing year by year despite the war, except for the income from Forest I am sorry to notice that the income under this head has fallen off considerably during the last year and that there is little chance of its recovery during the year under review If the Forest Department worked on a businesslike principle this would never have been the case as the price of iron, which, in many cases is a substitute for sâl timber, specially in the case of buildings, has been doubled If the Forest Department would for the future change their stereotyped way of working I am sure that the Department will succeed in increasing its income or at least succeed in bringing it up to its former level

Registration

Coming to the head Registration, I beg to repeat my request to the authorities to count the services of sub-registrars from the date of their entering into the service and not from the date of the reorganisation of the Department, which is unjust and inequitable The question of increasing the pay of the muharrirs of this Department was discussed in this Council many a time, and I again beg to bring the case of these unfortunate and hard-working people to the notice of the authorities for a favourable and early consideration of their grievances

Education

In reply to an interpellation made in this Council by the Hon'ble Nawab Syed Hossain Haidar Chaudhuri Khan Bahadur the Government replied that there are now 27 high schools in the Presidency which are unable to obtain affiliation for want of funds and other reasons, as the Government are unable to contribute their share at present for the improvement of these schools on account of the war I venture to think that the Government should move the University to be lenient in its demands at present and to alter the Rules so as to meet the special circumstances created by the war I beg to take the liberty of stating here that the object of all Governments is not the safety of life and property alone but its first and foremost duty is the elevation of the people mentally, morally economically and physically The education, health and comfort of individuals, as well as societies and nations, should find their proper place in the budget of any Government When it was found that 27 schools were suffering for want of funds, I should have thought that it was the duty of the Government to have inquired into these cases and helped them The plea that war stands in the way of obtaining 2 to 3 lakhs of

The Budget

Babu Surendra Nath Banerji

rupees for these schools cannot and must not be allowed to hold good If the Government do not agree to spend a few lakhs of rupees more for these infant institutions the University should be compelled to be less exorbitant in its demands during war time

Communications

Turning to the point of communications I beg to request my friend the Hon'ble Mr Green to see if he can in any way help the Indian Tea Planters of the Duars by going to the locality himself and obtaining an idea of what is wanted from personal observation If he would only go there, the Indian Planters would I am sure be able to show him how moderate their demands are and how easily they can be met by a few minor alterations to the alignments already decided upon

The Hon'ble BABU SURENDRA NATH BANERJI said —

"SIR

The Imperial budget has been described, and I take it, rightly described as a war budget Our budget being a part of the Imperial budget, bears upon it traces of the financial stress and strain through which the Empire is now passing Except perhaps in items here and there there is a contraction of revenue and curtailment of expenditure Dealing with the budget, we, representing the educated community feel the deepest possible interest in two items of expenditure viz education and sanitation and we judged the budget by applying this test and by so doing I am constrained to say the result is somewhat disappointing There has been a contraction from year to year in the grant for education I will take the figures for the last three years, and I find that in 1914-15 the actuals were 92 lakhs Whereas the budget estimate for 1915 16 came up to Rs 1 05 62 000 the actuals for 1915 16 were a great deal less than the budget estimate of that year, being Rs 89 69,000 and the budget for 1916 17 shows a still further decline, being only Rs 89,33,000 This decrease, a steady decline in the provision for education compares unfavourably with a similar decline in other parts of India I have got the figures for the rest of India with me, and I will read them out for the information of the Council In Bengal the budget estimates are as I have just read out for 1915-16 1 crore and 5 lakhs for 1916 17 Rs 88,33 000 In Bombay the Budget estimates were for 1915 16 76 lakhs and the estimate for 1916 17 amounts to 77 lakhs that is to say one lakh in excess of the previous year, whereas ours is 20 lakhs short of the budget estimate for the previous year In Madras the budget estimates for 1915-16 amounted to 77 lakhs whereas for 1916 17 they amount to 80 lakhs In the United Provinces it was 67 lakhs for 1915-16 64 lakhs for 1916 17 In the Punjab it was 44 lakhs for 1915 16 and 42 lakhs for 1916 17 In Burma it was 31 lakhs for 1915 16 and in 1916 17 it is practically the same In Bihar and Orissa it was 37 lakhs for 1915 16 and it is practically the same for 1916-17 In the Central Provinces it was 34 lakhs for 1915-16, and 32 lakhs for 1916 17 In Assam it was 15 lakhs for 1915-16, and the same in 1916-17 Sir, that comparison seems to me to be eminently unsatisfactory, and I think that we have legitimate grounds for applying to the Government of India for an enhancement of the budget grant for 1916 17 under this head Coming now to some of the detail figures, under the head of Education I find that for the last three years there has been a steady decline in the grant-in aid for secondary schools and Sir the grant in aid system represents what I may say is the mainstay of the educational movement of the province We find, turning to the budget, page 55 that the actuals for 1914-15 for grants in-aid were 31 lakhs The revised estimate for 1916-17 was 20 lakhs and the budget estimate for 1916-17 is only Rs 14 80,000 I find the sum provided for primary education is a little over 2 lakhs of rupees I am giving the figures in round numbers I am bound to say that primary education has not been making satisfactory progress in this province, and I fear that if a comparison were instituted between the growth and expansion of primary education

The Budget

Babu Surendra Nath Banerji

in Bengal, with the growth and expansion of primary education in other provinces, we will suffer by that comparison The Hon'ble the Director of Public Instruction will be able to confirm me in this statement I do not think we are moving sufficiently fast It seems to me that we are moving more slowly than the other provinces For the past two years we have been told that funds are wanted About two years ago the Government of Bengal submitted certain proposals for the spread of primary education and I should like to know what has been done and what steps have been taken to give effect to those proposals I hope my Hon'ble friend the Director of Public Instruction will be able to give me a satisfactory answer regarding the points that I have just raised A sum of 5 lakhs I notice has been provided for the Belgachia Medical School I am glad that Government have come to the rescue of that institution and are going to redeem their promise From the statements which have appeared in the newspapers, it appears that we have only one qualified medical man on the register to deal with 25,000 persons, and the number of our medical men needs to be supplemented The Government of India have accepted the resolution moved by my friend the Hon'ble Dr M N Banerji to the effect that lower standard schools should be provided for medical education for the benefit of the rural population I know Colonel Edwards takes a deep interest in this matter and I hope and trust that under his auspices we shall soon have a large sum provided for medical schools of this standard so that they may meet the growing requirements of our population Sir I desire to refer to some items of expenditure given on page 4 We find the sum of one lakh of rupees provided for charges under the Defence of India Act I do not think I should be doing justice to my own feelings or of the community that I have the honour to represent in this Council if I did not give expression to the sense of uneasiness—I was going to say the sense of unrest—that has been awakened owing to the large number of internments that have taken place within the last few weeks Only yesterday the relatives of a person who has been interned came to me and wanted to know the head and front of the offence for which the young man had been interned The young man has only recently come back from America and was carrying on a business All of a sudden he was arrested, his house searched and he now finds a place in the Presidency Jail Nobody knows of the charge against this young man and nobody knows what the offence is I do hope and trust that the Government will vouchsafe some information at least to the relatives so as to allay their feelings There is also another point which I desire to bring forward in this connection for the consideration of Government Some at least of those who have been interned have been the bread winners of their families I think that some provision should be made for the maintenance of their families during the period of internment In 1908 when a number of people were deported, I know Government offered to maintain their families The cases are analagous, and something of this kind should be done

In page 5, I find a provision of Rs 7,000 for the distribution of the weekly war news I should like to know the nature of this weekly news I do not know whether the newspapers cannot serve the same purpose, but I hope the hon'ble member in charge will be able to give us some information on that point I find on the same page that provision has been made for the construction of a bungalow for the Assistant Superintendent of Emigration at Goalundo and Rs 3 000 for the removal of his furniture His occupation will soon be gone because indentured labour is doomed, and I hope that within a measurable distance of time it will altogether disappear

I find further on the same page that provision is made for the repairs of certain approaches to ferries and ferry ghats I take it that the proceeds of these ferries are appropriated by Government If I am right in that assumption, I desire to renew my protest against the Government annexing the proceeds of these ferries, because they constitute a local fund, and should belong to the local bodies Their appropriation by the Government seems to me to be in entire conflict with the policy the Government have

The Budget

Maharajadhiraja Bahadur of Burdwan

been following for the last few years The policy of the Government is to help local bodies out of provincial funds, but the process is reversed in this case If Local Self Government is to thrive and prosper then local funds should be supplemented and Local Self Government cannot thrive and prosper if the Local Government were to encroach upon the domain of local finance

Sir I find a sum of one lakh of rupees has been budgeted for the development of industries and Rs 36,000 for the maintenance of a Director I should like to know if the appointment has been sanctioned by the Government of India and if so when we may expect the Director to take charge of his duties As regards the lakh of rupees for the development of industries, I should like to know what has been done to give effect to the resolution which the Government accepted on my motion at the Legislative Council held at Dacca in July last The Government then accepted my resolution that speedy effect be given to Mr Swinis recommendation and I shall be glad if the hon ble member would be in a position to say what has been done in this direction The public demands with unerring emphasis that Government should take an active part in the encouragement and development of our industries and it is largely in deference to that feeling that the Industrial Commission has been appointed by the Government of India, and I understand that the Minto Professor of Economics Mr Hamilton, is to be deputed to Japan to note how industries have been developed by State help All this indicates a departure in the policy of the Government and I hope that my hon ble friend will be able to give us an assurance that something real, something definite, something substantial will be done for the development of our industries

One word more and I have done

I desire to call attention to the question of malaria My hon ble friend to my right* moved a resolution in this Council in which he recommended that a grant of a lakh of rupees should be made for the prevention of malaria That resolution was not accepted by the member in charge He was however good enough to tell us that if definite proposals were forthcoming there would be no difficulty in the way of money It seems to me that my hon ble friend places the responsibility on the wrong shoulders altogether I do submit that it is for the Government and not for the representatives of popular opinion to come forward with definite proposals for the prevention of malaria and it is for the Government to formulate such schemes I know that Government will have to rely upon its experts and I hope that we shall not have to wait till doomsday We have been waiting long, since 1861 when the epidemic first broke out At the present moment it seems to me that there are various conflicting views and some doctors are of opinion that certain things have to be done and others that certain other things have to be done to get rid of malaria Dr Bentley is in favour of the system of what is known as *bona facione*—which is a double system of irrigation and sanitation It has been found to be successful in Italy It may be tried here At any rate Sir, it is a matter of the first importance that something real and something definite should be done, and that our efforts should not be paralysed by the conflicting views of experts holding different opinions on the subject Public opinion is growing impatient, and I presume that the attitude of the Government must also be the same The Government must sympathise with this attitude of public opinion In this matter we have waited long enough and we want that some experiment should be tried—let it be in a limited area Let an announcement be made in this matter, and I hope that my hon'ble friend the member in charge will be able to tell us that Government are prepared to take definite steps and that this work will be taken in hand in the course of a month or so.'

The Hon'ble MAHARAJADHIRAJA BAHADUR OF BURDWAN said —

"SIR,—I do not propose to take up the time of the Council for long I only wish to refer to two items Turning to the head Medical, I find a provision for the Sambhu Nath Pundit Hospital for lady doctors and

The Budget

Babu Upendra Lal Ray

then in another place I find a revised provision for the establishment of nurses lady superintendents, etc I do not know how the nursing system works in Calcutta but I think the time has come for the Government to consider whether these nurses in the male wards of mufassal hospitals are really the ideal thing to have I rather think that the Surgeon General will agree with me that the matter wants consideration Personally if I had to be admitted to a hospital, I would much rather have male attendants than female nurses, and I think that the sentiment regarding nurses in male wards is a thing that has never been thoroughly considered by Government By all means have nurses in female wards and female hospitals and as for the matrons they should not be kept in male wards, for they are a perfect nuisance so far as my experience goes What I really want to do, is to draw the attention of the Government and the Surgeon General to this matter, now that we are taking up the question of a nursing establishment in earnest, as to whether or not experiments should be made in the mufassal hospitals to substitute the nurses by compounders who would take up as much as it is possible for a male nurse and a tend to the male wards in mufassal hospitals I am all for the appointment of nurses in female hospitals, but I think the Indians, at least a large number of them, would prefer to have male attendants in male wards

Turning now to the provision made for municipalities, I would like some of the members of the Government to go into the mufassal this year particularly to find out how bad the dust is in a good number of the mufassal towns in Bengal, and I think that while we all welcome the grant for drainage and other sanitary schemes, in mufassal towns in Bengal, the Government should consider as to whether or not, in towns where there are already water-works, it will be possible to devise schemes for laying unfiltered water in those towns, not only to allay the dust but at the same time by allaying the dust, to check a certain amount of disease which owes its origin to dust I think if the Government were to consider this matter in some mufassal towns at any rate, and if the Government were prepared to make a grant, the rest of the amount could be found by the municipalities with the aid of enterprising gentlemen of the town

These are the only two matters I wish to bring forward before the Government There is nothing else in the budget that calls for discussion or criticism, as everyone knows it is a war budget

The Hon'ble BABU UPENDRA LAL RAY said —

"Sir, I beg to offer a few remarks on the Budget now before us

Ports and Pilotage

We are grateful to the Government for continuing the grant of Rs 1,50,000 to the Port of Chittagong It is true that even if funds are available it is not possible at present to obtain another suitable dredger for the port, the necessity for which is recognised by the Bengal Government and the Government of India It is hoped that this will not be lost sight of and the port will be equipped with this most urgently-needed requirement as soon as opportunities offer themselves

Sanitation and Water supply

I am glad to note that a sum of Rs 57,454 has been budgeted for the Tippera District Board for excavation of tanks The necessity for good water-supply cannot be overestimated and the money allotted will no doubt be usefully spent It is hoped that in the near future steps will be taken for supplying filtered water to the residents of the town of Comilla by the establishment of suitable water-works I regret to find however, that the sum of Rs 60,000 budgeted last year for the Chandpur water supply scheme does not find a place in the Budget under review A sum of Rs 10,200 only has been provided for the pay of the European Engineer Secretary for the Chittagong Municipality against the sum of Rs 20,000 provided last year for this purpose as well as for the sanitary improvement of the town of Chittagong

The Budget

Babu Upendra Lal Ray

Education

In the absence of details, it is not possible to ascertain whether the recommendations for the affiliation of the Chittagong College in certain subjects will be given effect to in the coming year The success of an ever-increasing number of students at the Matriculation and Intermediate examinations from year to year justifies the proposed affiliations without any further loss of time

Medical

The Budget provides for an addition of Rupees one lakh under the head Medical to the amount of Rs 27,2) 000 appearing in the Amended Draft Financial Statement and this increase will materially help in bringing about desired improvements

There is a feeling in certain quarters that road and water communications in many districts are given minor consideration in comparison with sanitation and education In fact, in many places there are good roads without proper bridges and bridges without decent roads while in others neither roads nor bridges worth the name exist at all These are, no doubt, local matters, but I am voicing the opinion of many in saying that more attention should be paid to the question of better communications, which is the primary object for which road and public works cesses are levied The answer to my question in the year 1914 about the amounts received as revenue, tax and fees and the amounts spent on public works, education and sanitation did not show the exact proportion of revenue to expenditure for each division, and in this respect also there is a belief in certain quarters that some places get better consideration than others A statement that an even distribution is made in these matters will certainly relieve the minds of many

I find at page 4 of the Budget that a sum of Rs 2) 00,000 has been earmarked out of the closing balance for the Ranchi Lunatic Asylum It is not understood why this Government should contribute such a big amount to an undertaking at Ranchi It appears from the speech of the Hon'ble Col Edwards in introducing the budget that the work has been postponed owing to 'financial stringency

Agriculture

I must thank the Government for the far reaching work that is being done by the Department of Agriculture in the introduction of new crops, notably potatoes in finding out the manurial requirements of the soil and in improving the local strain of the different crops of the cultivations I have been watching the results very carefully and am glad to see that the Government are after all taking proper steps for the improvement of the material condition of the people Commercial improvements cannot be effected without improvement of the agriculture of the country It is only a truism to say that agriculture is the foundation of all commerce and manufacture It is therefore necessary that the Government should not try to reduce the expenditure of this Department except under very great financial stress

The public had I am sorry to observe hardly any confidence in the workings of the Department, but under the régime of its present Director the policy pursued by him has appealed to the people and they are beginning to realise the great benefits they might obtain from this Department I would, therefore, suggest that the present staff, especially of those who come into close personal contact with the raiyats—I mean the demonstrators—should be further increased This means an increase of Rs 20 per month per man, which should not be grudged

Distribution of new seeds and manures requires finance, which might be secured by organising agricultural co-operative societies It is satisfactory to note the progress already made by the co-operative credit societies, and agriculture ought to receive its proper share of attention It seems to me that the organisation of the Department is defective It is simply a money credit The money is very often not utilised for the purpose for which it is meant

The Budget

Rai Hari Mohan Chandra Bahadur

The defect is due to a separation of the two Departments which should be closely connected The Co operative Department should be under the control of the Department of Agriculture which has hardly any voice at present in the working of the rural co operative banks, and without this control no real work can be done In all other countries and particularly in Canada and the States this is an integral part of the Department of Agriculture If the same system is introduced here the expenditure may be further reduced

I have seen the Divisional seed store and am glad that it has been started The public wanted such a central depôt where manures and implements are readily available But this should be further developed There should be an agricultural museum and library in connection with the Divisional seed store This museum may contain all the different varieties of crops, the specimens of insect pests and diseases the methods of combating the diseases and pests collection of beneficial insects and birds which are to be preserved and multiplied and of injurious insects and birds which are to be destroyed

The Imperial officers of the Department are, I believe, placed on the same status and footing with those of the other Departments, viz, educational and scientific But the lot of the Provincial officers who have to do a good deal of scientific as well as executive work is otherwise They should have the same status and pay as the members of the Postal and Telegraph services

Grand Trunk Canal Project

I am glad to observe that the Grand Trunk Canal project has been at last modified by this Government much on the lines indicated in my previous speeches I venture to say that the scheme as modified has been greatly appreciated by the Indian commercial community

Noakhali

A definite pronouncement with regard to the fate of the town of Noakhali will relieve the present state of uncertainty in the minds of the inhabitants of the district.

In conclusion I desire to express the gratitude of the inhabitants of the Chittagong Division to this Government for the assistance given to the distressed people of the Tippera and Noakhali districts by grants and agricultural loans during the last scarcity The relief operations were started by the local authorities amongst whom the name of Mr Lang the then Commissioner of the Chittagong Division deserves special mention and the Hon'ble Mr Beatson Bell in company with them visited the distressed areas at great personal discomfort, and but for this assistance and the charity of the public many human lives would have been lost

The Hon'ble RAI HARI MOHAN CHANDRA BAHADUR said —

"Sir,—The Budget for 1916-17 is as it must be under the existing state of things and I have nothing to say on it as a whole But I have something to say on the grants for sanitation and the money utilized by us

We saw from the replies given by Government to the questions put at the meeting of the Council held in September last by the Hon'ble Babu Surendra Nath Ray, that, so far back as February, 1914, *i.e.*, over two years ago, Government gave *definite* instructions to the District Boards how to spend the proceeds from the Public Works Cess, and yet there was a huge balance in their hands at the end of the year 1914-15

And we see from the reply given by the Hon'ble Mr K C De on March 6th to the Hon'ble Mr B Chakravarti's question that the total

The Budget

Rai Hari Mohan Chandra Bahadur

grant for sanitation since the year 1911 up to 1915-16 amounted to about 75 lakhs of rupees in round figures, out of which we have utilized about 25 lakhs only *i e* about one-third of the total grant

What is the explanation for this failure to utilize the grant to the fullest extent ?

It is said that if the District Boards are adequately to discharge their responsibilities in regard to sanitation their constitution should be enlarged and there should be a preponderance of elected members on the Boards who would be in close touch with local wants and local opinion But, my Lord, while fully acquiescing with the views of those who demand an elective majority, chosen by the non official members of the Sub-district or Local Boards I do not believe that an elective majority only would be an effectual remedy In my opinion something more is necessary

I agree with the *Englishman* and the *Statesman* as to what they said in their issues of May 10th and May 5th 1915, respectively, on the point and crave your Lordship's permission to quote the passages —

The *Englishman* said— It is all very well to pass long resolutions breathing a generous spirit of official surrender, but unless there is an authoritative body which will carve out for each province a policy of intelligent advancement and see that municipalities and Local Boards conform to some elementary standards of efficiency, Local Government in India will become a colossal and expensive mosaic of muddle The Government of India seems to agree with the Decentralization Commission that Divisional Commissioners and other local officers will provide all the guidance that is necessary, but this must be, in the nature of things, a variable and uncertain kind of guidance, since Divisional Commissioners are frequently changing, whereas a local Government Board would have a settled and continuing policy governed by well-defined regulations It could deal authoritatively with the local body that neglects its duty as well as with the local body that exceeds it Like the Local Government Board at Whitehall it should be an official body forming an integral part of the Local Government and composed, as far as possible, of men specially qualified by experience and knowledge gained in other countries as well as India to deal with every branch of the intricate and vitally important problems of Local Government For such a body there is immense scope in India for solid and beneficial work for the community It would replace a system at the mercy of spasmodic resolutions and erratic interferences

The *Statesman* said— Unfortunately, the idea of establishing a Local Government Board in each province was condemned by the Decentralization Commission, with whose finding all the Local Governments are in agreement Much may be said however, for the view that such a Board is a real necessity in a country which has no sanitary policy and few good models to work by, and time will probably show that, without this stimulus from above, no reforms in the powers or composition of the District Boards will be of much avail'

On April 2nd, 1913, I said something similar, viz, that there should be a central authority to systematically deal with matters of water-supply, sanitation and medical relief of the Province and on June 4th of that year, submitted to Sir William Duke a note recommending Government to create a central authority with a whole time President of the position of a Commissioner

Sir William did not commit himself to an opinion as to the proper machinery that should be created, but I understood from his words that he thought that with a greatly increased expenditure on water supply and sanitation it would be desirable to develop some special machinery to look after it

As the word 'central might be construed to mean centralization of work against the scheme of decentralization, I submitted to Government, on July 26th, 1913, a note suggesting that the Sanitary Board might be enlarged with a whole-time President of the position of a Commissioner

The Budget

Rai Radha Charan Pal Bahadur

Government have been pleased to enlarge the Sanitary Board by the addition of three non official members of the Council But, Sir, as I said on April 2nd 1914, and on April 6th 1915, unless the Sanitary Board is further widened and vested with powers to supervise effectually the workings of the District Boards and Municipalities in matters of sanitation, water supply and medical relief and to compel effectual steps to be taken to utilize the grant which Government makes for the purpose matters will remain very much where they are

In the circumstances, my Lord I again take the liberty of recommending to Government that the Sanitary Board be further enlarged by the addition of some more non official Indians with a whole-time President who should be an officer of the position of a Commissioner It is highly desirable that gentlemen familiar with the districts or groups of districts and their respective needs and are residents therein should be added as members Such men would have a sort of self interest in improving the sanitation of their localities

To the enlarged Sanitary Board thus created should be specially assigned the duty of —

(i) advising the District Boards and Municipalities as to the drawing up of schemes for the sanitary improvement and medical relief of, and for the provision of an improved water-supply for, the areas comprised within their jurisdictions and

(ii) subsequently advising the local bodies to give effect to any of the schemes aforesaid to which Government sanction may be accorded

The allotments for water supply are not fully utilised, because the District Boards generally insist on payment of one-third of the costs of re-excavation and the proprietors are generally not in position to do so If statistics be taken, it will I believe be found that in only a small number of cases full costs are paid by the Boards Then the tanks so re-excavated are neglected and no supervision is kept over them

Silted channels require re-excavation both for irrigation and supply of drinking water and it is a truism to say that the suitable supply of staple food grains is a check on malarial fever The instance of the Eden Canal System is notable as showing the use of keeping up natural water courses It is true that physical causes tend to diminish this source of water-supply In Deltaic Bengal silt deposits in water channels are unavoidable, but art should help in keeping them up

Sir, we were told that the District Boards and railway authorities were required to keep the side lands of the railway lines and the District Board roads in sanitary condition How far have they done so? We have no information on the point, but any traveller will see that the side-lands are generally in as insanitary condition as ever There is no proper supervising agency '

The Hon'ble RAI RADHA CHARAN PAL BAHADUR said —

" Sir,—Last year, when the Budget was introduced we had hoped that before we resumed the discussion of the Budget of the succeeding year, the disastrous war in which our Sovereign has been forced to take part for the safety of our great empire, and for the right of existence and freedom of smaller nations would have come to an end But our hopes have not yet been realised although we are consoled to find unmistakable signs of the approaching end of this dire conflict resulting in the glory and triumph of the British arms and her Allies In the circumstances we must submit to the mandate of the Government of India to limit the total expenditure within the estimated revenue and not to encroach upon the Provincial balances The estimated receipts being Rs. 6,20,04,000 and the estimated expenditure being

The Budget

Rai Radha Charan Pal Bahadur

Rs 6,17 97,000 and the balance Rs 2 07,000 would appear even according to the orders of the Government of India, still available for Provincial expenditure I fail to understand why this sum should be set aside to swell the closing balance and not utilised to meet the pressing demands of the country

Sir I reiterate my suggestion that the Finance Committee of this Council should be made a more useful body and that the Hon ble Members of this Council be invited to participate more effectually in the financial administration of the country This can be done by making the Finance Committee a Standing Committee of the Council Without knowledge of the departmental budgets and without any insight into the affairs of Government no member of this Council however keen and assiduous he may be in his labours to help the Government and to interpret the needs the wants and wishes of the people, can be of much use in rendering such help In the absence of such an insight into details not a few items in the Budget are unintelligible and the adequacy and the inadequacy of the grants are not understood Criticisms are therefore not unoften ill directed and misinformed and much misunderstanding and misconception prevail How long is this state of things to continue? How long shall we be kept on the outer fringe of the financial affairs of the country? British Government is a progressive Government Progress is the law of life in all human affairs and I devoutly hope that the Government will before His Excellency lays down the reins of his high office, make a distinct advance in opening a larger sphere of utility and usefulness to the Finance Committee which is at present called into being once a year to give a formal approval to a cut and dried statement

Turning to the Budget itself I find that in the closing balance of Rs 2,60 97 000 there are some items viz balance of discretionary grants, balance of Imperial grants in respect of Police Sanitation and Education which I do not quite follow May I inquire what was the original grant and how much has been spent up to date? There are some items in the general administration such as charges for the distribution of weekly war news (Rs 7,000), lump provision for an additional Secretary (Rs 6,000), subscription to the Moslem Hitaishi (Rs 9,516) which I should like explained

Excise

I find it is stated in paragraph 35 on the expenditure side, that miscellaneous increase under the heading Refunds and Drawbacks for 1915 16 is due to special refunds of license fees to excise shops in Calcutta I believe it is due to the closing of some excise shops in Calcutta If so how many shops were closed and what amount was refunded? Or is there any other cause for the refund of license fees?

Jails

In paragraph 46 it is stated that a lump provision of Rs 50,000 has been made for revision of warders establishments Is this for the increase of salaries or for additional establishments? If for the former what is the increase contemplated? A sum of Rs 25 000 is put down for temporary accommodation to meet the overcrowded conditions in several jails I do not know whether this sum is sufficient, if so may I inquire what is the sort of accommodation to be provided and in how many jails?

Police

I welcome the increased allotment to the Presidency police, to the additional European police in the trading quarters of Calcutta and the creation of a third armed company; I do not grudge any legitimate expenditure in strengthening the police, having regard to the exceptional situation in which we are placed May I inquire why the grant for village police which was Rs 27,000 in the revised estimate of 1915-16 is put down at Rs. 6,000 in the year 1916 17? In connection with the police I should like to say a few

The Budget

Rai Radha Charan Pal Bahadur

words The police, notwithstanding all its faults requires the moral support of all true well wishers of the country There are good men as well as bad in the police—bad men who bring the administration into contempt and alienate the feelings and sympathy of the people For some years past, the Government have been awakened to the evils wrought by these men They appointed commissions they have made inquiries and one thing has come out most prominently as the result of these inquiries and investigations and that is the necessity for larger employment of educated young men of respectable families and enhancement of their prospects on a par with their European brethren in the service What has been done in that direction ? What is the maximum pay and emoluments to which the Indian officers can aspire and how many in the whole service have been promoted to that pay ? As Orientals we are no doubt flattered and honoured to receive Rai Sahibs and Rai Bahadurs and *khelats* and presentations but we want substantial openings for our countrymen in the higher grades of the service on the same terms with the Europeans I am proud to say that our countrymen can show by their devotion loyalty and sacrifice that they deserve as much consideration as their European *confreres* in the service I am proud to say such men are not rare in the police service Some of them have given their lives and many of them whom I know personally, are prepared to die for the Government and the people whom they are commissioned to protect I pray that the Government will be pleased to popularise the police service in the country and to attract the best men and the best talents In this connection may I inquire what is the result of the deputation of Mr Gourlay on special duty ? I hope Government will take the people into their confidence soon

Education

Much has been said on education , much will be said on education by several members , but I wish to return to my annual cry for improvement of primary education I find last year that the Budget Grant on primary education was reduced from Rs 9,25,000 to Rs 1,52,000 May I inquire what is the cause of this great reduction ? Again Rs 9,25,000 is entered in this year's budget , I do not know whether it will vanish in the revised estimate Will the public be favoured with some details as to how the money is proposed to be spent ? Similarly with regard to female education only a paltry sum of Rs 30,000 has been budgeted Last year the Hon'ble the Director of Public Instruction stated that as regards primary education as a whole he was profoundly dissatisfied He said he had deputed two of his best officers to study the conditions to survey the problem and to put forward practical proposals and at a later stage he intended to ask the Government to appoint a Committee to consider the whole question May I inquire what progress has been made ?

The Hon'ble Mr Hornell last year remonstrated against the suggestion of some members that more money is spent on inspections than on actual work Like my Hon'ble friend the Vice Chancellor of the Calcutta University I could, while acknowledging the value of direction and inspection in the field of education, like to know how much was spent on the inspectable commodity as compared with the cost of direction and inspection I know the Hon'ble Mr Hornell is sincerely anxious to place primary education on a firm and satisfactory basis I fully appreciate the good work of some of the inspecting officers but I am afraid the wheel of progress is moving very slowly In connection with Calcutta, I moved in this Council last year for a special grant From my personal knowledge I know that the state of affairs in Calcutta is simply deplorable Over and over again have I urged both in the Council and elsewhere for a thorough overhauling of the system of primary education in Calcutta The want of money was the stumbling block in the way The Calcutta Municipality cannot spend money on education They are creatures of statute They have their statutory functions

The Budget

Rai Radha Charan Pal Bahadur

and their statutory funds Unlike Bombay they have not got the excise duty, the tobacco tax and the octroi duty in addition to rates and taxes at their disposal The grant of a few rupees to some of the *pathsalas*, which grant now amounts to nearly Rs 80 000, is the outcome of an appeal of Sir Gurudas Banerjee in the Bengal Council for continuance of the grant of their Rs 3,000 to the *pathsala* of the then Suburban Municipalities which was then about to be amalgamated with Calcutta A single line was inserted in the Act, giving discretion to the Corporation to make grants for the promotion of primary and technical education, and to-day the grant nearly amounts to Rs 80,000 The Government must come to the rescue of primary education in Calcutta The recent report of Mr J N Roy who took up the work of inspection of *pathsalas* and schools in Calcutta from my Hon'ble friend Mr De whose notes are full and interesting show that proper facilities do not exist for education of the boys of the poorer and middle class As regards the habitations Mr Roy almost echoes what I said last year and what I have often said I quote Mr Roy's words— 'An ill lighted and ill ventilated room in a private *pucca* house or an equally objectionable room but with a tiled roof, a number of boys huddled together sitting in some cases on benches and in some, on the floor but all alike shouting at the top of their voices, a *guru* uneducated and untrained but determined to eke out a living for himself, dozing at the desk— this is the picture of an ordinary primary school Can anybody dream that in such habitations and in such environment and under such instructors education can develop, and young boys can be brought up with a healthy mind and a healthy body?

Turning to female education, I again voice the disappointment of my community that nothing has yet been practically done to solve the problem of female education in the Province I am directly interested in Calcutta Although, there are certain well constructed girls schools here in the city, which serve the purpose of high education there is as the Hon'ble Mr Hornell admitted last year a lamentable lack of proper primary and middle schools for the orthodox class I feel a sense of despair at the prospect of realising the hope that substantial advance will be made in our generation to afford facilities for their education Last year the Hon'ble Mr Hornell said I agree with the Hon'ble Member in thinking that the question of the position of schools for the lower and middle class of girls in Calcutta is one of great urgency and importance Some ray of hope is raised in our mind by this true appreciation of the position of female education in Calcutta by the Hon'ble Director but 'hope deferred maketh the heart sick Mr Roy in his report states that the facilities for education of Hindu girls are 'extremely limited' and no systematic effort has yet been made to bring education within the reach of all whether they belong to the higher or the lower caste'

There are some very excellent Mission schools in Calcutta, but they do not meet the wants of the orthodox class who form the bulk of the population I find one of them has secured a grant of Rs 60 000 from the Government for the construction of a new building I wonder why Government cannot provide funds for the orthodox institutions such as the *Mahakali Pathsala* and others which are pining away for want of funds What is wanted in Calcutta and in this Province are as many Girls' Schools as possible where our girls from the age of 7 to 14 may have a well-grounded primary education which in many cases may be continued by zenana teachers properly trained, instructed and educated Many families would be glad to employ such teachers who are not now available Last year Rs 1,000 was set apart for Zenana education and Rs 2,200 for Primary Girls School in Calcutta It will be admitted that these were very miserable sums May I inquire what has been set aside this year? Last year the Government had appointed a Committee of Hindu ladies and gentlemen to consider the question of education of Indian girls whose parents desire that

The Budget

Rai Rodha Charan Pal Bahadur

their daughters should be well educated without any interference with the traditions of their religion or custom It would be interesting to know whether any practical result has emerged from the deliberations of the Committee

Malaria

Sir, the exhortation of the 'Chancellor of the Exchequer to curb our demands for more money has not sealed the lips of the non official members of the Council Malaria stalks over the fairest districts of Bengal, carrying away hundreds of thousands of people in its grip and enfeebling the rest of the population It is no less devastating than the great European War Upwards of 72 per cent of the general death rate is due to fever The Government, both Imperial and Provincial, I am grateful to say, recognise this fact There is the Malaria Committee of which my Hon'ble friend Dr Nilratan Sarkar is an expert member We are not privileged to see the proceedings of the Committee, but I hope the Government will see its way to make them public If there is any Committee whose proceedings are awaited with interest it is this all important Committee The despondent tone of the Hon'ble Dr Sarkar seems to connote that there is much divergence of views and no progress in active work Quinine is no doubt the great germicide of malaria and for the distribution of which some active measures seem to have been taken But how long will the quinine eating population of Bengal thrive and prosper? It will be admitted by the commonest layman that the true protection of the people lies in the eradication of the evil by sanitary measures than to keep alive the population by the administration of quinine I ask what measures have been taken in that direction? I am a layman, but I am much struck by the result of the excellent Magra Hât Drainage Scheme, which not only converted a swamp of two hundred and ninety-four square miles into smiling fields, rich with crop valued at Rs 34,00,000 and Rs 40 000 or at least twice the cost of the scheme, but converted the fever-stricken area into a health resort Naturally people are more anxious for proper drainage and jungle clearance of the affected area May I inquire whether jungle cutting, which is a recognised beneficial measure, is definitely discarded The outskirts of Calcutta are malaria-stricken They are a standing menace to the city What has been done to improve the sanitary condition of the area? Was there not a scheme under preparation for water supply to the riparian municipalities extending from Baranagore to Naihati? What has become of it? I find in the Budget Rs 5,000 is entered on account of the charges for gratuitous relief to the malaria-stricken areas May I be permitted to inquire what area is taken into account and what sort of relief would be given Again Rs 12 500 is included for anti malarial operations conducted by the Sanitary Commissioner It would be interesting to note what are the operations and in what districts The sums I have so far quoted are very small I have my eyes on the lump grant of Rs. 2 50,000 for sanitation which I devoutly hope will increase to at least double the sum in the revised estimate at the end of the year But the year will soon pass away and if no vigorous steps are taken at once the amount, or a large portion of it, will inevitably lapse Some indication of the steps that are to be taken to spend a substantial sum not less than the sum I have stated will, I hope, be given in this Council

Industries

I now turn to the industries A sum of one lakh has been budgeted for expenditure on the development of industries I welcome it and thank the Government The industrial development of the country is one of the crying needs of our Province and it is our fondest hope that the Government will take their proper share in the work Much depends upon the selection of a proper

The Budget

Nawab Saiyid Nawab Ali Chaudhuri, Khan Bahadur

person for the post of the Director of Industries for whom Rs 30,000 has been separately provided The Government should abandon the attitude of *laissez faire* and should actively promote the industries Industries can roughly be divided into power industries, handicrafts and agriculture In the present circumstances of our country all these branches demand equal attention For the middle class people power industries and for the lower classes, handicraft or agriculture or both The small industries are specially suited to the poorer middle classes They cannot make larger initial outlay and they are without the requisite capacity and knowledge of large organisation They of all people require the greatest help of the Government Our handicrafts are slowly but surely losing ground Many have disappeared completely from the field The poorer class of people are generally more and more dependent on agriculture but land is limited and population is increasing Land can no longer maintain the growing numbers of the people, and again agriculture is not always a sure and stable source A single year's failure of crops exposes the people to severe distress I venture therefore to ask the Government what steps they propose to take for the resuscitation and encouragement of those industries I am grateful to acknowledge that Government have been doing a good deal for the development of agriculture The Indian agriculturist is a poor and conservative man but if the utility of the new and improved method is demonstrated under the eyes of the agriculturist nearer his home he will readily take to it I am not aware whether this sort of demonstration has been tried on a large scale The District Administration Committee have recommended the appointment of more European Deputy Directors for demonstration work Some European expert advisers may be necessary, but it will be a mistake not to entrust the major portion of the actual demonstration work to Indians An Indian Officer will succeed better in this department of work than an European Officer'

The Hon'ble NAWAB SAIYID NAWAB ALI CHAUDHURI, KHAN BAHADUR said —

'Sir —In rising perhaps for the last time from my seat in this chamber, I am filled with thoughts which carry me back to the early days of my association with the Provincial Council of Eastern Bengal and Assam, and which raise memories of events which have left lasting impressions on the minds of my community and the people of Eastern Bengal in general The partition of Bengal in 1905 gave to the people of the eastern districts an administration, whose primary consideration was the welfare of a people who had till then been the neglected units of an unwieldy provincial administration Before, however, the authorities in Eastern Bengal could accomplish even a fraction of all that the anxious solicitude of a beneficient administration desired to accomplish in the interest of a just and equitable Government, its life was cut short The legacies that the defunct Government of Eastern Bengal and Assam bequeathed to His Excellency were mostly those of undischarged obligations, aspirations unfulfilled ambitions roused in our breasts but left unrealised, and promises which mostly remain yet to be carried out And when the new Presidency was constituted the authorities so cast their plan of administration as would ensure to the helpless people of Eastern Bengal at least a partial realisation of their legitimate dues

THE SECOND CAPITAL

Sir it was ordained that in order to prevent Eastern Bengal from slipping back into the shade of neglect His Excellency's Government would regard Dacca as the second capital, or in the words of the Hon'ble Mr Beatson Bell 'The Eastern Capital', of the Presidency in the truest sense of the term The intention of the authorities in Whitehall and Simla was expressed in unambiguous language, and the declaration was embalmed

The Budget

Nawab Sayid Nawab Ali Chaudhuri, Khan Bahadur

in historic despatches, sanctified by Parliamentary pronouncements, acquiesced in and approved by His Excellency in more than one public utterance Now that the flush of excitement and enthusiasm has subsided I make bold to ask His Excellency to go through all the various documents and declarations made from time to time and to say how the pious resolutions embodied therein have been remembered in execution Is Dacca really the second capital to day? Far from this being so we find that this so called eastern capital is being gradually relegated to the cold shade of neglect and far from boasting of more institutions and offices of Government like Lucknow and Poona the second capitals of two sister provinces Dacca is being gradually deprived of her vestiges of importance The Dacca University Committee had recommended the raising of the Engineering School at Dacca to the status of a college and the establishment of an industrial institute A later committee also recommended the removal of the Engineering College at Sibpur to Dacca But to our misfortune instead of all this the school at Dacca had its limbs like the Survey classes and the Electrical and Mechanical sections shorn off And we have seen that the removal of the Survey classes has resulted in an enormous increase of recurring expenditure from Rs 2 600 to about Rs 20 000 and a steady and remarkable decline in the average number of students from 120 to about 50 Another useful institution the Bacteriological Laboratory has also been abolished

Sir, I plead for a more sympathetic consideration of the claims of Eastern Bengal so that promises made to the ear may not be broken to the heart, and I earnestly appeal to His Excellency not to yield to forces which have ever militated against a proper recognition of the claims of Dacca and Eastern Bengal and had long kept us from our own

HIGHER EDUCATION

Dacca University—Sir if the interests of the people of Eastern Bengal as a whole were being well looked after by the late Government of Eastern Bengal and Assam those of Moslems who form the bulk of the population were naturally safeguarded under its fostering care And when that administration ceased to exist my community became apprehensive lest their interests would be neglected for want of careful and sympathetic consideration under altered circumstances I am prepared to admit that the authorities responsible for bringing about the new state of things did not overlook the necessity of making some reparation however inadequate, for the loss sustained by Eastern Bengal By making Dacca the second capital they thought they had well assured to the people of Eastern Bengal a proper share of the attention of Government and its patronage And for the purpose of securing to them a continuance of the liberal policy in the matter of education, the most marked feature of the late Government of Eastern Bengal they proposed, among other things, the formation of a University at Dacca with a special faculty of Islamic studies which would minister to the needs of higher education among the Muhammadan community Although the scheme has passed through the ordeal of official scrutiny, has even been stated to have received the necessary final touches in Whitehall and has also been mentioned in successive financial statements at Delhi and Calcutta we have yet to live in the hope of its fruition in the dim future Sir, I quite realize that the Dacca University scheme has had to be shelved on account of the financial *impasse* brought about by the present war, which we deplore, but when we look around and find contemporaneous schemes faring better elsewhere, when we see that the young province of Bihar and Orissa has already got a full fledged High Court, we begin to believe that much time has been wasted in piloting the Dacca University scheme through the inevitable tangle of red tape Even if the recommendations of the Dacca University Committee could be given effect to piecemeal, by starting individual institutions there would have been less cause for complaint I trust that before His Excellency lays down the reins of his exalted office, His Excellency will be pleased to

The Budget

Nawab Sayid Nawab Ali Chaudhuri, Khan Bahadur

made some beginning in this direction is a solace to the wounded feelings of my community

The Muhammadan Hall and College—As His Excellency is aware, the Muhammadan community is lamentably backward in higher education We have repeatedly knocked at the door of His Excellency's Government for liberal provisions in its aid, which alone can make it possible for my community to take more kindly to higher education We do not lag behind in the expression of our gratitude for the consideration that we have received from time to time at His Excellency's hands, but I would humbly remind His Excellency that much yet remains to be done in this direction and that most of the promises made by Government in this regard remain unredeemed The earliest pledge given to us by the Eastern Bengal Government was that of a Muhammadan Hall The parting words of kindness of Sir Charles Bayley to the Moslem community of Eastern Bengal as he laid the foundation stone of the Muhammadan Hall at Dacca, are still ringing in my ears I was associated with the proposal from its very inception, and was led to regard its completion as a positive certainty But soon afterwards the Dacca University Scheme came up and with it the scheme of a Muhammadan College with an attached Hostel This Muhammadan Hall was then taken as the Hostel attached to the proposed Muhammadan College Misfortune did not spare us here also With the shelving of the University Scheme the Muhammadan Hall which was practically given to us has also been knocked on the head I may tell His Excellency that the Muhammadan Hall was given to us to allay our grievances against the poor accommodation given to our boys in the Dacca College Hostel We had grievances which we did not press owing to the relief given to us but the abandonment of the hall has made the position of our boys in the said Dacca College Hostel worse

Sir, the history of the Arts Colleges for Muhammadans at Calcutta and Dacca is likewise full of disappointment When the finances of the Government were in a satisfactory condition the necessity will to carry out these promises seems to have been wanting and now that we are passing through financial embarrassment the schemes have perforce to be deferred But I hope that the present crisis will not last long, and we will soon have funds that will enable us to see these schemes through

MUHAMMADAN EDUCATION ADVISORY COMMITTEE

Sir, among the many recommendations made by the Muhammadan Education Advisory Committee which His Excellency was pleased to appoint on my suggestion there are several which involve no expenditure I trust such recommendations will be given effect to immediately, and if we are assured of the execution of the others that involve finance, after the restoration of normal conditions my community will be grateful to His Excellency and patiently wait for them The report of the Advisory Committee contains a comprehensive Scheme of measures, the successful execution of which will aid in a more extended and systematic promotion of Moslem education and result in the intellectual elevation of my Community If His Excellency's Government adopt the report of the Committee in its entirety it will rank as a Magna Charta of Moslem Education, and confer substantial benefits on my community open new avenues and guarantee new privileges The Muhammadan Community therefore looks forward to the decision of Government with intense anxiety

EDUCATION IN EASTERN BENGAL

Sir we flatter ourselves that the people of Eastern Bengal, particularly the Moslem community, made rapid strides in education, between the years 1906 and 1911 And if the Council will bear with me a little I shall try to examine how far we have progressed in this matter, and if the rate of progress has been uniformly maintained up to date

The Budget

Nawab Sayid Nawab Ali Chaudhuri Khan Bahadur

In the three Eastern divisions of the Presidency the percentage of children actually at school to the number of children of school going age was 18 3 in 1906-07 and rose to be 21 6 in 1911 12 which however is behind the corresponding figure for Western Bengal, the latter being much nearer 30 0 During this period the percentage of increase in the number of pupils was 31 7 in the case of Eastern Bengal and Assam and 26 9 in that of Bengal, and 25 8 for all India, and at the end of this quinquennium the percentage of total population at school was 2 9 in Bengal and 3 1 in Eastern Bengal and Assam and 2 7 for all India During the same period the percentage of increase in the total amount spent upon education from all sources was 47 6 in Bengal, 57 1 in Eastern Bengal and Assam and 40 6 in all India Then taking the increase of expenditure from Public Funds alone we find that the percentages of increase were 39 5 in Bengal 59 6 in Eastern Bengal and Assam, and 36 8 in all India In 1906 07 in Eastern Bengal and Assam there were about 8 lakhs of scholars in institutions of all kinds of which 35 7 per cent were Hindus and 50 2 per cent Moslems and in the year 1911-12 the total number of scholars was 10¾ lakhs of which Hindus formed 42 5 per cent and Moslems 53 per cent The rate of increase in these five years was 41 5 per cent in the case of Moslems and 26 02 per cent in the case of Hindus The progress satisfactory as it has been does not carry us near 50 per cent which is approximately the figure representing the increase in the number of Muhammadan pupils in all India I would in this connection draw His Excellency's attention to the fact that in 1911 12 the percentage of Muhammadans at school to the total school going population in the whole of India was given as 22 9 which was in excess of the proportion of Moslems to the whole Indian population which is 22 7 per cent But what are the figure for the Bengal Presidency? The Moslem subjects in His Excellency's charge represent 52 7 per cent of the total population of Bengal And we find that in 1912 the total Muhammadan school going population in the entire Presidency was 12 8 per cent of the total school going population of all creeds Taking the figures separately for Eastern Bengal and Western Bengal we find that in Eastern Bengal Moslem population is 66 3 per cent of the total population while the Moslem school going population is 58 6 per cent of the total school going population and Western Bengal Moslem population is 31 9 per cent, Moslem school going population being 23 7 per cent

I have already observed that during the *régime* of the Eastern Bengal and Assam Government the rate of progress was much higher in the case of Moslems than in the case of their fellow subjects But has the same rate been maintained? The answer to this has been furnished by the Director of Public Instruction in his report for 1913 14 in the following words — The progress made by Muhammadans is very slight and shows that the rate of increase of the Muhammadans in educational institutions is not much greater than that of the Hindus

It could not be expected that the rate of increase in the case of Muhammadans would continue for an indefinite period to be more rapid than the rate of increase in the case of Hindus Sir, this remark made just one year after the formation of the Presidency would lead one to suppose that the Moslems have had a surfeit of education and their progress in this department would henceforth be just commensurate with the general rate of progress In successive reports on education the late Government of Eastern Bengal and Assam congratulated the Moslem community on their marvellous rate of progress, and is it a mere coincidence that instead of leading the other communities as they were so long doing, they have fallen into line with them in point of progress just with the formation of the Bengal Presidency? And then, Sir, what has been this general rate of progress in the Bengal Presidency? Between the years 1912-13 and 1913-14 the percentage of increase in the number of pupils of all grades has been 1 7 in the Bengal Presidency, which is bracketed with Bihar and Orissa for the lowest place among all the Indian provinces The percentage of increase which is 5

The Budget

Nawab Sayid Nawab Ali Chaudhuri, Khan Bahadur

for all India varies from 1 to 9 in the N W Frontier Province to 4 in the Punjab Even Assam returns 10 7 indicating that perhaps she has succeeded in keeping up the educational progress of the defunct province of which she at one time formed a part Taking progress under Primary Education as a test we are confronted with the ugly fact that in spite of very large grants made of late years there was a sudden drop in 1912-13 in the number of boys schools and scholars in the Bengal Presidency, and further, that in two subsequent years the number of boys schools as well as the number of pupils have shown a decline In fact the Bengal Presidency is the only province in the whole of India to day to show a falling off in the number of boys primary schools and scholars while all the other provinces return a substantial increase

Sir the three Eastern Bengal divisions constitute about three fifths of the area of the Presidency and contribute about the same proportion to the population But in point of literacy the two Western Bengal divisions give us a long lead with over hundred of literates per thousand of population, while the Dacca and Chittagong divisions return 66 and Rajshahi 53 per thousand Greater and determined effort should therefore be made to break down the dense mass of illiteracy in Eastern Bengal and special measures should be devised by His Excellency's Government for greater diffusion of education in this area On further analysing the figures we find that while in Western Bengal there is one boys primary school to every 2½ square miles in the case of Eastern Bengal after a period of phenomenal progress, there is to day one such school to every 3 square miles

Sir the educational authorities have no doubt taken in hand the improvement of the existing institutions with great zeal and this circumstance explains the fact that the yearly increasing expenditure under education does not give us in return the expected degree of expansion and increase in number I verily believe that in educational expenses the Government of Eastern Bengal and Assam used to manage to make the rupee go much further than we can at present In the year 1911, in a resolution the Government of Eastern Bengal and Assam made the following declaration— 'It must always be remembered that rudimentary and imperfect education is better than none at all and while the improvement of schools and the removal of children from bad schools to good ones are most desirable objects, care must be taken not to lead children wholly without means of obtaining elementary education Sir this was a declaration of policy which might not find favour with some of our educational authorities but which commends itself to the Indian section of this house I have been one of those who had advocated the improvement in the conditions of our schools, but at the same time I feel that at such a time when our finances are at a low ebb His Excellency's Government should consider if it is too late for them to adopt this principle of a Government which found it possible to accomplish so much within the compass of a short time

FACILITIES FOR MUHAMMADAN EDUCATION

Sir for the last three years we have been making heavy demands on His Excellency's attention and kindness And I shall be wanting in my duty towards His Excellency personally and to the Hon'ble Members in charge if I do not take this opportunity of placing on record the grateful appreciation of my community for the facilities given to them in the matter of education since the creation of the Presidency To enumerate the principal among them the appointment of an Assistant Director of Public Instruction for Muhammadan Education, as also of an Assistant Inspector for Muhammadan Education in each of the five divisions, the appointment of an Assistant Inspectress of Schools for Muhammadan Education in the Presidency and Burdwan Divisions, the grants-in aid to Madrassas under the Madrassa Reform Scheme the earmarking of the Mohsin Fund exclusively for scholarships and stipends etc and the maintenance of Government Madrassas entirely out

The Budget

Babu Surendra Nath Roy

of public funds, the establishment of the Moslem Hostel for College students at Wellington Street, the setting apart of a decent sum from the Imperial grants for the education of Muhammadan girls acquisition of land for the Anglo-Persian Department of the Calcutta Madrassa in connexion with the establishment of the Muhammadan Arts College, Calcutta, the extension of the Baker Hostel which has been taken in hand, and the acquisition of land for a non Collegiate Muhammadan Hostel under the University and reserving 20 per cent of the seats in private colleges and hostels in Calcutta as a condition of the grant made to them these constitute acts which my community consider to be the earnest of further facilities to come in the near future I have to add a word of thanks to the Hon ble Mr Hornell in whom we have found a true friend to Muhammadan education

Sir, I have very reluctantly trespassed upon the indulgence of this Council a great deal to-day, but the pressing importance of the subjects I have dealt with is my excuse I might have been a little free with my thoughts but as a responsible member of this Council I feel I have only tried to do my duty

Before I conclude perhaps my last words in this house, I wish to impress upon His Excellency and His Excellency's Government the unimpeachable loyalty of my community loyalty to the person and throne of His Majesty the King Emperor, and to make perhaps the last request to His Excellency to stand by the promises to Eastern Bengal and to my unfortunate co religionists

The Hon ble BABU SURENDRA NATH RAY on the Budget of 1916 17 said —

'Sir,—It is with great pleasure that I congratulate the Hon ble Member in charge of the Finance Department for the lucid way in which the Budget proposals for the year 1916 17 have been presented to the Council The pleasure would have been greater if I could have congratulated him on the appropriations of revenue to the different requirements of the Presidency The depreciation in Revenue, coupled with large expenditure in the Police and in the working of the Defence of India Act, have left very little for expenditure in the improvement of sanitation and in the education of the people The orders of the Government of India to avoid incurring all expenditure which could possibly be postponed have been followed in the main and there is very little left to remark with respect to the proposals

I am glad that the Government have appointed an additional Legal Remembrancer The large number of failures in Government prosecutions in what are known as political cases and the amount of expenditure incurred in these cases, would lead one to suppose that Government have not had the best advice in these cases and if the new appointment results in more careful and rigorous examination of evidence before these prosecutions are undertaken it will fully justify its creation

On page 4, paragraph 9, of the Revised Financial Statement, it is stated that an additional grant of Rs 2,23,000 from Provincial Revenues has been provided in the charges for 1916-17 for the Calcutta University while on page 52 of the statement Rs 1,15,000 have only been provided for the Calcutta University It is not clear whether Rs 2 23,000 are in addition to the amount of Rs 1 15,000 already provided The Calcutta University is in urgent need of money for the completion of its Science College and an additional grant of Rs 2,23,000 will certainly enable the University to put the Science College on a proper basis

I am glad to see that provision for creating a spill from the Bidyadhari river has been made in the Budget for 1916-17 If what the Engineers say be correct, this is a matter vitally affecting the citizens of Calcutta Another danger to the people of Calcutta and the neighbouring places is the Tolly's *nulla* The condition of the *nulla* is most unsatisfactory The water is unwholesome Not only large number of pilgrims come to Kalighat now and

The Budget

Babu Surendra Nath Ray

then from distant parts of this Presidency as a place of pilgrimage and bathe in its water but drink the same There is therefore always the danger of an outbreak of cholera among the pilgrims and of such an outbreak spreading throughout the neighbourhood of Kalighat Suggestions for the improvement of the *nulla* have been before Government on previous occasions and the question has come up before them in one shape or other for a long time past, and I earnestly beg your lordship's Government to take up the matter in hand as early as practicable

The grants to sanitation from the lump provision for sanitation in 1915-16 include the item of Rs 10,200 as contribution to the Chittagong Municipality to meet the pay of its European Engineer Secretary I am not aware if it is the practice of Government to contribute towards the pay of Secretaries to municipalities and whether any such grant is made to any other municipality in the Presidency I think a contribution to the pay of a Secretary to a municipality is not a proper charge, from sums expressly set apart by the Government for sanitary purposes

This brings us to the question of the constitution of the Sanitary Board It is now only an Advisory Board In the United Provinces it is an administrative body Bengal is admittedly the most advanced of the Provincial Governments in India We are sorry that it should remain behind in this respect and should have to take lessons from the Government of a less enlightened Province

A sum of Rs 2,50,000 has been set apart for the improvement of sanitation The amount is very small compared with the needs of this Presidency We require good drinking water in every district in every mufassal town A large number of sanitary projects—projects for the supply of good drinking water and improved drainage have been recommended by the Sanitary Board to the Government But they cannot be undertaken on account of want of funds But there is one project which I would very much like the Government to take up at once It is the project for supplying filtered water to the people of the town of Krishnagore in the district of Nadia The project is cut and dry It is a matured scheme It remains for the Government to allow some money out of this grant and the work can begin at once

I also urge upon the Government the necessity for anti-malarial measures being undertaken in the district of Nadia without further delay In reply to the address presented to His Excellency on the 30th August last by the people of Nadia his lordship was pleased to refer to the questions I had asked in the Council about the high mortality in the district from malaria in the latter part of 1914 It is not necessary for me to place the facts again before the Government, because they are well known His lordship was also pleased to say in reply, 'the fight against malaria is a hard one, and an uphill one, and one result of the disease, perhaps the saddest result, is that it makes the people apathetic and renders them less able to struggle against a cure I would therefore humbly and respectfully ask that steps be taken to put a stop to this state of things in the district by making the necessary grants for the supply of filtered water in the town of Krishnagore, the head quarters of the district, and for the undertaking of anti malarial measures within the district without further delay

Provision has been made for 13 Judges for the Calcutta High Court in the place of 19 Judges which was the strength of the High Court till February of this year on account of the establishment of the High Court at Patna There has therefore been a reduction in the expenditure in the Calcutta High Court and consequently on the head of 'Justice by about four lakhs of rupees not only on account of the reduction in the number of of Judges but also on account of removal of part of the establishment We must, however, take into account the consequent reduction in the income on the head "Justice" owing to less number of appeals being filed in the Appellate Side of the Calcutta High Court The total decrease in the income would never come to more than Rs 73,000 One would have very much

The Budget

Maharaja Ranajit Sinha of Nashipur

liked to see a portion of the money thus saved spent for the purpose of increasing the initial pay of Munsifs, for which my hon'ble friend Mr Fazl-ul Huq moved a Resolution the other day in the Council and for which I urged Government last year But unfortunately nothing has been done Such increase in the pay of these judicial officers would have been money well spent

We are glad that there is a grant of Rs 2,25,000 for gratuitous relief We hope and trust Government will spend the amount in relieving the distress in Bankura The relief afforded by private parties or organised bodies supplemented by Government aid has done much to alleviate the sufferings of the people there but harrowing tales of distress are still coming every day to us from that district and the number seeking relief is gradually increasing Unless these relieving bodies get substantial help from Government they cannot be expected to cope with the dire calamity which has visited the district

The announcement of a grant of one lakh of rupees for the purpose of industrial development and Rs 30,000 for a Director of Industries and his establishment will be welcomed by all It is not shown how the money on the industrial development is to be utilised but the grant shows that the Government are in earnest about the matter

We find in page 19 of the Financial Statement that there is a grant of Rs 42 017 to the Calcutta Corporation for drainage of the fringe area and Rs 5,400 for experiment on the sewage of Calcutta The Calcutta Corporation with its income of more than a crore of rupees and which income is increasing by leaps and bounds every day is not in need of these precarious grants from Government Payment of these amounts to mufassal municipalities or for the improvement of malaria stricken districts would be productive of lasting benefit and real help to them

The Hon'ble MAHARAJA RANAJIT SINHA of Nashipur —

"Sir,—Owing to war there has been a general retrenchment in all directions and under the orders of the Government of India the provincial Governments have to limit their expenditure within their normal income and so the balance after meeting the expenditure is Rs 2,70,000, but, Sir I find that under the head expenditure there appears some items which cannot be considered to be normal expenditure and, such as a non recurring grant for Police Rs 1,58,070, non recurring Education grant to the Calcutta University If we exclude this expenditure the total saving would have been Rs 4 86,000 This is too small to suggest any expenditure on any important subject Sir, we appreciate very much the privilege given to the non-official members to move resolutions on the budget, but for want of figures and detailed accounts of the previous year, and a departmental budget, I think it is next to impossible for any non official member, even I should think for an official member not connected with the Financial Department, to move any resolution on the budget which may be acceptable to the Hon'ble member in charge of finance, and so I must earnestly appeal to the Government to consider this matter so that in future years the non-official members may be supplied with the detailed accounts of the previous years and copies of the departmental budgets approved by the Government before they are asked to move a resolution or to discuss the budget I may here mention that the non-official members of the Imperial Council are allowed to have copies of the detailed accounts of the previous years just as they are published, and so they are in a better position to go into the details of the items on which the Government spend public revenue Then, Sir, as regards the question of sanitation, it is a well known fact that the people from the mufassal are leaving their ancestral homes and settling in towns The reason is that every year the people suffer very much on account of malaria and other diseases such as cholera and small-pox Soon after the assumption of the exalted office by His Excellency his attention was drawn to

The Budget

Maharaja Ranajit Sinha of Nashipur

the most important subject of the supply of pure drinking water to rural areas, and I think that within six months of his assuming charge of his office, he held a conference at Darjeeling to consider the subject and I had the honour of attending the same We had no idea then that the District Boards would be provided with an extra amount for the purpose of sanitation At that time of course we were put to great difficulty to provide funds to meet this extra charge, but we were unanimous that the District Boards should be asked to expend more money for rural water supply A few months after this the Government of India announced that the entire revenue of the public works cess was to be surrendered to the District Boards, and from the Government of India's letter to the Local Governments it appears that the Government of India have left the matter entirely in the hands of the Local Government to determine for what specific purposes this extra income should be spent, but stated that a substantial portion of that income should be spent for rural water supply and sanitation I would point out that in 1913 14 the District Boards of Bengal had an income of Rs 29,36 700 but they spent only Rs 4,78 373 for sanitation And in the year 1914 15 they had Rs 30,72 000 but spent only Rs 7 66 463 so that it appears that out of the Rs 30 63,000 they spent only 12 lakhs for the purpose of sanitation Certainly it cannot be said that they spent a substantial portion of that income on sanitation On the 22nd of February this year I moved a resolution in the Imperial Council on this very subject and the Government of India accepted that resolution and probably have drawn the attention of all the Local Governments in the matter that a substantial portion of this income should be set apart for rural water supply and for sanitary purposes When this grant was made by the Government of India my hon'ble friend, the Hon ble Nawab Syed Sham-ul Huda, held a conference in all important places and also in Calcutta and invited the leading men of all the districts to consider in what way this money should be spent, and as far as I remember we were unanimous that a certain portion of that sum should be spent for the supply of good drinking water in the mufassal and I understand that our Government were anxious to have an amendment of the Road Cess Act to give effect to that desire but I cannot make out why the matter has been dropped I was rather disappointed to hear in reply to my question from the Hon ble Mr De that the Government of Bengal do not like at present to give any further instructions to the District Boards in this respect but, unless this money be spent for rural water supply I am afraid the growing want of the people in this respect will remain as it is now As regards the municipalities, the case is very different There are many municipal towns who cannot afford to spend money even for the purpose of the proper conservancy of the town, much less can they spend anything for water supply and drainage schemes Their incomes are generally limited and they have no other sources, such as the District Boards have got from the Government of India, to spend upon this important object I find that Rs 55,20,000 has been set apart for sanitation and will not be spent till the war is over and we have also got Rs 69,70,000 as a discretionary grant which can be used for any purposes which His Excellency thinks proper, and over and above these two items Rs 19,27,000 is also said to be a free balance which can be spent as occasion demands So we have Rs 81,45,000 which we could spend in normal times and if a greater portion of this amount be spent for the purpose of water supply in municipal towns, I think, we can make material progress in that respect Sir, we are grateful to the Government for taking non-official members in the Sanitary Board, and I agree with my hon'ble friend, the Hon ble Rai Hari Mohan Chandra Bahadur, that the Government should take more non officials into that Body, but I would venture to suggest that some power, some financial authority should be vested in that Body as the increase of power generally increases responsibility, and unless and until that Body has got any real power of spending money or sanctioning schemes, however small they may be, I am afraid that that Body cannot properly discharge its responsibilities Sir, the year before last I ventured to suggest something in regard to the spread of zanana education There is little difference

The Budget

Babu Mahendra Nath Roy

between the words zanana education and female education The meaning is the same According to the custom prevalent in our country, girls get married at a very tender age and they are taken away from the schools just as they are beginning to learn, at the ages of 11 or 12 Apart from the collegiate education, I am afraid the primary education of the girls is not progressing as one would expect Unless there is some provision made to teach them at their homes or in some central place where even after their marriage they can assemble and where their purdah will be respected I am afraid female education will remain as backward as ever We all welcome the Government of India's letter on this subject, I mean Sir Edward Maclagan's letter to all Local Governments for giving more facilities to female education, and I hope my friend the Hon'ble Mr Hornell will work out some scheme so as to give effect to it and I hope he will give more attention to the spread of zanana education which is so essential for the improvement of female education in this country

Sir, I cannot but express my gratefulness to the Government for providing Rs 15,000 for the dredging of the river Bhagirathi For the last three years Government have been spending money every year, but I am sorry to say that we do not find any appreciable improvement in the flow of the river I think the small expenditure will not serve to make any effective improvement However the Government are better judges of the matter and I would leave it to the Government for consideration what steps should be taken in dredging the mouth of the river in such a way so that the flow might continue during the summer and winter as now we find that the water becomes stagnant which is very injurious to public health

I beg to conclude by making one observation as regards industries We are thankful for the provision of a lakh of rupees for the improvement of industries and for the appointment of a Director of Industries There will be a Royal Commission to inquire into the subject and I am glad to find that the Hon'ble Mr Stewart and Sir Rajendra Mookerjee from Bengal have been appointed to sit on that Commission and I have no doubt that good results will come from it The question is very important and everyone will take a lively interest in it I would suggest to the Hon'ble Member in charge of the Finance Department to provide more funds for the improvement of industries

The Hon'ble BABU MAHENDRA NATH RAY said —

'Sir, at this stage of the discussion I do not think I can add any useful criticism to the Budget as a whole, but if I venture to take up the time of the Council for a few minutes, it is because I wish to emphasise a point to which reference has been made by two hon'ble members already The most important stage of the discussion, the consideration of the financial statement presented to this Council, where the non-official members can be of any use is the stage at which resolutions may be moved by them with regard to the different major and minor heads of the Budget The duty that is cast upon non-official members in this respect has not so far been discharged to their satisfaction and the reasons I take it, for this admitted failure on the part of the non-official members to avail themselves of the opportunity afforded by the rules are (first) the very short time which is allowed under the rules for framing and submitting resolutions for the consideration of this Council, and secondly want of adequate details in Appendix B to the Financial Statement, as to the expenditure under the different heads One who has attempted to go through the Budget and the Financial Statement carefully with a view to see whether he has any useful suggestion to make, must have been struck with the difficulty to which reference has been made, especially in a year like the present when the provincial expenditure must be limited to the provincial revenue The only kind of suggestion that non-official members can make are suggestions by way of transfer from one head to another, either major or minor To enable them to do this work intelligently it is absolutely necessary that there should be given in Appendix B in place of the very short

The Budget

Babu Mahendra Nath Ray

explanation of details by way of an increase or decrease, more detailed explanation and some details under the minor heads in order that it might be possible for the member to say that from this particular head so much might be taken and transferred to the head on which in his opinion additional expenditure is necessary The hon'ble member who last spoke and who has experience of the Imperial Council which I have not said that additional details such as are wanting here are available to members of the Imperial Council I am not quite sure that this is so over there to the extent to which it is desirable to have them because glancing through the Imperial Budget which is available to us, I find that the only thing in regard to which the Imperial Budgets compare favourably with the provincial budgets presented here are the notes given in greater detail in the explanations of increase and decrease These notes afford greater help for the purpose which I am referring to than the very brief and short notes to be found in our Appendix B When trying to do our duty we feel this difficulty, and I am glad that more than one member have already given expression to that difficulty

I shall illustrate what I have just placed before the Council by one or two references Reference has already been made to the fact that of the three Presidencies the only Presidency, as my hon'ble and learned friend to my right has already pointed out which has been compelled to reduce expenditure on education this year is the Presidency of Bengal Now let us see how a member of this Council might have proceeded to consider this matter at the time when the draft Financial Statement was first presented He would have found that under two very important heads a considerable reduction was made from the allotments of the year just over For instance under the head Grants-in-aid the allotment was reduced from Rs 20 75 000 for the last year just over to Rs 11 80 000 No explanation is given Under another head payment in support of local schools under District Boards was reduced from Rs 8 3 000 to Rs 2 91 198 Surely the allotments under these heads are two of the most important allotments under the major head of education but in the absence of details under the several sub heads — only the expenditure has been increased for instance — under the heads inspectors inspection of Government schools and colleges — as well as in the absence of details under other major heads like administration police etc it was perfectly impossible for any member who would have attempted to suggest even some slight increase in the allotments under these two heads to make any effective suggestion We all regret the substantial reduction under these two heads—heads which largely affect both the primary and secondary education of this province One hon'ble member who I see has left the Council Chamber, has regretted very much that in his part of the country so many as 26 to 27 schools were clamouring for grants-in-aid but none could be helped and has said that if the grant-in-aid cannot be had from the Government the University ought to grant it and ought not to make exorbitant demands for recognition There is no doubt that the University is perfectly helpless in this matter and there is no doubt that a large number of schools are languishing for want of funds This is a matter which ought not to be lightly dealt with and if the present allotment of Rs 14,80 000 could have been raised even by two lakhs by transfer from other heads, that would have done incalculable good to the cause of primary and secondary education in this country But as I have said the non-official members are helpless in this matter it is impossible for us with the material at our disposal to make any valuable or practical suggestion

The other head viz, the payment in support of local schools under District Boards is a very important head, and from the experience I had of District Boards for a very long time it seems to me that sums so paid do much useful work in supporting and encouraging a large number of primary schools in this province The reduction of allotment necessarily implies discouragement and these institutions are bound to suffer

The Budget

Dr Deba Prasad Sarbadhikari Babu S N Banerji

The next point which illustrates this difficulty is the allotment on sanitation We have naturally taken a good deal of interest in regard to the allotments under these two heads education and sanitation Here, again, owing to the difficulties of the time, the allotment on sanitation has been reduced from 9½ lakhs for the year just over to 2½ lakhs No doubt the Hon'ble Member in charge explained with clearness why the reduction was inevitable we all know that, but the question was—could we not by suitable transfer from other heads raise this proposed allotment of 2½ lakhs say by a lakh more? Reduction under these two heads is certainly deplorable, and the difficulty which I have pointed out makes it almost impossible for us to come to the help of the Government in these matters

The Hon'ble DR DEBA PRASAD SARBADHIKARI said —

'Sir though we have nothing to gain out of the budget this year by prolonging the discussion there are one or two misconceptions that have crept into to days debate which for the reasons referred to by the Hon'ble Babu Mahendra Nath Ray and some other members who have spoken before would not have arisen if fuller facts were before me I should in the first instance therefore, like to associate myself very thoroughly with the request that in future years more details upon which members could work both with regard to the submission of resolutions and of general discussion, should be forthcoming I am sure it is misconception based on the absence of full information that has led to some mistakes to which I shall now proceed to refer

The Hon'ble Maharaja Bahadur of Nashipur who is always on the look out for savings for the purposes of sanitation more than indicated that it would be useful to save the Rs 50,000 that the Government of Bengal is going to give to the University of Calcutta for hostel purposes If all the facts were before us the Hon'ble Maharaja would have realized that this sum is but the balance of the 10 lakhs which the Government of India promised last year, of which 9½ lakhs has already been paid to the University The remaining 50 000 has in the usual course of things found its way into the provincial budget for the purpose of being paid out this year

I do not quite follow my Hon'ble friend Babu Surendra Nath Ray when he suggested that it would be useful to make a diversion in favour of a Science College out of the Rs 2 50,000 which the Government of Bengal are going to give to the University for its hostels Incidentally he wanted to know whether the other sum of Rs 1 50,000 appearing elsewhere in the budget is payable to the University in addition to the 2½ lakhs or is only a part of it As a matter of fact this Rs 1 50,000 is the annual recurring grant that the University receives, and Rs 2 50 000 is a part of the 3½ lakhs which the Government of Bengal as a result of the Conference at Darjeeling agreed to add to the 10 lakhs paid by the Government of India for the purpose of college hostels I am thankful, and everyone connected with the University is thankful to the Hon'ble Babu Surendra Nath Ray for suggesting that this Government should pay what it can for the furtherance of the objects of the Science College but such payment cannot very well be made out of amounts such as those indicated A similar question was raised in the Imperial Council by the Hon'ble Babu Surendra Nath Banerji out of which nothing much came'

The Hon'ble Babu SURENDRA NATH BANERJI said —

"I think my hon'ble friend is mistaken I may just correct him and say that the Government will be glad to help the College of Science, if the University will be good enough to reply to a certain letter lying over a month unanswered

The Budget

Dr Deba Prasad Sarbadhikhari

The Hon ble Dr DEBA PRASAD SARBADHIKARI said —

We do not generally refer to Imperial Council matters in detail in this Council, but it will be the first time that we are told, and we shall be told to our great surprise that the University of Calcutta is lacking in Oliver Twist virtues and does not get for not asking for more This misapprehension would not have arisen if non-official members moving in the matter had taken their colleagues into their confidence and were sure of these facts I am exceedingly thankful to those Hon ble Members who have raised the question that this Government should, if possible, come to the assistance of the Science College I may say that the building is incomplete and that certain adjuncts and apparatuses and fittings are very much required If by moving the Government of India it be possible for the educational budget to be improved no one will rejoice at the improvement more than myself

Reference has been made by a gentleman to the question of the affiliation of the Chittagong College The Government of India refuses to entertain the question of affiliation because of the staff not being quite equal to what the Government of India thinks right That has been the difficulty elsewhere, in the Government College in Krishnagar for example That is going to be the difficulty of the Sanskrit College too If the Government do not wish to see the disaffiliation of a Government College in a particular subject they will have to come to its help and strengthen the staff Again there is the question of affiliation in Sanskrit M A of the Sanskrit College which ought to be the one college where Sanskrit affiliation should be possible

Reference has also been made to the report on the condition of the Calcutta Schools which the Hon ble Mr De had undertaken but which has just been completed by Mr Roy I desire to give expression to our feelings of regret that the Hon ble Mr De will no longer be associated with the Government in education work I congratulate him on his forthcoming promotion, and we certainly rejoice in his advance Under his strong and sympathetic régime matters have been dealt with in a way that gave hopes of speedy improvement within the limits of our resources What strikes one most when one goes through the report is that these schools suffer from a lack of proper habitation After reading that report I incidentally and informally suggested to the Director of Public Instruction that what we really want is that the Government the Municipalities and the University should come together and devise means of better housing these schools which are doing excellent work under the circumstances and which if they are really to be improved must have assistance The Calcutta Corporation is clearing off congested bustees in Calcutta and the suburbs Well they may erect model schoolhouses and then we can tell private schools that if you pay so much you will have a good schoolhouse and that you must pay a little more than you are paying for an indifferent house or worse We know your staff, though not quite all right is tolerable, but such as it is you may if better housed can do better work and then improvement of staff and better discipline will come as a matter of course The bustees also will be improved in the process, and it will be a capital investment for whoever takes it up Anyone taking up the question would bring real practical help to the situation

Reference was made by an hon ble member suggesting that the University ought to be compelled to be less exorbitant with regard to the conditions of school recognition It gives me almost a sort of pleasure to think that we are apt and able to be exorbitant When a man is generally spoken of as weak, and he is now and again told that he is very strong he rather enjoys it This is the first time that I have heard that the University is at all exorbitant in its demands regarding recognition The general suggestion is that it is all the other way and that our standard ought to be very much higher

The Hon ble Nawab Ali Chowdhury has said that the Central Muhammadan Hostel should be a non collegiate hostel, and that 20 per cent of the seats in the hostel are reserved for Mussulman students of private

The Budget

Rai Nalinaksha Basu Bahadur

colleges I think this is not right You will remember sir, that at the Darjeeling conference, it was decided that percentage system should be given up, and there should be a central Muhammadan hostel where students of all the colleges would come It has been rightly complained by my friend that Dacca Muhammadans are particularly unfortunate in regard to this matter They are supposed to be going to have their own Muhammadan hostel, and while waiting for the Dacca University they are supposed to be going to have a special college of their own As a matter of fact they are having neither There is no reason why the Muhammadan college should not come into being while we are waiting for the Dacca University It would be a relief to the general situation

Reference was made to the provision of a lakh of rupees for the promotion of industries That is an aspect of things to which attention has been directed in the University of late, and I hope that something real will come of it

[The Council at this stage adjourned for luncheon for an hour On its reassembly His Excellency the President took the chair]

The Hon'ble RAI NALINAKSHA BASU BAHADUR said —

"My Lord, I shall very briefly refer to certain topics which seem to me to call for some remarks It is a matter of great satisfaction to notice the reduction of receipts under head Excise and whatever may be the cause of the same, I cannot but wish that this might serve as a prelude to further reductions in years to come The revenue receipts on this head were increasing year after year by leaps and bounds and this increase was viewed with alarm by all who had the welfare of the country at heart

I wish I could similarly congratulate the Government on a reduction in expenditure under head 'General Administration In these days of stress and strain when economy is practised so ruthlessly on educational and sanitary matters, the country confidently expected a similar economy in this department and it was a rude shock to be confronted with an appreciable increase of expenditure under this head

India of to-day is essentially an agricultural country and Bengal is specially an agricultural province I, therefore, think that more energetic measures should be taken to bring about improvements in agriculture

The grant of a lakh of rupees for the appointment of a Director of Industries and for the development of native industries is specially welcome as being a move in the right direction I think the grant might have been increased and that the Council might have been given more detailed information as to the manner in which this sum is to be spent

Some time ago I drew the attention of the Government to the necessity of erecting a decent court house at Burdwan and I hear that certain steps were taken to give effect to my recommendations, but I am disappointed to see that no provision has been made for this purpose I hope that in the near future the contemplated building will be taken in hand

I believe that the attention of the Government has not been drawn to the fact that in the jails of this Province when there are no prisoner Brahman cooks in the jails, non-Brahman cooks are employed for the purpose and prisoners are made to take food cooked by them against their wish and religious sentiment In my humble opinion, some provision ought to be made for the employment of Brahman cooks in the jails of this Province

It is a well known fact that the number of duly qualified medical practitioners is too small to cope with the demand, and a proposal was made in the Imperial Legislative Council to establish schools for giving such medical training as was used to be given to the native doctors of the old days I hope the Government will see their way to make adequate provision for establishing medical schools in the sadar town of each Division in order that the public may be able to look for the services of qualified practitioners

The Budget

Chaudhuri Muhammad Ismail Khan

In a former Budget speech of mine I brought to the notice of the Government the absence of a Government school in the town of Burdwan Hopes were given by the Director of Public Instruction of a sympathetic consideration of the matter But up to this time no steps have been taken for the purpose I hope the Government will kindly take this matter into their consideration when funds are available

The Hon'ble CHAUDHURI MUHAMMAD ISMAIL KHAN said —

My Lord no useful purpose is likely to be served by an elaborate discussion of the Budget Estimates for 1916-17, and any debate over them is sure to be more or less academic in its character The titanic struggle of nations in Europe and other parts of the world is really staggering humanity not only morally but also economically We Indians as part and parcel of the British body politic are bound to share in its fortunes To meet the exigencies of this time of stress and strain a rigid economy has to be observed in all branches of the administration, and it is indeed a pleasure to note that the keynote of this year's budget has been retrenchment throughout From an exclusively Indian point of view, many useful and necessary works have been abandoned many reforms postponed, and good things, calculated to secure the betterment of the condition of the teeming millions foregone But we must always be prepared for emergencies like these As practical men, we should take things as they are and we must bear in mind that we cannot always afford to indulge in dreams of unimpeded growth of happiness and prosperity Yet we have faith in the ultimate triumph of justice and righteousness and we hope and trust that even out of this welter of blood a richer humanity will emerge and in the words of the poet the world will be more and more We are fondly looking forward to the day when trade and commerce will recover their normal conditions and India's vast undeveloped resources will, under the guidance of our sympathetic rulers secure for India, an amount of prosperity and industrial independence which will indeed be a sight for the gods

Suggestions for improved sanitation and widespread education are quite out of place in a poor and shrivelled Budget like the present one The Imperial Government has been very economical in its grant to the Provincial Governments, in spite of the increased taxation on salt which pinches even the poorest of the poor and on other necessaries and luxuries Your Excellency's Government is absolutely helpless in the matter yet I am glad to note that your advisers and councillors have not been slow in doing their very best to avoid starvation and stagnation in many useful departments I sincerely congratulate your Excellency's Government on making provision for Muhammadan Inspectors in the Budget in view of the spread of Muhammadan education

My Lord I may be pardoned for a bit of unsavoury criticism It relates to the improvement of the status of the lowest grade of that extremely useful class of public servants, namely, the munsifs who by their strenuous work and honest and steadfast discharge of duties have always deserved well of the State They as a class, are in no way inferior to the members of the Provincial Executive Service nay in many respects they are superior and more hard worked The proposal of having the lowest grade of this useful class of public servants on Rs 250 has been on the tapis for some time and though it had almost universal support yet this much needed reform has not been given effect to The question was debated in this Council at the instance of my hon'ble friend and colleague Maulvi Fazl ul-Haq and it was a pity that the Council could not be brought to his way of thinking and that no provision could be made for it in the present Budget The very large income that accrues to Government out of the sale of Court fees is certainly a very strong ground for the proposed reform, which cannot be lightly brushed aside

The Budget

Mr Golam Hossein Cassim Ariff

My Lord I have one more remark to make and I have done It is not certainly consistent with what I submitted at the outset to make a long speech and to detain the Council over criticisms over minor details

As last year, I entered my humble but firm protest against the increase in expenditure over lawyers fees I am constrained to raise my feeble voice once again against an increase of Rs 1 96,000 for the payment of lawyers' fees This item should be cut down to its minimum and an example set to my countrymen who court ruin by going to law and paying fabulous fees to lawyers Litigation has been the curse of the people of Bengal and the spirit should be curbed by healthy example

With these few remarks I beg to support the Budget for 1916 17

The Hon'ble Mr GOLAM HOSSEIN CASSIM ARIFF said —

'My Lord, last year I dealt at some length with the system of education as obtaining in this Presidency I expressed my regret that no provision, which could at all be called adequate was made for imparting to our youths such education on industrial lines as would fit them for the struggle for life I am afraid the exigencies of the war have prevented the Government from undertaking any experiment in this direction and I see no indication in the speech in which the Hon ble Mr Hornell introduced the Education Budget that this particular object has been kept in view However, there is a provision of Rs 25,860 for additional Inspectors for Moslem education While I appreciate the efforts of Government to exercise greater supervision I feel that the expenditure will hardly compensate for the wastage of good material which I see going on around us in the educational institutions of the country As one connected with industry I naturally attach great importance to the development of industrial education amongst both the Hindu and Moslem communities and probably more amongst the Moslems, for there is no denying the fact that we, the Moslems of India, and specially of Bengal, are comparatively a poor community, and it behoves us to see how that poverty and the causes relating to it may be removed In this we have an advantage over our Hindu brethren Trade, commerce and industry are not prohibited to us our forebears had made notable achievements in this direction Our laws of inheritance are more democratic in their effect upon the distribution of wealth than any other law which I know of, preventing the possibility of the accumulation of inherited wealth in individuals and thus stimulating individual efforts Circumstances, into which I need not enter at the present moment, have thrown back our community a great deal The Hindu community is making great and rapid strides especially in Bengal I wish our Hindu brethren godspeed As a Moslem, I cannot forget that in the dark ages of Europe the lamp of learning was kept burning in the Moslem Universities in Asia and Europe While in the true interest of humanity the ideals of knowledge must be kept up, knowledge based upon the ideals which had prevailed in the East it is equally in the interest of humanity that moral and intellectual development should be accompanied by material prosperity which can only be achieved by the growth and progress of industry My Lord what have we got to show in this direction? A weaving school at Serampore, of the result of which much is not known to the outside public and an Engineering College at Sibpur, whose students are said to lack the practical knowledge of the West, are probably all that we have

The Government, no doubt would like to put the blame upon the people as being unwilling to make the same venture as the nations of the West, but would that be a correct attitude for the Government to take up in dealing with the industrial development of India? In the growth of industries, would it be possible for a nation, whose education has been founded and is still continued upon the basis of ancient classics whether of the East or the West to enter with any chance of success into competition with the well established and organised industries of Great Britain America and the Continent of Europe?

The Budget

Mr Golam Hossein Cassim Ariff

My Lord, it seems to me that the Government are awakening at last to a sense of their true responsibility A high official of your Lordship's Government, while addressing students, laid great stress on the work done by Government for the protection of life and property Though that is no doubt a great work, you must give the people bread before you prevent them being robbed and it is gratifying to us to note that efficient administration is not overlooking the needs of the people, in directions other than the preservation of peace and order Even the high priests of free trade are advocating a qualified system of protection for home industries We who might be likened to mere babies lying helpless in the cradle of life in comparison to the giant nations of the West have been overwhelmed with the produce of other countries, much more industrially advanced, and manufactured under a system which gives us no chance To day, my Lord, what can be more pitiable than that while America and Japan taking advantage of the European war, are flooding our country with their rotten produce we are sitting practically helpless with folded hands? The responsibility for this state of things lies, I believe, in the spirit of British rule, which would leave everything to individuals The result is seen in various directions I have had to close down my Silk Mills the only ones in Bengal for want of aniline dyes and even the time honoured and immemorial festival of the 'Holi had to be content to be celebrated without its accompaniment the red powder Government little realise that this latter incident has affected their prestige in the bazars of India where the dependence of Great Britain on German dyes and German industries forms the subject of unenlightened gossip

My Lord, we note that a Commission, with representatives of our people included in its body, has been just appointed to inquire into the industrial position and possibilities of India I believe that your Lordship's Government had no hand in the choice of members of that Commission, but as one connected with the industrial life of India and its difficulties, so far as private enterprise is concerned, it seems to me that the Commission would have been more fruitful of results if it had included more men with greater intimate knowledge of the economic conditions of this and other countries, with knowledge of the industrial system of Japan America and the Continent of Europe, so that we might have had the benefit of their experience as to how it was possible to introduce successful industries carried on with indigenous capital into countries which were until lately wholly agricultural, and how far the Government should and might assist such industries and in what way My Lord, the composition of the Commission points to an interest in the mineral resources of India If, my Lord, the result of the Commission is the exploitation of the mineral wealth of India in the interest of foreign capitalists our last stage will be worse than the first For now we have dumped down on the Indian market produce of foreign countries which we pay for with Indian produce which may be renewed from year to year But nothing will compensate India if foreign capitalists take away her mineral wealth in exchange for their manufactures The great question is to induce the flow of indigenous capital into the manufactures and industries of the country; the suggestion of means by which confidence will be created and Government brought into closer touch with the industrial life of the country It has often been said that it is no business of Government to come to the aid of the industries of the country It may be true of the highly-developed organisations of the West, but it can hardly hold good in a country wholly untrained in the industrialism of the modern state, and face to face with keen competition with countries where industries are fostered by their Governments in every possible way and specially by the weight of their political power If the Commission will show us how industries may be fostered in the country without the influx of foreign capital, it will bear some fruit However, I hope it will not share the fate of some commissions of which we have had some experience

The Budget

Mr Golam Hossain Cassim Ariff

My Lord, I began by referring to the educational system of the country as it now prevails I do not wish to dwell upon that unpleasant but not inexplicable feature of the association of some members of our student community with anarchical ideas It may be and I am sure it is, that students cut off from home life and all the influences of home and cast adrift into the turbid stream of a big city like Calcutta may be easily caught into the net of designing and evil-disposed persons specially when the latter approach them in the garb of friends and deliverers This is an evil which is perhaps avoidable by bringing education nearer the homes of our student population, but that the happening of an incident, like that which is forming the subject of an inquiry at the present moment, should be possible in an institution like the Presidency College of Calcutta, conducted under the direct supervision of Government is a serious indication of the laxity of moral discipline in the present system of education of our youths that it should be possible for Indian youths to insult their teachers is a thing at which the ancient teachers of India, Hindu or Moslem, would stand aghast The old bond, the old sympathy, the old attitude of mind which bound the guru and his disciples, the maulvi and his pupils, as father and sons, seems to have gone altogether Many of the teachers and professors do not even know 90 per cent of the names of their pupils Should we not learn something from the missionary institutions where better relations between the teacher and the taught prevail? It may be well to cry out that all sense of discipline is gone, but when nothing is done in our schools and colleges to inculcate into the minds of our youths the elementary principles which should govern their relations with authority parental, tutorial or otherwise, when no attempt is made to train them in habits of obedience when license is taught as the equivalent of liberty it is no use to apply the lash The rod must break on a back that has hardened with time You cannot achieve by a momentary shew of displeasure what requires years of patient and loving work The dismissal of the whole college for the fault of a few students is like the punishment of a whole nation for the crime of a few individuals it only aggravates the evil I should not like to anticipate the result of the labours of the Committee that is now sitting over this matter I only hope that the Committee will give us the lead in so reorganising the life of our student community as to make the recurrence of such regrettable incidents practically impossible

My Lord, talking of the causes of unrest amongst the students I do not think it would be right to ignore the sense of alarm and grave discontent that prevails among the sober and steady resident population of Calcutta, by reason of the operations of the Calcutta Improvement Trust My Lord a grievous injustice was done to Calcutta when the Government while borrowing the main provisions of the Improvement Act from Bombay omitted, for reasons best known to their advisers to adopt the constitution of the Bombay Improvement Trust The result was what any man with ordinary common sense would expect In Bombay they have got a body of 14 with 3 nominated members In Calcutta we have a body of 11 with 4 members nominated practically on the recommendation of the President and three members, one being the Chairman of the Corporation of Calcutta one chosen by the officialised moiety of the same body and the other by the Bengal Chamber of Commerce so that in a body of eleven we have including the President eight official or semi-official members who have no more knowledge of the real life of Calcutta than the proverbial man in the moon The birth-rate and death-rate may be known to them and the slums and the number of houses and huts which crowd the spaces of Calcutta may also be known, but what is unknown to, and unknowable by these gentlemen is the life with all its hopes and fears, its innermost sentiments and aspirations that is throbbing inside those houses and huts

The administration of the Trust has caused great alarm and dissatisfaction, our people who were so much attached to their homes are no longer sure that they can dwell in them with any sense of security or that they can leave

The Budget

Mr Bray

them as at one time they had expected to do to their widows or children, one never knows when the axe will fall, the Trust has not yet put before the public a comprehensive scheme, so that people may know once for all what is in store for them This state of uncertainty is creating grave discontent which the Government may well take note of But what, I pray, will the Government do when discontent spreads amongst peace-loving people not giving rise to disorder but to despair? Does this angle of vision ever strike those who are placed in authority? The composition of the Trust may not be justifiable, but surely my Lord Government can come to the help of the people by judicious nomination, introducing into the inner Chamber of the Trust some light from outside

My Lord, in view of the war it was but inevitable that our expenditure should be restricted and the activities of the Government hampered in many directions except in the direction of the detection and punishment of crime A new office has been created in this department, if it leads my Lord to a more economic system of prosecution leaving more to local law officers and drawing less upon the legal talent at headquarters the result from every point of view will be most satisfactory I am no lawyer but I believe the practice and procedure of trials for anarchical crimes must be fully well known to the veriest legal tyro and experienced law officers of the Crown may be safely trusted to help in running down sedition to the ground

My Lord, I have listened with a sense of chastened appreciation to the speech of the Hon'ble Mr Beatson Bell who last year would not suspend Survey and Settlement operations but who finds good cause to do so this year, though he holds fast to the principle he had enunciated namely that such operations should not be suspended While such devotion to principles is worthy of all praise a little deviation in practice is not altogether to be held to blame

My Lord it is a matter of regret to us that the latter period of your Lordship's rule should fall under the shadow of a great war, and expectations which your Lordship's sympathetic administration had raised in many quarters should remain unfulfilled Calcutta laments its departed glory and Bengal its vanished prestige, but I have faith in the recuperative power of this Province, I have faith in the sympathy of our rulers industrial failures of the past do not discourage me they are inevitable in the beginning of all industrial life Given a good lead, Bengal may yet regain her position among the provinces of India and Calcutta retain its attractions and its claims notwithstanding what Aladin's lamp may do in the desert places and amid the ruined sepulchres of Delhi

The Hon'ble MR BRAY said —

'My Lord, so much has been said and so ably said by the Hon'ble Members who have preceded me that I have little to say on the subject of this budget Or at any rate little that I can say without entering on forbidden topics, but I should like to make a few remarks on the matter of expenditure on police I should very much have liked to have seen more generous allotment under this head The police during the past 18 months or so, have not, I think, met with the recognition due To the police we very largely owe the fact that the lawless element in this country has not caused more trouble than it has On the police fall the result of any errors that may be made by the civil or military authorities On the police we rely to remedy them and nobly do they respond to this task I have had the privilege of knowing two or three police officers and I say without fear of contradiction that His Majesty has no more devoted and more efficient servants than are to be found in the police of this country And what is their reward? Hard work, poor pay, indifference or worse on the part of the public, charges of corruption—who would not expect to find black sheep in a flock of that size? Their little failures pounced upon and magnified for

The Budget

Rai Prasanna Kumar Ray Bahadur

pillory in the press, the result of their efforts misinterpreted and sometimes brought to nought by the cleverness of lawyers, and finally assassination in the open streets without protest and without help from the passers-by Are we to add to this list by depriving them of the funds necessary for not only improving their service, but even for maintaining its efficiency? In truth the policeman's lot will not be a happy one My Lord, there are men, possibly in this Council though I trust not, who seem to be systematically opposed to any fresh grant to the police, and even, I believe, if they had their way, would reduce the grant There are men who, if it were not for this self-same police, would be getting their throats cut three days a week and shot at the other four These men may smile now, but surround their houses with dacoits, and they would very cheerfully exchange everything they had for a couple of stout policemen My Lord, in no circumstances and under no pressure can we afford to economise in the matter of police, in the matter of maintaining law and order Without that law and order the rest of the money spent in other directions may well be wasted There can be no falser economy suggested or desired than a curtailment of expenditure on the police"

The Hon'ble RAI PRASANNA KUMAR RAY BAHADUR said —

'My Lord, while congratulating your Excellency's Government on the satisfactory character of the Budget, I may be allowed to say at the outset that I fully realize the difficulties which the Hon'ble the Finance Member had to contend with in preparing it We all know 'the exceptional circumstances referred to by the Hon'ble Member in his Budget note, because of which it has been found impossible to provide for the regrant of all the unexpended balances of the Imperial grants under certain important heads and for which the Government of India have been compelled to issue the mandate that the Budget must be prepared on the principle that the Provincial balances would not be available for expenditure in the financial year that has just begun We are all praying for the day when the circumstances will change with the termination of the Great War The pinch would have been felt long ago even out here had it not been for the splendid resources of the British Raj, both in men and money, and its wonderful economic organisation, which has elicited the unstinted admiration of the whole world

My Lord I feel diffident to offer any lengthy criticism on the Budget Every one will admit that it is not the time to do that And if we offer any criticism at all, I hope your Excellency will appreciate our motive in doing so as being a sincere desire of serving the Government with helpful suggestions—a duty which we owe not only to our constituents but also to your Excellency's Government I will therefore confine my remarks to some of the most important heads in the Budget

EDUCATION

My Lord it is rather disappointing to find that the provision under the head Education for 1916 17 is only Rs 88,30,000 as against Rs 1,05,62,000, the sanctioned estimate of last year I am glad to find, however, that inspection charges have been curtailed by about Rs 28,000, though the figure is still considerably more than the sanctioned estimate of last year There is one provision in the Budget, my Lord, which I do not understand and that is the provision of Rs 58,000 for the Hastings House School So far as I know the idea of the Hastings House School emanated from a few successful professional and business men The originators of the school were perhaps prompted by the fear that their hopefuls would be spoiled if they received their education in the existing schools along with other children whose parents were not gifted with the world's riches to the extent that they themselves were So far so good But when it comes to tapping the Provincial Revenue for the mere gratification of the desire of a handful of persons—of persons, moreover who have the means of gratifying their desire—I respectfully submit, my Lord, that every taxpayer has a right to know more about it My Lord, I

The Budget

Rai Prasanna Kumar Ray Bahadur

can well understand Government spending extra money over the education of a particularly backward community but in this case it is not a particular community that is going to be benefited Any boy can be admitted into the Hastings House School provided his people are fairly rich—it does not matter whether they are zamindars or shopkeepers—the only thing required is wealth In such circumstances I would respectfully ask the Hon'ble Member whether this grant of Rs 58,000 from the public revenue is justifiable My Lord Government have already given up the idea of a college for well to-do classes in connection with the Dacca University Not only was popular feeling against it but the landed aristocracy were also against it I have no quarrel with the promoters of the Hastings House School, what I would respectfully ask is whether there is any need for Government to recognise that school by making such a big grant If it were a school exclusively for the sons of aristocratic houses in Bengal—in that case also I doubt very much whether the grant would have been justifiable for, as the Hon'ble the Maharajadhiraja Bahadur of Burdwan pointed out in a speech in this Council Chamber with reference to the proposed college for well to-do classes, that aristocracy in India is not at all like what it is in European countries In India the aristocrats do not form a class by themselves Here aristocracy is a matter of caste, its criterion is not wealth—least of all professionally acquired wealth

This sum or even a fraction of it, I venture to submit, could have been very properly utilised for a hostel for *namasudra* students, whose claim for a separate hostel was so ably put forward at the meeting of the 13th March last by my hon'ble friend Rai Radha Charan Pal Bahadur

SANITATION

Although sanitation like other heads has also found sufficient support in the present Budget, yet it is gratifying to note that a further sum of one lakh of rupees has been found for it making a total of rupees two lakhs and a half under this sub-head to provide additional funds for anti-malarial measures and other sanitary improvements My Lord, your Excellency's Government have recognised the urgent need of taking some steps in order to check the ravages made by malaria in this Presidency The Hon'ble Nawab Syed Shamsul Huda in reply to a resolution moved by my friend the Hon'ble Rai Radha Charan Pal Bahadur on the 13th March assured him that Government would take steps as soon as the report of the Malaria Committee was received It is not for us laymen to suggest any scheme for driving out malaria from Bengal But we all know that malaria *can* be driven out from here as it has been driven out from Italy And in Italy, my Lord, it was the Government who took the initiative in the matter It is often urged, even by men who ought to know better, that the people are apathetic in the matter of malaria, that if they themselves take proper care and precaution and improve the sanitary condition of their surroundings, malaria will gradually be driven off It is merely a half-truth, my Lord The people have never in any country and in any age taken the initiative in these matters The State must show them the way, the Government must help them to realise the necessity of protecting themselves before they begin to help themselves This has been the lesson of history, and it is no use accusing the Indian people of indifference and apathy in the matter of sanitation

There is another reason, my Lord, why this question should be taken up in right earnest now The economic pressure that is gradually making itself felt upon persons belonging to the middle class whose business or profession compels them to be in or near Calcutta, will ultimately end in pushing them out of the city and where are they to go if the suburbs are not opened out? The Calcutta Improvement Trust, which, by the way, seems to be immune from the effects of the War, has already compelled many persons to leave the city But the question of congestion in Calcutta cannot

The Budget

Rai Prasanna Kumar Ray Bahadur

be solved so easily My Lord, I have heard even from persons whose ancestors settled in Calcutta after the battle of Plassey and who pride themselves as old Calcuttites that they would be glad to leave the city at once if they could find some place near it where they could live cheaply, breathe purer air and from where they could come daily to their places of business in Calcutta This can only be effected, my Lord, if this malaria question is taken up in right earnest by the Government and that without any undue loss of time I hope, with the Hon ble Nawab Syed Shams ul Huda, that the Hon ble Dr Sarkar who is a distinguished member of the Malaria Committee, will urge that Committee to submit their recommendations to Government at as early a date as possible so that work may soon be commenced in this direction Whatever their recommendations may be, I hope, my Lord, that money will not be wanting in the next Budget at any rate to give effect to them In this connection I make a special appeal to the Hon ble Member in charge of the finances of this Presidency—a Presidency for which he declared his love in the last Dacca Council Meeting He would not like to see this beautiful province factory ridden and smoke befogged, but would he tolerate the Angel of Death taking his annual toll by the hundred thousands from this beautiful land ?

MISCELLANEOUS

My Lord, I am always glad when there is a decrease in revenue under the head Excise The causes of this decrease are no doubt the distressed conditions arising from the War These conditions will pass away, but I hope with them will also pass away the craving for liquor on the part of the poor people

My Lord, the authorities must be congratulated on the success which has attended their efforts in suppressing anarchical dacoities in Bengal—especially the motor dacoities in or near Calcutta That is sufficient justification for any extra expenditure that has been incurred

This day, two years ago we expressed our satisfaction for the provision made to increase the pay of the last grade of munsifs But we find that our satisfaction was premature This year there is not only no provision in the Budget, but even a Resolution by my hon ble friend Maulvi Fazl ul Haq failed to make any visible change in it The munsifs must rest satisfied with the Hon'ble Nawab Syed Shams ul-Huda's reassuring words, but hope deferred might make even the hardened hearts of the munsifs sick No effect also, it appears will be given to the long-deferred scheme for the improvement of the pay of Registration clerks till after the present crisis is over There is a very hard lot indeed, and it would have been an act of kindness if Government could have found their way to provide some money for introducing at least a portion of the revision this year

It is, however, refreshing to note that we are shortly going to have a Director of Industries and it is hoped that under his direction indigenous industries will receive an impetus The sum of one lakh of rupees is rather a modest amount to carry on experiments with but I am sure that next year the Budget will show a considerably higher figure under this head But, my Lord, however much we may encourage indigenous industries we cannot forget that Bengal is essentially an agricultural province and the sum allotted under the head Agriculture is in my opinion quite inadequate I sincerely hope, my Lord that this very important Department will receive its due share of attention at the hands of your Excellency's Government so that Agriculture may thrive and prosper side by side with manufacturing industries

With these words I conclude my observations on the Budget Many of us will not perhaps come back to this Council Chamber again and I take this opportunity of expressing our gratefulness to your Excellency and your Excellency's official colleagues for the courtesy they have always shown towards us—the non official Members "

The Budget

Maulvi A K Fazl ul-Haq

The Hon ble MAULVI A K FAZL UL HAQ said —

'My Lord, in rising to make my farewell speech in this Council, I sincerely hope that the official members will not take it amiss if my parting words to day do not happen to be wholly devoid of a little friendly comment and criticism Ever since I have been a member of this Council, I have always used my humble efforts in pressing the claims of my community upon the Government specially in matters affecting the educational advancement of my people I have often used the language of strong comment in doing so, and I have sometimes been taken to task for what I have been constrained to say on various aspects of Government policy Only the other day a very high official presiding at a Muhammadan gathering at a public function referred to my criticisms of Government measures in language of strong disapprobation He said that my attitude was like going about with a bludgeon to strike at the head of officials instead of my extending the hand of friendship and co operation in their efforts to grapple with the complicated problems of a Provincial administration Now far from sallying forth with a bludgeon in hand I am terribly afraid of going about with even a walking stick lest I be caught within the meshes of the Defence of India Act or the provisions of some similar repressive legislation And if, at the present moment with the undoubted necessity for the utmost caution in all our public utterances I venture to make some adverse comments on the present budget, I will seek justification in the loyalty which we all owe to a sense of duty The British officials in India wield unbounded powers Into their hands are committed the weal and woe of millions of human beings, and for them it is a much commoner experience to be flattered and cajoled rather than to have their faults freely pointed out My hon ble colleagues have often given the official members of this Council numerous certificates of good conduct and much well deserved credit for what the officials have done, and are daily doing for the good Government of the country I think it is time to present to the officials even a momentary view of the other side of the shield, if only to correct a possible human vanity which may arise in their minds by a contemplation of the magnitute of their accomplishments I freely express the gratitude of all our people for all that they have done, but it is also necessary to tell them now and then how much they have left undone I hope and trust that a contemplation of work unaccomplished will quicken and stimulate the desire of every official in this Presidency to attain the highest and noblest of ideals in the discharge of their duty

My Lord, if the mills of God grind slowly, they also grind exceeding small, but the mills of Government grind so very slowly that sometimes they seem not to grind at all This is very often the case with reference to projects affecting the interest of the people of Eastern Bengal in general and oftener with regard to various claims in connection with the furtherance of Muhammadan education in particular I do not know if the official members of this Council are aware of what happens in the case of the oil pressing machines used by oilmen for pressing oil in the mufassal The oil is pressed out of seeds by means of two stones which are turned round and round by a bullock, which goes about in a circle, turning the pressing stones as it moves about in a circuit For some reason or other, the eyes of the bullock are blindfolded, and as the poor animal goes the round of the circuit throughout the night, it thinks that it must have covered hundreds of miles in the course of its journey When day breaks however and the folds are taken off its eyes, it finds itself in exactly the same place where it was when it began the circuit The progress of many an important project under the provoking dilatoriness of secretariat procedure is very little better than that of the unfortunate bullock in the course of its wanderings through the night Time and energy may be spent no doubt, but matters remain practically where they were at the beginning I will now illustrate my remarks by referring to only a few specific instances

The Budget

Maulvi A K Fazl ul Haq

My Lord, in order to make my meaning clear I will ask the indulgence of my hon'ble colleagues to travel back with me a period of nearly three years and a half to fix their attention on the condition of things immediately on the annulment of the partition With a view to prevent a set-back in the educational progress of Eastern Bengal, we were promised a University at Dacca Ever since 1912 provisions were being made in every budget for this proposed University and each year we were told to live on the hope that this University would soon be an accomplished fact We are now told that a costly project like a University at Dacca is out of the bounds of possibility in the near future I can understand that a big scheme like this cannot be developed in a day, but does it really take years and years for the scheme to mature and develop if only the will to carry the work through be not wanting? Even under the stress and turmoil of the war, the new province of Bihar and Orissa could get such a costly institution as a new High Court at Patna Could not the same energy and the same quickness of despatch have accomplished at Dacca what they did under such abnormal conditions at Bankipur? Perhaps the Dacca University lies buried deep beneath some dusty files in some Secretariat while the people of Eastern Bengal are no wiser than the unfortunate oilman's bullock hoping that considerable progress has been made although matters are absolutely at a stand-still

My Lord, another project which seems to have got round some oilman's bullock and is being turned round and round the Secretariat pressing machines is the proposed Muhammadan College at Calcutta A notification for the acquisition of lands has no doubt been issued, but the College itself is as far from being an actual reality as anything in a visionary dream I have no doubt that if the authorities concerned had the least intention of giving us a relief in this matter, the scheme would have been an accomplished fact long ago But the officials allowed the matter to procrastinate with the result that the present financial strain on our resources has shut out the possibility of any consideration of the scheme for years to come

My Lord, another project which has shared the same fate is the one for a hostel for Muhammadan boys somewhere in the vicinity of College Square in Calcutta It was in 1913 that I drew the attention of Government to the pressing necessity for such a hostel and since then I have never lost any opportunity of urging this matter on the attention of Government In the session of the Legislative Council held at Dacca in 1914 the Director of Public Instruction, speaking to one of my resolutions on this subject, admitted that the difficulties of Muhammadan students regarding hostel accommodation were extremely real and genuine and he practically endorsed all that I had to say as regards the adoption of early steps for the removal of such difficulties More than three years have elapsed since this matter was first discussed in this Council, and to-day at the end of my term, I am leaving the matter in exactly the same condition as at the beginning It is true that a small hostel has been established at Wellington Square in a rented house as a temporary measure, but this is far from giving the students a real relief My hon'ble friend the Vice Chancellor told us about a year ago that he was going to establish a hostel out of University funds for Muhammadan students in the vicinity of College Square I understand that a beginning has been made and I sincerely hope that the project may not get round the neck of some oilman's bullock to be turned round and round some pressing machine of the University The finances of the University must have been very little affected by the war and there can be no possible reason for the postponement of this University hostel on any ground whatsoever

My Lord, another project which seems to have got strangled at its very birth is the one for the Muhammadan Hall at Dacca It may be a surprise for many of my hon'ble friends to hear that the foundation stone of this Muhammadan Hall, which was really meant to be a boarding-house for Muhammadan students, was actually laid by Sir Charles Bailey on the eve of his retirement as

The Budget

Maulvi A K Fazl ul Haq

Lieutenant Governor of the ill fated province of Eastern Bengal and Assam It is said Sir Charles Bailey on the occasion of laying the foundation stone of the hall and referring to the remarkable progress in education made by the Muhammadans in Eastern Bengal, 'a very great pleasure to me on leaving this Province to find that much progress has already been made and that a foundation has been laid on which my successors may rear a splendid edifice The foundation of the edifice was no doubt well and truly laid, but little did Sir Charles Bailey know at the time that his successors were going to build the edifice itself in the air It is time that the foundation stone with all its memorable associations be now handed over to the Archæological Department of the Government to be preserved as a part of the curiosities of a forsaken capital

My Lord I have hitherto mentioned only a few instances in which the most urgent and important schemes have been allowed to be shelved and which have now got to be given up altogether The dilatory methods adopted with reference to these and similar projects were certainly not due to mere lethargy or laziness for officials can be marvellously quick and energetic over any pet project of their own I have already alluded to the case of the Patna High Court which was conceived developed and carried into execution under the most abnormally unfavourable conditions I am reminded of the case of the Hastings House School in Calcutta as another instance of the quickness with which schemes can be carried through in the face of the acutest of financial embarrassments It seems a little perplexing that there should be one procedure for some schemes and projects, but quite a different one for others which may not happen to catch the fancy of officials

My Lord the Hon ble Nawab Saiyid Nawab Ali Chaudhuri has complained that the promises about making Dacca the second capital of the Presidency has not been faithfully kept I am not prepared to share in his disappointment The treatment meted out to Dacca ought to have been foreseen by every sensible man in Eastern Bengal The declaration about the position of Dacca as a second capital of this Presidency was only a part of the programme of the annulment of the partition which itself proceeded on broken pledges and unredeemed promises It is no wonder that the inevitable has at last come to pass and has consigned Dacca to its doom With the fall of Dacca as a capital city many an important project relating to the welfare of the people of Eastern Bengal seems to have gradually slipped out of the attention of officials I could have spoken for hours if I had been permitted to enter into minute details but the limitation of time at my disposal compels me to make only passing references to a few specific instances

First there is the canalisation of Dacca khals and the Dacca Drainage Scheme This was sanctioned and budgeted for by the Government of Eastern Bengal and Assam and in 1913-14 the first budget of the present Government provided for a payment of Rs 22 000 as fees to Messrs Lane, Brown and Hewett for the preparation of a sewerage scheme for Dacca City In 1915 the Hon ble Nawab Syed Shams-ul-Huda gave an assurance that the schemes would be carried into effect, but we do not find any mention of this item in the budget nor any explanation of the delay

The next item I wanted to refer to is the Dacca Aricha Road. Attention has already been drawn to this matter and I need not repeat what has been said

Drying up of the Dhalleswari is a serious problem which should be immediately solved

Survey classes—Reference has already been made to these by the Hon ble Nawab Saiyid Nawab Ali Chaudhuri who has shown how Government has effected a saving of Rs 2,640 yearly at an expense of between 17 to 22 thousand a year

I must now leave Dacca and Eastern Bengal to their fate and turn for a moment to one or two problems affecting the cause of Muhammadan education in Bengal It is true we have always pressed for a preferential treatment of

The Budget

Maulvi A K Fazl-ul Haq

the claims of our community in this matter, but in doing so we have never pressed for anything new We have never asked Government to depart in the slightest measure from their own recognised principles All authorities have constantly pressed the claims of Muhammadan education for special consideration Even the well-known Hindu deputation, headed by Sir Rash Behari Ghose, which waited on His Excellency Lord Hardinge in Calcutta on the 16th of February 1912 in connection with the now historic university at Dacca, had the frankness to concede that The whole province will welcome the grant of special facilities for the spread of education among the Muhammadans in the shape of endowments and a more liberal award of scholarships The Education Commission of 1884 which was the most representative body that ever investigated the entire problem of education in India after making careful and exhaustive inquiries on the subject, formulated a series of recommendations for the encouragement of Muhammadan education It was in 1871 that the then Lieutenant Governor of Bengal in a minute acknowledged that the Muhammadans were not being fairly treated in Bengal with regard to the educational machinery Nearly 45 years have passed since then and I will not shrink a moment from remarking that the situation is not very much better to day On the 14th of March 1913 the Hon'ble Nawab Sayid Nawab Ali Chaudhuri moved a resolution recommending that substantial grants both recurring and non-recurring be set apart for the furtherance of schemes of Muhammadan education and the resolution was accepted by the then Director of Public Instruction in an eloquent speech which is a masterpiece in the art of self glorification At the end of three years it will be profitable to consider for a moment how these promises have been kept In reply to an interpellation of mine on the 6th of March of this year the Hon'ble Mr De furnished a statement showing the total expenditure, both recurring and non recurring on education either from Imperial grant or out of the royal grant for education and also the amount spent under these two heads in the furtherance of schemes for the advancement of Muhammadan education It appears that the non recurring expenditure on education during these three years amounts to a little over fifty one lakhs out of which the amount spent on Muhammadan education amounts to a little over four lakhs Similarly, the amount of non recurring expenses during the years 1912 15 amounts to nearly 50 lakhs out of which barely a lakh and a half seems to have been spent on schemes in the furtherance of Muhammadan education The total expenditure during these years on both the heads recurring and non-recurring happens to be one crore and 67 thousand and the exact amount spent on schemes for Muhammadan education comes up to the sorry figure Rs 6,12 691—in other words, a poor percentage of about 6 per cent I do not for a moment wish to impute any motive to officials high or low, in their treatment of the claims of the Muhammadan community but there seems to be a malignant fate dogging the steps of our community and paralysing the efforts of the officials in furthering our interests

My Lord, there is one other matter relating to the problems of Muhammadan education which is of the utmost importance to our community and which I cannot on the present occasion overlook I refer to the necessity for providing Persian and Arabic teachers in High and Middle English schools in this Presidency This was one of the recommendations of the Education Commission, and the matter has been constantly pressed on the attention of the Education Department not merely by individual leaders of our community but also by various public associations and educational conferences It is therefore a matter of sincere grief to us that the answer of the Hon'ble Mr De on the 27th of March 1916 to one of my questions in this Council reveals the startling fact that there are no less than 49 Government and aided schools where absolutely no provisions exist for the teaching of Arabic and Persian to Muhammadan students A glance at the statement furnished to me will show that there are in some of these schools from 20 to 26 Muhammadan boys who for want of this provision for a maulvi have had to take Sanskrit or

The Budget

Babu Ramtaran Banerji

Bengali as their second language In the course of the debate on this very question in this Council in 1913 the Hon'ble Mr Kuchler remarked that provision for the teaching of Arabic and Persian has always been made wherever there is a demand on the part of Muhammadan boys for receiving instruction in these languages He argued that there must be an initial demand before there can be a supply We pointed out to him that his argument was fallacious and that the question of demand and supply would always inter-act on each other and that unless there be a supply there could be no means of testing whether there is a demand In the cases that I have mentioned where there are over 30 Muhammadan boys in an institution, there is no justification for not appointing a teacher for imparting instruction in Arabic and Persian These Muhammadan boys cannot read their own classics for want of a provision for the teaching of these languages we object to their reading Sanskrit as their second language, and I wonder whether our friend the present Director would insist on their reading German or Russian or any other of the Continental languages My Lord it is no use telling the Muhammadan community that efforts are never wanting to supply the needs of the community, when over 500 boys in 49 schools in this Presidency are driven to read Sanskrit or Bengali in preference to Arabic or Persian simply because necessary provisions have not been made in these institutions for imparting instruction in our own classical languages

My Lord the sands in the hour-glass have run out and I must conclude, but I feel I must do so with an expression of regret In the present members of your Excellency's Government we have the strongest possible combination favourable to Eastern Bengal and the Muhammadan community The Indian member of your Excellency's Government has himself been not only a prominent leader of our community but one of the foremost citizens of Eastern Bengal, and has himself fought many a pitched battle for a just and equitable recognition of the very principles for which I have ventured to stand up to-day in this Council The Hon'ble Mr Lyon had himself inspired many of the most generous schemes in the furtherance of Muhammadan education and in the interests of the people of Eastern Bengal in general The name of the Hon'ble Mr Beatson Bell is a household word in Eastern Bengal and in some respects he knows the needs of the Muhammadan community and sympathises with them more than even many a leader of our own community And yet, with all this combination of circumstance Eastern Bengal is being gradually relegated to the cold shade of neglect its capital city gradually reduced to insignificance while almost all the fondest schemes for the furtherance of Muhammadan education are yet in the dreamland of unrealised hopes In the case of Muhammadan education our disappointment is all the keener because in addition to the members of your Excellency's Executive Council we have in the present Director of Public Instruction an officer fully in sympathy with the legitimate aspirations of the Muhammadan community regarding matters affecting the department of Government in his charge"

The Hon'ble Babu RAMTARAN BANERJI said —

'My Lord, the Hon'ble Members who preceded me have discussed various important matters in connection with the Budget but as the administration of Civil Justice has not yet been touched upon I may be excused if I claim under this head a larger grant specially when there is a large surplus invariably left from the income derived from tax on litigation

Even-handed justice to all His Majesty's subjects without distinction of race or creed wealth or rank is the highest glory of British rule Anything, which tends to impair or in any way affect the quality of the justice administered, is likely to weaken or impair confidence in the administration

Litigation is the canker which has been eating into the vitals of the country and it cannot be seriously denied that the present system of administering justice with all its complex and elaborate procedure tending to encourage and prolong litigation contributes to a great extent to the evil complained of

The Budget

Babu Ramtaran Banerji

While not detracting from the ability and intelligence of the members of the Indian Civil Service, I may be permitted to point out an anomaly which exists under the present system Civilian Joint-Magistrates who have put in only a few years service and who have no experience of civil work are promoted to the post of District Judges or Additional District Judges They sit in appeal over the decisions of experienced Subordinate Judges and Munsifs and it is not surprising that in some instances their judgments whether of reversal or of affirmance, fail to satisfy the ends of justice The aggrieved party naturally seeks relief by a second appeal to the High Court but that Court cannot interfere with the decision unless it is opposed to law or there has been an error or defect in procedure which affected the decision on the merits Under the law the finding of facts, however erroneous must be taken as correct and cannot be interfered with in second appeal Hence the party has little or no chance of obtaining relief unless there is some mistake in law The result is that there are remands made and in the majority of cases such remands prove infructuous

Then, again, if the value of the suit is small, the second appeal is heard by a single judge of the High Court and there is a further appeal allowed under the Letters Patent upon a question of law

It is clear from what I have stated above that litigation under this system is ruinous to the parties, and although they might have a real grievance, they are debarred from obtaining any relief owing to the finality which attaches to the findings of the Court of first appeal on questions of fact

The true remedy, therefore, lies in strengthening the courts of first appeal, and this can only be done by the creation of a composite bench consisting of a member of the Civil Service and an experienced Indian Judge A scheme like this was many years ago formulated by the then Chief Justice Sir Richard Garth and public opinion was invited, and the question received the earnest attention of the Government of Bengal as well as that of the Government of India, but why it was not carried out I am not aware

No doubt spasmodic action was taken now and then to give the junior members of the Civil Service a training in civil work as Munsifs, but it led to no practical improvement, and after a short trial it was abandoned An attempt at revival has been made and we have now an intelligent officer a Civilian appointed as Munsif at Alipore How far the system would answer the expectation of the public will be for the High Court and the Government to judge

I may venture to assure your Excellency that it will be a great boon to suitors, and the only means to avert to some extent their ruin, if such a composite bench is created The Civilian Judges generally speaking as experience tells us are apt to attach greater weight to direct evidence, whereas Indian Judges familiar with the habits, thoughts and motives of their countrymen are prone to attach more weight to circumstances and probabilities The fusion of these two lines of thought and not one independent of the other can alone lead to a correct determination of the true state of facts

In this connection, I may be permitted to invite your Excellency's attention to a certain class of cases which often come up before the District Courts, I mean, cases for grant of probate of wills These wills are in many cases unregistered The question raised relates to their genuineness Here again the European Judge, however able and intellegent he may be not being familiar with the inner life of the Indians the habits and manners of Indian females secluded in the zanana and of the joint-family system of living must necessarily be at a disadvantage in correctly appreciating the facts Without going to the length of suggesting a change of the existing system by transferring this class of cases to Indian Subordinate Judges I may venture to suggest that the European Judge may derive substantial help by being associated with an Indian Subordinate Judge For this

The Budget

Mr Hornell

innovation I may point out that important will cases in the Original Side of the High Court have sometimes been tried by a bench consisting of two or three judges

But all these questions involve an outlay of money, and when our financial outlook brightens after the war your Excellency, I trust will be pleased to direct your attention to the agreeable duty of improving the administration of justice

I thank the Hon'ble Mr Beatson Bell for the provision of Rs 21 300, which he has made for sewer connection and other incidental improvements to the Alipore District Court in carrying out the municipal requisitions But there are one or two items to which I may be justified in drawing the attention of Government The absence of any accommodation for the numerous suitors and witnesses who daily attend the Civil Courts at Alipore is keenly felt There is a paucity of furniture in the Court rooms to accommodate the suitors their agents pleaders and barristers Some provisions should also be made for removing this want

The Hon'ble MR HORNELL said —

My Lord we started the financial year which has just run its course with a sanctioned education budget of Rs 1 05,62 000 During the year there came orders for severe retrenchment Accepting the revised estimate for 1915 16 as representing roughly what we have spent during the year, we arrive at the figure of Rs 89 61 000 as representing the expenditure of last year This year's sanctioned budget is Rs 88,30,000 In other words we have been given this year about Rs 1 30 000 less than we spent last year, and Rs 17 32,000 less than was provided in the budget of the last financial year The reduction is solely under Imperial assignments The only recurring Imperial assignment which has not been made available during the current financial year, is the 5 *lakhs* annual grant for the Dacca University, but this was intended as a grant for construction and is really of the nature of a recurring capital grant We have therefore to face the year upon which we have just entered with money enough to carry on all our existing activities but with practically nothing on which we can extend them At this point I would also invite the attention of the Council to the table which stands on the top of page 4 of the budget of the Government of Bengal for 1916-17 This table shows that the Education Department had at the end of the financial year 1915-16 a closing balance of Rs 91 63,000

I have made these preliminary remarks because some of the criticisms, which have been levelled at the budget, show that the provisions which it makes have not in certain cases been understood

For example the Hon'ble Mr Surendra Nath Banerji has referred to the question of grants-in-aid and has concluded on the basis of the figures shown against that head on page 50 of the budget that there is to be a serious reduction The Hon'ble Members who have taken up this point have not understood the figures The actuals for the years 1912 13, 1913 14 and 1914-15 which are respectively Rs 17,24 594 Rs 20,99,939 Rs 31,11,918, represent the amounts spent on grants-in aid to institutions under private management both from Provincial revenues and Imperial Assignments, both recurring and non recurring Whereas the provision made in the budget for the year 1916-17 represents the grant from Provincial Revenues only This grant will be supplemented by about 5½ lakhs from the Imperial Assignments For instance on page 50 of the budget there is a provision of Rs 1 50 000 against the 'lump provision for Secondary Education' The whole of this sum has been distributed in the shape of recurring grants to secondary schools Again, the lump provision of Rs 8,20,000 shown against 'expenditure of the recurring grant includes Rs 2,26,000 for the improvement of secondary education The bulk of this sum has been distributed in grants to secondary schools Similarly the recurring Imperial grants for other heads such as Female Education, 'Hostels,' and Technical

The Budget

Mr Hornell

Education, include sums which will be spent in the shape of grants-in-aid The explanation of the figures is something like this In the Education Budget grants available from Provincial Sources and from Imperial Assignments under any particular head are shown separately In adjusting the accounts for the period the Accountant General does not observe the distinction as between expenditure under any particular head from provincial revenues and Imperial Assignments and his figures for the expenditure under 'grants in-aid' for instance, show the total amount spent under that head from both Provincial and Imperial Sources I would ask the Hon ble Member to mark the difference between columns 5 and 6 against grants-in aid on page 55 of the budget for 1916 17 He will see that the amount provided for grants-in aid in the sanctioned budget for 1915 16 was Rs 15 06 000, whereas the revised estimate shows Rs 20,75 000 This means as I have explained above that in the revised estimate the expenditure on grants-in-aid from the respective Imperial Assignments has been added to the expenditure under the same head from Provincial Revenues A similar adjustment will be made at the end of 1916-17 and it is anticipated that the total expenditure under grants-in aid will be something between 20 and 21 lakhs *i e*, Rs 14,80,000 from Provincial Revenues and the balance from the Imperial Assignments The amount provided for grants in aid for the year 1916 17 from Provincial Revenues is Rs 26,000 less than that provided last year, and this is all the reduction that has been made A portion of the provision is intended for capital grants—it is this part of the grant that has been reduced and this reduction was inevitable in the present state of finances Before passing on, I might explain that the large difference between 1914-15, viz, Rs 31,11,918 and that shown for last year in column 6, viz, Rs 20,75,000 is due to the fact that in the years 1913-14 and 1914 15 the Education Department had at its disposal a large Imperial grant for non-recurring objects Nearly the whole of this was dispensed as capital grants in-aid to non-Government institutions It would not be fair therefore to compare the figure for 1915-16 with the figure for 1914-15

Again, the Hon'ble Rai Radha Charan Pal Bahadur in returning to his 'annual cry for the improvement of primary education has discovered that last year's budget grant for primary education which he quotes at Rs 9,25,000 was reduced in the course of the year to Rs 1,32 000 He asks the cause of this great reduction He sees the same grant of Rs 9 25,000 provided in this year's budget but he is mystified and scenting what would perhaps be described in the United States of America as 'slimness on the part of the Financial Member he suggests that some eight-ninths of this provision may perhaps by some equally disreputable piece of legerdemain be conjured back into the coffers of Government Our Hon ble friend is not going to have that So he asks with all the naive simplicity of a *debutant* in public life whether the public may not be favoured with some details—mark you, he does not want them all—as to how the money is to be spent

I am afraid that the Rai Bahadur does not quite appreciate what a revised estimate is or why it appears as a column in the budget He seems to imagine that Government having passed the budget under the jealous eye of the Council proceed as soon as that searching gaze is removed, to revise it in the interests of economy This is not so I have already explained that the revised estimate, as it appears in the budget, gives us an approximation of the amount actually spent If, therefore, the Hon'ble Member desires to compare the amounts spent last year with the amounts provided in the sanctioned budget, he must compare the respective totals in the columns 'Sanctioned Estimate' and 'Revised Estimate and not the figures which appear respectively in these two columns under certain particular heads

4 As regards the grant of Rs 9,25,000, in the first place, both in the budget of this year and in the budget of last year this amount was

The Budget

Mr Hornell

provided not against the head The improvement of *primary* education' but against the head The improvement of *popular* education' This is important because the assignment is not as the Hon ble Member apparently imagines for primary education only--I wish it were When the Government of India made this contribution, they distributed it as follows —

	Rs
(*i*) The Elementary Education of Boys	6 00 000
(*ii*) The Education of Indian Girls	1 07,000
(*iii*) Hostels	1 32,000
(*iv*) Technical and Industrial Education	34,000
(*v*) The Education of European and Anglo Indian Children	52,000
Total	9,25,000

The whole of this amount was provided in last year's budget and a sum of Rs 8,38 995 was actually expended This expenditure will be found adjusted against various heads in the revised estimate for 1915-16 The balance under the various heads though held over for the present will be reserved for capital expenditure in respect of the particular branch of the education on account of which the saving has been realised The whole assignment of Rs 9,25,000 has been made available for expenditure in the current financial year and it will be spent on the several branches of education among which it has been distributed in accordance with schemes of expenditure which have been approved The amount available from this assignment for the primary education of Indian boys in the current financial year is, as I have just stated, above Rs 6,00,000 Other provisions in the budget for the primary education of Indian boys are—

(1) an Imperial recurring grant of Rs 3,60,000 which is provided in the budget estimate for 1916-17 against the head Expenditure of the recurring grant (see page 55 of the budget of the Government of Bengal for 1916 17),

(2) an assignment of Rs 2,91 198 from Provincial Revenues, which is provided in the budget estimate for 1916 17 against the head 'Payment in support of local schools under District Boards,

(3) an assignment of Rs 2 50,000 from Provincial Revenues provided in the budget estimate for 1916 17 against the head 'Guru Training Schools' (see page 54 of the budget of the Government of Bengal for 1916-17),

(4) the only other provision is a small grant of Rs 2,000 which appears in page 53 of the budget against the head Lower Primary Schools for boys This provision is made for the support of certain Government lower primary schools

The Hon ble Babu Mahendranath Ray has misunderstood the provision made against the head 'Payment in support of local schools to which I have just referred There has been no reduction under this head but an increase of Rs 2,238 The Hon ble Member compared the budget estimate for 1916-17 with the revised estimate for 1915 16, but the revised estimate for 1915-16 includes the amounts transferred to District Boards from the Imperial assignments As I have already explained all the recurring Imperial assignments except the 5 *lakhs* annual recurring grant for Dacca have been provided for in the current financial year Consequently so far as recurring as opposed to capital grants are concerned primary schools are in a better position this year than they were last year by about Rs 2,000

The Hon ble Rai Bahadur has quoted me as having said last year that I was profoundly dissatisfied with primary education as a whole My dissatisfaction remains and it has not been diminished by a recent visit which I paid to the United Provinces There is something in those provinces which may be called a primary school system, here there is nothing which can reasonably be described by such a term except in so far as the system of establishing District Board lower primary schools has been realised The

The Budget

Mr Hornell

Hon ble the Nawab Saiyid Nawab Ali Chaudhuri has told us that literates in the Dacca and Chittagong divisions number 66 *per mille* only and that for the Rajshahi Division the figure falls to 53 *per mille* We have also heard from him that for the whole area of Western Bengal including Calcutta and the municipal areas there is only one primary school for every 2½ miles, while in Eastern Bengal, after a period of progress which he describes as phenomenal, there is only one school for every 3 miles

The Hon'ble Nawab has referred to a sudden drop in 1912-13 Fortunately the statistics show that there has been a recovery in the number of scholars though not in the number of schools The figures are—

	Schools	Scholars
1911 12	28 602	1 011 608
1912-13	28 089	1,045,400
1913 14	27 461	1 027 684
1914 15	28,327	1,046 694

These figures do not give us much cause for self-complacency The Hon ble Nawab hints with that courteous delicacy which always characterises his utterances that we are not doing as well as the late Government of Eastern Bengal and Assam were doing Very possibly we are not But we are following out to the letter not only in Eastern Bengal but throughout the Presidency the policy laid down by that Government There have been critics from Western Bengal who have suggested that this policy is not without its drawbacks, while admitting the advantages of the Board lower primary school scheme they regard it, or rather the policy of concentration which is supposed to underlie it, as likely to deprive large tracts of existing schools which though admittedly defective are better than none at all It is rather irony to have it suggested now by the Hon'ble the Nawab that we have, through our own perversity or stupidity, fallen into the very trap which the Government of Eastern Bengal and Assam were so careful to avoid I dealt with this point last year I can only say now that the inspecting officers of the Education Department have not received any instructions to raise the standard of grant On the contrary I referred this criticism to each Divisional Inspector and each such officer has assured me in reply that they are all alive to the necessity for a liberal policy in the matter of grants and that they are not aware that any attempt had been made to interpret that policy in a more exacting spirit But the difficulty is that the grants are already spread so thin that they offer very little inducement to a man to take up and continue the work of instructing children in the elements What, I repeat can you expect of an arrangement which provides the majority of your primary school teachers with a standard of wage which is far below that of an ordinary cooly? No system, I reiterate, is possible under these conditions There are years when for reasons, over which the Education Department has not the smallest control a considerable number of men with some rudiments of elementary knowledge come forward in certain districts and are willing to collect a few children and try and teach them. In other years owing to circumstances equally beyond our control, the primary school teachers give up their schools and turn to less arduous and more remunerative callings

The Hon'ble Rai Radha Charan Pal Bahadur referred to a statement which I made last year about some departmental action which I was taking and proposing to take in the matter of primary education The two officers to whom I then referred have submitted their report and I have had their proposals and certain suggestions of my own considered by a representative conference of the inspecting officers of the Presidency The next step will be the working out of a complete scheme, including a curriculum and syllabuses The problem is to how to evolve an arrangement which, while it will set the great majority of those who are teaching and who are likely to be available during the next few years to teach in the primary schools, a task not beyond their very limited capacities, will not only give a chance to those who are

The Budget

Mr Hornell

capable of doing better work but also make it worth their while to do it I need scarcely add that no real advance is possible without a great deal more money

The Hon ble Maulvi Musharraf Husain Khan Bahadur has attacked Government on behalf of 27 high schools in the Presidency which are, he alleges, unable to obtain recognition from the University for want of funds and other reasons What the other reasons are, the Hon ble Maulvi does not explain But the thought of these institutions unable to carry out the purpose which they have set before themselves has roused his public spirit and he protests that the 'object of all Governments is not the safety of life and property alone but that their first and chief duty is the elevation of the people mentally, morally, economically and physically The education, health and comfort of individuals as well as societies and nations, should, he exclaims, 'find their proper place in the budget of any Government and when it was found that 27 schools were suffering for want of funds I should have thought that it was the duty of Government to have inquired into these cases and helped them The plea of war which stands in the way of obtaining 2 or 3 *lakhs* for these schools cannot and must not be allowed to hold good Nor does the University escape the Hon ble gentleman's denunciations Government are to move the University so that it may relax its exorbitant demands

If the drift of the Khan Bahadur's rhetoric were that the case for more funds for secondary schools is very urgent, I, as Director of Public Instruction, should have felt inclined to have gone round quietly after this meeting and clasped his hand in gratitude The secondary schools of the Presidency do most urgently need more funds and so far as I can see the greater part of these funds, if not the whole of them, will have to come from public revenues I do not forget, however that at a time like this, the Financial Member must needs be like the deaf adder When however, the Hon ble Member suggests that it is the duty of the Local Government to coerce the University in the exercise of the functions which have been devolved upon it by law, then we part company The University cannot of itself alter the rules regarding the recognition of schools I am quite certain that the Syndicate do not wish to make these rules more lenient and I should be the very last person to advocate that the Syndicate should be asked to adopt such an attitude

The Hon ble Member professes to be taking his facts from the reply given by Government to a question asked by the Hon ble Nawab Syed Hossain Hyder Chaudhuri, Khan Bahadur at the meeting of this Council which was held on the 6th of March last The reply was to the effect that there were 99 high schools in the mufassal districts in the Presidency of Bengal which had not been recognised that the want of funds had in certain cases been put forward as a reason for not meeting the requirements of the University, but that Government considered that the small amount of money which is available for grants-in aid is better spent as a general rule on high English schools which have already been recognised by the University than on those which have not been able to secure such recognition I can find no authority for the statement that 27 high schools are now definitely excluded from recognition owing to lack of funds

The answer which Government gave was based on information which was collected by my office from the Divisional Inspectors I have their replies before me Not one of the Inspectors knew of a single case of a high school being permanently or for an indefinite period debarred from recognition for want of funds

It is interesting to find that the adherents of State socialism have secured in our honourable colleague so powerful an advocate, but the Hon'ble Member has entirely misunderstood the position which Government on the basis of its existing resources is bound to take up It cannot be responsible for the provision of such schools as may be thought to be required in any particular locality All that Government can do now is to supplement, so far

The Budget

Mr Hornell

as possible, local efforts, and if the local enthusiasm for a high school is not sufficient to carry it through to recognition by the University, Government would not in most cases be wise to lay out the public money elsewhere It is a case of 'To him that hath, shall it be given!

The Hon'ble Rai Nalinaksha Basu Bahadur has raised the question of a Government school for the town of Burdwan I admit that the town of Burdwan is badly off in the matter of secondary schools in spite of a good high school which is maintained by the Maharaja In January last year, I visited Burdwan with the Divisional Inspector and noted strongly on the inadequacy and unsatisfactory character of the present provision for secondary education I referred the whole matter to the Inspector and he has tackled it in a very businesslike and practical way We have sanctioned some additional grants, and I hope and believe that conditions are better than they were at the beginning of last year In the existing financial conditions it would be a mere waste of time to elaborate a scheme for the establishment of a zilla school in Burdwan As to what may be done when normal financial conditions are restored, I am unable to commit myself much less Government But this I can say and that is that if, when the days of prosperity return, there is a school which is up to a standard at which, with a few possible improvements, it might be converted into a zilla school, then the wishes of the people of Burdwan are more likely to be fulfilled It is one thing to transfer a good existing school to Government, it is quite another thing to establish a completely new institution

The Hon'ble Rai Prasanna Kumar Ray Bahadur has not concealed his disapproval of the Hastings House School He has drawn a picture of a few successful professional and business men turning up their plutocratic noses at the educational arrangements with which others less favoured with this world's goods than they are have to be content, and conspiring with Government to tap the provincial revenues to the tune of more than half a *lakh* of rupees a year The Rai Bahadur can understand Government spending extra money on the education of a particularly backward community, but these conspirators cannot even claim this distinction They are not Namasudras or impoverished Brahmins! Any boy says the Hon'ble Member, can be admitted into the school provided his parents are fairly rich It matters not whether his father be a zamindar or a shopkeeper

I am not altogether floored by the righteous indignation of the Hon'ble Member, it is partly because I see more than one of the conspirators sitting round this room I have also noticed that the hon'ble gentleman in his zeal has somewhat seriously misstated the actual cost to the public revenues of the institution The Hon'ble Member submits that every taxpayer has a right to know more about the school and so far as its finances go, I am only too delighted to take this opportunity of explaining what the present position is

The school is intended mainly for boarders, but a few day scholars may be admitted at the discretion of the Director of Public Instruction The accommodation available at Hastings House is strictly limited to 50 boarders Each boarder has to pay a consolidated fee of Rs 105 a month for 12 months in the year every day scholar is required to pay a consolidated fee of Rs 27 8 a month for 12 months in the year There are at present 31 boarders, so that the fee receipts from boarders even if the number, which is unlikely, remains at its present level will amount during the current financial year to Rs 39,060 There are 6 day boys and they will contribute for the financial year Rs 1 980 The provision of Rs 58,000 which the Hon'ble Member has quoted has been provided to cover all the expenses of the school throughout the year, including the feeding of 50 boarders at the sanctioned rate of Rs 30 per head per month If the number of boarders does not increase, we may reduce the total amount which can be spent on boarding by Rs 5,700 The anticipated expenditure therefore for the current financial year, if the school remains at its present strength, will be Rs 52,300 and the fee receipts will amount to Rs 41,040 In other words, the total cost to Government, unless the staff is increased, cannot even at the present strength of the school exceed Rs 11,260

The Budget

Mr Hornell

So much for the finances of the school If the Hon ble Member wants to know anything about the school itself I only hope that he will go down to Alipore and see it for himself I would at this point remind him of what I said about this institution in the budget debate of last year The present arrangements are only temporary and provisional Those who wanted the school were anxious that the value of such an institution should be demonstrated I believe that Hastings House with all its shortcomings is demonstrating the value of an institution conducted on the general lines of discipline which obtain in schools in England and I look forward to the day when this experiment will develop into a large and well established residential school to which the leading men of Bengal will be proud to send their sons Government will doubtless expect wealthy men in Bengal to contribute liberally to the establishment of such a school As regards the present cost, so far as it falls upon public funds we feel that the expenditure is justifiable and not unreasonable There are boys at Hastings House whose fathers can afford to pay a good deal more than they are now paying, but the pupils of the schools are not by any means all the sons of wealthy men I should here mention that five Bengali gentlemen have given scholarships to the school of Rs 50 a month each I have here a list which shows particulars of the parents of every boy now in the school, which I shall be happy to hand to my honourable colleague The list contains merchants but not so far as I can make out, any shopkeepers

The Hon ble Rai Radha Charan Pal Bahadur again voices the disappointment of his community that the problem of female education in this Presidency remains unsolved He also criticises the provision of Rs 30 000 only for female education He characterises this provision as paltry

My hon ble friend s usual sturdy optimism has deserted him He is in despair I am sorry but he is entirely mistaken when he states that a sum of Rs 30 000 only has been provided for female education Over and above many items of expenditure, which are a charge on Provincial Revenues, the budget includes an Imperial recurring grant of Rs 2 44,000 for the improvement and expansion of educational facilities for Indian women and girls *i e* —(*i*) a sum of Rs 1 07,000 included in the lump Imperial recurring grant of Rs 9 25 000 for popular education to which I have already referred (*ii*) a further sum of Rs 1 07 000 included in the lump recurring Imperial grant of Rs 8,20 000 and (*iii*) the sum of Rs 30,000 which is provided against the head 'lump provision for female education recurring' All these provisions are to be found on page 55 of the budget The total grant has been distributed as follows —

	Rs
High schools for girls	22,580
Middle schools for girls	28 600
For a Secondary Teachers Training College	40,000
For Primary Schools	28 120
Scholarships and Stipends	17 580
For Additional Assistant Inspectresses	32 435
Zanana education	12,870
For Muhammadan Education	40 880
For the Training of Primary School Teachers	6 560
Placed at the disposal of Her Excellency Lady Carmichael	5 000
Balance	4,375
Total	2,44,000

18 The Hon'ble Rai Radha Charan Pal Bahadur refers to a grant of Rs 60,000 paid to a Mission school in Calcutta for the construction of a new building I gather that he does not disapprove of this grant, but he wonders why Government cannot provide funds for such orthodox institutions as the Mahakali Patsala The Mahakali Patsala does receive a recurring grant from Government of Rs 60 a month I have not been approached with any proposal to give this institution either a larger recurring grant or a capital grant But I have noticed that in the course of the last few months there has been a good deal about this institution in the newspapers I have noted all that has been said by the various organs of public opinion and have

The Budget

Mr Hornell

brought them to the notice of the Inspectress of Schools I have before me an extract from an article which appeared in the *Hindu Patriot* on the 13th of December last The *Patriot* quotes our hon ble colleague the Maharaja dhiraja of Burdwan as having said, when he presided at the last prize-giving ceremony of this institution, that while he could understand the apathy or almost antipathy of that extreme section of the England-returned Indian community who look down upon everything pertaining to orthodox Indian or orthodox Hindus as beneath their contempt and in that sense are real enemies of the country, he was at a loss to understand why those who do not feel ashamed to be called orthodox Hindus should be lagging behind and permitting such an institution for the good of their families, their hearths and homes to be running the risk of a financial crisis I do not know what if any, effect the Maharaja s plain speaking has had, or what the present condition of the Mahakali Pathsala is but other possible difficulties and considerations apart, I do not feel that the present is an occasion for Government to come forward unasked with an offer of liberal assistance from the public revenues, even if such funds were at the present moment available, which they are not

The Hon'ble Member has referred to a Committee of Bengali ladies and gentlemen appointed by Government to consider the question of the education of orthodox Hindu girls 'It would be interesting,' he observes 'to know whether any practical result has emerged from the deliberations of this Committee The Secretary handed me an advance copy of the Committee s report on Friday last The time which this Committee has taken to formulate its conclusions in spite of the driving of its vigorous Chairman suggests that the problem with which they were appointed to deal is not an easy one and that there are factors of difficulty in the situation other than the tardy ineffectiveness and circumlocution of the Education Department

The Hon ble the Maharaja of Nashipur has mentioned *zanana* edu cation I have prepared a statement, which I shall be happy to hand to the Maharaja, which shows the number of teachers employed directly by the Education Department in the course of the last three years and the places at which they are employed We have 47 sanctioned appointments, but only 45 of these are at present taken up, as it is not possible to fill the two remaining vacancies The expenditure on this branch of education during the last financial year amounted to Rs 34,076, towards which Provincial Revenues contributed Rs 23 206 and Imperial Rs 10,870 I have explained above that the amount of money assigned to the *zanana* education from the Imperial allotment of Rs 2,44,000 was Rs 12,870

In turning to the education of Muhammadans, I do not propose to follow the Hon'ble Nawab Ali Chaudhuri into his statistics The figures are interesting and worthy of study, but it is impossible to deal with the large questions which he raises within the compass of this speech When I said in my last report that it could scarcely be expected that the rate of progress in the case of Muhammadans would continue for an indefinite period to be much more rapid than that of Hindus, I certainly did not mean to suggest that the Moslem Community was now suffering from an educational surfeit or to throw out even the obscurest hint that perhaps the remedy which the patient now requires is starvation I went on to show that an examination of the latest figures indicated that the percentage of Muhammadans in colleges was 7 2 only, in the high stage 14 7, in the middle stage 25 0, in the primary stage 42 6 and passed to the conclusion that there was good ground for expecting that the number of Muhammadans under instruction in public institutions would increase more rapidly than the number of Hindus It is incontestable that the Muhammadans have a good deal of leeway to make up

The Hon'ble Babu Upendra Lal Ray has asked about certain proposals for the extension of the affiliation of the Chittagong College This matter has been dealt with by the Vice-Chancellor These proposals have

The Budget

Mr Hornell

my support, but I am sorry to say that it will not be possible to secure the required extension for the next session

The Hon'ble Babu Surendra Nath Ray is in some difficulty about the grants provided in the budget for the Calcutta University The Vice-Chancellor has already dealt with this The grant of Rs 1,15,000 to which he refers is a recurring grant It has been provided in full in the budget for the current year (see page 52) It has been distributed and will presumably be spent by the University as follows —

Rs	
65 000	for the development of the University's work
30 000	for administration etc
20 000	for the Calcutta University Law College

In introducing the Budget I explained that a total provision of Rs 3,44 000 had been made available from the non-recurring Imperial grants and that this provision included a sum of Rs 50,000, the unpaid balance of the 10 *lakhs* grant given to the University for hostels attached to private colleges and a sum of Rs 2 23 000 which represents the contribution made available during the current financial year in part payment of the Rs 3½ *lakhs*, the balance of certain previous Imperial grants for college hostels which the Government of Bengal have agreed to make over to the University in connection with the hostel provision scheme which they are now taking in hand I regret that there is nothing provided in the budget which could possibly be devoted to the University College of Science

The Hon'ble Rai Radha Charan Pal Bahadur has mentioned the special difficulties of Calcutta in the matter of primary education and the education of girls The Hon'ble gentleman says that Government *must* come to the rescue of primary education in Calcutta He is bitterly disappointed that more progress has not been made in working out a satisfactory scheme for the primary instruction of boys and girls in the municipal area of this city Well, we have now got Mr J N Roy's report The picture it represents is a very sordid one, but I cannot say that it has surprised me The problem is an exceedingly difficult one It has been neglected so long—now we are up as it were against it, with nothing in our pockets I purposely did not move in the matter until Mr Roy's survey was completed We have the survey and now we have got to face the position I am certainly not going to discuss here the various methods by which we might proceed Something has I hope been accomplished by the public interest which has been aroused

To turn for a moment to the particular problem of the education of girls on which the Hon'ble Member has laid great stress, I have before me a letter written to me by the Inspectress of Schools after she had been through Mr Roy's report

She says —

'We shall never make any headway with the problem of vernacular education of girls in Calcutta until land is set apart for the erection of good school buildings We cannot do our work under present conditions even where the staff is available In the case of girls I should say we ought to have a scheme whereby a plot of ground is reserved in each ward for one large Hindu school and a model school house should be built to accommodate 300 children We have gone on in a haphazard way up to the present and the result is the present astounding condition of education in Calcutta We shall never get the community to undertake voluntarily the task of providing land and adequate buildings'

This much at least is clear namely, that the Calcutta school problem is primarily a question of school buildings, but apart from the difficulty of finding funds to provide suitable buildings, I think that the Council will admit that the task of organising a system under which properly housed schools may take the place of the present wretched hovels is no light one I hope before I hand over the reins of my present office that I shall have been able to do something which may at least tend in the direction of some solution of this tremendous problem

The Budget

Nawab Syed Shams ul-Huda

One word in answer to what the Hon'ble Maulvi Fazl-ul Haq has said Most of his points as regards Muhammadan education will be dealt with by some one greater than myself I am sorry that in spite of all our good intentions, we have been straggling behind, and have been able to effect so little One point which really concerns me, because the others will be dealt with by the Hon'ble Mr Lyon, is the question of teachers of Arabic and Persian in high schools This is not the first time that the Maulvi has mentioned this He also mentioned it at the Educational Conference at Dacca I certainly agree with him that Muhammadan boys should have facilities for learning Arabic and Persian We have not sufficient money now I will look into the matter again and see if something cannot be done At the present moment with all the grants in aid that we have earmarked it is a little difficult to find funds, even a comparatively small amount, for this purpose, but we hope when funds permit to employ additional teachers to take Muhammadan boys in Persian and Arabic

The Hon'ble RAI P N MUKHARJI BAHADUR said —

"My Lord,—I have to reply to two points raised in the speech of the Hon'ble Khan Bahadur Maulvi Musharraf Husain in respect of the Registration Department He is anxious that the service of Sub Registrars on commission should count towards pension I fear that that cannot be done as when the reorganization of the Department took place in 1905, the Secretary of State ruled definitely that service rendered under the commission system, the conditions of which were so different from employment proper under Government would not count towards pension We are however, trying to get them exempted from the deductions to which their pension would ordinarily be subject owing to late entry into the pensionable service under the reorganization

As regards improvement in the pay and prospects of the clerks and mohurrirs of the Department the scheme is ready awaiting the approval of the Government of India, but it cannot be given effect to until normal conditions return No one feels the difficulties of their position more keenly than I, as the head of the Department, do, but we are helpless under the present circumstances

The Hon'ble NAWAB SYED SHAMS-UL HUDA said —

"My Lord —It is a source of genuine satisfaction to me to see the increased attention that Hon'ble Members of this Council bestow on sanitation and municipal administration generally This fact appears not only from the budget debate but also from the various resolutions that have been moved in this house from time to time in connection with these subjects I welcome this interest and would offer a few remarks to explain certain matters as to which there perhaps exists a certain amount of misapprehension Hon'ble members have referred to the large unspent balances under the head of sanitation One Hon'ble Member asks what is the good of having a large balance if you are not going to spend the money It is pointed out that, whereas from 1911 up to this time 75 lakhs have been available for expenditure on sanitation only a third of the amount has been spent At first sight it would seem as if Government have been actuated by a spirit of false economy and had been hoarding money without any rhyme or reason A little reflection would show that Government were justified in the way they had dealt with the sanitation grant It must be remembered that the bulk of the sanitation grant is the result of a windfall which came to us in 1911 We do not expect windfalls every day and therefore, in spending money out of this grant we have to look ahead and see what other expenditure we may have to meet The accummulations, no doubt, are very large—about 50 lakhs—but I know of two schemes which if it were possible for us to finance them our balances would almost have disappeared The first one is the Dacca Sewerage scheme. The Hon'ble Mr Faz-ul-Haq has said that although we promised to find money for this scheme we have done nothing and we stand to-day exactly where we were Is this right? It was two years ago that we

The Budget

Nawab Syed Shams-ul Huda

made up our minds to make a contribution of 25 lakhs out of the sanitary grant for the Dacca Sewerage scheme Dacca seems to be an unlucky town A few days after came the war and then we were deprived of our control over the money Anxious as we were to help Dacca, last year we promised to give Dacca 25 lakhs by spreading the payment over five years out of the 9½ lakhs of the annual recurring grant for sanitation Unfortunately, the amount has been reduced and we shall have no money to give to Dacca till normal financial conditions are restored and when that time comes, we will no doubt fulfil the promise that has been made Government promises are never broken

Besides Dacca, we also have a very large scheme known as the riparian scheme of water supply for a group of municipalities in the neighbourhood of Calcutta The details of that scheme are now being worked out, and we may as soon as we have the money be called upon to contribute a large sum towards financing that scheme Therefore, if we had acted like a man who all of a sudden finds himself in possession of more wealth than he actually requires and squanders without looking to the future, we would have placed ourselves in a very difficult position I say, therefore, that we have acted as judiciously as we ought to have acted in spending our available resources, but at the same time we have not starved any useful schemes and whenever such schemes have come up to us we have treated them generously It is known perhaps that it has been usual in financing schemes of sanitation, such as water supply or drainage to demand that two-thirds of the cost should be paid by the local bodies concerned In practice we have often found it difficult to get two thirds out of the local bodies and sometimes it has happened that we have given the usual one third and when the scheme has been completed, the actual has exceeded very largely the estimated cost and in such cases we have always found it necessary to come to the rescue of the municipalities by paying more

I will just give Hon'ble Members of this Council a few facts and figures It should be remembered that the non-recurring sanitation grant was mainly intended for expenditure on urban areas and we have to spend that money mostly in water-works and in drainage generally within municipal areas So far as rural areas go there has been no great demand on our funds because our District Boards have got sufficient money for all their purposes Only two years ago they came into possession of about 29 lakhs over and above their usual income which gave every District Board more than a lakh of rupees to spend purely on sanitation if they liked It has been said that District Boards have been hampered because they are asked to realise at least one-third from the villagers who want a tank to be excavated and therefore the progress in this direction has been slow This rule has been gradually relaxed Last year we asked the Boards to take advantage of the cheap labour due to scarcity and vigorously to push forward their schemes of water-supply relaxing where necessary, the rule regarding local contribution Where District Boards instead of excavating tanks which ultimately became their own property go to help the owner of a silted up tank the owner may reasonably be asked to make a contribution and sometimes the villagers also, and I think it is quite right that they should do so Recently the District Boards have been spending more largely in excavating tanks of which they themselves become the owners The agreement system by which tanks of other people have been excavated by the District Boards have not been found to be a very great success Those who say that the District Boards have not been spending enough on sanitation out of the Public Works Cess are not quite accurate We have pressed upon the District Boards to spend largely out of the Public Works Cess on water-supply We have not got the figures for the last year but we will examine the figures when they are available and from the inquiries that I have made, I believe that they have spent much more largely during the last year than they ever did before I remember to have read in one of our daily papers an account of what has been done in a neighbouring province Referring to the Government grant in that province as the result of which it was expected that there would be 5 new tanks excavated

The Budget

Nawab Syed Shams ul-Huda

every year, the Government of Bengal was criticised for not having followed this good example The writer was apparently not aware that only last year in two districts, where we could find cheap labour on account of the scarcity and where relief measures were necessary, we gave enough money for the excavation of about 100 tanks and I believe they have all been finished by this time I therefore claim that we have not neglected the sanitation of the province and have as far as possible tried to rise to our responsibilities Formerly, the usual amount of Government contribution towards water-works within municipalities was only one-third of the whole cost We found that all municipalities were not in a position to find the remaining two-thirds and whenever such a case has arisen we have tried to give a good deal more My Hon'ble friend Babu Upendra Lal Ray would remember that when there was a scheme of water-supply in the town of Chittagong, it was estimated to cost 3½ lakhs We first offered to give half, but yet the people of Chittagong would not have the water works and we had practically to force it on them by raising our grant to 2 lakhs Towards the Narayanganj water supply scheme we gave one lakh out of Rs 1,70,000 Towards the Burdwan drainage scheme we gave 62 per cent of the total cost An examination of the various schemes to which Government have given sanction during 1915, will show that out of 21 schemes of water supply and drainage, Government paid a great deal more than one-third in 14 cases out of 21 It would therefore be incorrect to say now that the usual Government contribution is only one third I claim that whenever we have found a municipality unable to afford to pay its full share to carry out a necessary scheme Government have always come forward to make up the difference I do not think I need labour this point

The Hon'ble Babu Surendra Nath Ray has referred to the insanitary condition of Krishnagar and to the urgent necessity of a water supply and drainage scheme there I may inform my hon'ble friend that about two years ago then I visited that town I saw that we had either to improve the sanitation of the town or to abandon it We were prepared to finance very largely a scheme of water supply as well of drainage I believe by this time both the schemes would have been taken in hand but unfortunately Krishnagar has suffered, as many other places have suffered, for want of funds

The Hon'ble BABU SURENDRA NATH RAY said —

"We want the water works scheme to be taken in hand first

The Hon'ble NAWAB SYED SHAMS UI HUDA, continuing said —

"As regards the water works scheme the position is this The two parts in Krishnagar are somewhat differently situated One part requires the water-supply more urgently and the other the drainage and the Municipal Commissioners were unable for some time to agree The people of one part said— 'Why should we contribute for water-works which we do not require' The people of the other part said the same thing of the drainage scheme The Municipality has resolved to take up both the water-supply and drainage schemes together, and so it is very difficult to act up to the suggestion of my Hon'ble friend, Babu Surendra Nath Ray, that we should take up the water-works scheme first The two must go together

A great deal has been said urging us to carry out experiments in regard to malaria I confess I feel that a great deal more ought to be done, than has been done, but at the same time I have not been able to see how Government are to proceed In these matters we are entirely in the hands of our experts The Hon'ble Rai Radha Charan Pal asks if we have discarded jungle-cutting as an experiment for malaria My hon'ble friend, Dr Nil Ratan Sarkar, knows that about three years ago we had an offer from the Government of India of a sum of Rs 50,000 for carrying on experiments in jungle-cutting They told us that jungle cutting had done a great deal of good in the Malay Peninsula We referred the matter to the Malaria Committee There was a long debate and the experts came to the conclusion that jungle-cutting was useless as a preventive against malaria We had to take the advice,

The Budget

Nawab Syed Shams-ul-Huda

because the advice came from experts In the same way we have been told by our expert advisers that the best we can do to improve the general sanitation of the country is to ensure a better water supply and better drainage and at the top of it all give a plentiful supply of quinine We have distributed large quantities of quinine and we have also tried in other ways to improve the sanitation of the country It is true, as urged by the Hon'ble Mr Surendra Nath Banerji, that it is not for the non-official members of this Council to suggest what experiments we should carry out, but at the same time we cannot be blamed for not carrying out experiments the utility of which have not been demonstrated to our experts I had recently a talk with our Sanitary Commissioner Dr Bentley, and he told me that he had now got a scheme of flooding areas experimentally as an antimalarial measure He has promised to submit his report to the Malaria Committee early and I am sure we will soon have it

The Hon'ble BABU SURENDRA NATH BANERJI said —

'Will it be practicable throughout Bengal?

The Hon'ble NAWAB SYED SHAMS UL-HUDA said —

'No the experiment will be tried in one or two places and if it succeeds, we will try it where practicable in other parts of the country I am not in a position to discuss the merits of the experiment, I wish only to explain that in the absence of expert knowledge we are bound to rely upon our advisers who, as experts know more of the subject than others who have not studied the question Whether the experiment which we will be asked to carry out will be successful or not no one can say Hundreds of experiments have been tried in various directions, some have succeeded, others have not, and our position in this respect is no better As regards the necessary expenditure when the resolution was moved asking us to earmark a lakh of rupees for experiments on sanitation I opposed it, because this year's Budget was so framed that we had barely enough for our requirements and I thought that it was quite possible that the full lakh of rupees might not be required for experiments and we should not tie our hands by earmarking the whole sum Dr Bentley told me that he would not require so large a sum for his experiment At any rate I gave the assurance to the Council then, and I give the same assurance now, that experiments will not suffer for want of funds

The Hon'ble Babu SURENDRA NATH BANERJI said —

May I inquire when the experiment is likely to start

The Hon'ble NAWAB SYED SHAMS-UL HUDA said —

"This is more than I can tell Dr Bentley tells me that at the end of the month he is going to put a scheme before Government

Some hon'ble members have proposed that the Sanitary Board should be further enlarged As regards that question the Council is aware that only 3 years ago the Sanitary Board had not in its constitution one single non-official member We have since added three to the Board, and it is now too early to say how far the position of the Board has been strengthened by the addition of these three non official members Two of these are hon'ble members of this Council and when the matter has been fully tried and it is found that non official members are prepared to give their time and attention to this work, and if their presence on the Board is found to be a source of strength to that body, I believe there will be no objection to enlarge it further by putting more non official members on the Board A proposal has also been made that the Sanitary Board should be given certain financial powers, and it has been said that in other provinces they do possess these powers I do not know that in any province where the expenditure of money is left to the Sanitary Board, the Board consists both of officials and non-officials I am afraid that those Boards consist wholly of official members and I am not sure that Government would be prepared in the present constitution of the Board to give it financial powers and to put all the sanitary grant—

The Budget

Nawab Syed Shams-ul-Huda

and that is what is asked for—into the hands of this Board We discussed the question some time ago when a proposal to that effect was made by the Board itself, and we came to the conclusion that no difficulty had arisen by reason of Government keeping the control of money in their own hands

As a matter of fact, all schemes of sanitation pass through the Sanitary Board and when approved by them, come to Government for financial assistance I do not know that there have been many cases or any cases at all in which the recommendations of the Sanitary Board have been rejected by Government Therefore, it does not very much matter whether the actual distribution of the money rests with the Board or whether it is on the advice of the Sanitary Board that Government make the distribution

Some hon ble members have suggested the establishment of a Local Self-Government Board I do not know whether in these days of Decentralisation such a proposal has many supporters The proposal was not accepted by the Decentralisation Commission, and it was not accepted by the District Administration Committee who do not seem to have liked the idea of a Central Board sitting in Calcutta with a rod in hand to correct the delinquencies of Municipalities and District Boards "

The Hon ble BABU SURENDRA NATH BANERJI said —

' Lord Morley suggested it '

The Hon ble NAWAB SYED SHAMS-UL-HUDA said —

" That was in 1885 Since then the Secretary of State has not accepted it I have no personal knowledge of the working of a similar Board in other countries, but one of my hon ble colleagues * has assured me that this Board is not a very useful body even in England It is not to the introduction of a centralised system that we look for improvement in the sanitation of this province We look forward to the establishment of the Union Committees which we contemplate to start early for the improvement of the sanitary condition of the province When we have a net-work of Union Committees spread all over the country when every inch of land in the Presidency will be under one Union Committee or another, when we have placed the whole of the Public Works Cess in the hands of these Union Committees, when the rural people discover that their money is being well spent for their own benefit and take an active interest in the promotion of sanitation (and we all know how much depends on the co-operation of the people in carrying out successfully these necessary measures of reform), we may then confidently hope for the solution of the problem We look to the village Unions and not to the Central Board in Calcutta for the solution I have no fault to find either with the Municipalities or the District Boards in the disbursement of the funds at their disposal On the contrary, they have generally tried to do their best, and with the enhanced resources at the disposal of the District Boards, I am perfectly certain that so far as the question of water-supply goes, even if left to themselves, in a few years they will solve the problem

I now turn to a few other criticisms on sanitation There is one fact which I ought to have mentioned before The Hon ble the Nawab Bahadur of Murshidabad deplores the reduction in the expenditure on sanitation in the budget One fact that I want to mention, I believe it is known to many hon'ble members, is this, that the money which we do not spend in any particular year out of the sanitary grant is not lost, but this money goes in to the balances and the whole of it would be available as soon as normal conditions are restored. Therefore, it is only a question of temporary check on expenditure and nothing more

The Hon'ble the Maharajadhiraja Bahadur of Burdwan complains of the dusty nature of the roads within mufassal Municipalities I had an experience of the town of Burdwan only a few months ago and I have gone through many other dusty towns Although I may say that, as regards dust, we are in a better position than most municipal towns in the United Provinces,

* The Hon'ble Mr Beatson Bell

The Budget

Nawab Syed Shams-ul-Huda

I must say that dusty roads are the most unpleasant feature of municipal administration in the mufassal. The Hon'ble Maharajadhiraja Bahadur suggests that there should be a supply of unfiltered water for the purpose of watering roads and flushing drains. This proposal is one that has been condemned by experts. Here again we are in the hands of experts. We are advised by our Sanitary Engineer that instead of having a double system of filtered and unfiltered water it is much better *i.e.*, more economic, to use filtered water. We have taken that advice. We have enlarged the capacity of our water works so as to provide sufficient water for flushing drains and for other purposes.

The Hon'ble Babu Upendra Lal Ray speaks of a grant of Rs. 37,454 budgeted this year for water supply in the district of Tippera. My hon'ble friend has committed a slight error. Instead of the money being budgeted this year the money has been paid in the last year and spent by this time in the excavation of tanks. As regards the Comilla water-works, the scheme has not reached Government yet, and we are not in a position to make any pronouncement regarding it. The Chandpur scheme is suffering from want of money as many other schemes are suffering.

The Hon'ble Rai Hari Mohan Chandra Bahadur speaks of the enlargement of and grant of financial powers to the Sanitary Board. I have already dealt with these two points.

I have also referred to what the Hon'ble Maharaja of Nashipur has said about water-supply in rural areas. We have addressed the District Boards on the subject of spending larger sums of money out of the Public Works Cess on water-supply. The Maharaja spoke of the necessity of earmarking a fixed portion of the money for that purpose, and referred to the Conference that I had with members of the District Boards on the subject. The result of the Conference was that the official members were all in favour of leaving the expenditure of money entirely to the discretion of the District Boards while the non-official members curiously enough, wanted Government to intervene and earmark a definite portion for expenditure on water-supply. We have considered the matter and although we do not propose to lay down any fixed proportion, we are trying to do what, I believe, would meet the wishes of the Maharaja, that is we are trying to impress on District Boards the necessity of spending large sums on water-supply and I hope that when we get the accounts of last year the Maharaja will see that our efforts have not been altogether lost.

The Hon'ble Babu Surendra Nath Ray complains of the grant made to the Calcutta Corporation. He says the Corporation is rich and requires no Government help. He refers to the provision for payment of Rs. 42,000 to the Calcutta Corporation for the drainage of the fringe area and Rs. 5,400 for certain experiments on the sewage of Calcutta, which he considers unnecessary as the Corporation of Calcutta is solvent enough to meet these items of expenditure. It is not necessary for me to discuss any of these grants as I am informed the first one of Rs. 42,000 is probably the last grant under that head and no more will be required. At any rate I believe the grant will not be continued much longer. As regards the sum for the treatment of sewage the Municipality has very little to do with it. This amount is provided for carrying out experiments on the sewage of Calcutta under Government orders by an expert committee appointed to deal with the matter.

The Hon'ble Babu Surendra Nath Ray also thinks that the contribution to the Chittagong Municipality for the pay of its Engineer-Secretary out of the Sanitary Fund is an unjustifiable diversion of the Fund. I do not take the same view. A large place like Chittagong requires an engineer of greater ability and experience than those that municipalities generally employ. We made a grant of Rs. 20,000 to Chittagong in order to help the Municipality to improve its sanitary condition. It must be remembered that in Eastern Bengal, Chittagong is a very important town where there is a Government House, which, however, is very seldom used. We first made a contribution of Rs. 20,000, but we have now reduced it to the figure mentioned by my

The Budget

Nawab Syed Shams-ul-Huda

hon'ble friend, as contribution towards the pay of the Engineer-Secretary of the Municipality We have helped other municipalities who have not got sufficient funds to make the necessary arrangements for sanitation, to employ proper officers to carry on the work We have been helping poor municipalities to enable them to employ Sanitary Inspectors There is no reason why Chittagong should not be as generously treated

The Hon'ble Rai Prasanna Kumar Ray Bahadur regrets that we were not able to raise the pay of the Munsiffs and the Registration clerks Others have also referred to the subject I sympathise with the Munsiffs but unfortunately they have suffered like others for lack of funds and so far as the Munsiffs go there is the additional reason that the matter is under the consideration of the Public Services Commission As soon as normal conditions are restored, we hope that both the Munsiffs and the Registration clerks will receive the consideration they deserve

The Hon'ble Rai Nalinaksha Basu Bahadur has spoken of the Court-House at Burdwan The matter is being considered and there has been some difficulty regarding the site The site selected was inconvenient to the members of the bar This was represented to me when I visited Burdwan and we have asked the opinion of the District Judge on the point, but even if everything is settled soon, it is a question of money and therefore like other schemes it must be deferred

The Hon'ble Babu Ramtaran Banerji has spoken about the judicial administration of this Presidency I know that the Budget debate is generally taken advantage of for airing every sort of grievance, but I believe some little connection with the Budget should be required in every case, and I, for myself, do not see how into this Budget debate this question comes in at all It must be remembered that, though the Budget debate was formerly the only opportunity for non official members to ventilate their grievances, now that they have a right of moving resolutions on important subjects, I think it only right that all important matters like these should form the subject of resolutions to be debated in Council, rather than that they should be dealt at the Budget debate, and that members of Government should not be expected without previous notice to deal with such matters on behalf of Government I therefore do not intend to discuss the merits of the points raised by the Hon'ble Member on this occasion

I now turn to the speech of my friend the Hon'ble Mr Fazl-ul Haq It has always been difficult to meet him, and, in fact, I find that on this occasion he has gone even beyond his speeches on previous occasions His speech will be answered, a good deal of it, by my hon'ble colleague Mr Lyon but I think I should refer to one or two matters with which I am more directly concerned I shall speak of the Muhammadan Arts College and of the Hostel in College Street My hon'ble friend himself knows that we had acquired a plot of land for the Anglo-Persian department of the Madrasah so that a College building might be constructed on the site of the Anglo-Persian department My hon'ble friend expects us to proceed in the way of a private gentlemen who makes up his mind to build a school at night, purchases the land the next day and forthwith goes on with the work But there are certain inconvenient rules by which Government are bound and in an important matter like the foundation of an Arts College in Calcutta, I think Government would have been guilty of indecent haste if they did not consult all those interested in the proposal The scheme requires, I believe, an expenditure of 13 lakhs non recurring and a recurring expenditure of somethin g like Rs 1,40 000 Government, however anxious they may have been to give the Muhammadans an Arts College, could not disregard rules of financial control and establish a college within six months of the proposal We had first of all to ask the Director of Public Instruction to examine the scheme from an educational point of view and to work out the details of the expenditure We had to consult other educational experts and had also to ask the Public Works Department to submit plans and estimates of the building We had, as I have said, also to consult those interested in Muhammadan education We had to go up to the Government of India and to the Secretary

The Budget

Nawab Syed Shamsul Huda

Adjournment

of State for sanction When the complete scheme was worked out, we knew perefectly well that under the present conditions it was hopeless to ask the Government of India to finance such a large scheme The scheme is therefore still more or less in abeyance But we have not given it up Government cannot be expected to proceed at the breakneck pace at which my hon ble friend would wish them to proceed He has also complained that the hostel in College Street has made no progress and that we are how exactly where we were before I do not want to follow him in his simile of the oilman s bullock, but I do say that it is not correct to say that we are where we were before We have not yet built a house for the students but what have we done ? Have we been idle ? No We have to avoid delay, rented a house at a cost of over Rs 400 a month for the accommodation of Muhammadan students I wish my hon ble friend had made an acknowledgment of what Government had done in this direction

The Hon'ble MAULVI A K FAZL-UL HAQ said —

' I mentioned that in my speech

The Hon ble NAWAB SYED SHAMS-UI-HUDA said —

' It was a very half hearted acknowledgment

We have a warm appreciation from the Hon ble Nawab Saiyid Nawab Ali Chawdhuri which I greatly appreciate, and his well directed criticisms are likely to do real good I think the Hon ble Mr Haq should have appreciated our anxiety to help Muhammadan students As we could not build a new hostel near College Square soon we rented a house It makes no difference so far as the students themselves a concerned As regards his demand for more Persian and Arabic teachers, Mr Hornell has said how that matter now stands It is certainly one which requires to be taken up, and I am sure the Director of Public Instruction will do all that can be done in this direction

There is only one more word that I would say to the Hon ble Maulvi Fazl ul Haq He admits that the present constitution of the Council is not unfavourable to Eastern Bengal He has been good enough to pay a compliment to all of us as being sympathetic to Eastern Bengal but yet when he comes to details he thinks that it is one of the worst in its dealings with the problems of Eastern Bengal I do not see the consistency between the two The correct conclusion was, that with so many friends if things were not faring as well as he expected with Eastern Bengal and Muhammadans generally that there must have been more difficulties in the way than he was aware of I do not wish to take up the time of the Council any longer , I have tried to explain all the more important points, and if I have missed any points in the course of my remarks, I am sorry for the omission '

ADJOURNMENT

The Council was then adjourned to Tuesday, the 4th April, 1916, at 11 A M

A M HUTCHISON,

Secretary to the Government of Bengal and
Secretary to the Bengal Legislative Council (Offg).

CALCUTTA
The 24th April 1916

Abstract of the Proceedings of the Bengal Legislative Council assembled under the provisions of the Government of India Act 1915

THE Council met in the Council Chamber in Government House on Tuesday the 4th April 1916, at 11 A M

Present

His Excellency the Right Hon'ble THOMAS DAVID BARON CARMICHAEL OF SKIRLING G C I E K C M G *Governor of the Presidency of Fort William in Bengal, presiding*

[*The Discussion of the Budget was resumed*]

The Hon'ble MR LYON said —

'My Lord I have no desire to detain the Council at any length this morning but there are two or three subjects which have been dealt with in the speeches of Hon'ble Members on which I would like to say a few words The first is connected with questions which have been raised by representatives of the Muhammadan community with reference to the action of Government on behalf of that community We have had, what I think I may say without reproach a very violent speech from one Hon'ble Member on this subject But I think that by the somewhat unwelcome terms in which he referred to the members of this Government by way of praise—our sympathies are I hope, more widely distributed than he would suggest—he must have convinced members of this Council that there was reason to doubt whether his statement of facts was entirely accurate I think my Lord that I am within the mark when I say that such doubts are well founded It will be found on examination that the projects which he declared to have been shelved have in nowise been shelved, he was incorrect in saying that Dacca as the second capital of this province has been deserted, while as regards the alleged neglect of Muhammadan education, I need only refer him to the speech of the Hon'ble Nawab Saiyid Nawab Ali Chaudhuri for a refutation of that suggestion As I shall have to deal with the main subjects referred to by him in considering the speech of the Hon'ble the Nawab Sahib, I shall not reply in detail to his speech, but before leaving it, I would ask him to consider his position That, as I understand it, stands much in this wise The elevation of the masses belonging to the Muhammadan community and the satisfaction of their just aspirations are as this Council knows well matters of very great difficulty They cannot be secured by the Government acting alone without the co-operation and unselfish labour of the leaders of the community itself The Hon'ble Member has acknowledged that this Government are well disposed towards his co-religionists, and I leave it to him to reflect whether he advances the cause of his community, or fulfils his duty as one of its leaders, by confining himself to the making of speeches consisting almost solely of unrestrained denunciations of his friends based upon flimsy and inaccurate premises

I would now turn to the speech of the Hon'ble Nawab Saiyid Nawab Ali Chaudhuri His was an interesting and earnest appeal to us to remember the cause of his co-religionists and of the Eastern Bengal population It was a speech which was not devoid of strong criticism of the action of Government, but that criticism was stimulative, it was criticism which was of a nature to keep Government up to the mark, and as such was welcome to us as to all who wish that community and that cause well He spoke of the disappointment of Dacca in its hope of becoming one of the capitals of this province, but I think he overstated his case We have no intention of giving up or going back on the promises which have been made to Eastern Bengal in this respect I may point out to him that among the first of the works which we took up in Dacca after this Government was constituted was the construction of the

The Budget

Mr Lyon

Secretariat building, which will be the permanent home of the Government and its offices when they go to Dacca each year We have at the same time overcome the difficulty caused by the influx of Government officials during that time by building residences for the Secretaries and heads of departments It is no part of our policy to leave that Secretariat and those residences empty We have already held two meetings of this Council in Dacca, and it will not escape Hon ble Members acquainted with Dacca that we have been endeavouring to render the residence of the Governor worthy of his occupation for the two months of the year during which he will reside at Dacca

The Hon ble Member has also referred to the removal of the Survey Classes from the School of Engineering in Dacca but I would remind him that those classes have not been removed from Eastern Bengal They have been transferred from Dacca to the neighbourhood of Comilla The reasons for transferring them are well known and the very fact that he has in a later sentence complained of the extra expenditure shows that we have been endeavouring to render the curriculum and the whole course of training in the new Survey School better than those we gave to the pupils at Dacca We have established in the neighbourhood of Comilla a good Survey School where a good and full course of surveying is taught and I think it will be found that that school is more valuable to Eastern Bengal and to the whole province than the old classes that were held at Dacca He has referred also to the harm that he says has been done to the School of Engineering by the removal of the Electrical Branch We had that matter carefully examined and examined with special sympathy for the feelings of the people of Eastern Bengal who wanted to get an electrical training for their young men in closer proximity to their homes but we discovered that the very large expenditure involved in the maintenance of this Branch would be unwarranted at the present moment We were unable to give an electrical education there which would compare in any way with that which can be given at Sibpur The consequence was that we removed this class which had not proved very popular, very few students having come to it At the same time, to show that there is no idea of allowing the School of Engineering to degenerate we are about to build new premises for it there, for which we have allocated 5 lakhs of rupees I think that when that school is established, it will undoubtedly be a boon to the province

I turn now to the question of the Dacca University, and while not deprecating criticism as to such delays as may have occurred I would remind Hon'ble Members that the establishment of a new form of university a residential and teaching university in any corner of the world is bound to be carried out with some delay, if it is to be established on sound lines With reference to the Dacca University, I think it may interest the Council if I explain exactly how matters stand After the Dacca University Committee had prepared its report, the general scheme was submitted to the Government of India, and eventually to the Secretary of State, for sanction Sanction was received and we were told to prepare the detailed plans and estimates which were required to enable us to carry out the material part of the scheme These plans and estimates took some time to prepare The Government Architect dealt with them with great care, and admirable plans and estimates resulted But when these were sent up for sanction it was decided after some discussion that they could not be proceeded with until the question of the constitution of the University, the basis on which legislation would have to be enacted, had been fully and properly dealt with Now the Dacca University Committee had not dealt with that part of the scheme with the same fulness with which they had dealt with the rest of it, and some grave difficulties arose, including many matters of policy which it had been impossible for so limited a committee to deal with finally The consequence was that this part of the scheme took some time to determine We had hoped that during that time we might have gone on with the buildings, but this was considered undesirable We therefore worked out the complete constitution,

The Budget

Mr Lyon

which has now been sanctioned I may note that one of the most difficult points dealt with was the financial basis and independence of the University, and it may be well understood that that matter occasioned a good deal of difference of opinion Well the constitution has now been settled with the sanction of the Secretary of State and I understand that a Bill has been prepared which will be introduced into the Imperial Council at an early date

Now as to the question of funds It is obvious that at the present time it is necessary for us to curtail to some degree the immediate requirements of the Dacca University, if we do not wish to postpone its initiation until some time after the conclusion of the war We have had accordingly to prepare a slightly modified scheme which will merely be the preliminary to the carrying out of the whole scheme and which will not itself block that scheme We have the funds for this modified scheme in our balances, but, as every one knows we cannot cut into these balances, and consequently it is not possible for us to proceed this year with our scheme for the Dacca University, unless we are allowed by special permission of the Government of India to devote a small portion of our balances to this object It remains to be seen whether we shall be permitted to do this The cost of the modified scheme amounts to over 38 lakhs the cost of the total scheme amounting to about 59 lakhs But I wish to point out that there is one favourable result of the delay which has been caused We have been granted by the Government of India a recurring grant of Rs 6,45,000 which after four years will be reduced to Rs 3,45 000 That grant we are accumulating for the purpose of capital expenditure until we require the money for the current expenditure on the University, so that we shall benefit to this extent by the delay that when we are able to proceed with the scheme we shall have a larger capital sum to deal with, and I think that, in consequence we may be able to go somewhat beyond the modified scheme that has been sanctioned

Connected with this subject is the question of the Muhammadan Hall, which has been alluded to by the Hon ble Nawab Saiyid Nawab Ali Chaudhuri, and I think I must commence with the statement that we are in a very much better position now, as regards the provision to be made for the Muhammadan community in Dacca in this respect, than when Sir Charles Bayley laid the foundation stone of the Muhammadan Hall I quite accept everything the Hon ble Nawab has said as to the trouble that was taken to raise money for the Muhammadan Hall, the promises that were made and the aspirations connected with that Hall, but I think he will agree that it is obvious that when instead of a Muhammadan Hall to accommodate the Moslem students of the Dacca College, we proposed to build a Muhammadan College at a very much greater cost, accommodating a very much larger number of Muhammadan students and to provide also eventually for the institution of a faculty of Islamic studies, we were proposing to do a very great deal more for the Muhammadan community than was intended when we laid the foundation stone of the Muhammadan Hall That the construction of the Muhammadan Hall has been deferred because we have now a larger scheme in hand is undoubtedly a fact, but I think it is only a superficial view which would lament that delay in view of what we hope to do for the Muhammadan community eventually I may say that the establishment of a Muhammadan College is in the very forefront of the Dacca University scheme We have put it into our modified scheme by proposing to utilise the old Secretariat building, and we have actually built already a great hall at the back of the Secretariat which will serve as a dining hall for Muhammadan students We have also a scheme in hand, which I hope we may be able to carry out, for the establishment of a Muhammadan College in advance of the University, directly we can get some slight relaxation from financial restrictions and overcome the difficulty of recruiting a proper establishment and staff for the college When these difficulties are surmounted we think we shall be able to establish a Muhammadan College even before we can establish the Dacca University In view of these

The Budget

Mr Lyon

facts, I believe I am right in thinking that the Muhammadan community will not eventually regret the delay or the changes of policy with reference to the Muhammadan Hall

I shall now refer to some of the remarks made by Members of Council dealing with other departments in my charge A reference was made by two Hon'ble Members to our issue of a weekly sheet of war news on which an expenditure of Rs 7,000 has been budgeted I do not think there is anything really controversial in this matter We carefully considered the great danger of the prevalence and constant circulation of false rumours concerning the war These false rumours were not always met by the press of the province, not from any want of will, but because the newspapers do not circulate quite so far as we could wish We consequently started a very unpretentious little sheet containing almost exclusively the telegrams received by the Viceroy from the Secretary of State and illustrated by small maps We also publish a Hindi version of this weekly news-sheet, without the maps These have been circulated in the widest possible manner We send them round to punchayets and villages, we send them into corners of the province where practically no newspaper ever goes We do not think that we have in the least interfered with the circulation of newspapers, as this weekly sheet is limited to the circulation of war news At the same time it meets a real want and is the means of contradicting the pernicious rumours which were extremely prevalent before it was issued We have good reason to believe that this unpretentious little sheet has attained some success, and that it has helped to counteract the rumours to which I have alluded, and I think that in view of these facts the small expenditure incurred cannot well be objected to

The Hon'ble Rai Radha Charan Pal Bahadur referred in his speech to the Jail warders and the sum of Rs 50,000 which has been provided for the improvement of their position I may tell him that this amount is to be devoted mainly to an increase in the pay of the warders, though there is some small increase in establishment also We have known for some years that the warder establishment was extremely discontented Some slight alleviation has been given to this establishment in various ways, but we found that it was practically impossible for us to get good men to serve as warders unless we raised their pay to the general level of the pay of the police I need scarcely suggest to the Council how very dangerous it was to have a discontented warder establishment, and how greatly it added to the difficulties of proper jail administration I am glad to say that we hope now to be able to do something for a very long suffering force

The Hon'ble the Rai Bahadur has also referred to police matters, and the Hon'ble Mr Bray also made a reference to the same subject It was noted there has been some reduction in the cost of the village police, but this is a purely nominal reduction The amount budgeted for last year was only Rs 8,000, and it was increased to Rs 27,000, because of the necessity that arose for remitting, owing to floods and distress, some of the taxes which had been imposed to maintain this force We had, in consequence, to meet a larger portion of the cost We hope that this will not happen during the current year and the allotment has again been reduced to its normal figure

The Hon'ble the Rai Bahadur also made some enquiries as to the position of the force and their prospects I think I need not trouble the Council with an examination of the detailed figures of the past few years but they show that a very great deal has been done There are now several districts in charge of Indian members of the police force and their pay as Superintendents of Police rises from Rs 600 to Rs 900 There is also a force of 21 Deputy Superintendents, whose pay rises from Rs 250 to Rs 500 I may point out that 12 or 15 years ago none of these appointments was practically available to Indian Police officers There has also been an improvement in the pay of sub-inspectors, head-constables and constables, and similar improvements have also been made in the police force in Calcutta I am

The Budget

Mr Lyon, Mr Beatson Bell

extremely glad that the expenditure on police has been so cordially welcomed in this Council I can assure the Hon ble Mr Bray that we are doing all that we can for the police in spite of the holding up of our balances It is obvious that big new reforms in any service must mean an invasion of those balances, and that we cannot enter upon large new capital or recurring expenditure on the immediate revenue of the year We are glad that we have been able to do something, but it is our great regret that we cannot do more As an indication of our difficulties I may note that there was attached to the Inspector General of Police's budget for this year a list of new schemes devised for the improvement of the prospects and condition of the police force The schemes numbered 111 many of them large schemes We have been able to provide for some out of the revenue for this year, but it is obvious that, much as we appreciate the value of these schemes, it is entirely impossible for us to deal with them all as we should have liked to, and in the background of these schemes there was one which greatly affects the contentment of the mufassil, and that is the scheme for the rehousing of the thanas and police officers throughout the province Unfortunately the cost of this scheme was very nearly 1½ crores I merely point this out to show with what large demands we have had to deal

The actual increase in the expenditure on the police during 1913-14 over that of the previous year was 9½ lakhs, and a further increase was incurred during 1914 15 amounting to 8¼ lakhs We have never refused to appoint extra police when required, and have dealt with all the most urgent needs, but we have had to postpone some of our reforms The police and its work do not want for sympathy at the hands of Government, and I feel sure that the members of the police force know it We have indicated in no uncertain manner how highly we value their work, and how anxious we are to meet their needs and alleviate the hardships of their lot In spite of the necessities of the year, this Budget of 1916 17 is evidence of this attitude, and we are as anxious as any Member of this Council can be, to take up and carry through all the great schemes of improvement that have been laid before us

The Hon ble MR. BEATSON BELL said —

'My Lord, I shall try to be very brief in my remarks Unlike many Members of this Council I do not associate the art of budget-making with the practice of oratory To us in the Financial Department, budget making is a severely practical operation I shall deal with the departments which I have the honour to represent in this Council, that is to say, Revenue, Excise Medical, Commerce, Public Works and Emigration, but before doing so, it is perhaps right that I should make one or two general remarks It was told of a distinguished prelate of the Anglican Church that whenever he interviewed a visitor he made to him the same three remarks The first remark was — Who are you?, the second remark was "What do you want?' and the third remark was 'No' This year, much against our will this has been more or les the attitude of the Financial Department By strict adherence to the principle which I have just indicated, we have been able to keep our expenditure at a figure somewhat less than our provincial income In fact, we have a balance on the right side of a little over 2 lakhs of rupees

The Hon ble Rai Radha Charan Pal Bahadur has drawn our attention to these two lakhs of rupees and has asked us whether they are available for provincial expenditure This item did not escape our notice We drew the attention of the Government of India to this unexpended 2 lakhs, and we asked them whether we might consider it to be at the disposal of the Local Government The answer was in the negative, and for the present we must leave it at that

The Budget

Mr Beatson Bell, Maharaja Ranajit Sinha of Nashipur

We are grateful to the Hon'ble Rai Radha Charan Pal Bahadur for drawing our attention to the question of the earmarked grants and the existing balances in these grants He made a useful suggestion which we were glad to comply with We have caused to be printed and placed in the hands of the Members of Council a list showing exactly how all these grants stand I wish this suggestion had been made a little earlier so that we could have placed this statement sooner in the hands of the Council This brings me to another general question which several Hon ble Members have discussed They complain that they have not been given sufficient time to study the budget and that we have not supplied them with sufficient information to formulate their resolutions and to prepare their speeches This is an old question which His Excellency took up personally as you all know The procedure of this Council was reformed within the last few years and reformed in such a way that I believe there is no provincial Council in India which affords such facilities to the non official members for examining the budget On the 2nd of December and again on the 11th January we had meetings of the Finance Committee Finally, on the 28th February we prepared the amended draft of the Financial Statement, and we circulated it to all Members of Council That, my Lord was rather more than six weeks ago During these six weeks we would have been delighted to give any information to any Hon ble Members who had come to us either in the Financial Department or in the administrative department concerned So far as I can ascertain, during these six weeks only three Hon ble Members applied to us for any information If Hon ble Members would apply to us more we shall be glad to give them more information During the ten days set apart for formulating resolutions and during the six weeks set apart for general study of the budget we were prepared to give the fullest information to any Hon ble Member who came to our offices

Of the two further criticisms which have been offered one is that the detailed figures of expenditure of the expiring year have not been placed in the hands of the Hon ble Members The reason for this is very simple They are not yet in my own hands, and I do not expect to have them for several months I cannot understand how some members who have experience of the Delhi Council have assured us that in Delhi the fullest detailed figures for the expenditure of the expiring year are placed in the hands of the Council This is a physical impossibility, for not to go any further the debate in the Delhi Council takes place some time in March when the expenditure for the expiring year is still going on '

The Hon ble MAHARAJA RANAJIT SINHA OF NASHIPUR said —

I meant the figures for the previous year

The Hon'ble MR BEATSON BELL —

They can be supplied yearly to any Hon ble Member We are now discussing the budget for 1916-17 we have not got the full figures for 1915-16, but the figures for 1914 15 have been published long ago I shall see that in future budgets the figures of the penultimate year are given to any member who wants to study them

The Hon ble MAHARAJA RANAJIT SINHA OF NASHIPUR said —

I also asked for the figures of the departmental budgets

The Hon'ble MR BEATSON BELL —

I am just coming to that point No Hon'ble Member has referred to the fact that this question was discussed last year I have really nothing to add to what I said on that occasion Departmental budgets are documents of an enormous mass, we prepare them in three editions, and they are not finally

The Budget

Mr Beatson Bell

passed until the budget as a whole is passed, for until we know how much money the Government of India is going to give us, we cannot say how much we can allot to each of the departments which make up this Government As soon as the departmental budgets are printed copies can be obtained on application by any Hon ble Member Moreover, during the six weeks between the introduction of the amended Financial Statement and the date when the budget is discussed in Council although these departmental budgets are still in manuscript, we shall be glad to give any Hon ble Member any specific information which he desires regarding any item in their contents What I do say is this, that we would not be justified in incurring the labour and expense of printing these departmental budgets while they are still in an uncertain condition

I now turn to the criticisms which have been made upon the budgets of the different departments which I have the honour to represent Several members have placed their fingers upon the figure against general administration, and they have pointed out that when economy was going on all round it was a misfortune that there was no reduction against this item As a matter of fact, there has been no increase against general administration Certain items of expenditure which had hitherto been scattered about among different heads of the budget have now been brought into their proper classification under the head of General Administration There is only one real increase under this head and that is the salary of the proposed Director of Industries I do not think any Hon ble Member will criticise this small increase in general administration As a matter of fact although the figure for general administration stands exactly as it stood before this does not mean that officials of all grades are drawing the same net emoluments as they drew in the previous year On the contrary we have, like every one else, to pay larger income tax The net emoluments of this front bench have been reduced by the substantial sum of Rs 6 000 odd per annum The same thing has happened to other members of the various services We welcome these reductions and we only wish they had been larger

Turning to land revenue, I shall first refer to the subject which has been uppermost in my mind and in the minds of many others during the last 9 or 10 months I refer of course to the distress which is unfortunately prevalent particularly in the districts of Tippera and Bankura When I see it insinuated in the public press that we have been niggardly towards' starving people in order to pour money upon 'pet departments I wonder whether people know that during the past year we have devoted 23½ lakhs to the relief of distress We have given 18 lakhs as loans, 2 lakhs for relief works and 3½ lakhs on gratuitous relief of different kinds Thus makes up the total of 23½ lakhs Apart from this there are large sums which have been expended by the District Boards from their ordinary income, and large sums have been spent by the Court of Wards Estate in Sarail Lastly, as the House already knows private persons and private organisations have come nobly forward and have supplemented what has been done by Government and District Boards and the Court of Wards Taking public and private contributions together we have probably expended something over 30 lakhs in relieving the distress of the people who have been suffering from flood and drought I am glad to say that in the district of Tippera we are now seeing light through the trouble As I explained before, the distressed area in Tippera is fortunately not dependent on a single crop In addition to the winter rice crop it has an autumn crop of rice and also an autumn crop of jute There has already been some rain in the district of Tippera and if, please God, we have rain next month, the distressed part of this district will reap its usual *aus* crop and its usual jute crop and the distress will practically be over We trust that in the district of Tippera there will be little or no distress after the month of July I am sorry to say that in Bankura the conditions are otherwise Bankura is a district in which the autumn crop is almost negligible Therefore distress will go on until the

The Budget

Mr Beatson Bell, Babu Surendra Nath Banerji

winter crop is reaped, that is to say, some time between the Poojas and Christmas In fact, the distress in Bankura will last approximately until November or December The latest figures that we have for Tippera show that about 4,000 people are on our works, and that 6 000 people are getting gratuitous relief We hope that these figures will gradually fall but in Bankura the figures are much larger In Bankura we have at present 18 000 people upon our works and 21 000 upon gratuitous relief We fear that these figures will rise still higher in the months to come

Our policy as the House is aware, is to see that no one starves In the district of Bankura fortunately the people men and women alike are used to doing earthwork I have visited a great many of the relief works in that district, and I saw whole families working together I was much struck by their healthy appearance and by the excellence of all the arrangements Those who are able to work are given work, and those who are unable to work, the aged and the crippled, are receiving gratuitous relief, partly from our own funds and partly from the generosity of private persons, and we are continuing to give out agricultural loans so that the peasantry may be able to cultivate their lands between now and the harvesting of the winter crop

I have been asked what is the allotment in the Budget for the coming year for agricultural and land improvement loans in other words, what is know as *takkavi* loans

The Hon'ble BABU SURENDRA NATH BANERJI said —

Is the Hon'ble Member aware that there is famine in the Kishoreganj subdivision of the Mymensingh district?

The Hon'ble MR BEATSON BELL —

I am aware that there is distress in Kishoreganj and we have given funds not only to Kishoreganj, but also to the Netrakona subdivision of the same district Wherever there is real distress it is our duty to see that steps are taken to relieve it The figure which I have quoted, 23½ lakhs, covers not only Bankura and Tippera but also other distressed areas in the province I was speaking just now of agricultural loans Under this head we have provided for the coming year an allotment of 6 lakhs If this turns out to be insufficient, I can assure the House that we shall take prompt steps to increase the allotment Then as regards the ordinary expenditure on relief works and gratuitous relief, we have hitherto met this from our provincial resources, aided, as I have said by private help We have done this up to the close of the expiring financial year but after mature consideration we have come to the conclusion that we are no longer justified in relying entirely upon provincial resources and private charity We have therefore with effect from the 1st April declared that the district of Bankura is in a state of famine This does not mean that we regard the measures which we have hitherto taken as in any way inadequate The work which has been done in that district by all concerned, by Mr Cook, the Collector, and by all the classes of officials and non-officials, has been admirable The good work will be continued exactly on the lines on which it is progressing But by this formal declaration of famine we are now placed in a position to meet expenditure not only from the sources already indicated but also from the Famine Insurance Fund This Government has a credit balance in that fund of about 4 lakhs of rupees We have come to the conclusion that owing to the serious state of affairs in the district of Bankura, we are no longer justified in shutting our eyes to these 4 lakhs With the approval of the Government of India we intend to utilise this money as a supplement to our ordinary revenue in order to see that no one dies of hunger in any part of the province

I now turn to one or two other subjects in connection with the Revenue Department My friend the Hon'ble Mr Ariff has twitted me with being

The Budget

Mr Beatson Bell

inconsistent because I stopped the survey and settlement operations in Jessore, after what I said in Council this time last year As a matter of fact, what I said in Council last year was that it was bad policy to stop any settlement work which was actually in progress In Jessore, fortunately we received the mandate for economy just at the time when our work was about to begin We therefore decided to refrain from beginning it I fail to see where the inconsistency comes in

Several gentlemen have referred to the Agricultural Department and I am sure Mr Blackwood will thank them for the generous way in which they have referred to the work which has been done and which is being done

Special attention has been drawn by several Hon'ble Members to the question of the demonstration staff We have recently given this question a good deal of consideration Up till now the work of demonstration and the work of preparing the jute forecast were done by the same staff We have found that this system was not altogether satisfactory We have therefore decided that the staff which prepares the jute forecast shall be entirely separate from the staff which demonstrates agricultural improvements to the ryots We are sure that this is for the good of the ryot and that improvements will be demonstrated to them in a more thorough manner In the coming year apart from and distinct from the forecast staff there will be 62 demonstrators These demonstrators are all Indians and are men of practical training Each demonstrator will work within his own chaukidari union so that he will work among his own friends and neighbours Above these 62 Indian demonstrators there are district agricultural officers They are also Indians and they are professionally trained men We have not yet been able to appoint district agricultural officers for every district At present there are eight of these officers Sooner or later we hope to see a district agricultural officer in every district Although we have not yet got an agricultural officer in every district we have a highly trained Indian officer to supervise the work in each of the five divisions Most of these Indian Divisional Officers have been trained in European or Foreign Universities I mention these facts, as there seems to be an impression that all superior posts in the Agricultural Department are being reserved for Europeans This is very far from being the case At present we have only five Europeans in the department Two are Deputy Directors and three are experts working in the Laboratory at Dacca When funds are available we hope to increase both the European and the Indian staff but the bulk of the staff is Indian and will remain Indian

The Forest Department is also under me and a few criticisms have been made about it If I may say so they are not very helpful The Hon'ble Khan Bahadur Musharraff Husain has suggested that the Forest Department should give up its stereotyped way of work Possibly so, but unless he gives us some practical suggestions as to how this stereotyped way should be reformed it is not easy to see how we can meet his wishes I wish the Hon'ble Khan Bahadur had followed the example of the Hon'ble Babu Upendra Lal Ray who made a really practical suggestion for the Agricultural Department—I mean his suggestion that an Agricultural Museum should be attached to the seed store of each division I have noted that suggestion and shall try to act upon it

I turn now to the subject of Co-operative Societies It has been suggested that the Registrar of Co-operative Societies should be placed in direct subordination to the Director of Agriculture This experiment was tried for several years and it was found, on the whole, to be better that the Registrar should work as an independent officer directly under Government We have decided, however that he should work in close co-operation with the Director of Agriculture This subject has recently received marked attention from both these officers and a scheme has been formulated by which the co operation will be still closer than it has been in the past

The Budget

Mr Beatson Bell

I now turn to the subject of excise When I last spoke on this subject to the House, I pointed out that the consumption was declining in every branch of intoxicant Since then, I have had figures for another month and the decline is still going on Once more I congratulate my friends of the Temperance party, but although I congratulate them upon this decline in the consumption, I cannot altogether agree with the tone of some of the remarks One Hon ble Member said that he viewed with alarm any increase in the receipts As Financial Member I can hardly countersign this proposition I welcome any reduction in consumption, but I cannot at the same time welcome any reduction in receipts The policy of Government is to have the minimum of consumption coupled with the maximum of receipts I wonder if Hon ble Members realise that if our excise income disappeared about two thirds of the schools in the province would be in danger of being closed

I now turn to one small point in connection with the Excise Department The Hon ble Rai Radha Charan Pal Bahadur has asked for specific information regarding the item of refund of license fees in the town of Calcutta I am glad to give him the figures In respect of country liquor the refunds of license fees amounted to Rs 13 324, and in respect of opium the refunds amounted to Rs 35 166 The reason for the refunds in the case of country liquor was the difficulty in opening shops at the sites which had been selected by the Board which now deals with these matters It was necessary therefore to make some concession to those who are unable to open their shops on the due date In the case of opium shops the refunds were due to the operation of the restricted system of supply The Hon ble Member also asked what reduction has been made in the number of shops in Calcutta Considerable reductions were made a year ago I have not got the figures with me, but if the Hon ble Member desires, I shall give him the exact figures In the coming year the number of shops in Calcutta is practically the same as in the expiring year I wish to take this opportunity of thanking the members of the licensing board and in particular the non-official members for the helpful way in which they have worked and are working It has been a real pleasure to work with these gentlemen They now understand our difficulties and we understand their point of view

Turning to the Commercial Department, most of the remarks on this head have dealt with our proposal to have a Director of Industries and to place at his disposal the sum of one lakh of rupees If the House asks me who is to be our Director of Industries and what he is to do with this lakh of rupees, I can frankly say that at present I have not got the least idea We have got this item in our budget and it has been passed by the Government of India and on the top of it comes the proposal for a Royal Commission to examine the whole question not only in Bengal but also in other parts of India It is obvious that what we shall do in the coming year must largely depend on what the Government of India think it would be proper for us to do in view of the advent of this Royal Commission Subject to this restriction, we are most anxious to get the best man possible at the earliest date possible and we want to give him a fairly free hand to devote the money wherever he sees prospects of success

I now turn to the Medical Department, and am glad to welcome the remarks of several Hon'ble Members on the subject of the Belgachia College The views of this Government in connection with the Belgachia College were clearly stated in the Senate by Sir Pardey Lukis and these are still our views We sincerely trust that the authorities of the Belgachia College will raise the necessary funds within the stipulated date and if they do so they may be sure that Government will carry out its pledge both in the letter and the spirit

Another subject in the Medical Department to which allusion has been made is the proposal for giving vernacular instruction in Western medicine

The Budget

Mr Beatson Bell

As the House is aware, a resolution on this subject was recently carried in the Delhi Council on the motion of my friend, the Hon ble Dr M N Banerji We are at present awaiting from the Government of India a circular letter on the subject of that motion I cannot say what action we shall take until we get that letter Naturally we shall view the question in all its aspects with a sincere desire to do the best both for the country and for the profession

Another Medical subject to which allusion has been made is the Lunatic Asylum at Ranchi We are asked why this Government should contemplate giving a large contribution to this asylum The answer is very simple It is proposed to build a large asylum at Ranchi, with one wing for Europeans and another wing for Indians Three quarters of the inmates of this asylum will unfortunately come from the province of Bengal In fact, it will be a joint institution for the two provinces in the most healthy and suitable place which the two Governments could select It is therefore obvious that we must pay a very considerable portion of the cost I may say that it has been a source of genuine grief to this Government that the work of this asylum has had to be postponed because of financial considerations Other people are able to speak for themselves and to agitate for the relief of their wants, but these unfortunate people who are housed at present in very unsatisfactory surroundings and who are totally unable to express their wants must command the very deepest sympathy from everyone in this House, official and non official We trust that when the financial horizon brightens this will be the first work to be undertaken

I now turn to the Public Works Department The Hon ble Babu Upendra Lal Ray has asked me to make a definite pronouncement as to what is to happen to the town of Noakhali I remember a Sanskrit proverb which says that there are three things with which it is hard to meddle—*Nadi Nari and Nakhi*—that is rivers, women and beasts with claws If it is hard to meddle with these three things it is still harder to make a definite pronouncement about them, especially, when the river concerned is like the river at Noakhali It is more than a river, it is practically the Bay of Bengal If the Hon ble Member has stood, as I have stood on the shore and watched the terrible erosion which is going on, he would hesitate to ask me or anybody else to make a definite pronouncement as to what is going to happen It is impossible to put up protective works They would probably cost about ten times the value of the land which is being washed away and at the end they would probably disappear into the ocean But although we cannot make a definite pronouncement we have been making very careful inquiries and have been taking very careful measurements I am very glad to say that from the latest returns it seemed that the tide was turning The erosion was not nearly so rapid as it was a few years ago in fact it showed marked signs of abatement I recently caused special calculation to be made and I am glad to say that if the abatement goes on as shown in those returns the town of Noakhali will be saved Erosion will cease altogether several hundred yards before the town is reached I do not promise that it will be so The river may change its mind at any moment rapid erosion may again set in For the next few years we can only wait and see

I now turn to what the Hon ble Babu Surendra Nath Ray said about the Bidhyadhari river and Tolly's Nullah As the House is aware, we had to stop practically all new work, but there was one new work which we felt bound to take up and that was the construction of the spill area in the Bidyadhari river This will cost more than a lakh of rupees, but we felt that we were not only justified but absolutely bound to take it up We took the best professional advice we could get and we were assured that if we did not undertake this work there was a very real danger that the entire drainage of Calcutta would be blocked We therefore undertook this construction It has been suggested that a similar spill area might be constructed in respect

The Budget

Mr Beatson Bell

of Tolly's Nullah Even before the Hon'ble Babu Surendra Nath Ray made this suggestion we were considering the question and at this moment we are taking levels and are making careful inquiries to see whether it is possible to construct for Tolly's Nullah a spill area similar to that which we are about to construct for the Bidyadhari river I cannot yet say what the result of our investigations will be but they are being carried out by that very competent officer, Mr Addams Williams We shall therefore have the best professional advice

The Hon'ble Maharaja of Nashipur has referred to the dredging of the river Bhagirathi and has thanked us for once more making an allotment of Rs 15 000 for carrying on this work We have made this allotment, but at the same time it is only right to say that we do not hope that we shall be able to do anything startling with it We shall just be able to do some dredging on lines similar to those which have been adopted in the past year We should very much like to have been able to allot a larger sum and to obtain a larger dredger to carry out this work That is the real problem and until a larger dredger is available for this work whatever we shall do will be some alleviation of the problem, but it will be no final solution Even if we had been able to make an allotment of five lakh for the purchase of a new dredger the money would inevitably have lapsed It is not possible at this time of war to obtain new dredgers and therefore we have been reluctantly compelled to do no more for the Bhagirathi river than we have been able to do in the past But I can assure the Hon'ble Member that we shall endeavour to make the best use of the Rs 15 000 which have been placed in the Budget

The Hon'ble Khan Bahadur Musharraff Husain from Jalpaiguri has once more referred to the old question of roads He has asked, as I understand that our expenditure should be still further increased and that still more roads should be added to the programme He has asked that my friend the Hon'ble Mr Green should pay a personal visit to the locality The Hon'ble Mr Green has visited the locality again and again, and I do not think there is any man living who knows the locality so well He has told me that he is perfectly willing to make a fresh visit, whenever it is necessary, to have another look at the locality and refresh his memory We all know the energy of Mr Green and we know that when he makes his visit it will be a useful visit At the same time, as we are dealing with these roads I might sound a note of warning The House will remember what I said, when the subject last came up, namely, that the Milligan programme holds the field This is a programme which contemplates the construction of 19 roads It is a programme which we always hoped to carry out but it is only fair to inform the House that the roads which are now in progress are costing much more than we contemplated Although we have formulated this programme of 19 roads, we have never promised and we never could promise that we shall construct those 19 roads regardless of cost Such a promise would not be fair It would not be fair to other districts which are clamouring for money, not only for 19 roads but for 1 900 roads We have not yet struck out any road from the 'Milligan programme but it is only fair to make it clear that we must cut our coat according to our cloth When we have expended the total sum which we meant to expend on these 19 roads we must seriously consider whether we should go on with the balance of the 'Milligan programme in Jalpaiguri or should call a halt and give some other district a chance At present, I make no pronouncement, I only sound a word of warning to my friends from Jalpaiguri

One more subject and I have done The Hon'ble Babu Surendra Nath Banerji has been good enough to make an allusion to the Department of Emigration He has pointed out that the indentured system in Assam is about to expire If he had said that it had already expired, his statement would have been more accurate Now the entire recruitment for Assam is on the free *sirdari* system that is to say, the experienced headmen from among

Budget, Resolutions

Mr Beatson Bell Babu Surendra Nath Ray

the coolies in each garden are allowed to go back to their own villages and to recruit willing villagers to come and work along with them There is no indenture and there are no penal clauses But although the system in respect of emigration to Assam is now on a very satisfactory basis I am sure the Hon ble Mr Banerji would be the last man to say that we should do nothing for the health and comfort of the coolies when they are on their way to Assam The house to which he referred in Goalundo is the house of the doctor who looks after the health and comfort of the coolies as they are passing through Goalundo Whether they are free or indentured it is our bounden duty to see that they are properly looked after This house was on the banks of the river It has been or is about to be washed away and it is therefore absolutely necessary to construct a new house for the doctor a little further removed from the shore

This takes me back again to where I started If Hon ble Members would only come round to us and ask us for simple explanations about items in the Budget, we shall be very glad to see that information is given to them It would save them time and it would save the time of this House

Once more I thank the House for the kindly welcome which they have given to the Budget for the coming year

LIST OF BUSINESS—ITEM No 4

RESOLUTIONS

[*Under the rules for the discussion of matters of general public interest*]

The Hon ble BABU SURENDRA NATH RAY moved the following resolution —

This Council recommends to the Governor in Council that a recommendation be made to the Governor General in Council that two seats be allotted to the educated community of the Presidency of Bengal in the Bengal Legislative Council in addition to the seats already given to the existing constituencies and that the Regulations for the nomination and election of additional members of the Bengal Legislative Council be amended accordingly

He said —

The resolution as your Lordship will observe is a modest one but nevertheless of the utmost importance to the educated community of this Presidency It aims at giving them an independent electorate Your Lordship is probably aware that it is through the persistent advocacy of the educated classes that we have got this reformed Council The educated classes have advocated their claims to get a voice in the Government of the country for a long time From the time of Lord Dufferin to the Minto-Morley reforms, *i e* for a period of nearly a quarter of a century constitutional agitation was kept on by the educated community of the country and the reforms in the Councils whether in 1892 or in 1912 are due greatly to their exertions But the reforms introduced and the rights and privileges conferred are not of such a nature as to satisfy the educated community The Government thought it proper to give communal representation in this country Special electorates have been given to the land holding classes, as well as to the Muhammadan community Seats are also allotted to safeguard the special interests of the European commercial community both in Calcutta and outside Calcutta, of the tea planting community, of the Calcutta trades and of Indian commerce When these communities and classes have been given separate electorates, one really cannot understand why the educated middle class community have not been given a separate electorate It may be said that in the whole of this

Resolutions

Babu Surendra Nath Ray

Presidency there are nearly 110 municipalities and about 106 Local and District Boards, there is the Calcutta Corporation there is the University of Calcutta These are constituencies which are meant for the educated community and from which the educated community may very well return representatives to the Council The educated community outside Calcutta—those living in the mufassal—can no doubt if they wish and if they really want to take some part in the affairs of their country enter these bodies The Commissioners of the Calcutta Corporation have the right of electing two members to the Council So has the University of Calcutta, which is said to be representative of the education and culture of the country But there is one fact which I want to place before your Lordships Government The landholding classes though they have been given a separate electorate, are not precluded from enjoying the right of taking part in the elections to the Council from the Local and District Boards and the Municipalities So is the case with the Muhammadan community Notwithstanding the special electorate given to them they have got full power to take part in the other electorates as well, and as a matter of fact they have been elected to the Council by these electorates The Municipalities and District Boards are not the preserves of the educated middle class community for a good number of the Municipal and District Board seats have been wrested from them When this is how matters stand, I cannot understand why the educated community of the Presidency should be told that the Municipalities, the Local and District Boards the Calcutta Corporation and the Calcutta University are the electorates meant for them and they ought not to ask for more Then again why should connexion with local politics be a *sine qua non* for a person to enter your Lordships Council There is a large number of educated people, a very large number among the professional classes unconnected with any local body who should like to have an electorate of their own and from whom the country would like to see a few members in your Lordships Council On the 23rd December 1910 the President of the United Bengal Provincial Conference submitted a memorial to the then Home Member to the Government of India, the Hon'ble Mr J I Jenkins In paragraph 8 of the said Memorial he said 'The educated middle class community are at a considerable disadvantage in the Councils and it is but fair to reserve two special seats for them The registered graduates and the professional classes in Calcutta have been recommended in the above scheme for additional franchise, Calcutta being the capital of India and a great centre of education It may be pointed out that Lord Lansdowne used to nominate two members to the Imperial Legislative Council from the English and the Indian side of the High Court Bar The claims of the educated community in Bengal are not sufficiently met by giving one seat to the Calcutta University which has ceased to be a popular body since the passing of the Universities Act in 1904 Again on the 23rd January 1912, a second Memorial was submitted to your Lordships Government by the Indian Association on the reconstitution of the Bengal Legislative Council In paragraph 7 of the said Memorial, it is stated My Committee desire to express the same hope in regard to the representation of the educated community It is no exaggeration to say that the educated middle class community in Bengal is not adequately represented in the Legislative Council of this Province They would therefore submit that a seat should be assigned to the graduates of the Calcutta University of a certain standing and this independently of the seat which is assigned to the Senate It is true that the Senate of the Calcutta University returns one member to the local Legislative Council but the majority of the members of the Senate consist of Government nominees and, therefore, the member returned by them may not in every case, truly represent the graduates Again, while the special electorates for the Zamindars and the Muhammadans are intended to safeguard the interests of what are supposed to be the special interests of the two classes the absence of a general electorate for the entire

Resolutions

Babu Surendra Nath Ray

community is keenly felt by the public The members of the middle class as such who form the backbone of Indian society, have no votes My Committee would therefore suggest the creation of a general electorate in each of the five divisions of Bengal on some such basis as the payment of income tax or a certain minimum of local rates and taxes

It is well known that your Lordship's Government and your Lordship personally have been most sympathetic with the just aspirations of the educated community It is also well known that in pursuance of the representation of the Indian Association the Government of Bengal recommended to the Government of India to frame an electorate for the educated middle class of Calcutta but the Government of India were not pleased to accept the above recommendation but gave a second seat to the Calcutta Corporation—a right unsought and unasked for by them and my friends the Commissioners of the Calcutta Corporation are making the very best use of the privilege which has practically been thrust upon them I find anyone can be elected for the second seat by the Corporation One need not necessarily be a member of the Corporation But however powerful the candidate may be whatever may be his qualifications he can never expect their support But I do not blame them nor do I ask your Lordship's Government to take away the franchise they have got nor do I ask for a redistribution of the seats My Resolution is for giving two seats to the graduates in Arts in Medicine or in Engineering of certain standing who also pay an income tax to members of the Bar to Editors of newspapers and journals and persons of like qualification

My Lord the Regulations of 1912 framed under the Indian Council Act took note as I have already said of all the different interests into consideration I do not say that the claims of the educated community have been totally disregarded I am not at all against the municipalities or the district and local boards being vested with the franchise of returning members to your Lordship's Council They are meant by Government as the doors by which the educated middle class are to enter the Council and some members of the middle class community have entered the reformed Councils through these bodies but unfortunately, there are many persons—men who would do justice to any Legislative Council—who are debarred from entering your Lordship's Council because they have not a proper electorate Your Lordship will probably be surprised to hear, but nevertheless it is a fact that in the district and local boards of the district of 24 Parganas—the premier district in the Presidency—there are only five or six graduate voters and out of more than 300 members of these bodies in the Presidency Division—the most enlightened of the divisions under your Excellency—there are only about 40 graduate voters, whereas the number of such voters in the municipalities of the division—consisting of about 50 municipalities would be only about 60 And so we have only about 100 persons qualified to vote out of a total of least 2000 graduates in the Division and this is the case in all the five divisions of this Presidency Even the right of election given to the Calcutta University is most unsatisfactory The right to take part in the election of a member from the University is not given to the registered graduates but to a body the majority of whom are nominated officials My Lord the words of the famous Local Self Government resolution of Lord Ripon of 1882 are still true, and applicable to the Council elections as well It pointed out 'But as education advances there is rapidly growing up all over the country an intelligent class of public-spirited men whom it is not only bad policy but sheer waste of power to fail to utilise Paragraph 21 of the resolution of the Government of India dated the 16th November 1909, issued when bringing the Indian Councils Act of 1909 into operation, laid down The Governor General in Council is conscious that many of the details of the scheme which is being introduced may be found on trial to be unsatisfactory or capable of infringement

Resolutions

Babu Surendra Nath Ray

Experience alone can show how far methods which are new to India give to the different classes and interests a measure of representation proportionate to their importance and influence, and to what extent an untried electorate machinery is suitable to the varying circumstances of the different provinces and the numerous electorates Defects will no doubt be discovered when the rules are brought into operation, but if this proves to be the case the law admits of the regulations being amended without difficulty Your Lordship has done all that was in your power to do to give seats to as many non officials in your Lordship's Council as the Regulations permitted Your Lordship has the power to appoint 16 officials in the Council but you have got only 14 officials, the rest of the seats being filled up by nomination by your Lordship from among the non officials and your Lordship nominated two of the very best men it was possible to nominate—Sir S P Sinha and Dr Nilratan Sarkar No electorate, whatever might have been its composition, could have elected better men But my Lord who are they? They are the very best representatives of the educated community of the Presidency, one of whom, however could never have entered this Council by election for he has not the necessary qualifications laid down in the Regulations I know it will be necessary for your Lordship to go up to the Government of India and the latter to the Secretary of State to amend the law on the subject to give effect to my resolution But my Lord if it is necessary to go up to the higher authorities for the purpose it will have to be done If there be any objection on the score of a very large preponderance of non-official element in the Council, well, my Lord, I for my part, will not object to your Lordship's Government having two more official members in the Council It matters little whether your Lordship has 52 or 54 Councillors Knowing as we do, the great sympathy your Lordship has for the educated community I think your Lordship will only be too glad to welcome the day when Bengal will have at least 100 members in its Council, at least two-thirds of whom will be elected members consisting of the representatives of the people with full financial control—control over sanitation and education—having an effective voice in directing the policy of the Government and the administration of the country Some of my friends told me not to move this Resolution at the present time They asked me to wait till the present unhappy war was ended, till the restoration of peace within and calm around They say Government will assuredly grant substantial rights and privileges, that there will be ere long a change in the angle of vision of our Rulers That may be, but I am one of those who would be satisfied with small mercies at the present time If we are to be the recipients of large privileges in the near future that should not deter us from asking for some privileges for which there has been real and an earnest desire on the part of the educated community for a considerable period of time

I hope your Lordship's Government will see their way to accept my resolution I ask for no radical changes in the constitution of this Council We know that if it had been in your Lordship's gift we would have got it for the mere asking But unfortunately it is not so No well-wisher of the British Government will ever consider a policy of disregarded demands as a wise and just one The grievances of the educated public should be taken up and remedied The claims of the educated community to have a voice in the Government of their country no one can deny It is the justice of the cause which has prompted me to move this Resolution I thought at first of moving a Resolution for 7 additional members, five for the five divisions of this Presidency and two for Calcutta But on second thought I modified my ideas It is the principle of my resolution, which I want your Lordship's Government to accept, viz, that the educated community of this Presidency should have an electorate of their own and should be allowed to elect members in your Lordship's Council

I think there exists in the country a strong feeling with reference to the reform which form the subject matter of my resolution There will be no

Resolutions

Babu Surendra Nath Ray, Mr Lyon,

doubt no Hyde Park or Trafalgar Square demonstrations if my resolution be not accepted There will be no change in your Lordship's cabinet or dissolution of the Council The educated community or rather the educated middle class are the most law-abiding and peace-loving citizens in this country They have all along approached Government for the redress of their grievances in a most constitutional way and they will continue to do so till their grievances are redressed A franchise based upon educational qualifications is an honourable franchise A Muhammadan graduate can vote even for the Imperial Council in the Muhammadan electorate, but a Ray Chand Premchand student if he is not a member of that community has no voice even in the election of a member to the Provincial Council I am glad that my Muhammadan friends are in the enjoyment of this liberal franchise which, like their laws is just and equitable I want the same treatment to be accorded to the educated community in general, whether Hindu or Muhammadan Gentile or Jew It is no fancy franchise for which I approach your Lordship's Government In recommending for a second seat to the Government of India which has been given to the Corporation of Calcutta your Lordship's Government practically accepted the principle of my resolution I do not ask for residential manhood suffrage which found such support in England under the auspices of the Reform League and the London Working Men's Association in 1867 But I ask for what I may term the 'educated manhood suffrage My Lord, we all know how step by step your countrymen have gained a freedom known to Europe known to all I call upon the whole house to unite on this occasion on this the last day of your Lordship's first Council to give to education what is but her just due'

The Hon'ble Mr LYON said —

"The Hon'ble Member has given us a great deal of material to help us in dealing with this resolution and I wish to say at once that, as he has already indicated, the Government are in entire sympathy with the educated community of Bengal in their desire for direct representation on the Council It is well known that since the seats in this Council were first distributed an attempt was made to meet this desire for direct representation by giving one seat to the non official member of the Corporation of Calcutta to which any member of the educated community might aspire The Hon'ble Member is not satisfied with this solution of the question, and it is not for me to say whether he should be satisfied, or whether we are all satisfied The whole arrangement must, of necessity, be in the nature of an experiment, and seeing that we have already found some difficulties in connection with that arrangement, it is clear that we have not arrived at perfection But experiments have to be tested by experience, and our experience is obtained at stated intervals by general elections There is one of these general elections just about to come on, and it is obvious that if we deal with this matter now, we are dealing with it just before we have obtained the experience which the coming election will give us While I say therefore, that Government are entirely in sympathy with this resolution, I do not mean that we are able to accept it, as we cannot do that, for perfectly clear reasons

The Hon'ble Member has pointed out that his definite request is one for the enlargement of the Council, and not one for the redistribution of the seats in the Council The Hon'ble Member knows that by thus defining his demand he is pointing out to the Council that it will require the amendment of an Act of Parliament to secure what he wishes He gave us a quotation showing that Government have at all times been ready to consider the amendment of the Regulations under which the proceedings of this Council are conducted, and under which seats in it are distributed While I do not wish in any way to fetter the discretion of the Council in this matter I am bound to point out the obvious fact that this is a very different matter from going to the Secretary of State and to Parliament

Resolutions

Mr Lyon Babu Surendra Nath Banerji

to ask them to pass an Act amending the Act by which this Council is constituted The Hon ble Member rather supported what I wish to say on this subject when he gave us a vision of the future of this Council as a small Parliament of one hundred members, containing a large number of direct representatives of the educated community I say he supported my contention with reference to this resolution when he said that, because he indicated in that vision what would be the larger questions which must arise when we ask Parliament to modify this Act and enlarge this Council It is obvious that we cannot go up to Parliament and ask them to pass an Act for the purpose of giving to the Council in Bengal as apart from other Councils, two more members The Council is the same in number as the Councils of Madras, Bombay and the United Provinces When the matter is considered before it is placed before Parliament, it will be necessary to consider what larger representation is required in other Provinces as well But apart from that I think it is clear that Hon ble Members in this Council will say that it requires the consideration of a very large number of other important questions before we can make this representation as to the amendment of this Act I think the Hon ble Babu Surendra Nath Ray will understand that whatever importance he attaches to the advantage of having two seats for the benefit of the educated community of Calcutta if he considers the whole question of the number of members to be elected in Bengal to a new Council, and the whole question of amending this Act of Parliament he and many of his friends may wish to add not two, not seven, but still more members to the Council I hold therefore that it would be a grave mistake for this Council to pass a motion for the alteration of this Act of Parliament without a full consideration of all the questions involved

I have still another reason for suggesting that it is undesirable that we should pass any such recommendation at the present time The Hon ble Member knows well that we cannot get it through in time for the present election which is to take place within the next two months, and the consequence is that he asks those who are about to die to pass a resolution which is to govern all future elections after the present one before we have had the experience of the coming contest, and before we can find out what the gentlemen who may be elected and will sit in this Council for at least the next two years have to say on the subject I am perfectly certain that the respect which he would wish to show to his successors in this Council will prevent his depriving them of the opportunity of considering this matter fully, and in view of our present lack of the very experience which these elections are to give to us Government will not countenance such a decision or such a pronouncement in this Council I hope, therefore, that if the Hon ble Member is satisfied with the reiteration of the sympathy which this Government have with the general trend of his motion, and with my explanation of the practical impossibility of any fruit coming at the present time from this resolution even if it were carried he will be willing to withdraw it '

The Hon'ble BABU SURENDRA NATH BANERJI said —

"My Lord,—I desire to congratulate the Government on the sympathetic attitude which they have assumed with regard to my hon ble friend s resolution I quite agree with the Hon ble Mr Lyon in thinking that this Resolution if accepted would necessitate our going up to Parliament for a modification of this Statute, and if we are to go up we ought to go up with far broader and larger demands than what are contained in the resolution of my hon ble friend My friend wants that two members should be added to the Council and that the statutory number should be raised to 52 That represents the sum total of his requirements We should be very glad to get the two members But we want a great deal more, and if we have to go up to Parliament for the reconstitution of this Council

Resolutions

Babu S N Banerji, Mr Lyon, The President

we must go up with a full and well considered demand My friend himself has referred to the nature of that demand He looks forward to a time when this Council will consist of about a hundred members, each district being properly represented and the educated community having their voice in the administration of the affairs of this Province The demand ought not only to be in the nature of an increase in the number of members of this Council, but also it should mean the exercise of effective control over legislation and finance I think, Sir, if there is to be a readjustment after the war, that readjustment ought to give to the popular representatives a preponderating voice in the deliberations of the affairs of the Province There ought to be in this Council a majority of elected members We have a majority of non officials But we know that there is a vast difference between an elected majority and a majority of non officials If we are to go up to Parliament we must pray that this Council should consist of a majority of elected members and then not only that but that we should have a right of moving resolutions that should be obligatory upon the Government At the present moment, our resolutions are more or less pious hopes and aspirations They are not binding upon the Government Your Excellency may accept or reject a resolution Your Excellency has however been kind enough to accept some resolutions which we have moved But the matter ought not to be left to the discretion of an individual Governor We ought to have the statutory right that when a resolution has been accepted it ought to be binding on the Government Then as regards the matter of putting questions supplementary questions are allowed to be put only by the interpellator In the House of Commons the practice is that a supplementary question may be put by any member

The Hon'ble Mr LYON said —

'I rise to a point of order The Hon'ble Member does not appear to be speaking to the motion

The Hon'ble BABU SURENDRA NATH BANERJI said —

'My Lord I think I am in perfect order The question is what we are to do if we are to go up to Parliament

The PRESIDENT said —

'Order! Order!

It is very probable that I know more about Parliamentary practice than the Hon'ble Member And if I had been speaking in Parliament in the same manner as the Hon'ble Member has done for the past two minutes, I am sure that I would have been stopped

I see nothing in the resolution about 'Supplementary Questions', and I must rule the Hon'ble Member's remarks as out of order

The Hon'ble BABU SURENDRA NATH BANERJI said —

"My Lord I was going to observe that our demands ought to be much larger than that contained in this modest resolution which my hon'ble friend has put forward and with which Government have expressed their sympathy I do agree with the Government in thinking that if we have to go up to Parliament we must go up on a broader and wider basis, and then with reference to the further remark which my hon'ble friend, Mr Lyon has made with reference to this matter, viz, it is hardly proper for an expiring assembly to pass a resolution of this kind I think it would be better if it were introduced into the next Council and the votes of that Council taken on it I think my Lord my advice to my friend is that after the expression of sympathy which he has elicited from the Government in this matter, it would be well for him to withdraw this resolution

Resolutions

Dr Deba Prasad Sarbadhikari

The Hon'ble DR DEBA PRASAD SARBADHIKARI said —

"My Lord, should the resolution be pressed to a division in spite of the words which have fallen from the Hon'ble Member in charge I should not like to give a silent vote— a sensible vote it would be, I hope in any event The demand is not at all an immoderate one and as a graduate of the Calcutta University I would be failing in my duty to my fellow-graduates if I did not support this resolution with all the emphasis I could command Elsewhere on another occasion I had to point out that graduates of the Calcutta University number not quite 20 000 all over its jurisdiction The whole of that number does not belong to the Presidency over which Your Excellency presides There is therefore a solid but not unmanaged electorate, and the details of election need not be a matter of any considerable difficulty Therefore when the time comes I do trust and hope that the graduates of the Calcutta University who are spread over all the professions and occupations of life in this Presidency, will have opportunities which have been claimed on their behalf

In passing, however, I am unable to accept all the reasons that have been put forward by my friend in formulating his demand We have heard it stated that the University of Calcutta is not popular, I do not know in what sense the limiting adjective has been used No University that is exacting can hope to be popular If it be regarded as unpopular in this sense we need not despair and may yet hope to be popular if steps be taken to compel us to be less exorbitant in our standard and demand as was recently suggested in this House That however, is not the general accusation levelled against us, and oftener than not we have been told that we are not exacting enough and are therefore so popular If it be suggested on the other hand that the basis of our constitution is not popular enough the suggestion is not quite ill-founded But it must be admitted that in the sense of representing the people it is certainly more popular now than when Lord Lansdowne opened the doors of election to it A larger percentage of fellows is now elected by the registered Members and the Faculties, and however unworthy may have been their choice in the immediate past a constituency that has returned to this Council and to its predecessors men of the type of the late Messrs W C Bonnerjee A M Bose Sir Ashutosh Mukherjee, Kali Charan Banerjee and Bhupendra Nath Bose cannot be said to have been very much influenced to its prejudice by the official majority that have predominated there right through In fact, the official majority was larger in those days than it is now I cannot claim that official members of the Senate and non-official members always see things eye to eye and they may sometimes disagree But I feel it my duty to do this justice to my official colleagues there, that all through the time that this right of electing a representative on the Council has been accorded to the Senate they have allowed their non-official colleagues to represent them None of the pettiness and jealousy that mars the relations between officials and non-officials between Hindus and Muhammadans elsewhere trouble the Senate and it is noteworthy Hindus have ungrudgingly supported a Muhammadan candidate and Muhammadans have ungrudgingly supported a Hindu candidate in contested elections and Europeans—both officials and non officials—have equally supported both It would be wrong and ungrateful of me not be make this admission and proclaim this fact, and therefore there is no point in what my hon'ble friend says with reference to this aspect of the case But apart from that registered graduates who are growing strong in number will form a right constituency worthy of any concession in this direction that may be thought of I do not know why amongst his reasons my friend should have thought fit to add that the income tax paying capacity should be one of a basis of qualification Registered graduates are not always as fortunate in life as my friend is, and many of them pay no income-tax and most of them a very negligible income tax If therefore the concession is to come, it ought to

Resolutions

Nawab Sayid Nawab Ali Chaudhuri, Khan Bahadur, Babu S N Ray

come on the academic basis as men who have devoted their lives to learning and culture and propose to devote their lives to the cause of the country apart from the income-tax payers altitude I do not think my friend wishes to press this resolution to a division now, and I am sure that when the time comes all that we have been saying in favour of this resolution will have effect '

The Hon'ble NAWAB SAIYID NAWAB ALI CHAUDHURI KHAN BAHADUR said —

' My Lord —I confess to a feeling of embarrassment in rising to speak upon the resolution now before this house There can be I think, no dissentient voice in regard to the principle that there should be an adequate representation of the educated community in this Council That the present electoral units do not afford a proper representation of the educated classes as such is also a patent fact But while I associate myself with the spirit underlying the demand made by my hon'ble friend Babu Surendra Nath Ray as a Muhammadan advocating communal representation I am sorry I cannot give my support to the resolution in its present shape If the Hon'ble Mover could suggest a scheme in which some special Muhammadan representation might be guaranteed he could have my vote at his command I shall not be in order to propose any amendment to the present resolution at this stage But I would suggest that if the electorate formed by the elected members of the Calcutta Corporation could be suitably expanded and a few more seats given to the educated classes then surely some of these seats could be reserved for a special Muhammadan electorate I may remind your Excellency that while mufassil Muhammadans have been given the privilege of returning one member from each Division, the claims of the Muhammadans of Calcutta have been altogether overlooked in this behalf Calcutta returns as many as seven representatives to this Council including the nominated member representing the Indian commercial community But while out of every four representatives of a Division we have one special Muhammadan member there is no provision for a single Muhammadan seat among the seven seats given to Calcutta

My Lord but for the special electorates we would have been nowhere near this Council Chamber It must be known to Your Excellency that the Muhammadans cannot hope to be returned by the Landholders Electorates in the mufassil, and of the ten District Board and Municipal seats outside Calcutta a maximum number of two is all that has fallen to our share It is because of this that we have been advocating the adoption of the principle of special communal representation in the lower rungs of the ladder so that these units might be truly representative in character and afford proper representation to us on this Council The Muhammadan representatives, must be in a minority in this Council for all times in spite of the special seats given to us And to our grief the rights of nomination which are expected to be exercised in the interests of the minorities are used by Your Excellency's Government in such a way as not to give us more than one seat out of the three in Your Excellency's hands It is, therefore, our bounden duty as representatives of the Muhammadan Community to see that our position in this Council is not made worse than it is to day And for this reason I am opposed to the present resolution in so far as it suggests an addition to the number of seats without providing any facilities for the Muhammadans to be returned

The Hon'ble BABU SURENDRA NATH RAY said —

' My Lord,—After the sympathetic reply which the Hon'ble Member in charge has given, I beg to withdraw this resolution

The resolution was then by leave of the President, withdrawn

Resolutions

Khan Bahadur Maulvi Musharraf Husain

LIST OF BUSINESS—ITEM No 5

The Hon ble Khan Bahadur Maulvi Musharraf Husain moved the following resolution —

This Council recommends to the Governor in Council that a committee be formed consisting of officials and non officials to inquire into the present economic condition of the middle class people of Bengal and to suggest means for improving their condition if necessary

He said —

'My Lord,—The economic condition of the people of this country has very recently engaged considerable attention by the appointment of a Royal Commission to report upon —

(1) whether new openings for the profitable employment of Indian capital, in commerce and industry can be indicated,

(2) whether and if so in what manner the Government can encourage industrial development—

(*a*) by rendering technical advice more freely available,

(*b*) by demonstration of the practicable possibility on a commercial scale of particular industries,

(*c*) by affording direct or indirect financial assistance to industrial enterprises, and

(*d*) by any other means not incompatible with the existing fiscal policy of the Government of India

When I gave notice of the resolution that I am moving, I was not aware of almost a similar resolution which Sir Ibrahim Rahimtulla of Bombay was fighting for in the Imperial Legislative Council The fact that two persons from two extreme corners of India were thinking on the same subject and asking for Government intervention shows the awakening of the Indians on the subjects of commerce and industry and their consciousness that circumstances do exist in different parts of India rendering the investment of Indian Capital in some lucrative business almost impossible People have been feeling this for some time past and thanks to Lord Minto's expansion of the Legislative Councils people of different professions and shades of intelligence have been allowed to take part in the deliberations of the various Legislative Councils, where they have been privileged to discuss subjects of general public interest affecting the welfare of the people of India The economic condition of Indians if truly analysed, will converge into the narrow subject which I have introduced in this Council and that is the economic condition of the middle class people The higher class, by whom one refers to native chiefs and the bigger Zamindars of Bengal, have got sufficient means to live comfortable lives The labourers and the agriculturists are now getting decent means of livelihood thanks to the industrial enterprises opened out by British Capital in India The middle class people, who may rightly be called the brain of Bengal, and who by heredity and other causes will ever remain middle class, in spite of all the sufferings they may undergo, and whose number is increasing daily are the subject of the present discussion They are in all cases the organising body in the world and are paid for their organisation, the actual manual work being done by the low class people If the work of the middle class people is analysed it will come under the following heads —

(1) Railway,
(2) Shipping,
(3) Mining,
(4) Manufacturing
(5) Special cultivation and
(6) Managing and clerical work under all the heads

Resolutions

Khan Bahadur Maulvi Musharraf Husain

Now if one could examine all these different branches of industry in which the middle class people are supposed to be able to earn a livelihood, I would ask Your Excellency's Government to consider whether the middle class people of Bengal can be said to have a share in them and, if so, is that share sufficient for the people to live on I may be charged as a theoretical person if I did not bring forward to Your Excellency the disadvantages under which the middle class people suffer when they wish to enter upon any enterprise to better their condition Railway Shipping and Mining are altogether shut out to them Probably the reason for this will be said to be that vested interests cannot be touched and I must yield to this argument, even here I would however ask Your Excellency's Government to inquire whether there are any openings still left for the Indians in these industries

Next comes special cultivation While we had the privilege of having Your Excellency in our midst in Jalpaiguri in 1912, I had the honour to head a deputation who represented the inconvenience the Indians suffer from when they want to open out a tea garden in the Duars where the soil and climate is especially favourable for tea as the Government for reasons best known to them, laid down a clause in the lease prohibiting tea plantations in Jote lands there Your Excellency's kind intervention has enabled us to open out, since then, about 15 gardens in the Duars with a capital of over 20 lakhs of rupees I am glad to announce to Your Excellency that with the raised and borrowed capital and with revenue we have invested about 60 lakhs of rupees there, and have been expecting in the course of two or three years more to declare dividends in all these companies to the extent of over 10 lakhs of rupees This I must say is entirely due to Your Excellency's sympathetic attitude towards us But I am sorry to notice that there has been changes in the policy of conversion of Jotes into Tea Estates, enunciated by whom and at whose instance we the public do not know When I see that a commission has been issued by to find out new openings for Indian enterprise I am sorry to notice that our new enterprises in Bengal are being strangled Probably the reply from those that are responsible for this strangulation will be that the Indians do not know business and it is to deliver them from the mistake that they are committing that these steps are being taken My Lord, the Bengali proverb One who can love more than a mother is a witch' applies with very great force here As to the capacity of the management of the Indian tea planters I believe even the officials cannot doubt it when they see that the Indians are paying very handsome dividends from their concerns This I believe is a fit case for inquiry

Next my Lord, if a middle class man wants any land in Government *Khas mahal* to earn his livelihood by better and special cultivation, at once, the usual reply from the officials comes to the effect that the Government of India have prohibited the granting of any land in Government *Khas mahal* to the middle class people Whenever there is any such patronage left in the hand of Government the democratic rulers of our country will at once give it to the Unions and Mundas of Chota Nagpur and not to the middle class people of Bengal at all

In short, my Lord, the economic condition of the middle class people of Bengal is a matter which should engage the very serious attention of Your Excellency's Government and before Your Excellency leaves our Indian shores we hope Your Excellency will be pleased to do something to ameliorate the condition of the middle class people of Bengal

I am glad to notice that Sir Rajendra Nath Mukherjee has become a member of the Commission and he will succeed with some force to give the views of the Province of Bengal But, my Lord I am dealing with Provincial affairs and there are subjects which are special to Bengal, where tea, jute, shipping and mining are important subjects and require careful dealing I would have thought a special local committee with officials and non officials and with Sir Rajendra Nath Mukherjee as one of us would best have been able to deal with the special requirements of Bengal

Resolutions

Rai Hari Mohan Chandra Bahadur, Mr Beatson Bell

With these few words, my Lord, I beg to commend this resolution to the Council for their kind acceptance

The Hon'ble RAI HARI MOHAN CHANDRA BAHADUR said —

'My Lord,—I beg to support the resolution moved by the Hon'ble Khan Bahadur Musharraf Husain In my opinion, this resolution is worthy of acceptance by Your Excellency's Government The unfortunate economic conditions of the middle class people of Bengal are too well known to need repetition by me There are no openings for the middle classes except clerkships under Government or the Provincial Civil and Judicial Services the Law and Medical Any fresh avenues of employment and especially industrial employment for the members of the middle classes will prove the salvation of the country

The Hon'ble MR BEATSON BELL said —

My Lord,—I am sorry that Government cannot accept this motion I can assure the House and the House will accept our assurance that it is not because we are out of sympathy with the economic condition of the middle classes On the contrary, the economic condition of the middle classes of Bengal is a subject which has given this Government very great concern in recent years and we have anxiously tried to find the best means for improving the condition of these classes My friend the Hon'ble Khan Bahadur, has apparently never read the Report of the District Administration Committee or if he has he has not read so far as Chapters IX and X A study of these Chapters would have shown him that the District Administration Committee, of which my friend, the Hon'ble Mr De, was a prominent member, made the most thorough investigation into the very questions into which the Khan Bahadur would like us to make further investigations The House will perhaps pardon me if I read a few sentences from the concluding portion of Chapter IX

'To conclude, then of the English knowing classes, only a certain portion fail in obtaining adequate employment, but too many see in the foreigner an economic foe Deeply imbued as they are with national sentiment, they must watch the European merchant or the Indian trader from beyond the borders of Bengal amassing a fortune, even the cooly and the cultivators are benefited by the increased activity in industry and trade But the rising stream of wealth somehow passes them by, nay, it takes from them in higher prices and wages, a little even of the very little that they have

This was the conclusion of the District Administration Committee and I am sure that no committee which the Khan Bahadur may suggest will conduct a more searching inquiry or will arrive at a conclusion which is more sympathetic towards the classes under consideration Our investigations did not end in mere sympathy We drew up definite recommendations which were placed before the Local Government and before the Government of India The first and most important of our recommendations was the appointment of a Director of Industries, one of whose chief duties would be to find new openings for the middle classes We are in great hopes that a new economic era is about to dawn For the development of industries, we have already placed a lakh of rupees in our Budget and we hope to place larger sums in future budgets But the crux of the situation is this The Secretary of State on the recommendation of the Government of India has appointed a Royal Commission to examine this subject from a wider standpoint This has made it highly inopportune that we in Bengal should waste time energy and money in going over the very grounds which this larger commission is about to cover I need hardly say that all the evidence which was taken by the District Administration Committee will be placed at the disposal of this Royal Commission and they will of course take a mass of fresh evidence for themselves

I must say that I was a little taken aback when my Hon'ble friend the Khan Bahadur after a few preliminary remarks on shipping mining and manufacture dived into the subject in which he is specially interested, namely the

Resolutions

Mr Beatson Bell, Babu Surendra Nath Banerji

terms of the revised leases in the Jalpaiguri district This is a side-issue but as it has been raised I may state briefly how the case stands

In Jalpaiguri there are three classes of lease *First* there are the ordinary *mal jote* leases for ryots, *secondly* there are the waste land leases granted specifically for the cultivation of tea and *thirdly*, there are the waste land leases granted for other cultivation As regards the first class, they are for ordinary cultivation There is no restriction as to what crop may be cultivated It is open to the cultivator to grow tea or anything else I must however say that we do not view with favour any wholesale buying out and eviction of ryots in order that their holdings may be thrown into a tea garden whether managed by European or Indian agency

The second class of lease requires no remarks It is granted specifically for the cultivation of tea and of course contains no restrictions on such cultivation

The third class of lease is granted for the cultivation of arable waste with crops other than tea There has been no change of any kind in these leases since 1888 The present form of lease was drawn up upon the recommendation of Lord Ulick Browne a Commissioner who had intimate knowledge of the conditions of tea cultivation in Jalpaiguri It has been suggested that in 1912, His Excellency passed an order modifying the form of this lease and that some wicked person in the Secretariat disregarded His Excellency's order and restored the old form I have made a thorough search in the Secretariat and can find no trace of any such order We are now considering the question whether there should be any modification of the lease and one of the points which we are considering is whether it is any longer necessary to maintain the restrictions which were imposed by Lord Ulick Browne Long before this motion was filed, His Excellency passed an order that he would like to see the papers personally before orders are passed His Excellency's order will, of course, be carried out Meanwhile Lord Ulick Browne's lease holds the field and it will hold the field until His Excellency thinks fit to modify it

My Lord we are accused of giving preference in *khas mahals* to settlers who are actual cultivators This is the fact and I am not ashamed of it We have tried the experiment again and again in every part of Bengal of giving leases to men of the middle classes who have assured us that they will reside on the land and they will cultivate it with their own hands, but we have invariably found that they have gone back upon their undertakings They have simply sublet the land to cultivators at rents higher than those which are taken from men immediately under Government We are most willing to help the middle classes, but we are not prepared to do this by setting them up as absentee landlords extracting rack rents from peasants in the mufassal We welcome any *bonâ fide* cultivator, whether he is a Muhammadan a Brahmin a Munda or an Uraon, but we do not welcome absentee middlemen

To return once more to the main question we cannot accept this resolution and the chief reason for our refusal is the approach of the Royal Commission

The Hon'ble BABU SURENDRA NATH BANERJI said —

I confess that there are difficulties in the way of the acceptance by Government of my hon'ble friend's resolution The first difficulty is the appointment of the Royal Commission But I think if my hon'ble friend Mr Beatson Bell would refer to the wording of the resolution and its object he will find that there is a substantial difference. The terms of the latter are wide and comprehensive and refer to a particular matter viz, the matter of industrial development, but the terms of my friend's

Resolutions the President's address

Babu Surendra Nath Banerji Mr Beatson Bell

resolution are confined to the economic condition of the middle class population of Bengal The reference is not so wide and the larger reference may or may not include the smaller point referred to in my friend's resolution I think it would be necessary for me to be a little more specific The resolution which was accepted by the Government of India is this That a Commission be appointed to inquire into and report upon the growth and encouragement of the industries of this country It is a question of industrial development which is to be considered by the Royal Commission, but my hon'ble friend's resolution viz that a committee be formed consisting of officials and non officials to inquire into the present economic condition of the middle class people of Bengal does not include an inquiry into the industries relating to the whole country Here it is only a reference to the economic condition of the middle class I do submit, my Lord that there is a wide difference between the subject matter of this resolution and that of the Royal Commission

Then as regards the Hon'ble Mr Beatson Bell's reference to the second difficulty, viz that this matter was considered by the District Administration Committee and that they made certain recommendations That I do believe is a real difficulty If the matter has been thoroughly gone into and has been considered and recommendations have been made in connection with it, is there any necessity for going over the same ground and appointing a fresh Committee? I think my hon'ble friend will perceive that there is a slight difference This Committee will be a Committee consisting of officials and non officials while the District Administration Committee was composed of officials only And a committee of officials and a mixed committee of officials and non officials may not see eye to eye upon all public questions Therefore it does seem to me that if the Government are sympathetically inclined they may appoint this Committee for the purpose of considering a matter which is of the highest importance to the people and to the Government alike There is no harm in going over the same ground if further light is thrown and further evidence is obtained My friend the Hon'ble Mr Beatson Bell has observed that recommendations have been made by that Committee I should like to know whether any of these recommendations has been given effect to and what steps have been taken in that behalf

The Hon'ble MR BEATSON BELL said —

"Yes The first recommendation of the Committee was the appointment of a Director of Industries We have made a provision for his salary and a lakh of rupees has been sanctioned for his work

The Hon'ble BABU SURENDRA NATH BANERJI said —

'But the Administration Committee made several recommendations In a matter of this kind some particular recommendations should be laid hold of and definite action taken on them The District Administration Committee's efforts were diffused over a wide area It strikes me that having regard to the importance of the subject my friend the Hon'ble Mr Beatson Bell may see fit to reconsider his decision I think it is an advantage to have both officials and non-officials combined in a committee of this kind These are the suggestions which occur to me, and I do hope that the matter which has been referred to the Government will receive a sympathetic and indulgent consideration I think my hon'ble friend has given us an assurance that it is under the consideration of His Excellency and if that be so I think we may be perfectly confident that the amplest justice will be done to all interests concerned I still hope that the Hon'ble Mr Beatson Bell may be persuaded to reconsider his decision"

The resolution was then put to the vote and lost

The President's address

The President

PRESIDENT'S ADDRESS

The PRESIDENT then addressed the Council

He said —

GENTLEMEN,

Your labours are now ended but before bringing the Council to a close I must ask you to bear with me while in accordance with custom I say a few words

This is probably the last time that we shall be sitting together in this room in Council as at present constituted for unless something unforeseen happens, I shall not summon my Legislative Council to meet again until after its Additional Members have gone out of office and an election has to some extent at least altered our membership

Before I say anything else I feel sure you will like me to refer to events which are happening to-day in which we and everyone else in India are interested His Excellency Lord Hardinge is to-day finishing and His Excellency Lord Chelmsford is to-day beginning each his term of office as Viceroy To both our best wishes go forth We recognize I feel sure, the courage and high sense of duty which Lord Hardinge has shown in the face of trials and sufferings such as few men are called on to bear, and which would have completely overpowered most men He has worked hard for India, he has given to her of his best no one can deny that he has affected the course of Indian events and has stirred Indian opinion We, in Bengal, have been as affected as much as any one by his actions, we have criticized him as freely as people ever criticized any one but we recognize his singleness of aim, admire his courage and undoubtedly I hope, we wish him every happiness in future I feel sure too, that we are ready to give to Lord Chelmsford a hearty welcome, feeling confident that he too, will give to India his best and trusting that during his term of office he may strengthen the bonds which unite India to the Empire for which in the past in different parts of the world both Lord Hardinge and Lord Chelmsford have worked so hard

And now I thank you all most sincerely for the help you have given me ever since January 1913 when we began to work together You have helped me to pass 16 Acts and one Bill which is now with the Viceroy and which will become an Act as soon as it receives his assent And I specially thank my non-official colleagues, you have shown much zeal among you, you have asked 736 questions Your laudible desire for information was of real advantage to Government It gave us an opportunity, which we might otherwise not have had, of letting the public know what we have been doing in what we believe to be the public interest You brought forward 76 resolutions You were sufficiently satisfied with the attitude of Government to withdraw 18 of these without going to a vote, no fewer than 18 of your resolutions were accepted either in their original form or with some modification Ten only were rejected when pressed to a division,—no bad record this, I think, for the non official Members of any legislative body Twenty-seven of you on an average out of 34 have been present at each meeting of Council I know some assemblies where the whips would have an easier task if Members everywhere were as willing as you are to be regular in their attendance

All this augurs well for the future of Council Government Council Government can only be successful as those who advocated it hope, if the elected Members take a real interest in their work, and if the electors also are interested and try to secure good representation

The President's address

The President

We in this Council have been affected in many ways by the war I do not merely mean that I have not been able owing to the curtailment of funds, to ask your assistance in projects which I had hoped you might help in, I am thinking even more of the loyal and unselfish way in which you have refrained from the discussion of controversial subjects and have even been willing to abstain from united complaint at delay in reforms which I know you most keenly desire I thank you for that and I trust that some day when money is once more available, you will find that Government are sincere in what their Members have said to you that for instance we are genuinely sorry that we cannot just now do far more than we propose to do for education, for sanitation, in combating the terrible scourge of malaria, in bringing the Dacca University scheme into being, or in increasing facilities for medical education and for technical training

There is one matter about which I regret to say it has been my duty to speak to you more than once before and about which I must speak again The crime usually spoken of as political crime that form of crime which though it is not confined solely to Bengal, is more common here than elsewhere On the 7th of April last year, I reminded you of the Defence of India Act which the Government of India had just passed, partly with the avowed intention of meeting the situation in Bengal I reminded you of what had been said on behalf of the Government of India and I told you that my colleagues and I had the honour of Bengal at heart and that for the sake of Bengal we should not shrink from using the Act wherever we thought fit Gentlemen, what has happened since then? There have been 26 fresh dacoities four of them accompanied by murder No fewer than 18 persons have been murdered—five of them being Indian officers murdered in the execution of their duty and three other Indians who were giving assistance to Government

And this is not all, it has been brought to the knowledge of Government in a way which Government feel makes it certain that some persons in Bengal have got into touch with, and taken pay from or have tried to get into touch with, and take pay from, the enemies of our Emperor and of our country—I mean with foreign enemies belonging to the countries with whom we are at war, that other persons in Bengal have been ready to tamper with the loyalty of the King Emperor's Indian troops—those troops of whose loyalty and of whose bravery Indians and Englishmen alike have every right to be proud, and that yet other persons in Bengal have been planning or considering how to plan crimes which would at any time be hurtful to the public weal but which at a time like this are doubly hurtful So far we have not been able to produce—I wish we could—exact evidence to bring home their guilt beyond a shadow of doubt to the individuals who committed those crimes But we have evidence which goes a long way towards it There are different degrees of guilt some men are, no doubt, mere dupes, sometimes, perhaps, unconscious dupes in the hands of more astute criminals, who are clever enough to conceal themselves and cowardly enough to use others to commit overt acts which render their doers, if they are caught, liable to severe punishment while they themselves avoid doing anything which can be seen and merely plot in a way which may be skilfully interpreted as bearing some other meaning I am sorry for these dupes, but they are a source of danger—though not so great a source of danger as those who exploit them It is the duty of Government to use the powers which they possess against any danger to the State That, gentlemen is my duty and the duty of my colleagues a duty which we are doing our best to fulfil It is also my duty and the duty of my colleagues to see that the liberty of those for whose governance we are responsible is not interfered with unjustly and that duty, too we have done our best to discharge

Two hundred and eighteen persons in all have up to now been dealt with in Bengal under the Defence of India Act Ten of these are Uraons—

The President's address

The President

aboriginals of a not very advanced type, whose crime seems to me more due to ignorance and the primitive nature of their beliefs than to anything else and whom I am glad to think we can owing to our being able to use this Act deal with in a spirit of pity and as a precaution to prevent the evil which their action, if unchecked would bring on themselves and their fellows

In regard to the other 208 cases, orders for internment under Regulation III of 1818 have been passed against 21 persons Four have been expelled from Bengal and 132 have been served with orders of compulsory domicile within the Presidency In this matter of compulsory domicile we have been as considerate towards the men served with orders as we can be consistently with the attainment of our object of making it difficult for them to continue in conduct by which in the past they have laid themselves open to strong suspicion of having taken part in acts hostile to the welfare of the State That accounts for 157 out of the 208 cases The other 51 persons are at present under arrest under rule 12 (*a*) of the Defence of India Rules All of these have been arrested within the last four weeks and their cases are being dealt with as quickly as possible

My colleagues and I fully recognize our responsibility It is we and we alone who must be blamed if any mistake is made We realize the seriousness of interfering with personal liberty without a full trial in court But we have been deliberately given power to do this and it is our duty to use the power given to us, when we believe it is right and just to do so We cannot for reasons of State give publicity to the grounds on which we have based our action, but I assure you that as a Government we have done nothing which I do not believe we were fully justified in doing I go further—I say that we should have grossly failed in our duty to Bengal if we had left anything undone that we have done under the Act

I shall mention one more point Last year I spoke to you of the police and I told you we had taken a step which I hoped you might look on as an earnest of our determination to find a right solution for admitted difficulties That step was the deputation of my Private Secretary, Mr Gourlay to make minute inquiries and collect accurate information Mr Gourlay did this work well and I believe we can confidently look forward to securing a better feeling before long between the police and the public We realize even more clearly now than we did a year ago how easily harm may be done if the so-called political crime is not most carefully, but at the same time most rapidly handled We believe the situation is grave, we hope it will become less grave, for we believe that as well as being grave it is exceptional We recognize how much we depend on the efficiency of our Indian Police Officers We recognize the bravery which our Indian Police Officers have shown in the face of known danger, and we are determined to do all we can to help them We are not very successful There is no use denying it We are not as successful as we should like to be in discovering who commit the crimes Take for example the 26 (so-called political) dacoities which I have referred to as having taken place during the last 12 months

There were 22 cases of dacoity without murder In two of these cases only were we able to bring any one to trial We brought six accused to trial, of whom five were convicted

In the four cases of dacoity with murder there was only one case in which we were able to bring any accused into court We brought 14 accused to trial and 11 of them were convicted

That 16 out of 20 persons accused should be convicted does not, I think, afford any justification for saying that police evidence is bad, but that out of 26 cases of political dacoity our investigating officers should only be able to obtain enough evidence to bring three cases into court, shows that, whether it be that our criminals are too clever or that our police are not clever enough,

The President's address, Adjournment

The President

or that the general public are not able to help us, or whatever the reason be—as a matter of fact we are not as successful as we would like to be or as I hope we yet shall be

To help us in considering how we can best make use of the powers which we possess, especially those which we possess for the present under the Defence of India Act, and in determining generally how we can proceed with best chance of success in dealing with political crime we have deputed Mr J G Cumming, whom you all know and in whose ability and in whose uprightness and in whose sense of justice and fairplay I and I believe all who know him have absolute confidence—we have deputed Mr Cumming to help our police in their dealings with political crime For the time being at any rate there is enough work of this kind to occupy the full time of an officer even of the most capable officer I trust our action in this will be interpreted by the public as showing that Government are dealing as seriously as they are able to do with the problem of removing from Bengal the blot which undoubtedly at present stains her reputation In any case I believe it is action which will prove helpful

ADJOURNMENT

Gentlemen, the Council is adjourned *sine die*

A M HUTCHISON,

Secretary to the Govt of Bengal and

Secretary to the Bengal Legislative Council (Offg)

NOTIFICATION

No 981Ldn—*The 2nd May 1916*—The following is published for general information

T. S. O'MALLEY
Offg Secy to the Govt of Bengal

REPORT OF THE BRUCE INSTITUTION FOR THE YEAR 1915

I Control—(1) During the year under review Mr A Mercer was appointed to be a Governor in the place of Mr G D O Mcleod resigned

(2) The Rev D H Manley whose term of office had expired was reappointed

(3) The following is a list of the governors holding office at the end of the year—

The Hon'ble the Chief Justice of Bengal
The Most Rev the Lord Bishop of Calcutta
The Surgeon General with the Government of Bengal } *Ex officio*
The Chairman of the Calcutta Municipality
The Director of Public Instruction, Bengal
(*Honorary Secretary*)

The Hon'ble Mr Justice Richardson
The Hon'ble Mr F H Stewart C I E
The Ven W K Firminger (Archdeacon of Calcutta)
The Rev Father A Van de Mergel S J
The Rev D H Manley
A Mercer Esq (Inspector of European Schools)
James Wyness Esq

II Capital and income—The capital of the institution was increased in December last by a further investment from Rs 10 51 200 to Rs 10,56 200 of which Rs 10 46 200 are in the form of a 3½ per cent stock-certificate of the year 1865 The balance viz Rs 10 000 is in Government Securities The annual interest on the capital amounts to Rs 36 967 which is kept in the Bank of Bengal The year opened with a balance of Rs 21 340 12 8 and closed with a balance of Rs 15 961 13 10

III Election to vacancies etc—(1) The annual election of foundationers was held on Friday the 15th January For the 17 vacancies advertised 62 applications were received and 17 girls were elected on the recommendation of a sub committee consisting of the Ven the Archdeacon of Calcutta the Rev Father A Van de Mergel, the Rev D H Manley Mr G D O Maclear and Mr James Wyness The names of two other girls were kept on a waiting list and they were subsequently admitted as beneficiaries on the occurrence of vacancies Of the girls elected 6 were placed in the Loreto Convent Entally (4 in the Boarding School and 2 in the Orphanage) 5 in the Calcutta Girls High School 3 in the Loreto Convent Asansol 2 in the Pratt Memorial School 1 in La Martiniere College for Girls and 2 in St Paul's Mission Home

(2) Of the 17 girls withdrawn during the year, 12 had attained the age of 17 years the limit ordinarily allowed under the rules and 5 were withdrawn for various reasons before they had attained that age

(3) Of the girls who had been withdrawn during the preceding year and in respect of whom reports have been received during the year under review three girls found employment in the Bengal Telephone Exchange of whom one subsequently left in order to get married Another girl is a probationer in the Government Telegraph Department learning signalling One girl after passing the Senior Cambridge Local Examination is employed as a teacher in St James's Parochial Home while another girl joined a tobacconist's firm as a steno typist and one girl is learning to type

(4) At the close of the year there were 138 girls on the foundation against the same number in the previous year They were distributed as follows —

Loreto Convent Entally	27 Boarding School 25 Orphanage	52
Calcutta Girls High School		32
La Martinière College for Girls		12
Pratt Memorial School		10
Calcutta Free School		5
St Paul's Mission Home		7
Loreto Convent Asansol		10
St Joseph's Convent Cuttack		1
Wynberg School Mussoorie		1
St Andrew's Colonial Homes Kalimpong		3
Dow Hill School Kurseong		1
St Helen's Convent Kurseong		1
Protestant European Orphanage Cuttack		2
Stuart Clark Institute		1
	Total	138

(5) The following table affords particulars as to the class and denomination of the foundationers at the close of the year —

Class	Roman Catholics	Church of England	Non Conformists	Total
1 Orphans, or deserted by their parents	21	10	13	44
2 Fatherless or motherless or deserted by their fathers and mothers	39	25	18	82
3 Those who have both parents alive	4	4	4	12
Total	64	39	35	138

(6) The health of the girls was on the whole satisfactory One girl was ill at the Presidency General Hospital for nearly four months and another is subject to epileptic fits

IV Education and maintenance — (1) Thirteen girls were sent up to the Cambridge Local Examinations held in December 1914 of whom 6 passed viz 1 the Senior 3 the Junior and 2 the Preliminary Examination Two girls were presented for the Elementary School Certificate Examination and both passed

(2) Two extensions of the period of benefit normally allowed to wards were granted during the year under report to enable girls to qualify as teachers One short extension has been allowed to enable a ward to undergo technical training

(3) The monthly average cost for the education and maintenance of each girl on the fund amounted to Rs 18 12 3 against Rs 19 0-7 in the preceding year

(4) The amounts paid under the different heads of expenditure were as noted below —

1915	Rs	A	P
Education and maintenance	34 905	5	0
Office establishment	840	0	0
Contingencies	73	14	8
Advertisement and printing	306	8	0
Cost of outfits	1 510	0	0
Other charges (including purchase of Government Securities of the nominal value of Rs 5 000)	4 433	12	6
Total	42 069	6	2

1914	Rs	A	P
Education and maintenance	35 410	7	0
Office establishment	840	0	0
Contingencies	53	2	0
Advertisement and printing	307	7	0
Cost of outfits	1 795	0	0
Other charges	294	11	0
Total	38 700	11	0

V Inspection —The Hon'ble Mr Justice Richardson was Visiting Governor for the first half and Mr James Wyness for the second half of the year Their reports were on the whole satisfactory Mr Justice Richardson states that at all the schools he visited those in charge appeared to him to be doing their best for the Bruce wards entrusted to them Mr Wyness stated that he had nothing to remark as to the general treatment of the children which appeared to him to be thoroughly good He however suggested that it might be well when wards attained the age of 15 years that special enquiries should be made as to the possibilities of training them for useful work according to their several capacities, with a view to enabling them to earn their own living The suggestion was adopted and the heads of the institutions in which Bruce foundationers are being educated have been addressed accordingly

VI Meetings —Four meetings were held during the year but there was no resolution of importance calling for special mention

W W HORNELL
Honorary Secretary to the Governors

CALCUTTA
The 3rd March 1916

REPORT ON FAMINE AND SCARCITY IN THE DISTRICTS OF BANKURA AND TIPPERA FOR THE WEEK ENDING 22nd APRIL 1916

In the Bankura district the distress in the affected areas is generally unchanged People on works are generally in good condition The relief measures are adequate People are freely resorting to works Loans are being advanced Private charitable funds are giving assistance Scarcity of fodder continues Light rain was general in the district Ploughing has begun Prices are stationary The price of rice is 9½ seers per rupee The number of persons on relief works was 16 120 and in receipt of gratuitous relief 25 236 total 41 356 The decrease in the number of persons on relief works was due to the resumption of agricultural operations The number of persons relieved on private works was 6 475

In the Tippera district conditions are improving in the affected areas *Boro* paddy has been harvested with an average outturn The sowing of *aus* and jute has been practically completed Sowing of *barshal* paddy and weeding have been retarded by rain Public health is good Relief measures are adequate The price of rice is 7½ seers per rupee The number of persons on test works was 2 767 and in receipt of gratuitous relief 6 735, total 9 502 The decrease in the number of persons on test works was due to intermittent water logging of the works and the employment of labourers on agriculture

THE CALCUTTA IMPROVEMENT TRUST

NOTICE UNDER SECTION 63 (2) OF BENGAL ACT V OF 1911

PROPOSED PUBLIC STREET NO XIII

Central Avenue to Juggernath Ghat

NOTICE is hereby given, under section 63 (2) of Bengal Act V of 1911, as amended by Bengal Act III of 1915 that the Board of Trustees for the Improvement of Calcutta has prepared a plan of a Proposed Public Street in Wards Nos V and VI running westward from the Proposed Central Avenue to Juggernath Ghat through Jorapukur Square Lane, Chashadhobapara Street Balaram Dey Street Chitpore Road (Upper), at its junction with Baranasi Ghose Street along Ratan Sarkar Garden Street through Lalmadhab Mukerji Lane Brajadulal Street Sinhi Dutt Lane Darpanarayan Tagore Street Baikunta Sen Lane Joygopal Lane Ratan Sarkar Garden Street Ratan Sarkar Garden 2nd Lane Set Lane, Gopi Mohan Basak Lane Darmahata Street Strand Road to Strand Bank Road

The plan provides for a road 84 feet wide throughout and for the widening of the junctions of several of the smaller streets through which the Proposed Public Street will pass

The Proposed Public Street will pass through the following Municipal Holdings —

Name of Street	Number of Municipal Holdings
Chashadhobapara Street	1 1/1 2 5 6 7 8/2 8/3 9 10 10/1 11 12 16/1 17 18/2 18/3 21 22 26 28 29 30 31 32 33 36 37
Jorapukur Square Lane	26 27 27/1 28 29, 30 31 33 34 35 36 37
Baranasi Ghose Street	150 150/1 150/2 151 151/1 151/2, 151/3 152 153 154 154/1 154/2 154/3 155 156 157, 158 159 160 161 162 163 164 165 166, 167
Balaram De Street	1 2 3 3/1 3/2 4, 161/1 162
Chitpore Road (Upper)	68 69/1 70 71 72 73 74 74/1, 75, 76 77 371 372 373/4 373/5, 373/6, 373/7
Ratan Sarkar Garden Street	41/3 41/4 48 49 50 51, 52 52/1 53 54 55 56 56/2 69/3
Lalmadhab Mukerji Lane	1 2
Brajadulal Street	1 2 2/1
Sinhi Dutt Lane	1 2 3 4
Baikunta Sen Lane	3 4 5 7 8 9
Joygopal Lane	1 2 3
Darpanarayan Tagore Street	8 14, 14/1 15 15/1 16 16/1 17 17/3/1 18, 21, 22
Gopi Mohan Basak Lane	2 3 4 5 6 7
Set Lane	3, 4
Ratan Sarkar Garden Lane	5 6 7, 8 9 10 11 13, 14, 15, 15/1 16
Darmahata Street	25 25/1 26 228/3 229, 229/1 229/2, 230
Strand Road	51 51/1 51/2
Strand Bank Road	P 119 P 120, P 121, P 122, P 123 P 124 P 125, P 126 P 127 P 128 P 129, P 130, P 131, P 132 P 133, P 134 P 135, P 136, P 137, P 138, P 139 P 140

The plan of the Proposed Public Street and the particulars of the land through which the Proposed Public Street will pass, may be inspected at the Offices of the Trust, 5 Clive Street on week days between the hours of 11 and 4, Saturdays 11 and 2 Copies of this notice may be obtained on payment of a fee of two annas per copy and of the plan at a fee of eight annas per sheet Objections to the said plan may be submitted on or before the 15th July 1916

The following order issued by the Government of India in the Army Department, published in the *Gazette of India* dated the 29th April 1916 is republished for general information

J H KERR,
Offg Chief Secy to the Govt of Bengal

Simla the 28th April 1916

No 441 A—The following despatch from General Sir John Nixon K.C.B., relative to the operations in Mesopotamia from the middle of April to the end of September 1915 which appeared in the Second Supplement dated the 5th April 1916 to the London Gazette of the 4th April 1916, is republished for general information

General Headquarters I E F D 1st January 1916

From—GENERAL SIR JOHN NIXON K C B A D C General Commanding Indian Expeditionary Force 'D,

To—The Chief of the General Staff Army Headquarters India.

Sir,

I have the honour to forward a report on the operations of the forces under my command for the period from the middle of April 1915 up to the end of September 1915

1 The floods of last season, which are said to have been the highest for 30 years formed an inland sea of water and reeds varying from 2 to 6 feet deep which extended for 40 miles north of Qurnah down to Basrah and stretching from Nasiriyah in the west of Hawizeh (50 miles north east of Qurnah) in the east Consequently until the subsidence of the floods at the end of July operations in this area were of an amphibious nature

2 During the month of April a brigade at Ahwaz, first under Major General Davison and subsequently under Brigadier General Lean had been containing a hostile force consisting of some 8 battalions of Turks with 8 guns and about 10 000 Arab auxiliaries which had advanced from Amarah *via* Bisaitin and Khafajiyah (on the Khaikeh river) into Persian Arabistan

At this time another British detachment was at Qurnah where it had been opposed since January by a Turkish force of some 6 battalions with 10 guns and the usual following of Arab tribesmen which had descended the Tigris from Amarah

By the defeat of the Turks at Barjisiyah (20 miles south west of Basrah) on 14th April the hostile forces in the vicinity of Basrah had been dispersed and driven to Nasiriyah enabling me to take active measures against the enemy detachments on the Karun and on the Tigris

I decided to deal first with the former and placed Major General Gorringe in command of the operations

Directly the Turks had been defeated at Barjisiyah the concentration of the 12th Division up the Karun was commenced The Turkish force near Ahwaz retreated across the Khaikeh river on hearing of the defeat of their army at Barjisiyah

General Gorringe followed in pursuit By the 7th May the 12th Division and the Cavalry Brigade had reached Illah on the Khaikeh This river was 250 yards wide with a rapid and deep stream which presented a formidable obstacle to the passage of troops

4 General Gorringe overcame the difficulties of passage and skilfully crossed his troops and guns to the other bank The Turks continued their retreat towards Amarah on discovering that our column had crossed the river

General Gorringe now found himself under the necessity of dealing with a recalcitrant and pugnacious branch of the Beni Lamf Arabs who had identified themselves very strongly with the Turkish cause

He advanced down the Khaikeh river operating on both banks Major General Melliss commanded the column on the right bank and Brigadier General Lean that on the left bank

The occasion of the successful attack on the Arab stronghold Khafajiyah in extremely hot weather when the temperature in tents was 120 degrees was display of dogged gallantry and devotion on the part of the troops engaged

Among other intrepid deeds was the exploit of Subadar Major Ajab Khan and 20 men of the 76th Punjabis who swam the river under heavy fire and brought back a boat in which troops were ferried across until sufficient were collected to assault a stout mud fort which was strongly held

5 After the defeat and dispersion of the hostile tribesmen who had molested his advance General Gorringe in accordance with my instructions, made a series of demonstrations with a portion of his force from Bisaitin against the Turkish force which lay between him and Amarah This action was in co operation with the impending advance of our detachment from Qurnah (commanded by Major General Townshend) on Amarah It had the desired result of preventing reinforcements from joining the Turkish forces on the Tigris in time to oppose General Townshend's advance It was largely due to these demonstrations that the enemy's retreat up the Tigris after their defeat on 31st May was so precipitate and that General Townshend was enabled to enter Amarah practically unopposed The Turkish force opposing General Gorringe was so delayed in its march to Amarah that, when it eventually reached there it was surprised by General Townshend who was already in occupation of the town A part of the advanced guard was captured and the remainder had to seek safety in dispersion, with the loss of *2* guns

6 General Gorringe's operations extended over a period of 7 weeks As a result Persian Arabistan had been cleared of the enemy and the Arab tribes forced to submit, thus enabling the pipe line to be repaired and normal conditions to be resumed at the oil fields, and most effective assistance had been given to General Townshend's advance from Qurnah

7 I consider that General Gorringe showed marked ability and determination in conducting these operations The successful result is due to his able leadership and to the zeal and energy displayed by all ranks under his command

The troops were compelled to undergo severe exertions and overcame many obstacles during very hot and trying weather with undiminished resolution and zeal that was admirable

8 While the 12th Division was advancing by the Karun and Kharkeh rivers, preparations were in progress for an advance up the Tigris by the 6th Division under the command of Major-General Townshend Owing to the limited amount of river transport available at that time the movement and collection of troops was a slow and difficult process and the flooded country around Qurnah presented many problems which required careful attention before operations could be commenced

9 *Bellums*—long narrow boats of the country—were collected and armoured with iron plates to be used for carrying infantry to the assault of the enemy's positions troops were trained in punting and boat work various types of guns were mounted on rafts barges tugs and paddlers, floating hospitals had to be improvised and many other details of construction and equipment had to be thought out and provided for

By the end of May preparations for the advance were complete

10 The Turkish force was entrenched north of Qurnah on islands formed where high ground stood out from the inundation which covered all over lying country

These fortified localities were in two groups the most southerly group forming an advanced position some two miles from the British lines, the main position being some three miles further to the north

The flooded state of the country rendered it a position of some strength necessitating a carefully organised attack in successive phases by combined naval and military operations

General Townshend's plan was to capture the advanced position by a frontal attack combined with a turning attack against the enemy's left flank supported by the Naval Flotilla and the artillery afloat and that on land within the Qurnah entrenchments

11 In the early morning of the 31st May after a heavy preparatory bombardment the infantry advanced to the attack in the flotilla of improvised war *bellums* supported by admirably directed gun fire

The 17th Infantry Brigade commanded by Lieutenant Colonel Climo, 24th Punjabis made the frontal attack The 22nd Punjabis and the Sirmur Sappers and Miners under Lieutenant Colonel Blois Johnson 22nd Punjabis captured One Tree Hill on the enemy's left flank and enfiladed Norfolk Hill—the first objective of the 17 Infantry Brigade—which was carried at the point of the bayonet by the 1st Battalion Oxfordshire and Buckinghamshire Light Infantry after poling their boats for over a mile through thick reeds and landing waist deep in water

12 The bold action of the mine sweepers which preceded the naval sloops and armed tugs enable the latter to keep pace with the troops, and their fire combined with that of the Royal Artillery ashore and afloat ensured the capture of the whole of the enemy's advanced position by noon

It was entirely due to careful preparation and organization of artillery fire of all kinds that our casualties were very few

These operations form a good example of the co operation of the Royal Navy with infantry and artillery

13 An aeroplane reconnaissance on the morning of the 1st June discovered that the enemy had evacuated his main position and was in full retreat up the Tigris

The naval flotilla led by H M S Espiegle' (Captain Nunn, R N) pushed in pursuit followed by the shipping with troops

On the morning of the 2nd June when some 10 miles below Qalat Salih, the deeper draught vessels could proceed no further owing to shoal water, and the pursuit was continued by the naval armed tugs Up to this time the 'Espiegle had engaged and sunk the Turkish gunboat 'Marmaris" and had captured two steamers and a number of lighters laden with munitions and stores

14 Qalat Salih was reached on the afternoon of the 2nd June and, after some hostile troops outside the town had been dispersed, the pursuit was continued

H M S "Comet' (Captain Nunn, R N) with General Townshend on board and 3 armed tugs occupied Amarah in the afternoon of the 3rd June capturing there some 700 troops and 40 officers This is a most excellent instance of courage and pertinacity in pursuit and very creditable to all who took part in it

The leading infantry (2nd Battalion Norfolk Regiment) of the 6th Division arrived at Amarah at 6 30 A M on the 4th June not a moment too soon as the inhabitants were beginning to realise the size of the force which had cowed them into submission on the previous day

15 The captures resulting from the action at Qurnah, the pursuit and the occupation of Amarah included 17 guns 2,718 rifles 1 773 prisoners, 4 river steamers (exclusive of the gunboat 'Marmaris and another steamer which was sunk) a number of lighters and boats besides quantities of ammunition and stores

The weather throughout these operations was intensely hot a sweltering sun all day followed by still and sultry nights but in spite of this the spirit and energy of all ranks was excellent

16 I consider that General Townshend carried out these operations in a highly creditable manner His prompt and vigorous pursuit is worthy of high praise and it was largely due to his dash and enterprise that Amarah was entered unopposed

The part played by General Gorringe's force to help General Townshend's operations has been described in a earlier part of this despatch

17 Immediately after the capture of Amarah preparations were taken in hand for the capture of Nasiriyah on the Euphrates the dominant place on this flank Its importance lies in the facts that it is the base from which a hostile force threatening Basrah must start it is the centre from which influence can be exercised among the powerful Arab tribes which lie along the Euphrates standing at one end of the Shatt al Hai it closes communication between the Tigris and Euphrates and is thus of strategic value and lastly it was the headquarters of the civil administration of a large part of the Basrah Province

18 To General Gorringe and his troops was allotted this objective The route from Qurnah to Nasiriyah is by water through the low lying valley of the old Euphrates channel for 30 miles to Chahbush across the Hammar lake for 15 miles to its western side thence by the Haqiqah a tortuous channel some 50 yards wide and 15 miles long until the main channel of the Euphrates is reached some 25 miles below Nasiriyah From Qurnah to Chahbaish, deep draught vessels can go up the old Euraphates - beyond this at the time the operations commenced on 27th June, the Hammar lake was passable by all river steamers drawing less than 5 feet as far as the entrance to the Haqiqah channel By the middle of July the channel across the lake held little more than 3 feet of water and only the smallest steamers could cross In many cases steamers were aground for days at a time and the small tugs fitted as gunboats could only be taken across by removing guns ammunition armourplating fuel and water and using light draught sternwheelers to tow them Later troops and stores could only be transported in *bellums* which for some distances had to be dragged over mud and water by men The Haqiqah channel was blocked by a solidly constructed *bund* half a mile from its entrance to the lake, which had to be removed before the passage could be used by shipping

19 Above its junction with the Haqiqah the Euphrates has an average width of 200 yards Along its banks are numerous gardens patches of cultivation and several small villages within walled enclosures On the left bank, belts of date palms with an occasional fringe of willow trees, are the prevailing features On the right bank the country is more open During July except for a belt of dry ground along the river banks a few hundred yards wide, on either side the country was completely under water Numerous irrigation channels intersect this belt of dry land at right angles to the river presenting a series of obstacles to an advance Such was the nature of the country where the Turks offered their main opposition to our advance on Nasiriyah

20 On 26th June General Gorringe's force was concentrated at Qurnah and proceeded on the 27th June across the Hammar Lake, preceded by gunboats under command of Captain Nunn R N Hostile armed launches above the Haqiqah *bund* were driven back The *bund* was occupied and the work of demolition commenced

During the 28th, a channel 150 feet wide and 4 feet deep was made The rush of water through the opening created a strong rapid, almost a cataract up which parties of men were successful in hauling the naval craft on the 29th

It was not until the 4th July that all vessels and troops were passed over the Haqiqah obstruction and established about 2½ miles from the junction with the Euphrates Covering this entrance reconnaissances proved that the enemy had established themselves with guns on the right bank of the Euphrates commanding both banks of the Haqiqah and the minefield which they had prepared about a mile down it

21 At 4 45 A M on 5th July the 30th Infantry Brigade commanded by Major General Melliss, advanced to attack the enemy on the left bank the 76th Punjabis and the 24th Punjabis the latter moving in *bellums* through the inundation, accompanied by the 30th Mountain Battery The 2 7th Gurkhas supported by the 1 4th Hants moved up the right bank Considerable opposition was encountered, especially on the left bank and it was not until 1 20 P M, that our troops forced the enemy on the right bank of the Euphrates to hoist the white flag

The 24th Punjabis had to carry their *bellums* across some 60 yards of dry land before they could cross the Euphrates to take possession of the enemy's position and battery After the right bank had been cleared our naval craft were able to sweep for mines in operation rendered easier for us as a captured Turkish officer assisted to indicate their position

By 9 P M, the channel was clear the ships came up and the troops embarked

22 The detachment of the enemy which had opposed our advance consisted of 1,000 regular Turkish troops 2 000 Arabs 4 guns and two Thorneycroft launches armed with pompoms Four guns and 130 prisoners fell into our hands at a cost to us of 26 killed and 85 wounded

The second phase of these operations was commenced on the morning of 6th July by the occupation of Suk esh Sheyukh by Captain Nunn, with two gunboats and afterwards the whole flotilla moved up the Euphrates

33 The Turks had taken up a series of positions astride the river about 5 miles below Nasiriyah with both flanks resting on marshes In front of their trenches were broad deep channels difficult to turn or assault

The ground on the right bank was devoid of cover, that on the left bank fringed by a narrow belt of palms

24 General Gorringe established his force some two miles below the enemy's advanced positions and occupied entrenchments on both banks Up to the 13th July continual reconnaissances were made and our entrenchments gradually extended nearer to the enemy

25 On the night of 13th 14th an attack was made by our troops on both banks On the right bank we secured an entrenched position within 400 yards of the Turkish trenches A gallant attempt by the 24th Punjabis under Lieutenant Colonel Climo supported by four guns of the 30th Mountain Battery under Captain L J Nixon, to capture some sandhills behind the enemy's right flank met with unexpectedly strong opposition, and they were attacked in rear by Arab tribesmen and had to withdraw

The mountain guns covering the withdrawal rendered invaluable support

26 Until the 23rd General Gorringe was perfecting arrangements for his decisive attack Gun positions were moved forward infantry trenches extended and communications improved The working parties were subjected to a continual fire but our snipers established ascendancy over those of the enemy The heat night and day throughout was intense

27 At 5 A M on 24th July, the attack was launched By 7-30 A M, the 12th Infantry Brigade, operating on the left bank of the river had occupied the enemy's advanced trenches at Miyadiyah The 30th Infantry Brigade then pushed its attack up the right bank covered by well directed artillery fire and by 9 30 A M had captured the advanced trenches after forcing the passage of the Mejimineh channel During this operation the gunboat 'Sumana,' carrying bridging material fought her way up to the entrance of the creek under a very heavy fire and supported by the fire from the gun boats, the 17th Company, Sappers and Miners, threw a bridge across

28 The attack was continued by both banks The main position was captured by noon, in spite of a stubborn resistance The enemy clung to their trenches, where some 500 were killed After reorganising, the troops

pushed forward to the Sadanawiyah position—the enemy's final line of defence which was also captured During the attack at Sadanawiyah Captain Nunn in the Shushan, a small sternwheeler laid his ship along side hostile trenches on the river bank and engaged them at close range

29 By 6 30 P M the enemy was in full retreat across the marshes and our troops bivouacked on the position they had won

Severe losses had been inflicted on the enemy, while our casualties were not heavy considering the nature of the fighting the total number of our killed and wounded being under 600

Our captures included over 1 000 prisoners 17 guns 5 machine guns, 1 586 rifles and quantities of ammunition and stores

Nasiriyah was occupied on the 25th without further opposition

30 General Gorringe conducted the task assigned to him with skill and determination and his troops responded to the strenuous calls that were made upon them in a gallant and devoted manner

Seldom if ever have our troops been called upon to campaign in more trying heat than they have experienced this summer in the marshy plains of Mesopotamia

But the spirit of the troops never flagged and in the assault of the entrenchments which the Turks thought impregnable British and Indian soldiers displayed a gallantry and devotion to duty worthy of the highest traditions of the service

31 I have to place on record the excellence of the work performed by the officers and men of the Royal Flying Corps whose valuable reconnaissances materially assisted in clearing up the situation before the battle of the 24th July

32 And I have to express my deep appreciation of the valuable and whole hearted co operation of the officers and men of the Royal Navy under the command of Captain Nunn D S O Senior Naval Officer It was in a great measure due to the excellent work performed by the Royal Navy that these amphibious operations like those at Qurnah at the end of May were brought to so successful a conclusion

33 The capture of Nasiriyah had established British control on the western side of the Basrah *Vilayet* but the district lying north of the line Amarah Nasiriyah still remained outside our control and strong Turkish forces under Nur ed Din Bey were reported to be concentrating at Kut al Amarah at the junction of the Shatt-al Hai with the Tigris the possession of which strategic centre is necessary for the effective control of the northern part of the Basrah *Vilayet* Nur ed-Din had attempted to cause a diversion by pushing strong detachments to within thirty miles of Amarah while my principal attention was concentrated on the Euphrates

The defeat of Nur ed Din and the occupation of Kut al Amarah became my next objective as soon as Nasiriyah was secured and I commenced the transfer of troops towards Amarah on the following day

34 After the month of June the Shatt al Hai ceases to be navigable for some six months and the only line of advance by water on Kut-al Amarah is by the River Tigris

On the 1st August a detachment from the 6th Division, accompanied by a naval flotilla occupied Ali al Gharbi Covered by this detachment the concentration of the 6th Division under General Townshend for the advance on Kut al-Amarah was carried out

35 The transfer of troops from the Euphrates to the Tigris was a slow process owing to the difficulties in crossing the shallow Hammar Lake during the low water season

By the 12th September the force was concentrated at Ali al-Gharbi Thence the advance was continued by route march along the river bank, accompanied by a naval flotilla and shipping until Sannaiyat (some eight miles below the enemy's position covering Kut al Amarah) was reached on 15th September Intense heat prevailed during the period of this march, with temperatures ranging from 110 degrees to 116 degrees in the shade The column remained halted at Sannaiyat until 25th September, receiving reinforcements during this period

36 A few skirmishes had taken place between our cavalry and that of the enemy and constant naval and air reconnaissances were made Accurate information was gained regarding the dispositions of the enemy

The work performed by the Royal Flying Corps during this period was invaluable

37 Nur ed Din Bey s army lay astride the river some seven miles north east of Kut and eight miles from General Townshend s force at Sannaiyat It occupied a line naturally favourable for defence which, during three or four months of preparation, had been converted into a formidable position

On the right bank the defences extended for five miles southwards along some mounds which commanded an extensive field of fire The river was blocked by a bloom composed of barges and wire cables commanded at close range by guns and fire trenches On the left bank the entrenchments extended for seven miles, linking up the gaps between the river and three marshes which stretched away to the north The defences were well designed and concealed commanding flat and open approaches They were elaborately constructed with a thoroughness that missed no detail In front of the trenches were barbed wire entanglements, military pits and land mines Behind were miles of communication trenches connecting the various works and providing covered outlets to the river where ramps and landing stages had been made to facilitate the transfer of troops to or from ships while pumping engines and water channels carried water from the river to the trenches

38 Nur ed-Din s army held this position one division being on each bank with some army troops in reserve on the left bank near a bridge above the main position A force of Arab horsemen was posted on the Turkish left flank, most of the Turkish regular cavalry were absent during the battle on a raid against our communications at Shaikh Sa ad

39 On the 26th September General Townshend advanced to within four miles of the Turkish position His plan was to make a decisive attack on the left bank by enveloping the Turkish left with his main force, but, in order to deceive the enemy as to the direction of the real attack preliminary dispositions and preparatory attacks were made with the object of inducing the Turks to expect the principal attack on the right bank

40 On the morning of the 27th our troops advanced by both banks The principal force on the right bank, made a feint attack on the trenches south of the river while the left bank detachment entrenched itself within 3 000 yards of the enemy Meanwhile a bridge had been constructed and under cover of night the main force crossed from the right bank and deployed opposite the enemy s left flank

41 On the morning of the 28th September a general attack was made against the enemy on the left bank The 18th Infantry Brigade under Major General Fry with its left on the line of the river made a pinning attack, while Brigadier General Delamain commanding the 16th and 17th Infantry Brigades advanced in two columns against the enemy's left one column being directed frontally against the flank entrenchments while the other moved wide round the flank and attacked in rear General Delamain s right flank was protected by the Cavalry Brigade

42 The first troops to enter the enemy trenches were the 2nd Battalion Dorsetshire Regiment 117th Mahrattas and 22nd Company Sappers and Miners, who made a brilliant assault well supported by the artillery and soon after 10 A M captured a redoubt and trenches on the enemy s extreme left inflicting heavy losses and taking 135 prisioners

43 A combined attack by the 16th and 17th Infantry Brigades was then made and after hard fighting during which the enemy made several unsuccessful counter attacks the whole of the northern part of the enemy s position was in our hands by 2 P M

44 General Delamain reorganised his troops on the captured position and gave them a much needed rest, as they were exhausted by the great heat, the long march and hard fighting After a brief rest General Delamain moved his column southwards to assist the 18th Infantry Brigade by attacking the enemy opposed to it in rear Before this attack could develop, strong hostile reserves appeared from the south west in the direction of the bridge General Delamain immediately changed his objective and attacked the new troops, supported by his guns firing at a range of 1 700 yards

45 The sight of the approaching enemy and the prospect of getting at him in the open with the bayonet put new life into our infantry who were suffering from the weariness and exhaustion after their long and trying exertions under the tropical sun For the time thirst and fatigue were forgotten

The attack was made in a most gallant manner with great dash The enemy were routed with one magnificent rush, which captured four guns and inflicted heavy losses on the Turks The enemy fought stubbornly and were saved from complete destruction by the approach of night

46 General Delamain's troops bivouacked for the night on the scene of their victory about two miles from the river both men and horses suffering severly from want of water as the brackish water of the marshes is undrinkable In the morning the column reached the river and the horses got their first water for forty hours

47 Throughout the battle the Naval Flotilla co operated with the land attack from positions on the river Late in the evening of the 28th, led by the 'Comet' (Lieutenant Commander E C Cookson RN Acting Senior Naval Officer) the flotilla advanced upstream and endeavoured to force a passage through the boom obstruction The ships came under a terrific fire from both banks at close range The 'Comet' rammed the boom but it withstood the shock

Lieutenant-Commander Cookson was shot dead while most gallantly attempting to cut a wire cable securing the barges

48 The Turks evacuated their remaining trenches during the night and escaped along the bank of the Tigris On the morning of the 29th a pursuit was organised troops moving in ship preceded by cavalry on land

The cavalry consisting of four weak squadrons overtook the enemy on October 1st but had to wait for the support of the river column as the Turks were making an orderly retreat covered by a strong rear guard with infantry and guns

49 The progress of the river column was so delayed by the difficulties of navigation due to the constantly shifting shallows in the river that it was unable to overtake the retreating enemy

When the ships reached Aziziyah on the 5th October the enemy had reached their prepared defensive position at Ctesiphon covering the road to Baghdad where they were reinforced

50 The Turks lost some 4 000 men in casualties of whom 1 153 were prisoners captured by us In addition we took 14 guns and a quantity of rifles, ammunition and stores Considering the severity of the fighting our casualties were comparatively small They amounted to 1 243, including a large proportion of men only slightly wounded

51 The defeat of Nur ed Din Bey completed the expulsion of Turkish troops from the Basrah *Vilayet* Apart from material guns won at Kut al Amarah our troops once again proved their irresistible gallantry in attack and added another victory to British arms in Mesopotamia

52 I am glad to place on record my appreciation of the ability and generalship displayed by Major General C V F Townshend CB DSO throughout these operations His plan for turning the Turkish left was the manœuvre whereby the position could best be captured without incurring very heavy losses

53 Brigadier General Delamain who commanded the main attack showed himself to be a resolute and resourceful commander His leadership during the battle was admirable

54 The troops under the command of Major General Townshend displayed high soldierly qualities and upheld the reputation they have earned during this arduous campaign

55 The conduct of the infantry in the attack was particularly noteworthy They were set a task involving prolonged exertion and endurance and performed it with an alacrity and resolution which must have been most disconcerting to the enemy

56 The artillery has established a high reputation for good shooting The infantry rely on their accuracy and skill during the attack they welcome the close support of the guns and press forward with the narrowest margin dividing them from the curtain of bursting shells, in a manner that is a tribute to their comrades in the artillery

57 The services of the Royal Flying Corps not only during the battle but also in the frequent reconnaissances which preceded the fighting also call for notice

The Flying officers displayed courage and devotion in the performance of their duties, which were often carried out under a heavy fire The accurate information obtained during air reconnaissances was of the utmost value in planning the defeat of the enemy, and the remarkable skill and

powers of observations displayed by Flight Commander Major H L Reilly Royal Flying Corps, contributed in no small degree to the success of the operations

58 The work of the Royal Navy fully maintained the high standard they have established in these rivers I much regret the loss of Lieutenant Commander E C Cookson whose gallant act has already been referred to

59 Acknowledgments are due to the excellent work done by the commanders and personnel of the river steamers for their unremitting work in connection with operations on the rivers of Mesopotamia

60 Accompanying this despatch is a list of officers and men whose names I wish to bring to notice in connection with the operations undertaken during the period under report

I have etc

L. HOLLOWAY *Major General*
Secy to the Govt of India

GOVERNMENT OF INDIA

DEPARTMENT OF COMMERCE AND INDUSTRY

Simla the 27th April 1916

PRESS COMMUNIQUE

It is notified for general information that the undermentioned officers will keep a record of—

(*a*) debts (including Bank balances) due to persons or firms in India from persons or firms residing or carrying on business in an enemy country

(*b*) other property in enemy countries (including securities) belonging to persons or firms in India

(*c*) personal property detained in an enemy country and belonging to such persons and

(*d*) claims against enemy Governments *e g* in respect of public securities of those Governments and goods or property requisitioned sequestrated or destroyed by those Governments —

	Officer	*Province to which attached*
1	Custodian of Enemy Property Bombay	Bombay (including Sind and Aden)
2	Custodian of Enemy Property Bengal	Bengal
3	Custodian of Enemy Property Madras	Madras and Burma

In the case of the other provinces arrangements will be made by the Local Government and Administration concerned for the maintenance of such a record

2 Persons or firms desiring to register their claims should apply in the appropriate form to the Officer of Local Government or Administration within whose jurisdiction they reside or carry on business The forms prescribed for the purpose and any other information required on the subject may be obtained from that Officer or the Local Government or Administration concerned as the case may be

Memorandum of Instructions as to Registration of Claims against enemy subjects and enemy Governments

The following instructions are issued for the guidance of persons who wish to register their claims against enemy subjects and enemy Governments with reference to the Press Communique dated the 27th April 1916 —

Claims against Enemy Subjects

1 The forms prescribed for the purpose of recording claims against enemy subjects are given in the annexed Schedule

2 *Registration Order G* should be used by persons or firms residing or carrying on business in India to make a return of—

(1) Debts owing to them by enemy persons or firms including unpaid dividends and uncashed coupons and unpresented bills accepted by and unpresented cheques drawn by enemy firms or persons

(2) Bank balances held for them by Bank situated in enemy territory

(3) Interest which has accrued on items recorded on Registration Order H

It should be noted that unpaid dividends and uncashed coupons and unpresented bills or cheques are debts and should be recorded on this form

3 *Registration Order H*" should be used for the purpose of making a return of property other than debts Bank balances and personal luggage— held by enemy persons or firms for persons or firms residing or carrying on business in India

This form should also be used to record claims against enemy Governments and Municipalities in respect of public securities of those Governments and Municipalities held by the persons making the return The enemy Government or Municipality is from this point of view the debtor and the fact that the paper or other documentary evidence of title is held in this country makes no difference

This form should not be used for making other claims against enemy Governments *e g* in respect of goods or property requisitioned sequestrated or destroyed by those Governments The procedure in regard to the registration of such claims is laid down in paras 6 13 *infra*

It is essential that the actual value of the property held and not merely its face value should be recorded and in estimating these values the following rules should be observed —

(*a*) In all cases where sales in the securities are now taking place or have taken place since the war began the prices realised at such sales should be taken as the basis of the valuation

(*b*) In other cases where no such sales have been made the value should be the value on the 1st August 1914 or on the latest date previous to the 1st August 1914 on which a price was recorded

(*c*) In cases where lands houses or leases are included in the return the value recorded should be the estimated capital value as on the 1st August 1914 less the estimated capital value of any charge on the same

4 *Registration Order I* should be used to make a return of personal luggage left behind in the enemy country by His Majesty's subjects when travelling home before or since the outbreak of war Great care should be taken to indicate whether the luggage was given into the charge of some one (*e g* a railway official or hotel keeper) or was detained against the will of the traveller

5 Returns in reference to occupied territory should be made on precisely the same forms as those referred to above except that they will be issued stamped with a rubber stamp with the words Occupied territory

Claims against Enemy Governments

6 Claims against enemy Governments in respect of public securities of those Governments should be recorded in Registration Order H as indicated in paragraph 3 *ante* As regards other claims against enemy Governments such as those in respect of property requisitioned sequestrated or destroyed by those Governments a statutory declaration verifying the claim should be sent The declaration must be in the form prescribed under section 7 of the Indian Oaths Act 1873

7 If the claimant was born within His Majesty's dominions the declaration should state the date and place of his birth If the claimant was born outside His Majesty's dominions but derives British nationality from his father or grandfather the declaration should state the date and place of birth of such father or grandfather

If the claimant is a naturalized subject of His Majesty the declaration should state the date of his naturalisation and his previous nationality

8 If the claimant is a Company incorporated under any law for the time being in force in any part of the British Empire the declaration should state the date of incorporation

If all the persons holding shares or otherwise interested in the Company are subjects of His Majesty the declaration should state that fact

If some of the persons holding shares or otherwise interested in the Company are aliens the declaration should state the nationality of those persons and the nature of their interest in the Company

9 Full particulars of the property in respect of which the claim is made should be set out in the declaration or in a schedule attached thereto

10 The declaration should state the value of the property and the amount of the claim

Where the value of the property can be proved by documentary evidence copies of those documents should be attached to the declaration

Where documentary evidence of the value of the property cannot be adduced the evidence of the claimant should so far as it is possible to do so be corroborated by that of other persons

11 The declaration should state the facts with regard to the requisitioning sequestration or destruction of the property so far as they are known to the claimant

If the claimant holds any receipts or other documentary evidence of the seizure of his property copies of such documents should be attached to the declaration

12 The declaration should also state that at the date when the property was requisitioned sequestrated or destroyed the claimant was the absolute owner thereof

13 If the claimant or any person on his behalf has received any payment in respect of the property particulars thereof should be set out in the declaration

General

14 In making these returns the term enemy should be understood to mean a person of whatever nationality residing or carrying on business in an enemy country and the expression enemy country should be taken to include territory for the time being in hostile occupation A British subject who resides or carries on business in enemy territory is therefore for the present purposes to be considered an enemy while a person of German Austrian Turkish or Bulgarian nationality residing in this country even though interned is not an enemy from this point of view

With regard to the date to be selected for the making of the return this should be the outbreak of the war that is to say midnight of 4th August 1914 for Germany and Austria Hungary 5th November 1914 for Turkey and 15th October 1915 for Bulgaria With regard to territory occupied by enemy forces the date should be the date of occupation as nearly as can be ascertained

15 It must be clearly understood that the action of the Custodian of Enemy Property or other officer appointed for the purpose will be confined to entering upon the record claims of which particulars are supplied to him and that it in no way commits His Majesty's Government either to responsibility for the correctness of the claim entered or to taking any action on the conclusion of hostilities or otherwise for the recovery of the debts or property in question But it is hardly necessary to state that it is in the interest of the creditors that the returns are asked for as giving important data for the safeguarding of that interest

No 277—The following rules relative to the nomination of Indian candidates for the Civil Service of India made by His Majesty's Secretary of State for India under the Indian Civil Service (Temporary Provisions) Act 1915 (5 and 6 George V Chapter 87) are published for general information —

Rules made by the Secretary of State for India in Council under Indian Civil Service (Temporary Provisions) Act, 1915 (5 & 6 George V, Chapter 87)

1 In 1916 the Secretary of State in Council will take into consideration the case of Indian candidates who competed for admission to the Indian Civil Service in the Open Competitive Examinations of 1915 and 1916 In each succeeding year during which the Indian Civil Service (Temporary Provisions) Act 1915 is in force the Secretary of State in Council will take into consideration the case of Indian candidates who competed for admission to the Indian Civil Service in the Open Competitive Examination of the year

2 If it be found that the number of Indians admitted as Selected Candidates for the Indian Civil Service on the results of the said examinations is less than the average number of Indians annually so admitted during the 10 years ending 1914 the Secretary of State in Council will make good the deficiency by nominating for admission to the Indian Civil Service one or more of the other Indian candidates whose names appear on the results list of the Civil Service Commission selecting the same in the order of their priority on the said list Provided that no candidate will be so nominated unless—

(1) The aggregate marks obtained by him in the Open Competitive Examination are such as in the opinion of the Civil Service Commissioners might in the decennial period above mentioned have secured for him admission to the Indian Civil Service and

(2) He is certified by the Civil Service Commissioners to have in other respects the qualifications which the Regulations for the Open Competitive Examination require of Selected Candidates for the Civil Service of India

3 If in any year there are not sufficient Indian candidates qualified as aforesaid to bring the number admitted to the Indian Civil Service in the year by open competition and by nomination under these rules up to the average of the 10 years ending 1914 the Secretary of State in Council may in a subsequent year make good the deficiency from the results list of that year but no candidate shall be appointed under these rules who does not possess the qualifications set forth in (1) and (2) of the last preceding rule

4 A candidate nominated under these rules shall be deemed to be a Selected Candidate for the Civil Service of India, and shall be subject to the regulations and rules made under section 32 of the Government of India Act 1858 and section 97 of the Government of India Act 1915, for the probation and training of Selected Candidates of the year

The 6th May 1916

No 2570 90 W —The following Order in Council is published for general information —

AT THE COUNCIL CHAMBER WHITEHALL

The 30th day of March 1916

By the Lords of His Majesty's Most Honourable Privy Council

WHEREAS it is provided by section 2 of the Customs (Exportation Prohibition) Act 1914 that any Proclamation or Order in Council made under section 8 of the Customs and Inland Revenue Act 1879 as amended by the Act now in recital may whilst a state of war exists be varied or added to by an Order made by the Lords of the Council on the recommendation of the Board of Trade

AND WHEREAS it is provided by section 2 of the Customs (Exportation Restriction) Act 1914 that any Proclamation made under section 1 of the Exportation of Arms Act 1900 may whether the Proclamation was made before or after the passing of the Act now in recital be varied or added to whilst a state of war exists by an Order made by the Lords of the Council on the recommendation of the Board of Trade

AND WHEREAS by a Proclamation dated the 28th day of July 1915 and made under section 8 of the Customs and Inland Revenue Act 1879 and section 1 of the Exportation of Arms Act 1900 and section 1 of the Customs (Exportation Prohibition) Act 1914 the exportation from the United Kingdom of certain articles to certain or all destinations was prohibited

AND WHEREAS by subsequent Orders of Council the said Proclamation was amended and added to in certain particulars

AND WHEREAS there was this day read at the Board a recommendation from the Board of Trade to the following effect —

That the Proclamation dated the 28th day of July 1915 as amended and added to by subsequent Orders of Council should be further amended by making the following amendments in and additions to the same —

(1) That the exportation of the following goods should be prohibited to all destinations —

Gum tragacanth
Silica bricks

(2) That the heading Silk Shantung in the piece in the list of goods the exportation of which is prohibited to all destinations should be deleted

(3) That the exportation of the following goods should be prohibited to all destinations abroad other than British Possessions and Protectorates —

Chemicals drugs etc —

Guaiacol and guaiacol carbonate
Senna leaves and pods

LONDON GAZETTE

No *471*—The following extracts are published for general information —

Third Supplement dated the 27th March 1916 to the London Gazette of the 24th March 1916 pages 3279 and 3280

War Office
24th March 1916

The following supplementary despatch has been received by the Secretary of State for War from General Sir Ian Hamilton G C B (The references are to the pages of the Supplement to the London Gazette dated 6th January 1916 No 29429) —

1 Hyde Park Gardens W ,
March 10th 1916

MY LORD —

I have the honour to submit herewith a supplement to my despatch of 11th December 1915 Your Lordship may remember that I was unable to set seriously to work upon this despatch until after my return home at the end of October 1915 and that when I did so I was hampered by my separation from my late General Headquarters

My main difficulty lay in the lack of properly authenticated facts relating to the actions and identities of some of the units which had borne the brunt of the fighting In the Suvla Bay area specially so many senior commanders had gone under in one way or another that it seemed as if the story must be left half told

But now since my despatch has been studied by many who were themselves engaged fresh light has been thrown upon several episodes hitherto obscure I have sifted the evidence and have satisfied myself that full justice has not been done to certain individuals and units I hope therefore these corrigenda and addenda may be permitted to appear

Page 289 Substitute 127th for 129th in line 10 from end of page

Page 292 Substitute the words First New Zealand Battery under Major McGilp for the words Second New Zealand Battery under Major Sykes

Page 296 Substitute the words 6th Royal Irish Rifles for the words 10th Hampshire Regiment

Page 300 Brigadier General Hill's 31st Brigade consisted of the 5th Royal Inniskilling Fusiliers the 6th Royal Inniskilling Fusiliers the 5th Royal Irish Fusiliers and the 6th Royal Irish Fusiliers plus the 6th Royal Dublin Fusiliers and the 7th Royal Dublin Fusiliers which were temporarily attached thereto Of these battalions the 5th Royal Inniskilling Fusiliers joined General Mahon and were therefore not present during the fighting at Chocolate Hill In addition to units already singled out for commendation the 5th Royal Irish Fusiliers and the 7th Royal Dublin Fusiliers deserve special mention for the energy and boldness which characterised their attack

Page 302 In the attack on Hill 70 on the 9th August the 6th Royal Irish Fusiliers and the 6th Royal Dublin Fusiliers of the 31st Brigade (both attached to the 32nd Brigade for this day's operations) rendered distinguished service

Page 306 The 9th Battalion Sherwood Foresters had constantly maintained stout hearts and a soldierly spirit in despite of the heavy losses they had suffered when carrying out their costly duty of closing the big gap between the left of the Anzac troops and Chocolate Hill from the 8th to 11th August On the 21st August this same Battalion together with the 6th Battalion Border Regiment displayed a vigorous initiative combined with very steady discipline during the attack on Ismail Oglu Tepe

Since the publication of my despatch of the 11th December the late Commanders of the 11th Division and 9th Corps have drawn my attention to the good work done by the following officers —

Brigadier General R P Maxwell commanding the 33rd Brigade He evinced coolness as well as energy throughout the heavy fighting of August and stuck to his duty afterwards until through sickness he was literally unable to stand

Brigadier General H Hagard commanding the 32nd Brigade He was severely wounded on the 7th of August but not before he had had time to give sure proof of leadership and daring

The following mentions of officers of the Staff of the 29th Brigade and of the 6th Royal Irish Rifles and 10th Hampshire Regiment have only lately come to hand The original documents seem to have gone entirely astray owing to successive casualties amongst the senior officers to whom they were addressed —

29TH BRIGADE

Staff

Captain A H McCleverty 2nd Lancashire Light Infantry Brigade Major

10th (Service) Battalion Hampshire Regiment

Major (temporary Lieutenant Colonel) W D Bewsher

KRISHNAGAR COLLEGE, *the 11th April 1916*

NOTICE

HOOGHLY COLLEGE

THE Hooghly College will re open on Thursday the 6th July 1916 after the Summer vacation

Affiliations—The College is affiliated in the subjects noted below :—

There is a likelihood of its being affiliated in Logic from the beginning of the ensuing session

(*a*) *B A Examination*—English Vernacular Composition History Mathematics (Pass and Honours) Sanskrit (Pass and Honours) Persian, Physics and Chemistry

(*b*) *B Sc Examination*—Physics Chemistry and Mathematics (Pass and Honours)

(*c*) *I A Examination*—English Vernacular Composition History, Sanskrit Persian Mathematics Physics and Chemistry

(*d*) *I Sc Examination*—English Vernacular Composition Chemistry, Physics and Mathematics

The following combinations of subjects are admissible —

Intermediate in Arts

English and Vernacular with—

1 Mathematics Logic and Physics
2 Mathematics Logic and Sanskrit or Persian
3 Mathematics Logic and Chemistry
4 History Logic and Sanskrit or Persian
5 Chemistry History and Sanskrit or Persian
6 Chemistry Logic and Sanskrit or Persian

Intermediate in Science

English and Vernacular with Mathematics Physics and Chemistry

B A (Pass and Honours)

All possible combinations of subjects are permitted

B Sc (Pass and Honours)

Physics Chemistry and Mathematics (Pass and Honours)

The monthly tuition fee is Rs 6 The annual fee for games is Re 1 4 and for the common room Re 1 The admission fee for new students is Rs 7 including Re 1 for the Athletic Club

There are two hostels attached to the College—one for Hindu and the other for Muhammadan students The hostels are situated close to the College and the river The health of the locality has greatly improved owing to the recent installation of the water works in Hooghly No seat rent is charged in either hostels The messing and establishment charges of the Hindu Hostel amount to about Rs 10 8 and those of the Muhammadan Hostel about Rs 7 8 per month

REPAIRS TO AND RENEWALS OF PARTS OF THE HOWRAH BRIDGE

No 1349Marine

GOVERNMENT OF BENGAL

MARINE DEPARTMENT

Dated Calcutta the 5th May 1916

RESOLUTION

READ—

Letter N 11182 dated th 25th February 1916 from th Vice Chairman Port Commissioners Calcutta

READ ALSO—

Government of Bengal Marine Department Resolution No 2151Marine Dated the 18th June 1914

A scheme for the construction of a new and improved bridge to replace the existing Howrah Bridge has been engaging the attention of Government

for some time past Tentative proposals for financing the scheme were formulated in the Resolution quoted above For various reasons arising out of the war the consideration of this scheme has been temporarily suspended

2 With the letter mentioned in the preamble, the Port Commissioners forwarded, for the consideration of Government, copies of certain important papers regarding the bridge These papers show that in view of the age of the present bridge (which has been in existence for nearly 42 years), the inevitable delay in the construction of a new bridge and the increasing traffic in heavy motor lorries the Port Commissioners caused the entire present structure to be carefully examined by their own Engineers This examination disclosed the fact that extensive repairs and renewals estimated to cost nearly two lakhs of rupees were urgently necessary in order to secure the safety of the existing bridge until such time as the new bridge may be constructed With the approval of this Government the Port Commissioners have already sanctioned these works the expenditure being chargeable to the Bridge Reserve Fund The acceptance of the tender of Messrs Jessop and Company of Calcutta for the construction of the steel work, etc has also been approved by Government It is hoped that the work will begin at an early date and will be pushed through with the least possible delay

3 The utilization of a large portion of the Reserve Fund of the Bridge has led to an examination of the whole financial position In the proposals for the construction of the new bridge it was contemplated that the Port Commissioners would be able to contribute a sum of six lakhs During recent years however the existing bridge has been working at a loss The available funds of the Port Commissioners have been reduced to Rs 2 83 000 If two lakhs are taken from this for the repairs which are urgently required, the balance will almost disappear Moreover, it is expected that in the year which has just begun the ordinary income will fall short of the ordinary expenditure by Rs 66 000 It has therefore become imperative to consider the question of increasing the income of the bridge

4 The present revenues of the bridge are derived from a terminal tax of 2 pies per maund on goods carried by the East Indian Railway This terminal tax is now levied at its legal maximum rate Edible grains and seeds coal salt and materials for the East Indian Railway are, however, exempted from the tax Several suggestions have been made for increasing the income of the bridge —

(1) Withdrawal of the existing exemptions in the terminal tax on goods

(2) All round increase in the rate of the terminal tax on goods

(3) Re imposition of the terminal tax of 3 pies per head on passengers travelling within a radius of 30 miles

The first of these alternatives could be secured without legislation The second would require legislation, for as already noted the rate now levied on goods is at the legal maximum The third alternative would require no legislation so far as the East Indian Railway is concerned, but legislation would be required if passengers on the Bengal Nagpur Railway are to be taxed

5 The Governor in Council recognizes that the methods indicated above are not exhaustive and in order to obtain the views of the different bodies and persons principally interested in the question, His Excellency in Council has decided to appoint a representative committee to consider and report on the best manner of improving the finances of the Howrah Bridge The enquiry by the committee will not be confined to a consideration of the alternatives suggested above The committee will examine the whole problem and the Governor in Council will welcome any proposals which will secure financial stability for the existing bridge and, if possible, a fund which will form a nucleus for the construction of the new bridge

The following gentlemen are appointed to constitute the committee —

1	The Chairman of the Port Commissioners Calcutta	*President*
2	The Agent of the East Indian Railway	*Members*
3	The Agent of the Bengal Nagpur Railway	
4	The President of the Bengal Chamber of Commerce	
5	The President of the Bengal National Chamber of Commerce	
6	The Master of the Calcutta Trades Association	
7	A representative elected by the Corporation of Calcutta	
8	A representative elected by the Municipality of Howrah	
9	The Chairman of the Calcutta Improvement Trust	
10	The Secretary to the Government of Bengal Financial Department	

The committee will sit as soon as convenient the date and place of the meeting being settled by the President in consultation with the members

ORDER —Ordered that a copy of the Resolution be forwarded to the President and members of the committee and to the Vice Chairman Port Commissioners, Calcutta, for information Ordered also that the Resolution be published in the *Calcutta Gazette* for general information

By order of the Governor in Council,

C P WALSH
Offg Secy to the Govt of Bengal

REPORT ON FAMINE AND SCARCITY IN THE DISTRICTS OF BANKURA AND TIPPERA FOR THE WEEK ENDING 29TH APRIL 1916

Bankura district —State of affairs and condition of people in affected areas are generally unchanged Relief measures are adequate People are freely resorting to works Loans are being freely advanced Private charitable funds giving assistance Scarcity of fodder continues Prices are rising The price of rice is 8½ seers per rupee The number of persons on relief works was 16 828 and in receipt of gratuitous relief 24 982 —total 41 810 The number of persons relieved on private works was 5 046

Tippera district —Conditions are improving in affected areas Weather is favourable for standing crops and weeding Public health is good Relief measures are adequate The price of rice is 7 seers per rupee The number of persons on test works was 1 676 and in receipt of gratuitous relief 4 672—total 6 348

DISTRICT REPORTS ON WEATHER AND CROPS

For the week ending on the 8th May 1916

Summary—During the week light scattered showers fell in certain districts of the Province. Ploughing and sowing of jute and autumn paddy continue but the operations are not progressing satisfactorily for want of sufficient rain especially in West Bengal. Sowings have nearly been finished in most of the Eastern Bengal districts. Weeding is in progress. The newly planted sugarcane and other standing crops are doing well. Stocks of food grains are reported to be insufficient in parts of the Kishorganj subdivision in Mymensingh. Scarcity of water is felt in parts of the Murshidabad and Midnapore districts and fodder is also wanting in the latter district. Cattle disease is reported from twelve districts. The average price of common rice for the Province has risen by a little over one per cent as compared with that of the preceding week.

No.	Name of station	Rainfall: Week ending 8th May 1916	Rainfall: Total since 1st January 1916	Rainfall: Total since 1st June 1915	Observations
		Inches			
1	24-PARGANAS	Nil	7 1/2	7 1/2	Weather hot. Rain is badly wanted for agricultural operations. Fodder and water sufficient. No large export or import is reported. Cattle disease is reported from thana Kulpi in the Diamond Harbour subdivision.

DEPARTMENT OF STATISTICS, INDIA
May 9 1916

G FINDLAY SHIRRAS
Director of Statistics

Statement showing the weekly gauge-readings on the river Buriganga at Dacca Waterworks for the week ending the 29th April 1916

Date	Time when recorded	Height of water above zero of gauge	Height of water above mean sea level	Height above zero of gauge on the same date last year	Remarks
23rd April 1916	At low tide	54 6	Not connected with mean sea level	52 5	Top of the settling tank is 88 00 feet above zero of gauge
24th	Ditto	4 1		52 6	
25th	Ditto	53 7		52 8	
26th	Ditto	53 5		53 0	
27th	Ditto	53 5		53 2	
28th	Ditto	53 6		53 3	
29th	Ditto	53 7		53 5	

Notable high and low water levels of previous years

27th August	1906	70 56	Taken at high tide
5th Sept	1909	67 86	Ditto
10th August	1910	69 86	Ditto
1st	1911	68 46	Ditto
31st	1912	67 16	Ditto
26th	1914	66 7	Ditto
31st	1915	69 7	Ditto
23rd Feb	1907	51 06	Taken at low tide
13th	1908	51 06	Ditto
12th March	1912	51 06	Ditto
6th	1914	50 6	Ditto
22nd Feb	1915	50 3	Ditto
15th	1916	50 6	Ditto

DACCA
The 2nd May 1916

A P SUR

Statement showing the weekly gauge-readings on the river Buriganga at Dacca Waterworks for the week ending the 6th May 1916

Date	Time	Height of water above zero of gauge	Height above mean sea level	Height above zero on the same date last year	Remarks
30th April 1916	At low tide	53 8	Not connected with mean sea level	53 8	Top of the settling tank is 88 00 feet above zero of gauge
1st May	Ditto	53 9		53 9	
2nd	Ditto	53 9		54 0	
3rd	Ditto	53 9		54 3	
4th	Ditto	54 0		54 0	
5th	Ditto	54 1		53 7	
6th	Ditto	54 1		53 4	

Notable high and low water levels of previous years

27th August	1906	70 56	Taken at high tide
5th September	1909	67 86	Ditto
10th August	1910	69 86	Ditto
1st	1911	68 46	Ditto
31st	1912	67 16	Ditto
26th	1914	66 7	Ditto
31st	1915	69 7	Ditto
23rd February	1907	51 06	Taken at low tide
13th	1908	51 06	Ditto
12th March	1912	51 06	Ditto
6th	1914	50 6	Ditto
22nd February	1915	50 3	Ditto
15th	1916	50 6	Ditto

DACCA
The 6th May 1916

A P SUR,
for *Executive Engineer, Dacca Divn*

Statement of weekly gauge-readings on the rivers Ganges and Brahmaputra at Goalundo for the week ending 6th May 1916.

Month and date	Hour	Height of surface above or below zero of gauge	Height of surface above mean sea level	Height of surface above mean sea level on same date last year	Remarks
30th Apl 1916	8 A M	8 2	8 2	8 5	Zero is placed at mean sea level
1st May		8 6	8 6	8 5	The bench mark for the gauge is on a pucca pillar between the Passenger ghat and Chaudpore ghat
2nd		8 8	8 8	8 4	
3rd		8 8	8 8	8 5	
4th		8 7	8 7	8 4	Its reduced level is 22 41
5th		8 6	8 6	8 4	
6th		8 8	8 8	8 2	

The previous year	Highest water level	25 3 on 28th August 1915
Ditto	Lowest	3 4 on 10th February 1915
Record (H F in Brahmaputra and Ganges)	Highest	25 75 on 28th August 1906
Record (average flood in Brahmaputra and Ganges)	Ditto	24 74 on 20th and 21st August 1893
Record (H F in Brahmaputra and Ganges)	Ditto	25 66 on 11th to 17th and 31st August 1889 and on 1st to 3rd September 1889
Record (H F in Brahmaputra only)	Ditto	26 66 on 31st July 1900
Record	Lowest	1 0 on 6th February 1914
Ditto	Ditto	2 42 on 13th March 1908
Ditto	Ditto	2 91 on 21st to 24th February 1884 and 8th to 9th March 1884
Ditto	Ditto	3 16 on 9th to 11th March 1885
Ditto	Ditto	3 16 on 16th 17th and 29th to 31st March 1901

N B—The gauge-reading commenced from 3rd October 1909

FARIDPUR
The 6th May 1916

ADYANATH BOSE,
Subdivisional Officer P W D Faridpur

Statement of weekly gauge-readings on the river Ganges at Rampur-Boalia for the week ending the 6th May 1916

Date	Hour	Height of surface above or below zero minus sign for those below zero	Height of surface above mean sea level	Height of surface above mean sea level on the same date last year	Remarks
30th Apl 1916	8 A M	Gauge figures marked are as reduced mean sea level	41 60	42 00	The top platform of the masonry gauge has a referring bench mark with reduced level 67 00 above mean sea level
1st May	8		41 50	41 95	
2nd	8		41 45	41 95	
3rd ,	8		41 40	41 90	
4th	8 ,		41 40	41 90	It is 40 feet west of Barakuthi Cemetery gate
5th	8		41 35	41 90	
6th ,	8		41 30	41 95	

The previous year	Highest water level	43 90 on 25th August 1912
Ditto	Lowest	42 40 on 18th April 1912
Record	Highest	69 25 on 26th August 1879
Do	Ditto	69 08 on 9th September 1885
Do	Ditto	68 30 on 25th August 1906
Do	Ditto	68 21 on 26th August 1890
Do	Lowest	37 63 on 25th April 1884
Do	Ditto	38 13 on 14th 15th April 1883
Do	Ditto	39 02 on 21st 22nd April 1897
Do	Ditto	39 28 on 6th 7th May 1908
Do	Ditto	38 90 on 15th May 1913

N B—The gauge readings commenced from 1st August 1887

REPORT OF THE COMMITTEE OF ENQUIRY ON PRESIDENCY COLLEGE.

GOVERNMENT OF BENGAL.

GENERAL DEPARTMENT

EDUCATION

CALCUTTA, THE 15TH MAY 1916

RESOLUTION—No 999 Edn

READ—

The report of the Committee appointed to enquire into the conditions of discipline in Presidency College Calcutta

A COMMITTEE, consisting of the Hon ble Justice Sir Ashutosh Mukharji KT CSI MA DL the Hon'ble Mr W W Hornell MA Director of Public Instruction Bengal Mr C W Peake Professor Presidency College, the Revd J Mitchell MA FRAS Principal, Wesleyan College Bankura and Mr Heramba Chandra Maitra MA Principal City College, was appointed by this Government in Resolution No 416 dated the 20th February 1916, and letter No 422 dated the 21st February 1916 to enquire into the general state of discipline at Presidency College Calcutta, with special reference to a strike which took place on the 10th January 1916 and to an attack upon Professor Oaten which occurred on the 15th February 1916 The report of the Committee has now been received by Government and is published for general information The Governor in Council desires to tender his thanks to the members of the Committee for their labours for the care with which they have made the enquiry entrusted to them and for their conclusions and recommendations which will receive all the consideration which is due to the authority with which they have been made

2 The Committee have described in detail the two incidents particularly referred to above and the antecedent circumstances which led up to them With regard to the strike which occurred in January they are of opinion that it is clearly established that some at any rate of the Students' Consultative Committee entirely failed in their duty and that so far from assisting the Principal, some members rendered the task of the Principal more difficult by deliberate misrepresentations of his attitude In respect of the assault on Mr Oaten, the Committee are impressed with the gravity of the offence committed by those who organised and carried it out and consider that they should be severely punished As to the light thrown by these incidents upon the general question of discipline in the college, the view taken is that it would be unjust to base on these two incidents alone a sweeping condemnation of the entire college, or to conclude that there had been any lack of strenuous and successful effort on the part of the Principal and the staff to maintain discipline in the institution " The Committee consider that, on the other hand, " the true reasons for the present condition of things must be sought for in other directions " They come finally to the conclusion, in which the Governor in Council concurs, that no further disciplinary action of a general nature is required, and that the Governing Body may be left to deal with any individuals who may have been concerned in

the assault on Professor Oaten, and also with those members of the Students' Consultative Committee who were implicated in the strike

3 The Committee have made a careful examination of the general state of discipline at Presidency College They find that recently there has been some ferment among the students as a body, due, in the main, to political causes, which has resulted in the spread among them of a spirit of insubordination and the existence of what is described as a spirit of excessive touchiness" The Committee note that there is a tendency among these young men to insist upon what they consider to be their rights without a full realisation of their accompanying responsibilities These unfortunate conditions are attributed in part to the activities of dangerous revolutionary propagandists, and to the baneful influence of injudicious discussion in the public Press of breaches of discipline They are also in the opinion of the Committee due in part to the irritation caused by the division of the members of the college staff between the Indian and the Provincial Educational Services, and to the want of free intercourse between the European professors and the students which has led on four specified occasions in the past four years to the exhibition of want of tact on the part of the teachers and to an undue sensitiveness on the part of their pupils The Governor in Council believes that the Committee have accurately summarized the disturbing influences which have been at work, and desires to express his general concurrence in their findings

4 The Committee then proceed to make 12 recommendations, each of which has been carefully considered by the Governor in Council In the first place he accepts the suggestion that the Governing Body of Presidency College should be reconstituted so as to make it more representative and bring it into closer touch both with Government and with the public Immediate action will be taken to give effect to this recommendation The Governor in Council further accepts the views expressed by the Committee as to the departmental system in the college and also with regard to the desirability of reconstituting the Consultative Committee of Students on a basis other than the system of election, which has clearly proved a failure These views will now be brought to the notice of the Principal and the Governing Body

5 In their fifth recommendation the Committee deal with the relations between members of the Indian Educational Service and of the Provincial Educational Service and suggest that members of the teaching staff should be appointed not to services but to posts on an incremental salary The whole question of the future constitution of the Indian Educational Service and the Provincial Educational Service was discussed very thoroughly before the Public Services Commission and now awaits the orders to be passed on its report It will be impossible therefore to take any further action in the matter, until the recommendations of the Commission have been dealt with The Governor in Council is in full sympathy with the views of the Committee that in order to promote intercourse and foster a better understanding between the European professors and the students the former should possess a competent knowledge of the vernacular and be encouraged to learn a classical Indian language The Committee s recommendation on this subject will be considered in consultation with the Director of Public Instruction and after reference to the existing rules governing language examinations The Committee further advise that the Principal should take an active part in the instruction of the students, and thus come into more direct contact with them Orders have already been received from the Government of India sanctioning the appointment of two professors of the college as Bursar and Dean respectively, and the Governor in Council hopes that in view of the relief which will thus be afforded to the Principal he may be able to carry out the recommendation made by the Committee Action will therefore be taken at an early date in furtherance of this proposal of the Committee The Governor in Council is not prepared to accept without some qualification the suggestion that professors of note should be transferred from other colleges to the staff of Presidency College He appreciates, however, the value of the recommendation that graduates of special distinction, with some experience in teaching, should alone be appointed to Presidency College and suitable action will be taken to give effect to it The proposals for structural

alterations designed to minimise the likelihood of disturbance in the corridors will be referred to the Principal for examination, in direct communication with the Superintending Engineer, with instructions to submit their joint proposals to the Governing Body before they are sent up to Government

6 The Committee refer in the following terms to the question of discussion in the Press of breaches of discipline in educational institutions —

'It is essential that a definite pronouncement should be made by Government as to the incalculable mischief likely to result from the injudicious discussion in the public Press of questions relating to breaches of discipline in educational institutions At the same time we recognise that the most effective remedy for the situation would be the creation of an *esprit de corps* which would render impossible the ventilation of grievances in the public Press The Governor in Council emphatically endorses these views to which he desires to draw the attention of all the editors of newspapers in Bengal He trusts that they will recognise the grave injury which may be caused to the student community by the public discussion of the grievances of youths who are still *in statu pupillari*

7 The question of the management of the Eden Hindu Hostel, with which the Committee deal in their eleventh recommendation will be taken up at once in consultation with the Principal and the Governing Body The Governor in Council will also take into consideration in communication with the Director of Public Instruction and the Vice Chancellor and Syndicate of the University the general recommendations made by the Committee on the subject of hostels

8 The Committee refer finally to the undesirable character of the present surroundings of Presidency College Proposals for the removal of the college to a more suitable situation were considered with much care and from all points of view some ten years back when it was deliberately decided to retain Presidency College on its present site and elaborate plans were prepared for its future expansion In accordance with these plans a considerable area of land has since been acquired and the Baker laboratories have been built at a large cost The Governor in Council will however, examine the papers connected with the previous proposals in the light of the present recommendations of the Committee

By order of the Governor in Council

L S S O'MALLEY
Secy to the Govt of Bengal

REPORT OF THE COMMITTEE APPOINTED TO ENQUIRE INTO THE GENERAL CONDITIONS OF DISCIPLINE IN PRESIDENCY COLLEGE

WE the Committee appointed to enquire into the general conditions of discipline at the Presidency College with special reference to the strike which occurred in January last and the recent attack upon Professor Oaten have the honour to submit our report and to make recommendations

The first of the two incidents mentioned took place on the 10th January last On that date prizes were distributed to the students of the Hindu and Hare Schools by His Excellency the Governor of Bengal Some of the professors of the Presidency College as also some of the students who were ex students of these schools were invited to the function The result was that some of the classes in the college were not held at the appointed hour There was besides one professor who was late and did not take his class in time Many of the students of the 3rd year class appear in these circumstances to have been present in one of the corridors contrary to the rule prescribed by the college authorities in this behalf The particular rule (which appears in a book of instructions supplied to each student) may be here set out in full —

To guard against disturbance to classes while lectures are going on it is a rule of the college that students must not enter the corridors outside the lecture rooms on the first and second storeys of the college building until the hour for the lectures they have to attend is struck No student therefore should be in the corridor between the sounding of the second gong for lectures and the next hour nor may students enter unoccupied lecture rooms except in accordance with the first part of this rule

Mr Oaten was at the time lecturing in one of the rooms adjoining the corridors and felt himself seriously disturbed by the noise outside he accordingly asked the students several times to go back to their class rooms They did so but later on in the course of the same hour the professor in charge of the class called the rolls and dismissed the students The boys then left the class room and came into the corridor again with the professor amongst them Mr Oaten was disturbed came out of his lecture room ordered the students back to their class rooms and pushed some of them The evidence also shows that he stopped the professor but the latter established his identity and was allowed to pass through It is neither necessary for our present purpose nor possible on the evidence to determine with accuracy the exact amount of force used by Mr Oaten, but the fact remains that the students whose bodies had been touched by Mr Oaten with an impulsive gesture as he says felt aggrieved and lodged a complaint with the Principal one of these students was Subhas Chandra Bose the representative of the class on the Students Consultative Committee Here it may be observed in passing that the rule in question does not appear to have been always strictly enforced by every professor of the college especially when classes were dismissed before the prescribed hour This is not a matter for surprise when we remember that as many as 80 lectures are delivered in the college in the course of a single day It should be noted besides that on both the occasions which have been brought to our notice the presence of student in the corridor was due to exceptional circumstances To continue the narrative, the Principal asked the students to see Mr Oaten and advised them to make up the difference with him This apparently dissatisfied them and the impression rapidly got abroad amongst them that Mr James lacked sympathy with them and was reluctant to listen to their complaint against Mr Oaten This as we shall presently see was entirely unfounded and the aggrieved students wholly misjudged the real attitude of Mr James towards them It now transpires that while on the one hand Mr James referred the students to Mr Oaten on the other hand he privately wrote to Mr Oaten and hinted that it would be the wise and gentlemanly thing to make it up with the students Mr Oaten has not preserved the original letter but this is the impression we gather from his statement as to its contents The next day Mr Oaten could not come to the college as he was on guard duty at Government House On that day no classes could be held as the students went on

strike It is plain from the evidence that the leading part in this discreditable strike was taken by a few students while of the large majority who kept away from the classes some did so on account of fear of personal violence and others owing to a lack of moral courage to face the ridicule of their fellow students Some of the professors both European and Indian intervened but not very successfully to bring the students round and induce them to attend their classes We desire to invite special attention here to the fact that in the organisation of this strike a very prominent part was taken by some at least of the Members of the Students Consultative Committee while some failed to assist their Principal to uphold law and order on the occasion of this trouble others actually spread an unfounded rumour that the Principal had no sympathy for them and thus helped in a large measure to foster discontent and to develop the strike In the course of the day a notice was posted by the Principal to the effect that a fine of Rs 5 would be imposed upon every student of the college who kept away from his class This order was issued in accordance with one of the college rules which may be quoted here *in extenso* —

> Whenever the students of a class are all found to be absent unless such absence can be shown to have been accidental and due to misunderstanding every student of the class will incur a fine of Rs 5 Should such absence be repeated a second time the facts will be laid before the Governing Body and such further punishment will be inflicted as the circumstances require

The next day Mr Oaten returned to the college He was interviewed by a select number of students and the matter was amicably settled The students admitted that there had been on their part a technical breach of rules while Mr Oaten expressed regret for what had happened Mr Oaten was enthusiastically cheered by the students when he left the college premises in the afternoon and everything seemed to have ended peacefully It now appears that after the strike was over Mr James called together all the European members of the staff and impressed upon them that they should not on any account touch the persons of students as experience had shown that this invariably led to serious trouble This demonstrates how utterly unfounded was the impression that Mr James lacked sympathy towards the students of the college On the day following the strike an untoward event however unexpectedly happened Mr Oaten had to lecture to some of his students in History When he went to his class he found that a dozen students were present of whom ten had been absent on the day previous He asked the students who had been absent to leave the class As Mr Oaten explained to the Committee he did so to mark his disapproval of the conduct of his own students who had failed to stand loyally by him These students thereupon withdrew from the class and complained to the Principal of the treatment they had received at the hands of their professor The Principal sent the complaint to Mr Oaten who replied in writing seeking to justify his action as a disciplinary measure Mr James has expressed the opinion before the Committee that the action taken by Mr Oaten was extremely injudicious and in that view we all concur The students of the college in general applied to the Principal on the same day to remit the fine which had been imposed on them The application was rejected by the Principal with the concurrence of the Governing Body and we have ample evidence that this refusal created considerable discontent among the students We are informed however that the fine was subsequently reduced to a nominal amount in the case of some poor students and partially remitted in the case of others who had attended classes on the second though not on the first day of the strike

We next come to the second incident which took place on the 15th February following On that day there was an accident in the Chemical Laboratory and the Professor of Chemistry was not able to take one of the classes The lecture was delivered by a substitute who dismissed the class five minutes before the appointed time The students passed out of the laboratory and proceeded along the corridor The evidence shows that they talked to each other and were possibly somewhat noisy Mr Oaten was very near the end of a lecture he was delivering in a room adjoining the corridor (The room and the corridor it may be added are different from those which formed the scene

of the first incident) He came out and remonstrated with one of the students As soon as he turned his back and was about to enter the room another student in the crowd, Kamala Bhusan Bose, called one of his fellow students Panchanan by name There is no reason to suppose that the boy did so with intent to create a disturbance or to annoy Mr Oaten Mr Oaten, however heard the boy call out in this way, came out of the room caught hold of him took him to the steward and had him fined Re 1 The boy asserts that he was caught by the neck and was called a rascal Mr Oaten on the other hand asserts that he took the boy by the arm and denies that he called him a rascal Whatever might have actually happened it is certain that the impression quickly got abroad that the boy had been rudely treated As a matter of fact the boy forthwith complained to Mr James that he had been caught by the neck and called a rascal Mr James thereupon directed the boy to make a written complaint and to see him later in the day It appears now that Mr James asked Mr Oaten to see him about the matter and to meet the boy in the Principal s room The boy appears to have drafted a petition forthwith and to have taken it home with the intention of showing it to his father this draft has been produced before us the fair copy was filed before the Principal on the day following Meanwhile about two hours after this incident and shortly before 3 o clock Mr Oaten went to the ground floor of the college premises to post a notice on the notice board He observed a number of students (his own estimate is from 10 to 15) who were assembled near the foot of the staircase They at once surrounded him threw him on the floor and brutally assaulted him Mr Gilchrist who was on the first floor heard a noise and rushed down to help Mr Oaten but the assailants disappeared before he could reach the spot We are not concerned with the question of identification of the actual assailants of Mr Oaten In fact that matter is under investigation by the Governing Body of the college they have we understand upon evidence taken by them expelled two of the students of the college on the ground that their complicity in the assault has been proved, and the enquiry has not yet been closed There can in our opinion be no question as to the gravity of the offence committed by the persons who organised and carried out the assault and whoever is shown to have been implicated in this disgraceful affair deserves severe punishment We are however concerned here with the strike and the assault only in connexion with the question of the general conditions of discipline at the Presidency College

These then are in outline the incidents with special reference to which we are called upon to consider the general conditions of discipline in the Presidency College and to formulate our conclusions Are we really forced to what, if true would be a disquieting conclusion namely that the general tone of the college is bad because although in ordinary circumstances everything works smoothly yet when a dispute occurred between a professor and the students, a considerable proportion of the students behaved as if they were undisciplined? Or is it the right view that there is no ground for anxiety as to the condition of the college because the two incidents mentioned however discreditable are due entirely to accidental circumstances and should be regarded only as unfortunate events of an exceptional and isolated character? We are not disposed to take an entirely optimistic view of the situation at the same time we feel convinced that it would be unjust to base on these two incidents alone a sweeping condemnation of the entire college or to conclude that there had been any lack of strenuous and successful effort on the part of the Principal and the staff to maintain discipline in the institution The true reasons for the present condition of things must we think, be sought for in other directions and to these we shall now proceed to refer

The evidence proves conclusively the presence in the college and the collegiate hostel of a number of turbulent youths whose capacity for mischief is by no means of a restricted character and who are evidently able to make their presence felt whenever there is an occasion calculated to excite the students to an outbreak against authority The circumstances to which the pernicious influence of this class of students may rightly be attributed are not far to seek, and as will presently appear they have been in a large measure beyond the control of even the most devoted and efficient Principal (1) In the first place, we hold it undeniable that during the last ten years there has been

ferment amongst students in general, due mainly to what may be called causes of a political character which need not be described here in detail This has led in many instances to a manifest spirit of insubordination and a reluctance to render unquestioning obedience to rules and orders promulgated by lawful authority (2) In the second place there is the baneful influence of obviously injudicious discussions in the public press whenever a case of breach of discipline arises in an educational institution The harm caused in this way is incalculable (3) In the third place we are bound to dwell upon the possibility of a disturbing influence of a very grave character No evidence is needed in proof of the undoubted fact that revolutionary propagandists have with considerable success carried on their work among students and have from time to time brought into their camp disaffected youths of even considerable ability To what precise extent the influence of that organisation may have affected the rank and file of Presidency College students it is impossible to determine on the evidence before us but it is significant that the hostel premises have been searched more than once in quite recent years, though on neither occasion was any incriminating article found We cannot ignore the fact that one student of the college has been prosecuted under the Indian Arms Act and that his conviction was upheld by the High Court We cannot also overlook the fact that action under the Defence of India Act has been taken by Government against more than one student of the institution Events like these in connexion with what is rightly deemed the premier college in this Presidency are undoubtedly calculated to cause serious anxiety amongst all persons truly interested in its welfare and reputation and the gravity of the situation is unquestionably no way reduced when we bear in mind the character of the assault on Mr Oaten It may be conceded that no assault would probably have taken place on the particular day but for what may be called the Kamala incident yet it would be idle to disguise the fact that the assault was not committed by a mob of angry students in the heat of the moment but was premeditated and carefully organised In these circumstances we are of opinion that special precautions should in future be exercised in the matter of the admission of students to the college that their conduct there should be carefully watched and that all suspicious characters should be promptly removed from the rolls by the Governing Body (4) In the fourth place the arrangement which divides the staff of the college into two services—the Indian Educational Service and the Provincial Educational Service—has generated in the mind of many an educated Indian a sense of real grievance which there is good reason to apprehend has been reflected upon the minds of students in general The Indian Educational Service as is well known is confined to those who were recruited by the Secretary of State in London and are mainly Europeans the Provincial Educational Service consists of all those irrespective of their qualifications who were appointed by the Local Government The feeling has thus become prevalent to a considerable extent that young European professors are unfairly allowed a preference over experienced Indian professors of equivalent attainments It is we think lamentable that this impression should continue to gain ground because the inevitable effect is that almost every European professor when he first enters upon the discharge of his duties starts at an obvious disadvantage and with a certain amount of prejudice against him he is regarded by the students as a member of an unjustly favoured class and this feeling is probably shared though it may never be expressed by some of the young professor's Indian colleagues (5) In the fifth place we cannot refrain from mentioning the harm done by the occasional use of tactless expressions by certain European professors in addressing students For instance evidence has been given before us to the effect that a professor of the college as Chairman of a meeting of students in the Eden Hindu Hostel once said in substance that as the mission of Alexander the Great was to hellenise the barbarian people with whom he came into contact the mission of the English here was to civilize the Indians The use of the term "barbarian" in this connexion in its literal Greek sense, *i e* non hellenic was misunderstood and engendered considerable bitterness of feeling It is also plain that although the true meaning was subsequently explained the explanation reached only a small proportion of those who had

heard the original version We also had evidence to the effect that a young European professor asked certain students in the Presidency College why they were howling like wild beasts, another asked on a different occasion why they were chattering like monkeys while a third is reported to have enquired of his students why they had behaved like coolies Only four such instances have been reported to us as having occurred in four years but reports of these have spread and have not been forgotten We are convinced that in none of these instances had the professor concerned any ill will towards the students or a desire to wound their feelings yet the deplorable fact remains that these unfortunate expressions have been interpreted as an index of ill will on the part of the professors towards their students or towards Indians in general We are equally convinced that if a healthier tone had prevailed generally among the students these expressions would probably not have been interpreted as they have been * But while we wish to emphasize the necessity for caution and tactfulness on the part of professors in their treatment of students we are inclined to the view that the danger of misunderstanding would be appreciably diminished by natural intercourse between European professors and their students such as is calculated to lead to a better mutual appreciation We realise however that the Presidency College is so located as to render practically impossible for the present at any rate such intercourse between the European professors (who are compelled to live far away from the college premises) and their students the large majority of whom are scattered all over the city (6) We may finally add that the evidence shows the existence of what may be called a spirit of excessive touchiness amongst students of the rising generation They have a very keen sense of what they call their rights but we have unfortunately not gained the impression that they are equally alive to their responsibilities This characteristic is in our opinion a matter for serious concern If a student has a grievance he can make his submission to his Principal but he must distinctly realise that the Principal's decision is final and has to be accepted loyally and cheerfully The position becomes intolerable when a student who fails to obtain from the authorities of his college what he deems to be just redress considers that he may take the law into his own hands and even call on his fellow students to go on strike Even a tacit acquiescence in so pernicious a doctrine must inevitably lead to defiance of law and order and speedily end in the annihilation not only of all academic but of all civilised communal life Whilst we recognise that every legitimate grievance should be enquired into students should be made clearly to understand that a frivolous complaint is in itself a breach of college discipline and will be treated accordingly

With these preliminary observations we proceed to state our recommendations —

(1) The Governing Body of the college should be reconstituted It should be of a more representative character than at present and should be brought into closer contact with Government on the one hand and the community on the other The Director of Public Instruction should obviously be a member of the Governing Body and its President *ex officio* The Principal should be an *ex officio* member and Secretary There should be four other members of the staff on the Governing Body two Europeans and two Indians all to be nominated by the Director of Public Instruction in consultation with the Principal Two representatives of the Indian community and one representative of the non official European community should also be invited to join the Governing Body there should be no difficulty in the selection of such representative men as have worked amongst Indian students and are familiar with the conditions of student life in Calcutta and one of them may very well be appointed Vice President of the Governing Body

The College Council which consists entirely of professors and lecturers should as hitherto continue as an Advisory Body which would be consulted by the Principal whenever he desired

* Mr Maitra does not share the view indicated in this sentence

(2) The Consultative Committee of students has we understand been disbanded If the Principal desires to reconstitute the Committee in future he should himself nominate the members on the recommendation of the professors The system of election which owed its origin to the natural wish of the Principal to secure a Committee whose views would represent as closely as possible those of the general body of students has proved a failure as it has brought on the Committee students of what may be called the demagogue type who are not necessarily the most desirable members from an intellectual and moral standpoint

(3) The evidence taken by the Committee clearly shows that some at any rate of the members of the Students Consultative Committee entirely failed in their duty on the occasion of the strike in January They had been elected as representative students and occupied a position of some trust and responsibility yet they neglected to assist the Principal in his endeavour to deal effectively with the strike There is also good reason to hold that some of the members deliberately misrepresented the attitude of the Principal at that time and thereby rendered more difficult the settlement of the strike One of the members has already been expelled by the Governing Body on account of his conduct in connexion with the assault on Mr Oaten but the action of the members during the strike does not appear to have been yet investigated The Governing Body should now fully investigate the conduct of each member of the Consultative Committee at the time of the strike and should take strong action against any members who are found to have been implicated

(4) The departmental system which has been introduced in the college should be retained but we strongly advise that a member of a department should not be chosen as its head merely because he is a member of the Indian Educational Service The professors and lecturers who form the members of a department it should also be generally understood stand in the relation of colleagues to each other and any point of difference that may arise between them should be referred to the Principal for his ultimate decision

(5) There is a potentiality for grave dissatisfaction in the relations between members of the Indian Educational Service and the Provincial Educational Service The members of the teaching staff should consequently be appointed not to services but to posts on an incremental salary and this is also the soundest course to follow from an educational point of view If effect were given to this recommendation much of the discontent which now prevails in the Provincial Educational Service would disappear A healthier tone of comradeship would prevail amongst all the members of the professorial staff and this could not but produce a beneficial effect upon the students as well

(6) European professors more especially the professors of Arts subjects should possess a competent knowledge of the vernacular and if their tastes are literary should receive every encouragement to acquire some knowledge of an Indian classical language Such knowledge of the vernacular is likely to foster better understanding between teachers and students As it is difficult for a professor to learn a language in addition to the due performance of his professorial duties facilities should be given to educational officers appointed in England to obtain a scientific grounding at home and their duties when they first join should be so arranged as to give them opportunities for acquiring a sound working knowledge of the vernacular

(7) The Principal should take an active part in the work of instruction of the students and thus come into direct contact with them A Principal who is constrained to occupy mainly the position of an administrator can hardly be expected to exercise a permanent and effective influence upon the students, as he would unquestionably do if he had the opportunity by direct teaching to impress upon them a full recognition of his high intellectual attainments In order that the Principal may be able to deliver lectures he should we think be relieved of routine duties as far as possible which may be delegated to a professor who would hold a position similar to that of the Dean of an English college We understand that a scheme has already been drawn up by the Governing Body of the college with a view to give effect to the suggestion we now make and we trust it will receive early consideration

(8) We consider that the Indian members of the staff of a college of the standing of Presidency College should be graduates of special distinction and usually with some experience in teaching work even though this may occasionally involve transfers of professors from other colleges Scholars of this stamp alone are likely to be able to command readily the respect of their students and to maintain a position of equality as professors in the company of their European colleagues

(9) The question of possible structural alterations in the building should be investigated and every effort made (by the erection of additional staircases or other devices of a like nature) to minimise the likelihood of disturbance in the corridors

(10) It is essential that a definite pronouncement should be made by Government as to the incalculable mischief likely to result from the injudicious discussion in the public press of questions relating to breaches of discipline in educational institutions At the same time we recognise that the most effective remedy for the situation would be the creation of an *esprit de corps* which would render impossible the ventilation of grievances in the public press

(11) The question of a thorough reorganisation of the Eden Hindu Hostel should be immediately taken up for consideration It is obviously an unsatisfactory arrangement to leave 250 students under one Superintendent for however efficient and devoted he may be he cannot possibly exercise any real control over his wards The arrangements contemplated for the provision of residential quarters for the Principal and some European members of the staff in the immediate neighbourhood of the hostel should be expedited In addition to this arrangements should be made for the accommodation in the hostel of some Indian members of the staff We regard these recommendations as of such vital importance that we press for the immediate assignment of the necessary funds in spite of the present financial position This so far as we can judge is the only means at present feasible so as to enable the residents of the hostel to have the benefit of social intercourse with the members of the college staff We observe that the hostel is divided into five wards each under a professor as a Warden These professors should be encouraged to visit the hostel at intervals and at such hours of the day, as to make it possible for them to have friendly intercourse with the students under their charge We desire finally to sound an emphatic note of warning in reference to the building of hostels in the future The evidence has convinced us that a large hostel with inadequate supervision is a source of grave danger to a college, and we strongly advocate that no hostel should accommodate more than 40 or 50 students in charge of a resident Superintendent, preferably a member of the college staff

(12) While we have made the above recommendations for the construction of certain additional residential quarters in the neighbourhood of the present hostel, and while we consider that this provision is essential so long as the college continues in its present position yet we desire to place it on record as our emphatic opinion that the situation of the college is most distinctly unsuitable on account of its surroundings both from the point of view of the congested character of the neighbourhood and the impossibility of adequate expansion in the future even at an enormous cost The problem of the creation of a University town and the removal of the college to a more healthy and commodious site in the immediate neighbourhood of Calcutta and within easy reach of the Indian community whose boys receive instruction in the institution is by no means impossible of solution The question is one of grave importance, and we feel convinced that unless it is approached and solved in a generous and statesmanlike spirit there is no real hope for radical improvement it is imperative that the large majority of the students—in fact all who do not reside with their parents or natural guardians —should be removed from unhealthy influences and every possible facility should be given for a free social intercourse between the students and the members of the staff both European and Indian

We understand that with a view to indicate their unqualified disapproval of the lamentable events which have happened in the college during the last two months the Government of Bengal have directed that the college should be deemed closed for the remainder of the current academical session subject to the reservation that the annual examination of the 1st and 3rd year students will be held in due course on such dates as may be specified by the Principal and that the students in the M A and M Sc classes will be sent up for their respective examinations on the dates prescribed by the University authorities In view of the action so taken by the Government which will have operated as a punishment upon all the students of the college we are of opinion that no further disciplinary action need be taken in respect of the college as a whole though individual delinquents implicated in the strike and the assault on Mr Orten should be suitably dealt with by the Governing body
